A Life for the Spirit - Henry Barnes 1997-07

"Whether or not Steiner's insights are valid is for each of us to determine. His work is not easy, and he challenges our usual thinking every step of the way. The insights are radical, in the original meaning of that word: they go to the roots. We are forced more and more to realize that only through such thinking can actions arise that are truly healing and constructive." --Henry Barnes (from the introduction) Few people today recognize Rudolf Steiner's name, yet those who are aware of him know that his presence pervades every forward-looking aspect of contemporary life. Nearly all fields of life have been fructified by his insights--not abstractly or theoretically, but in a concrete way that changes lives. No wonder, then, that Steiner has been called "the best kept secret of the twentieth century." Born in 1861 in Kraljvec, Austria, Steiner showed evidence early on of the most varied gifts--a precise and probing scientific mind combined with a natural clairvoyant ability to see into the spiritual world, a determined need to think things through for himself, and a profound reverence for the divine. He first made his mark as a philosopher and the editor of

Goethe's scientific writings. He also recognized the revolutionary spirit in Nietzsche. But Steiner's destiny led him in a different direction. Profound cognitive experiences determined that his task would lie in service to the spirit. While recognizing the integrity of modern science's phenomenological empiricism, he also knew that the time had come to extend the field of science to include investigation of the supersensible. Working at first within the Theosophical Society, but always speaking and writing out of his own experience, Steiner developed the foundations for a thoroughly modern spiritual-scientific discipline that would transform spiritual and cultural life. Until his death in 1925, in countless lectures and books, Steiner created the body of knowledge and practice known as "anthroposophy," which not only challenged and extended the underlying methods of modern knowledge, but stimulated many practical cultural initiatives such as: Waldorf education, biodynamic agriculture, the art of eurythmy, the movement for a threefold social order, and anthroposophical medicine. Henry Barnes--the author of *Into the Heart's Land: A Century of Rudolf Steiner's Work in North America*--recounts the dynamic life of this remarkable man. He does so by placing Steiner in the crosscurrents of history and showing him not as a spectator or ivory-tower philosopher, but as a leading actor in the drama, one whose entire being was given in service to humanity and to the spirit. The Pearl and the Hut Volume II - Yiana Belkalopolos

The Pearl and the Hut, Volume II explores understandings and higher perceptions around the psychological developments and heart challenges of adult child of divorce. The soul-spiritual insights in Rudolf Steiner's human consciousness philosophy, Anthroposophy, renew a person's humanness in the face of massive and necessary world changes. From the soul-psyche orientations of the twenty-one-year-old and the Sentient Soul period of life, to the fifty-six-year-old living into the Spirit Self nature, adult children of divorce see ways to navigate complex development stages without bypassing important relationships, feelings, thoughts and deeds. Biographies, verses, stories and a selection of life-enhancing practices encourage a person's heart-warm inner nature and will-strength to manage on-going conflicts, overcome neglect, and create the humane soul family that "Pearls" need. A simple Platonic Solids thinking practice highlights a powerful self-awareness device for "Pearls" to keep their life-forces whole, pull themselves inwardly together in times of emotional and mental overwhelm, and stay grounded during shifting and confusing events. Striving past survival personality, they can cultivate the truly human rights of loving self-acceptance and compassionate togetherness with others.

Karmic Relationships - Rudolf Steiner
2002-04-23

During 1924, before his last address in September, Rudolf Steiner gave over eighty lectures on the subject of karma to members of the Anthroposophical Society. These deeply

esoteric lectures examine the underlying laws inherent in reincarnation and karma, and explore in detail the incarnations of specific historical figures. For Steiner, this study is of the utmost importance. In this volume, Steiner discusses the karmic relationships within the anthroposophical movement, including the predispositions which lead souls to anthroposophy, the two streams within the movement, plus Rosicrucianism, Arabism, Aristotelianism, the Platonists and the School of Michael.

