The Second Sex - Simone de Beauvoir 1997

Of all the writing that emerged from the existentialist movement, Simone de Beauvoir's groundbreaking study of women will probably have the most extensive and enduring impact. It is at once a work of anthropology and sociology, of biology and psychoanalysis, from the pen of a writer and novelist of penetrating imaginative power. THE SECOND SEX stands, five decades after its first appearance, as the first landmark in the modern feminist upsurge that has transformed perceptions of the social relationship of man and womankind in our time

"On Ne Naît Pas Femme : on Le Devient" - Bonnie Mann 2017

This collection of essays takes up the most famous feminist sentence ever written, Simone de Beauvoir's "On ne naît pas femme: on le devient," in the book *The Second Sex*, finding in it a flashpoint that galvanizes feminist thinking and action in multiple dimensions. Two controversies emerge in the life of this sentence: a controversy over the practice of translation and a controversy over the nature and status of sexual

difference.

The Second Sex - Simone de Beauvoir 1988

Newly translated and unabridged in English for the first time, Simone de Beauvoir's masterwork is a powerful analysis of the Western notion of "woman," and a groundbreaking exploration of inequality and otherness. This long-awaited new edition reinstates significant portions of the original French text that were cut in the first English translation. Vital and groundbreaking, Beauvoir's pioneering and impressive text remains as pertinent today as it was sixty years ago, and will continue to provoke and inspire generations of men and women to come.

Quem conhece o Sergio Almeida e procura lógica entre o que escreve e o que pensa, desista, pois será uma tarefa inglória e, certamente, acabará sucumbindo sem respostas. Quem tiver o desejo de identificar o que move o Sergio e buscar alguma coerência ou alguma razão no que escreve, esqueça, pois encontrará tantas respostas que vão sobrar dúvidas. O que escreve habita entre a dúvida e o momento da decisão. É neste pequeno espaço do pensamento, do inconfessável que Sergio brinca com as palavras e faz o leitor tropeçar nos pensamentos subterrâneos. O poeta desfila "pessoas esfinges" que trazem sinais do tempo, das emoções e das forças que movem os seres. A busca pelo prazer ou simplesmente pelo deserto do dia seguinte. Sergio busca nas vísceras dos seres que habitam o seu poema os elementos do mundo contemporâneo. E, ao contrário do processo de mumificação dos faraós, onde o cérebro era retirado pelo nariz, Sergio retira os versos. Prefere a frieza do vazio para mostrar o avesso. Leia e tente decifrar como Édipo desvendou os segredos da esfinge. No entanto tenha cuidado para não ser devorado pelas FILHAS DO SEGUNDO SEXO.

O segundo sexo - Simone de Beauvoir 2014-06-11

"Pois, de O segundo sexo a A cerimônia do adeus, o empenho principal de Beauvoir foi o de construir uma nova identidade, sobretudo feminina, mas comum a todos na exigência da liberdade." - Folha de S. Paulo Provedora, vassala, acolhedora. Não importa como se apresenta, o lugar da mulher sempre foi definido pelo homem. Este configura a posição central na sociedade. O homem - que tomou para si a definição de "ser humano" - relega à mulher uma posição secundária, um papel de coadjuvante na História. Foi a partir dessa constatação e da pergunta "o que é uma mulher?" que a filósofa existencialista Simone de Beauvoir deu início à sua reflexão para escrever "O segundo sexo". A preocupação contudo não foi em equiparar um gênero a outro. Para ela, isso seria demasiado simplista, inclusive porque o homem é "um ser absoluto", enquanto a mulher ainda não o é. Simone de Beauvoir procurou compreender de que maneira a mulher ocupou, ou a fizeram ocupar, essa posição de "segundo sexo" em diferentes sociedades, como ela se coloca no mundo e como contribui para essa configuração social. Livro que consagrou a autora na filosofia mundial e referência básica para o movimento feminista do século XX, "O segundo sexo" foi publicado originalmente em 1949, período turbulento de pós-guerra, quando sobretudo a Europa vivia um penoso processo de reestruturação e a França abria, aos poucos, espaço para as mulheres no campo social e político - apenas em 1944 permitiu-se o voto feminino. Mas a obra não ficou datada: inaugurou um novo modelo de pensamento sobre a mulher na sociedade e tornou-se atemporal e definitiva. Nesta edição mais do que especial, reunimos os dois volumes que compõem integralmente o ensaio de Simone de Beauvoir.

