

Revisions Gender And Sexuality In Late Modernity

Gender and Consumption Lydia Martens 2016-04-15 Drawing upon anthropological, sociological and historical perspectives, this volume provides a unique insight into women's domestic consumption. The contributors argue that domestic consumption represents an important lens through which to examine the everyday production and reproduction of socio-economic relations. Through a variety of case studies (such as gambling, wedding day consumption and bedroom décor), the essays explore and reconsider the nature of public and private spaces, and the subsequent nature of domestic space - often by challenging traditional notions of what constitutes 'the domestic'. The volume demonstrates the broad range of experiences that domestic consumption offers women and reveals some of the complex meanings and motivations underpinning women's consumption practices.

Sexuality Jeffrey Weeks 2022-12-30 *Sexuality* is the fifth revised and updated edition of the classic text for understanding human sexuality. This new edition brings the arguments and evidence fully up to date and explores their implication for many topical controversies, around LGBTQ+ rights, the trans experience and gender fluidity, same-sex marriage, sexual autonomy and consent, and the meanings of sexual choice. Since it was first published in the 1980s, *Sexuality* has been at the cutting edge of the study of the social and historical meanings of sexuality. Blending deep empirical knowledge with theoretical sophistication and an acute sensitivity to the politics of sexuality, the book offers an informed framework for understanding the complexities of sexual life. A key insight of the book is that the ways we think and speak about sexuality make a major contribution to the ways we live it. Sexuality may be rooted in biological possibilities, but it is shaped and experienced through languages and meanings which are inevitably historical and social in nature. The book explores with clarity and precision the invention and re-invention of sexual meanings, the question of what constitutes a true sex and the biological and social roots of sexual difference, the challenges of diversity, the re-making of sexuality as a highly divisive political subject and the implications of the transformation of intimate life in the past few generations. These are seen in the context of profound changes that are re-fashioning the world, especially globalisation, cyber-sex, and the rise of new forms of agency, including among women and LGBTQ+ people, which have fed into new claims for sexual human rights. This new edition of *Sexuality* will be an indispensable guide for students in the social sciences with an interest in the ever-changing worlds of sexuality.

Advances in Critical Discourse Studies John Richardson 2016-03-16 *Advances in Critical Discourse Studies* collects ground-breaking scholarship and cutting-edge research which reflects significant shifts in Critical Discourse Studies, exploring the field from theoretical, analytic and methodological perspectives. Innovative chapters analyse a diverse range of discourses including journalism, mass media, political communication, policy documents, interviews, photographic archive and official bodies. The chapters in Part I explore Critical Discourse Studies from the point

of view of history, memory, identity politics, and discourse, analysing salient examples of how memory and recollection of the past shapes understandings and narratives of the present, and visions of future societies. Part II explores problem-oriented analysis in Critical Discourse Studies and examines the roles that discourse plays in the formation, perpetuation and transformation of class relations. Finally, Part III explores a methodological issue by looking at the benefits of reinforcing fieldwork and ethnographic analysis in Critical Discourse Studies. The case studies throughout the book demonstrate that analytic research contributes significantly to the in-depth and in-situ research of a variety of increasingly complex social, historical, political and economic contexts. This book was originally published as three special issues of the journal Critical Discourse Studies.

Postfeminist Education? Jessica Ringrose 2013 Using feminist post-structuralist and Foucauldian frameworks, this book explores and critiques how educational discourses have directly contributed to post-feminist notions about female power and success.

It Takes Team Effort Lemuel W. Watson 2014-06-01 This book explores the many ways and opportunities in which men and women might work together to highlight creative ways as well as examine the role of men in schools, families, and community engagement. The book helps to broaden the group's "collective identity" of those who work with male teachers and caregivers by expanding an understanding of their experiences in order to better ways of collaboration. This book serves as a practical guide and resource to challenge the status quo in following our own intuition about our life's work as men and women in early childhood education. The central theme that is sought here is to remember the general purpose of education: to enlighten for multiple purposes and to ask the resounding questions of how do we best achieve this purpose as men and women working together without the confines of gender roles, especially as educators in early childhood and the general educational setting where gender roles are specific to men and women's perceived ways of caring, nurturing, providing, and educating future generations.