A Western Approach to Reincarnation and Karma - Rudolf Steiner 1997

The soul's immortality and its repeated earthly births are not new ideas in Western thought. They are implicit in the Pythagorean and Platonic traditions, as well as in some branches of esoteric Judaism and Cabbala. But it was not until the early years of this century that the West was given a detailed, modern, evolutionary philosophy of human life based on the reality of reincarnation and karma. This turning point occurred when Rudolf Steiner began to make public the results of his spiritual scientific researches. He viewed the revelation of reincarnation and karma as one of his most important life tasks. Steiner's contribution, however, remains unique in its understanding of the human being as an evolving, developing being of body, soul, and spirit. On the basis of his researches--presented in numerous books and lectures--we begin to understand how the complex interaction of human lives between birth and death and between death and a new birth gives new meaning not only to individual lives lived on Earth in community with others, but also to human history and evolution and to earthly and cosmic events. This book collects many of Steiner's major statements on reincarnation and karma. The primary purpose of this volume is to help readers meet the challenge of spiritual research in the area of individual evolution of the soul and spirit in the context of cultural and universal evolution. Such a study can be tremendously revealing and provide spiritual understanding in a time of increasing intellectual confusion and spiritual poverty. The notion of reincarnation and karma

is generally associated in most minds with spiritual traditions of the East, especially Hinduism and Buddhism. Ren Querido's in-depth, sixty-page introduction, however, places these concepts within the context of Western spiritual development and esoteric tradition, showing us a panoramic view of how such ideas have developed over the centuries in the West. Contents: Introduction by Ren Querido: 1 Our Present Dilemma 2 Historical Survey of Reincarnation and Karma 3 Rudolf Steiner's Original Contributions The lectures: 1 Natural and Chance Illnesses in the Human Being 2 Elemental Events, Volcanic Eruptions, Earthquakes & Epidemics in Relation to Karma 3 Death and Rebirth in Relation to Karma 4 Knowledge of Reincarnation and Karma 5 Examples of Karma Working between Two Incarnations 6 Vital Questions in the Light of Reincarnation and Karma 7 The Formation of Karmic Forces 8 Reincarnation of the Spirit and Destiny

Karmic Relationships: Volume 1 - Rudolf Steiner
2013-11-06

During 1924, before his last address in September, Rudolf Steiner gave over eighty lectures on the subject of karma to members of the Anthroposophical Society. These profoundly esoteric lectures examine the underlying laws of reincarnation and karma, and explore in detail the incarnations of certain named historical figures. In Rudolf Steiner's words, the study of karma is 'a matter of penetrating into the most profound mysteries of existence, for within the sphere of karma and the course it takes lie those processes which are the basis of the other phenomena of world-existence?' In this fundamental first volume - and essential basis for study of the later volumes - Rudolf Steiner gives an overview of the laws and conditions of karma, and goes on to consider the incarnations of Friedrich Nietzsche, Lord Bacon of Verulam, Lord Byron and many others.

Speaking to the Stars - Jonathan Hilton
2023-04-05

A New Star Wisdom developed by Willi Sucher from the insights of Rudolf Steiner "...the great paradox is that the loss of direct spiritual perception of the gods was necessary in evolution so that human beings could fulfill their great task in world evolution. According to

Rudolf Steiner, this task is that we become beings of freedom and of the love that is born out of that freedom. This means that the experience of separation from the divine, unique to humanity among all beings, has the possibility, not the predetermination, to establish something new in the cosmos: a rank of beings who freely choose to participate with the divine plan out of the love born from that freedom." (from the book) Based on the author's comprehensive video course on star wisdom (astrosophy), this book presents a thorough introduction to star wisdom as inaugurated by the spiritual philosopher Rudolf Steiner and the pioneer of astrosophy Willi Sucher, whose work and methods Jonathan Hilton has studied, practiced, and developed for many years. Beginning with the basics, Hilton takes the reader through an introductory course on astrosophy--from understanding and working with the zodiac and planetary spheres to actual chart construction and to the spiritual significance and deeper meaning behind practical astrosophy and its potential for one's own inner development. In the process, he also brings a historical perspective and carefully draws important distinctions between today's popular astrology and the esoteric basis for an approach to star wisdom as viewed and developed through spiritual science. Also included in this course on astrosophy are numerous statements from the works of Rudolf Steiner on our human relationship to the stars, zodiac, and cosmos. This is an essential guide for anyone who wants to begin a study of this discipline and spiritual path through the stars. Liberally illustrated with more than seventy color and black-and-white images.

KARMIC RELATIONSHIPS VOLUME 2 - Rudolf Steiner
2015-09-07

During 1924, before his last address in September, Rudolf Steiner gave over eighty lectures on the subject of karma to members of the Anthroposophical Society. These profoundly esoteric lectures examine the underlying laws of reincarnation and karma, and explore in detail the incarnations of certain named historical figures. In Rudolf Steiner's words, the study of karma is '...a matter of penetrating into the most profound mysteries of existence, for within the sphere of karma and the course it takes lie those

processes which are the basis of the other phenomena of world-existence...' In this second volume of the series, Rudolf Steiner considers individual karmic relationships in history - for example Marx and Engels - as well as surveying karma in human life, the shaping of karma after death, and the "cosmic form" of karma.