Das andere Geschlecht - Simone de Beauvoir 2000

Das berühmte Standardwerk von Simone de Beauvoir. Die universelle Standortbestimmung der Frau, die aus jahrtausendealter Abhängigkeit von männlicher Vorherrschaft ausgebrochen ist, hat nichts an Gültigkeit eingebüßt. Die Scharfsichtigkeit der grundlegenden Analyse tritt in der Neuübersetzung noch deutlicher hervor.

Translating Simone de Beauvoir's The Second Sex - Julia C. Bullock 2023-05-19

This collection offers insights into the transnational and translingual implications of Simone de Beauvoir's *Le Deuxième Sexe* (The Second Sex), a text that has served as foundational for feminisms worldwide since its publication in 1949. Little scholarly attention has been devoted to how the original French-language source text made its way into languages other than English. This is a shocking omission, given that many (but by no means all) other translations were based on the 1953 English translation by Howard M. Parshley, which has been widely criticized by Beauvoir scholars for its omissions and careless attention to

its philosophical implications. This volume seeks to fill this gap in scholarship with an innovative collection of essays that interrogate the ways that Beauvoir's essay has shifted in meaning and significance as it has travelled across the globe. This volume brings together for the first time scholars from Translation Studies, Literary Studies and Philosophical Studies, and over half of it is dedicated to non-Western European engagements with *Le Deuxième Sexe* (including chapters on the Chinese, Japanese, Arabic, Hungarian and Polish translations). As such, this collection will be essential to any scholar of Beauvoir's philosophy and its contributions to feminist discourses.

The Second Sex (Vintage Feminism Short Edition) - Simone de Beauvoir 2015-03-05

Vintage Feminism: classic feminist texts in short form WITH AN INTRODUCTION BY NATALIE HAYNES
When this book was first published in 1949 it was to outrage and scandal. Never before had the case for female liberty been so forcefully and successfully argued. De Beauvoir's belief that 'One is not born, but rather becomes, woman' switched on light bulbs in the heads of a generation of women and began a fight for greater equality and economic independence. These pages contain the key passages of the book that changed perceptions of women forever. TRANSLATED BY CONSTANCE BORDE AND SHEILA MALOVANY-CHEVALLIER ANNOTATED AND INTRODUCED BY MARTINE REID

Translation and Censorship in Different Times and Landscapes - Maria Lin Moniz 2009-03-26

This volume is a selection of papers presented at the international conference on Translation and Censorship. From the 18th Century to the Present Day, held in Lisbon in November 2006. Although censorship in Spain under Franco dictatorship has already been thoroughly studied, the Portuguese situation under Salazar and Caetano has been, so far, almost ignored by the academic research. This is then an attempt to start filling this gap. At the same time, new case studies about the Spanish context are presented, thus contributing to a critical view of two Iberian dictatorial regimes. However other geographical and time contexts are also included: former dictatorships such as Brazil and Communist Czechoslovakia; present day countries with very strict censoring apparatus such as China, or more subtle censorial mechanisms as Turkey and Ukraine. Specific situations of past centuries are given some attention: the reception of Ovid in Portugal, the translation of English narrative fiction into Spanish in the 18th century, the translation of children literature in Victorian England and the emergence of the picaresque novel in Portugal in the 19th century. Other forms of censorship, namely self-censorship, are studied in this volume as well. "The book fits in one of the most innovative fields of research in translation studies, i.e. the study of social and political constraints on translation processes and translation functions. More specifically, the concept of censorship is crucial to the understanding of these constraints, especially in spatio-temporal settings where translation exhibits conflicts between what is acceptable for and what is prohibited by a given culture. For that reason, detailed descriptive research is needed in as many situations as possible. It gives an excellent view on the complex mechanisms of censorship with regard to translation within a large number of modern European and non European cultures. In addition to articles devoted to cases dealing with China, Brazil, Great-Britain, Turkey, Ukraine or Czechoslovakia, Spain and Portugal occupy a prominent role. As a whole, the volume marks an important step forward in our growing understanding of the role of socio-political factors for the development and changes of translation policies. I highly recommend the publication." Prof. dr. Lieven D'hulst, Professor of Translation Studies at K.U.Leuven (Belgium).