Men in the Lives of Young Children Deborah Jones 2013-09-13 This book presents an international perspective on the involvement of men in the lives of young children across a range of differing contexts and from a number of disciplinary perspectives. It takes as a starting point the importance of positive male engagement with young children so as to ensure their optimal development. Past research has revealed however the complexity of studying these relationships and the barriers that exist in families & society which impede the implementation of positive relationships. This book is developed to use new research and educational thinking in order to explore the lived experiences of both fathers and men in edu-care and in addition to considers what it is to be a man in the 21st century. As such this work is pertinent, timely and responsive to issues of concern to all those professionals, policy makers and practitioners within education and family services and also to the public in general. The central purpose of the book is to contribute to the debate around key issues connected to the ways in which men can develop secure professional and familial attachments to young children for whom they have a responsibility. This book was published as a special issue of Early Child Development and Care.

Routledge Handbook of Sexuality, Health and Rights Peter Aggleton 2010-01-30 The last two decades have witnessed an explosion of research on sexuality as the social sciences have worked to find new ways of understanding a rapidly changing world. Growing concern for issues such as population, women's and men's reproductive health, and the HIV and AIDS pandemic, has since provided new legitimacy for work on sexuality, health and rights. A detailed and up-to-date reference work, The Handbook of Sexuality, Health and Rights provides an authoritative overview of the main issues in the field today. Leading academics and practitioners are brought together to reflect on past, present and future approaches to understanding and promoting sexual health and rights. Divided into nine parts, it covers: Pioneering beginnings Language, discourse and sexual categories From sexuality to health The reproductive imperative How to have sex in an epidemic The choreography of sex The darker side of sex From sexual health to sexual rights Struggles for erotic justice This handbook surveys the state of the discipline and offers an examination and discussion of

Gender, Sexualities and Law Jackie Jones 2011-03-17 Bringing together an international range of academics, *Gender, Sexualities and Law* provides a comprehensive interrogation of the range of contemporary issues – both topical and controversial – raised by the gendered character of law, legal discourse and institutions. The gendering of law, persons and the legal profession, along with the gender bias of legal outcomes, has been a fractious, but fertile, focus of reflection. It has, moreover, been an important site of political struggle. This collection of essays offers an unrivalled examination of its various contemporary dimensions, focusing on: issues of theory and representation; violence, both national and international; reproduction and parenting; and partnership, sexuality, marriage and the family. *Gender, Sexualities and Law* will be invaluable for all those engaged in research and study of the law (and related fields) as a form of gendered power.

Sociological Social Work Priscilla Dunk-West 2016-04-01 Sociological social work is a lifelong social work practice which is animated by a sociological perspective. Social workers 'shorthand' orientations such as 'strengths perspective', 'task centred' or 'humanistic' (to name but a few), as a way to identify their philosophical and theoretical approaches in professional life. Whilst some texts have examined sociology for social work, this text instead proposes that sociological social work is a legitimate and theoretically rich orientation, and this book demonstrates what sociological social work looks like in our rapidly changing world. This text will equip students and practitioners with a way to think sociologically, not just while they are studying, but as an ever present reference for making sense of social work purpose and how this is realised in a transforming world. This follows an established tradition in social work literature, but this book elevates and names the importance of this approach, which we argue is critically needed if social work is to achieve its agenda in transformative social, political economic and environmental contexts. The current landscape in which we live is one that is characterised by rapid changes which have implications for the life experiences of those with whom social workers work, social justice advocacy agendas, and for fulfilling the purpose of social work more generally. This book is essential reading for those looking to keep up with these changes.

Genealogies of Emotions, Intimacies, and Desire Ann Brooks 2016-10-04 *Genealogies of Emotions, Intimacies and Desire* excavates epistemologies which attempt to explain changes in emotional regimes from medieval society to late modernity. Key in this debate is the concept of intimacy. The book shows that different historical periods are characterized by emotional regimes where intimacy in the form of desire, sex, passion, and sex largely exist outside marriage, and that marriage and traditional normative values and structures are fundamentally incompatible with the expression of intimacy in the history of emotional regimes. The book draws on the work of a number of theorists who assess change in emotional regimes by drawing on intimacy including Michel Foucault, Eva Illouz, Lauren Berlant, Anthony Giddens, Laura Ann Stoler, Anne McClintock, Niklas Luhmann and David Shumway. Some of the areas covered by the book include: Foucault, sex and

sexuality; romantic and courtly love; intimacy in late modernity; Imperial power, gender and intimacy, intimacy and feminist interventions; and the commercialization of intimacy. This book will appeal to students and scholars in the social sciences and humanities, including sociology, gender studies, cultural studies, and literary studies.