Between Earth and Heaven - Dawn Langman 2021-11-10

In this third volume in The Actor of the Future series, Dawn Langman continues to explore the integration of Steiner's research into speech, drama and eurythmy with Michael Chekhov's acting methodology. Her advanced applications of all the basic processes allow the art of the actor and speaker to evolve beyond the 'soul and body' paradigm - still broadly accepted in contemporary culture - to include dimensions of the spirit. The book contains a seminal analysis of comedy and tragedy, showing how an understanding of their esoteric roots - sprung from the Eleusis mysteries of ancient Greece - deepen our appreciation and our ability to implement the practical suggestions made by Steiner and Chekhov to differentiate the fundamental styles. A comprehensive exploration of the vowels in relation to planetary beings lays the foundation for many layers of artistic deepening and application. 'Dawn Langman gifts us with yet another magnificent contribution to her book series developing an integrated acting technique based on the indications of Rudolf Steiner and Michael Chekhov, in which actors become the work of art. Venturing even further into the deeper alchemical mysteries of the work, Langman leads us into an imagination of future theatre that includes a genuine experience of the I AM, the origin of comedy and tragedy, Dante's Paradiso as example of how we can experience the planetary spheres in word and gesture, and much more, inspiring the unfoldment of actors of the future.' - Dr Jane Gilmer, actress and teacher, author of The Alchemical Actor (2021) and former Assistant Professor of Drama, VPA, National Institute of Education, Singapore 'In this present volume, Dawn Langman continues her in-depth exploration of the integration of Michael Chekhov's system of psycho-physical awareness with Rudolf Steiner's indications for creative speech and eurythmy. In so doing, she genuinely

models both teachers' emphasis on experimentation and exploration absent the dogmatism sometimes associated with such work. The careful, conscious communication of her own advanced exercises created to develop this new methodology will be most effective when worked in conjunction with her previous books, The Art of Acting, The Art of Speech and The Actor of the Future, Vols. 1 & 2. Taken as a whole, Langman reveals the degree of empathy and responsiveness possible not only between human beings, but with all the manifold community of beings "between earth and heaven."' - Dr Diane Carracciolo, Associate Professor of Educational Theatre, Adelphi University, USA

Astrological Revolution - Powell, Robert 2010-11

Like the prostrate pilgrim on the front cover—with his head protruding through the vault of heaven to discern the working of the cosmos—humanity has for many centuries employed astrology to penetrate the mystery of the stars' relationship to human destiny. Based on decades of research into both astrological reincarnation and the history of astronomy/astrology, The Astrological Revolution unfolds this mystery. The reader is invited to call into question the basis of modern astrology. This basis, the tropical zodiac, emerged through Greek astronomers from what was originally a calendar dividing the year into twelve solar months. The fact that ninety-eight percent of Western astrologers use the tropical zodiac means that contemporary Western astrology is based on a calendar system that does not reflect the actual location of the planets against the background of the starry heavens. In other words, most astrologers in the West are practicing a form of astrology that no longer embodies the reality of the stars. What is needed to bring astrology (which means the "science of the stars") back into alignment with the stars in the heavens? The first step in an astrological revolution that leads to true astrology is to recognize the sidereal zodiac (sidereal meaning "related to the stars"). In antiquity, the Babylonians, Egyptians, Greeks, Romans, and

Hindus used the sidereal zodiac, and today Hindu (Vedic) astrologers still use the sidereal zodiac. Based on recognition—through the newly discovered rules of astrological reincarnation, that the sidereal zodiac presents an authentic astrological zodiac—a new practice of astrology is possible that offers tools to reestablish a wisdom-filled astrology in the modern world. This new astrology, based on the sidereal zodiac, is similar to the classic sidereal form but in a modern form, as that practiced by the three magi, who—prompted by the stars—journeyed to Bethlehem two thousand years ago. Drawing on specific biographical examples, *The Astrological Revolution* reveals new understandings of how the starry heavens work into human destiny. For instance, the book demonstrates the newly discovered rules of astrological reincarnation through the previous incarnations of composer Franz Schubert and his patron Joseph von Spaun—respectively, the Sultan of Morocco, Abu Yusuf Ya'qub, and his erstwhile enemy, Alfonso X, the Castilian King known as "El Sabio" (the Learned), along with their sidereal horoscopes. Rudolf Steiner's biography is also considered in relation to the sidereal zodiac and the rules of astrological reincarnation. After reestablishing the sidereal zodiac as a basis for astrology that penetrates the mystery of the stars' relationship to human destiny, the reader is invited to discover the astrological significance of the totality of the vast sphere of stars surrounding the Earth. *The Astrological Revolution* points to the astrological significance of the entire celestial sphere, including all the stars and constellations beyond the twelve zodiacal signs. This discovery is revealed by studying the megastars, the most luminous stars of our galaxy, illustrating how megastars show up in an extraordinary way in Christ's healing miracles by aligning with the Sun at the time of those miraculous events. *The Astrological Revolution* thus offers a spiritual—yet scientific—path of building a new relationship to the stars.

