"Dating Advice for Women from Men" was written for women by a man. It might sound a bit ironic but it is filled with great tips that ladies venturing into the world of dating can use. Based on what the author advises, the best dating tips for women comes from the male perspective. Author, Lance Steele believes that women who have a difficult time dating do not take the time to look at things from a male's point-of-view. What a male looks for in a woman and not the opposite way around is the key for a woman to find her special someone. Not understanding this angle often leads to ladies choosing the wrong man to pursue a relationship with or to end up ruining the one that they are with. This book is a great addition to any female's book collection as it zones in on the main points that a woman should focus on if she is seeking male companionship. The author has ensured that the text is laid out in a fashion that is easy to read and understand. In the dating game, all good advice is a necessary vice.
