Unable to comprehend the situation, Rahul could not understand or say anything, as he is taken to Arjun's suicide spot. What shocks him most, is the fact that Arjun has left a clue which clearly states that Rahul is the reason for his death. During the journey to suicide spot, Rahul explains to Jessie; his PA, about his last four years. How he met Arjun; his best friend once upon a time, and how he became close to Sravani, with whom he wanted to live his life forever. He spent most of his time trying to impress Sravani and became successful but by the time he expressed his feelings, she left him without any clue. After such an insomniac period of time, all of a sudden, today he was told that his friend committed suicide mentioning him as the reason for it. Why did Sravani leave him? Living Mantra - Mani Rao 2018-09-15

Living Mantra is an anthropology of mantra-experience among Hindu-tantric practitioners. In ancient Indian doctrine and legends, mantras perceived by rishis (seers) invoke deities and have transformative powers. Adopting a methodology that combines scholarship and practice, Mani Rao discovers a continuing tradition of visionaries (rishis/seers) and revelations in south India's Andhra-Telangana. Both deeply researched and replete with fascinating narratives, the book reformulates the poetics of mantra-practice as it probes practical questions. Can one know if a vision is real or imagined? Is vision visual? Are deity-visions mediated by culture? If mantras are effective, what is the role of devotion? Are mantras language? Living Mantra interrogates not only theoretical questions, but also those a practitioner would ask: how does one choose a deity, for example, or what might bind one to a guru? Rao breaks fresh ground in redirecting attention to the moments that precede systematization and canon-formation, showing how authoritative sources are formed.

Tantra in Practice - David Gordon White 2018-06-26

As David White explains in the Introduction to Tantra in Practice, Tantra is an Asian body of beliefs and practices that seeks to channel the divine energy that grounds the universe, in creative and liberating ways. The subsequent chapters reflect the wide geographical and temporal scope of Tantra by examining thirty-six texts from China, India, Japan, Nepal, and Tibet, ranging from the seventh century to the present day, and representing the full range of Tantric experience--Buddhist, Hindu, Jain, and even Islamic. Each text has been chosen and translated, often for the first time, by an international expert in the field who also provides detailed background material. Students of Asian religions and general readers alike will find the book rich and informative. The book includes plays, transcribed interviews, poetry, parodies, inscriptions, instructional texts, scriptures, philosophical conjectures, dreams, and astronomical speculations, each text illustrating one of the diverse traditions and practices of Tantra. Thus, the nineteenth-century Indian Buddhist Garland of Gems, a series of songs, warns against the illusion of appearance by referring to bees, yogurt, and the fire of Malaya Mountain; while fourteenth-century Chinese Buddhist manuscripts detail how to prosper through the Seven Stars of the Northern Dipper by burning incense, making offerings to scriptures, and chanting incantations. In a transcribed conversation, a modern Hindu priest in Bengal candidly explains how he serves the black Goddess Kali and feeds temple skulls lentils, wine, or rice; a seventeenth-century Nepalese Hindu praise-poem hammered into the golden doors to the temple of the Goddess Taleju lists a king's faults and begs her forgiveness and grace. An introduction accompanies each text, identifying its period and genre, discussing the history and influence of the work, and identifying points of particular interest or difficulty. The first book to bring together texts from the entire range of Tantric phenomena, Tantra in Practice continues the Princeton Readings in Religions series. The breadth of work included, geographic areas spanned, and expert scholarship highlighting each piece serve to expand

our understanding of what it means to practice Tantra.

The 'writing it down' part is not about time management; it is not a 'to-do today' list that will make you feel guilty if you don't get everything done. Rather, writing it down is about clearing your head, identifying what you want and setting your intent. You can 'make it happen' purely by believing in the possibility. In *WRITE IT DOWN, MAKE IT HAPPEN*, there are stories from ordinary people who witnessed miracles large and small unfold in their lives after they performed the basic act of putting their goals on paper.

The Epic of Gesar of Ling - 2013-07-09

The Gesar of Ling epic is the Tibetan equivalent of *The Arabian Nights*. For hundreds of years, versions of it have been known in oral and written form in Tibet, China, Central Asia, and across the eastern Silk Route. King Gesar, renowned throughout these areas, represents the ideal warrior. As a leader with his people's

loyalty and trust, he conquers all their enemies and protects the peace. His life story, which is full of miracles and magic, is an inspiration and a spiritual example to the people of Tibet and Central Asia even today; Gesar's warrior mask can be seen in the town square and on the door of homes in towns and villages throughout this area. As a Buddhist teaching story, the example of King Gesar is also understood as a spiritual allegory. The "enemies" in the stories represent the emotional and psychological challenges that turn people's minds toward greed, aggression, and envy, and away from the true teachings of Buddhism. These enemies graphically represent the different manifestations of the untamed mind. The teaching is that genuine warriors are not aggressive, but that they subjugate negative emotions in order to put the concerns of others before their own. The ideal of warriorship that Gesar represents is that of a person who, by facing personal challenges with gentleness and intelligence, can attain spiritual realization. This book contains volumes one through three, which tell of Gesar's birth, his mischievous childhood, his youth spent in exile, and his rivalry for the throne with his treacherous uncle. The Gesar epic tells how the king, an enlightened warrior, in order to defend Tibet and the Buddhist religion from the attacks of surrounding demon kings, conquers his enemies one by one in a series of adventures and campaigns that take him all over the Eastern world. He is assisted in his adventures by a cast of heroes and magical characters who include the major deities of Tibetan Buddhism as well as the native religion of Tibet. Gesar fulfills the Silk Route ideal of a king by being both a warrior and a magician. As a magician he combines the powers of an enlightened Buddhist master with those of a shamanic sorcerer. In fact, at times the epic almost seems like a manual to train such a Buddhist warrior-magician. In the story, the people and nation of Ling represent the East Asian notion of an enlightened society. There, meditation, magic, and the oral folk wisdom of a communal nomadic society are synchronized in a lifestyle harmonious with the environment, but ambitious for growth and learning and refined literate culture. Filled with magic, adventure, and the triumphs of this great warrior-king, the stories will delight all—young and old alike. The Gesar epic is still sung by bards in Tibet. The words of the Gesar epic have never been translated into a Western language before.