Reader in Qualitative Methods in Migration Research Ibrahim Sirkeci 2019-02-28 This edited collection published in *Migration Letters* were selected to reflect on methodological challenges faced by researchers and students when conducting qualitative studies on migration. Beginning with papers focusing on broader discussions of methodological issues and some options available to researchers, the latter half of the book explores the narrative methodology in depth with references to several cases. The chapters included in this book was originally published in regular issues and two special issues of *Migration Letters* journal from 2009 onwards. We have regrouped and ordered these studies to enhance the flow and transition in the book. The first six chapters look into more general issues and debates in migration research methodologies, while chapters seven to ten offer cases studies on alternative qualitative methodologies and then the final six chapters focus on narratives and challenges of the narrative methodology applied in migration studies.

Craft and the Creative Economy S. Luckman 2015-03-04 *Craft and the Creative Economy* examines the place of craft and making in the contemporary cultural economy, with a distinctive focus on the ways in which this creative sector is growing exponentially as a result of online shopfronts and home-based micro-enterprise, 'mumpreneurialism' and downshifting, and renewed demand for the handmade.

Transforming Images Rebecca Coleman 2015-01-28 Contemporary social and cultural life is increasingly organised around a logic of self-transformation, where changing the body is seen as key. *Transforming Images* examines how the future functions within this transformative logic to indicate the potential of a materially better time. The book explores the crucial role that images have in organising an imperative for transformation and in making possible, or not, the materialisation of a better future. Coleman asks the questions: which futures are appealing and to whom? How do images tap into and reproduce wider social and cultural processes of inequality? Drawing on the recent 'turns' to affect and emotion and to understanding life in terms of vitality, intensity and 'liveness' in social and cultural theory, the book develops a framework for understanding images as felt and lived out. Analysing different screens across popular culture – the screens of shopping, makeover television programmes, online dieting plans and government health campaigns – it traces how images of self-transformation bring the future into the present and affectively 'draw in' some bodies more than others. *Transforming Images* will be of interest to students and scholars working in sociology, media studies, cultural studies and gender studies.

Late Modernity and Social Change Brian Heaphy 2007-09-12 Sometimes social theory can seem dry and intimidating – as if it is something completely apart from everyday life. But in this incisive new text, Brian Heaphy show exactly how the arguments of the great contemporary theorists play out against extended examples from real life. Introducing the ideas of founding social thinkers including Marx, Durkheim, Weber, Simmel and Freud, and the work of key contemporary theorists, among them Lacan, Foucault, Lyotrad, Baudrillard, Bauman, Giddens and Beck, the book begins by examining the merits of the 'late modernity' thesis against those of the proponents of 'post-modernity'. The authors show the wide swoop of influence of 'post-modern' thought and how it has changed the way even its opponents think. It also discusses feminist, queer and post-colonial ideas about studying modern and post-modern experience. With examples from personal life (including self and identity, relational and intimate life, death, dying and life-politics) to bring theory to life, this clear and concise new text on contemporary social theory and social change is ideal for students of sociology, cultural studies and social theory.

Women and the Irish Diaspora Breda Gray 2004-07-31 *Women and the Irish Diaspora* looks at the changing nature of national and cultural belonging both among women who have left Ireland and those who remain. It identifies new ways of thinking about Irish modernity by looking specifically at women's lives and their experiences of migration and diaspora. Based on original research with Irish

women both in Ireland and in England, this book explores how questions of mobility and stasis are recast along gender, class, racial and generational lines. Through analyses of representations of 'the strong Irish mother', migrant women, 'the global Irish family' and celebrity culture, Breda Gray further unravels some of the complex relationships between femininity and Irish modernity(ies). *Routledge Handbook of Identity Studies* Anthony Elliott 2012-04-27 The Routledge Handbook of Identity Studies offers an exceptionally clear overview of the analysis of identity in the social sciences, and in so doing seeks to develop a new agenda for identity-studies in the twenty-first century. The key theories of identity, ranging from classical accounts to postmodern, psychoanalytic and feminist approaches, are drawn together and critically appraised, and there are substantive sections looking at racial, ethnic, gendered, queer, consumerist, virtual and global identities. The Handbook also makes an essential contribution to the debate now opening up over identity-politics and its cultural consequences. From anti-globalization protestors to new ecological warriors, from devotees of therapy culture to defenders of international human rights: the culture of identity-politics is fast redefining the public political sphere. What future for politics is there after the turn to identity? Throughout there is a strong emphasis on interdisciplinarity with essays covering sociology, psychology, politics, cultural studies and history. The Handbook's clear and direct style will appeal to a wide undergraduate audience in the social sciences and humanities.