KARMIC RELATIONSHIPS VOL. VIII - Rudolf Steiner 2015-03-04

During 1924, before his last address in September, Rudolf Steiner gave over eighty lectures on the subject of karma to members of the Anthroposophical Society. These profoundly esoteric commentaries examine the underlying

laws of reincarnation and karma, and explore in detail the incarnations of specific historical figures. In Rudolf Steiner's words, the study of karma is '... a matter of penetrating into the most profound mysteries of existence, for within the sphere of karma and the course it takes lie those processes which are the basis of the other phenomena of world existence...' In this eighth and final volume of the series, Rudolf Steiner offers insights on a variety of subjects, including Cosmic Christianity, the Michael impulse, the Arthur and Grail streams of wisdom, as well as the individualities of Gregory VII, Haeckel, Swedenborg, Loyola, Haroun al Raschid, Byron, Voltaire and others.

Journal for Star Wisdom 2013 - David Bowden 2012-11

Journal for Star Wisdom 2013 includes articles of interest concerning star wisdom (Astrosophy), as well as a guide to the correspondences between stellar configurations during the life of Christ and those of today. This guide comprises a complete sidereal ephemeris and aspectarian, geocentric and heliocentric, for each day throughout the year. Published yearly, new editions are available beginning in November for the coming new year. According to Rudolf Steiner, every step taken by Christ during his ministry between the baptism in the Jordan and the resurrection was in harmony with—and an expression of—the cosmos. *Journal for Star Wisdom* is concerned with these heavenly correspondences during the life of Christ. It is intended to help provide a foundation for cosmic Christianity, the cosmic dimension of Christianity. It is this dimension that has been missing from Christianity in its two-thousand-year history. Readers can begin on this path by contemplating the movements of the Sun, Moon, and planets against the background of the zodiacal constellations (sidereal signs) today in relation to corresponding stellar events during the life of Christ. In this way, the possibility is opened for attuning, in a living way, to the life of Christ in the etheric cosmos. In this year's journal there is an article by David Bowden and Robert Powell on the new science of Astrogeographia concerning the location of the seven planetary chakras of the Earth. David Tresemer's article examines the significance of Neptune in world events, and William Bento

offers important perspectives on the dark shadows of Neptune. There is also an article by Wain Farrants and Robert Powell continuing the discussion of the house systems in astrology begun by Brian Gray in the 2012 issue. Kevin Dann focuses on the 33-1/3 -year rhythm, and Lacquanna Paul has written about Divine Sophia in relation to the zodiac. Brian Gray contributed an article on his discovery of the zodiac in the Raphael Madonna series as arranged by Rudolf Steiner. The monthly commentaries for 2013 by Claudia McLaren Lainson are preceded by her article on the Jupiter-Pluto opposition in 2013. The commentaries are supported by monthly astronomical previews provided by Sally Nurney, offering opportunities to physically observe and experience the stellar configurations during 2013. This direct interaction between the human being on Earth and the heavenly beings of the stars develops the capacity to receive their wisdom-filled teachings.

Islam in Relation to the Christ Impulse -
Andrei Younis 2015-06-01

Islam came into being around AD 600 as a monotheistic, Abrahamic religion revealed through the Prophet Muhammad. Awareness of Islam in the West has grown dramatically in the twenty-first century, but there remains much misunderstanding of the interrelationship between Islam and Christianity, both their commonalities and differences. Andrei Younis elucidates esoteric reasons behind the emergence of Islam from the perspective of Steiner's Spiritual Science. He draws on more than thirty years of studying Steiner's works, as well as on first-hand knowledge gained from living in various Islamic countries and cultures. His purpose is to reconcile the origins, beliefs, and meanings of Islam and Christianity. Looking closely at the history and various manifestations of Islam, Younis discusses the spiritual impulses behind Islamic beliefs and practices, grounding his commentary in both the Koran and the Bible. Comprehending this anthroposophic perspective on the emergence of Islam is key to understanding why Islam manifests as it does today. Whereas this book will be enlightening and even surprising to most open-minded Western readers, it is not meant to be a foundation for beliefs (or non-belief), but as a springboard for thought and new avenues of

understanding and compassion in a dangerous time.