Youth, Work and the Post-Fordist Self David Farrugia 2022-08 Drawing on empirical research, this book provides an innovative exploration of youth and work, showing how youth identities are connected with the dynamics of labour and value in contemporary capitalism.

Beyond Bauman Michael Hviid Jacobsen 2016-10-26 Bringing together leading interpreters of Zygmunt Bauman's sociology, this volume thinks with and beyond Bauman's work in order to show its continued relevance as a theory in its own right, as an object of criticism and as a stepping stone towards a fuller understanding of contemporary society. The volume deals with some proposed omissions and absences in Bauman's sociology, with chapters comparing Bauman's ideas to those of other prominent social thinkers as well as chapters devoted to teasing out some problems and pitfalls in his work. Paying attention to central concepts and themes of Bauman's thought, authors engage with various aspects of his work, considering potential deficiencies in his ethical perspective, his neglect of the religious dimensions of modernity, his lack of consideration for ethnicity and gender, his overlooking the importance of socialisation in liquid modernity and his problematic argument for individual choice and freedom in a world that is increasingly closed down by consumer capitalism. Beyond Bauman aspires to show that despite Bauman's status as a key sociological thinker, there are also certain deficiencies in his work demand critical discussion. It will be of use to scholars of sociology, contemporary society, social theory and modernity.

Gender in the Post-Fordist Urban Marguerite van den Berg 2017-03-02 This book investigates the gender revolution in urban planning and public policy. Building on feminist urban studies, it introduces the concept of genderfication as a means of understanding the consequences of post-Fordist gender notions for the city. It traces the changes in western urban gender relations, arguing that in the post-Fordist urban landscape gender is used for urban planning and public policy - both to rebrand a city's image and to produce space for gender-equal ideals, often at the cost of precarious urban populations. This is a topic that remains largely unexplored in critical urban studies and radical geography. Chapters cover how Jane Jacobs' perspectives provide an alternative to the patriarchal modernist city for contemporary planners and using Rotterdam as a case study Van Den Berg discusses why new urban planning methods focus on attracting women and children as new urbanites. Topics include: forms of place marketing, gender as a repertoire for contemporary urban Imagineering and the concept of urban re-generation. The final chapter investigates how cities aiming to redefine themselves imagine future populations and how they design social policies that explicitly and particularly target women as mothers. Scholars in all fields of urban studies will find this work thought-provoking, instructive and informative.

Routledge Handbook of Sexuality, Gender, Health and Rights Peter Aggleton 2023-12-22 Thoroughly updated with over 30 newly written chapters, this edition of the Routledge Handbook of Sexuality,

Gender, Health and Rights brings together academics and practitioners from around the world to provide an authoritative and up-to-date account of the field. Social researchers and their allies have worked hard in past decades to find new ways of understanding sexuality in a rapidly changing world. Growing attention is now given to the way sexuality intersects with other structures such as gender, age, ethnicity/race and disability, and increasing value is seen in a positive approach focused on ethics, pleasure, mutuality and reciprocity. This Handbook explores: theory, politics and early development of sexuality studies ways in which language, discourse and identification have become central to research on sex, sexuality and gender key issues across the broad media and digital ecology, demonstrating the centrality of representation, communication and digital technologies to sexual and gender practices research focusing on the body and its sexual pleasures work on forms of inequality, violence and abuse that are linked to sex, gender and sexuality The Handbook is an essential reference for researchers and educators working in the fields of sexuality studies, gender studies, sexual health and human rights, and offers key reading for mid-level and advanced students.