Karmic Relationships - Rudolf Steiner 1971
At the end of his life, Rudolf Steiner took up the task that was his special destiny: to bring to the West a knowledge of reincarnation and karma. To do this, he gave over eighty lectures in 1924 in which he explicitly and concretely revealed the destinies of various individuals from one life to the next in order to show how the general laws of karma operate in individual cases. He also revealed many details of the karmic streams of the members of the Anthroposophical Society. These volumes constitute an immeasurable contribution to the understanding of reincarnation and karma, and the tasks of the Anthroposophical Society in connection with the Archangel Michael.

The Fall of the Spirits of Darkness - Rudolf Steiner 1993

Speaking at a time of intense war in Europe, Rudolf Steiner reveals the spiritual roots of the crises of our times and the means by which we can overcome them. Since 1879, Steiner tells us that "backward" angels, or "spirits of darkness"--who were forced out of the heavens and made their abode on Earth following their defeat in a forty-year battle with the Archangel Michael--have influenced human minds. It is now possible for human beings to awaken more consciously to the truth of these profound changes and thus inwardly counter the fallen spirits' influences. We can come to the realization that definite spiritual causes lie behind earthly events in our rapidly changing times. In these fourteen lectures, given at the end of 1917 following four years of war in Europe, Steiner speaks on the complex spiritual forces behind the World War I, humanity's attempts to build theoretically perfect social orders, and the many divisions and disruptions that would continue on Earth into our own time. Humanity in general was asleep to the fact that fallen spirits, cast from the spiritual worlds, had become intensely active on Earth. This manifested mainly in human thinking and perception of the surrounding world. However, the defeat and fall of these spirits also ensured that a science of the spirit would always be available to humanity.

Time of Decision with Rudolf Steiner -
Friedrich Hiebel 1989-12

This fascinating recollection of the early days of the Anthroposophical Society offers a unique perspective on Rudolf Steiner's work and his relationship to his students. Of particular interest to our readers will be the chapters on the Christmas Conference of 1923 for the foundation of the Anthroposophical Society. Hiebel attended the meeting, and his lively descriptions and warm style let those solemn events rise up again in our souls. He recreates the solemn, sacred mood of the laying of the Foundation Stone, and provides insights into the structure and meaning of the Foundation Stone verses.

Spiritual Science in the Third Millennium -

Pietro Archiati 2015-04-21

Can there be such a thing as spiritual science today? Should faith and spirit remain as purely

private concerns - or, as traditionally, preserves of the Church? When Rudolf Steiner founded anthroposophy in the early twentieth century, his intention was to create a fundamentally scientific approach to the spirit. His basic works detail methods for developing spiritual consciousness, allowing the individual to replicate the results of his research. This key aspect distinguishes anthroposophy from the wealth of spiritual teachings, sects, cults and religions within the modern cultural milieu. But did Steiner fail in his endeavour to build a scientific path to spiritual knowledge? Is anthroposophy just another 'theory' based on intellectual thought, to be analysed and dismissed? Up to now, academia has largely ignored Rudolf Steiner's work. In 2013, however, the first volume of a new series - a critical edition of Rudolf Steiner's writings, edited by a professor of the largest religious university in the USA - was published by a respected German academic press. Taking this concrete case as an illustration, Pietro Archiati argues that academia, with its in-built bias towards the atheistic assumptions of materialistic science, will almost inevitably misrepresent Steiner's work. Anthroposophy is a spiritual science, whose metamorphosing nature requires penetration of its essence for true understanding. Presenting a broad exploration of the critical questions outlined above, Archiati's exposition works not only as a critique of a specific new edition of Steiner's works, but also as an introduction to key tenets of anthroposophical methodology and thought. 'When, in the case of a flower, the coloured blossom appears, this does not come as a correction of a faulty green leaf. It is, on the contrary, a further metamorphosis of the plant, which, without the existence of the green leaf, would not have been able to arise. Rudolf Steiner was always comparing the arising of his spiritual science with the evolution of a living organism.' - Pietro Archiati