Women, Identity and India's Call Centre Industry J.K. Tina Basi 2009-06-02 This book examines the concept of globalised identities and the way in which agency is exercised over identity construction by women working in India's transnational call centre industry. Drawing on qualitative empirical data and extensive original fieldwork, the book provides a nuanced analysis of the experiences of Indian women call centre workers and the role of women's participation in the global labour market. The author uses social, cultural, and historical factors to create a framework for examining the processes of identity construction. Within this framework, the book explores the impact of the call centre labour process on the social landscape of urban centres in India and the way in which this has impacted upon transformations and shifts in society with relation to gendered, sexual, and generational relationships. Highlighting the significance of identity in a globalised world, the author argues that identity acts as one of the most powerful constructs in transforming global 'scapes' and flows of culture and economics. This book will be of interest to academics working on South Asia, gender and labour studies and issues of globalization, identity and social change.

Late Modernity, Individualization and Socialism M. Dawson 2013-05-14 Influenced most notably by Émile Durkheim and Zygmunt Bauman, Dawson outlines how this long neglected stream of socialist theory can help us more fully understand, and possibly move beyond, the problems of neoliberalism and our conceptions of political individualism.

Lost Youth in the Global City Jo-Anne Dillabough 2010-12-22 What does it mean to be young, to be economically disadvantaged, and to be subject to constant surveillance both from the formal agencies of the state and from the informal challenge of competing youth groups? What is life like for young people living on the fringe of global cities in late modernity, no longer at the center of city life, but pushed instead to new and insecure margins of the urban inner city? How are changing patterns of migration and work, along with shifting gender roles and expectations, impacting marginalized youth in the radically transformed urban city of the twenty-first century? In *Lost Youth in the Global City*, Jo-Anne Dillabough and Jacqueline Kennelly focus on young people who live at the margins of urban centers, the "edges" where low-income, immigrant, and other disenfranchised youth are increasingly finding and defining themselves. Taking the imperative of multi-sited ethnography and urban youth cultures as a starting point, this rich and layered book offers a detailed exploration of the ways in which these groups of young people, marked by economic disadvantage and ethnic and religious diversity, have sought to navigate a new urban terrain and, in so doing, have come to see themselves in new ways. By giving these young people shape and form – both looking across their experiences in different cities and attending to their particularities – *Lost Youth in the Global City* sets a productive and generative agenda for the field of critical youth studies.

Revisions Lisa Adkins 2002 In so doing it puts forward a distinctive thesis, namely that within late modernity gender and sexuality are being reworked in terms of categories of reflexivity and risk. It shows that this reworking places increasing significance on issues of mobility and identity in late

modernity. It therefore outlines the politics of mobility in regard to identity, suggesting that mobility is an important but often neglected source of power in late modernity. Revisions: gender and sexuality in late modernity will be essential reading for advanced undergraduates, research students and academics working in the fields of feminist theory, social theory, sociology, women's studies and cultural studies."--Jacket.

From Labouring to Learning Michael R.M. Ward 2016-04-29 Highly Commended in the Society of Educational Studies Book Prize This book explores how economic changes and the growing importance of educational qualifications in a shrinking labour market, particularly effects marginalized young men. It follows a group of young working-class men in a de-industrial community and challenges commonly held representations that often appear in the media and in policy discourses which portray them as feckless, out of control, educational failures and lacking aspiration. Ward argues that for a group of young men in a community of social and economic deprivation, expectations and transitions to adulthood are framed through the industrial legacy of geographically and historically shaped class and gender codes. These codes have an impact on what it means to be a man and what behaviour is deemed acceptable and what is not.

Unfolding Lives Rachel Thomson 2011-09 The process of becoming an adult in contemporary times is fragmented and unequal, shaped by chance, choice and timing. "Unfolding lives" presents a unique approach to understanding the changing face of youth transitions, addressing the question of how gender identities are constituted in late modern culture. The book follows individual lives over time, enabling the reader to witness gender identities in the making and breathing new life into static analytic models. At the heart of the book are vivid in-depth accounts of four young lives, emblematic of broader biographical trends. They reveal how inequalities and privileges are made in new and unexpected ways, through practices such as falling in love, coming out, acting out and religious conversion. A focus on temporal processes and changing meanings captures what it feels like to be young and shows the creative ways that young people navigate the conflicting and changing demands of personal relationships, schooling, work and play. "Unfolding lives" is also a demonstration of a method-in-practice, describing how longitudinal material can be analysed and animated to realise the relationship between personal and social change. Written in an accessible style that breaks the conventional academic mould, "Unfolding lives" is a compelling and provocative read. The book will be an essential text for students and academics involved in youth and gender studies as well as those interested in new directions in qualitative research methods and writing.

Youth and Social Change in Eastern Europe and the Former Soviet Union Charles Walker 2013-09-13 Two decades have now passed since the revolutions of 1989 swept through Eastern Europe and precipitated the collapse of state socialism across the region, engendering a period of massive social, economic and political transformation. This book explores the ways in which young people growing up in post-socialist Eastern Europe and the former Soviet Union negotiate a range of identities and transitions in their personal lives against a backdrop of thoroughgoing transformation in their societies. Drawing upon original empirical research in a range of countries, the book's contributors explore the various freedoms and insecurities that have accompanied neo-liberal transformation in post-socialist countries - in spheres as diverse as consumption, migration, political participation, volunteering, employment and family formation - and examine the ways in which they have begun to re-shape different aspects of young people's lives. In addition, while 'social change' is a central theme of the issue, all of the chapters in the collection indicate that the new opportunities and risks faced by young people continue both to underpin and to be shaped by familiar social and spatial divisions, not only within and between the countries addressed, but also between 'East' and

'West'. This book was originally published as a special issue of Journal of Youth Studies.

Bourdieuian Prospects Lisa Adkins 2017 Bourdieusian Prospects contributes to scholarship on Bourdieusian sociology, bringing it face to face with other theoretical developments in a changing empirical world. Contributors ask what the contours of future Bourdieusian social theory might look like and begin to map this out, both travelling alongside and breaking with Bourdieu in the process.

Handbook on Gender and Public Sector Employment Hazel Conley 2023-05-09 This incisive Handbook offers a timely and critical analysis of the gendered nature of public sector employment. Bringing together key theoretical, conceptual, and empirical research from around the world, Hazel Conley and Paula Koskinen Sandberg examine the ways in which female public sector workers experience intersectional discrimination in the workplace.

Consumption, Cities and States Ann Brooks 2015-03-01 'Consumption, Cities and States' examines the fascinating intersection of consumption, citizenship and the state in a cross-section of global cities in Asia and the West. It focuses on a number of theoretical and empirical analyses: developing and amplifying the intersection of consumption, citizenship and the state in late modernity in relation to a range of cities; examining the concept of the global city as an 'aspirational' category for cities in Asia and the West; and considering case studies which highlight the intersection of consumption and the state. As Ann Brooks and Lionel Wee demonstrate, the interface between citizen status and consumer activity proves a crucial point of analysis in the light of the neoliberal assertion that individuals and institutions perform at their best within a free market economy.

The Post-Fordist Sexual Contract Lisa Adkins 2016-03-16 This collection analyzes shifting relationships between gender and labour in post-Fordist times. Contingency creates a sexual contract in which attachments to work, mothering, entrepreneurship and investor subjectivity are the new regulatory ideals for women over a range of working arrangements, and across classed and raced dimensions.

Nordic Girlhoods Bodil Formark 2017-10-10 This edited collection is an interdisciplinary and dialogical endeavor focused on the field of Nordic Girlhood Studies. It investigates young femininity as well as the key themes and concepts of Girlhood Studies, including girl power, feminisms, femininity, gender equality, postfeminism and sexualities in the specific cultural, historical and political context of the Nordic region. Further, the case studies are accompanied by dialogical Outlook-essays, where researchers either outside Nordic region or from adjacent research fields reflect on Nordic Girlhood Studies through comparisons and reflections from their vantage point. Sexuality, Gender and Power Anna G. Jónasdóttir 2010-12-14 "Including studies of the sexual self and sexual subjectivities, socio-political processes of normativization, and social structures of sexuality and gender in national and transnational contexts, this book offers a view of sexuality as a broad and complex dimension of historically changing social-cultural and human-material reality"--EBL.

Risks, Identities and the Everyday Julie Scott Jones 2016-04-08 Risks, Identities and the Everyday focuses on the individual and the lived experience of everyday risks - a departure from the focus on risk from a macro level. The contributors look at risk and how perceptions of risk, risk taking, and risk assessment increasingly dominate our everyday lives and explore it in a variety of settings not previously associated with risk theory, including: plastic surgery, teenage sub-cultures, ageing and independent travel. The volume moves risk away from abstract theorising about what people may or may not fear about risks, to focus on how it actually materialises and operates in everyday 'real' social interactions and contexts. It also interrogates the rational self at the heart of macro social theories by thinking through the construction of risk choices and the socio-cultural dynamics that

'present' some risks as acceptable, appropriate and necessary.