El Segundo Sexo (Spanish Edition) - Simone Beauvoir 2016-04-12

El segundo sexo es una obra clave del pensamiento, no solo feminista, sino del siglo veinte. De ella surgen los nuevos temas del feminismo, una vez agotado el periodo de las vindicaciones primordiales (derecho al voto y a la educación). Se analiza la condición de la mujer desde los diversos puntos de vista desde los que se la conceptualiza: ontológico, sociológico, cultural, científico, histórico. El resumen perfecto de esta obra se refleja en su frase mas famosa: No se nace mujer: se llega a serlo. En el primer tomo se realiza un análisis regresivo. Beauvoir trató de comprender cuáles son las condiciones que han hecho posible el que la mujer se considerara como el otro, realizando una especie de encuesta a las ciencias, a la historia y a la mitología como construcciones culturales que han posibilitado esta alteridad disfuncional. En el segundo tomo describe cómo viven las mujeres el hecho de ser seres oprimidos, seres transcendentales que no pueden realizar su transcendencia, sino que están relegadas a vivir en la inmanencia. Nos va explicando cómo la

sociedad y la cultura moldean desde su infancia hasta la vejez a este ser que es la mujer a través de la opresión para que llegue a ser lo que es.

O Segundo Sexo II - Simone de Beauvoir 2010-03

Coa publicación desta segunda entrega d' O segundo sexo culmínase felizmente o proxecto de ofrecer en galego unha obra clave para entender o universo das mulleres e as coordenadas do feminismo, ao tempo que as nosas letras se enriquecen cun texto fundamental para a humanidade que xerou, despois de sesenta anos da súa aparición, unha rede de pensadoras e activistas que transcende xeracións, clases e países. Neste volume, «A experiencia vivida», Simone de Beauvoir analiza a situación de opresión que viven as mulleres na sociedade. Na primeira parte, «Formación», estuda a infancia, a adolescencia, a mocidade e a iniciación sexual; incorporando o lesbianismo. Continúa na segunda, «Situación», analizando varios aspectos da figura adulta feminina, como a muller casada, a nai, a vida social, a prostitución, a madurez e a vellez. Prosegue na terceira, «Xustificacións», abordando diferentes actitudes das mulleres, retratando á «narcisista», á «namorada» e á «mística». Finaliza, na derradeira parte da obra, «Cara á liberación», propoñendo no seu único capítulo, «A muller independente», as dúas vías que teñen as mulleres para saír da súa situación de opresión, sen obviar as dificultades que atoparán nesa loita: a independencia económica como presuposto de calquera outra emancipación legal, social ou xurídica e a loita das mulleres como colectivo consciente da súa opresión.

Segundo Sexo - Simone de Beauvoir 2002-02

This work first appeared fifty years ago, creating a whirl of controversy and shock -- and quickly becoming a bestseller. El segundo sexo, the book that would pronounce to the world that a woman is neither an essence nor a destiny and that oppression has a contingent status, slowly became the anthem for the new feminism. A vital book for every new generation of women.

Este box traz a divisão original em dois volumes. No primeiro volume, a autora aborda os fatos e os mitos da condição da mulher numa reflexão fascinante. Uma obra fundamental, que inaugurou um novo modelo de pensamento sobre a mulher na sociedade.

El segundo sexo - Simone de Beauvoir 2017-10-05

"El segundo sexo" no sólo ha nutrido a todo el feminismo que se ha hecho en la segunda mitad del siglo, sino que es el ensayo feminista más importante de la centuria. Todo lo que se ha escrito después en el campo de la teoría feminista ha tenido que contar con esta obra, bien para continuarla en sus planteamientos y seguir desarrollándolos, bien para criticarlos oponiéndose a ellos. "El segundo sexo", que es el ensayo de una filósofa existencialista, se encuadra en el ámbito más amplio de un pensamiento ilustrado que toma de la ilustración precisamente sus aspectos positivos, emancipatorios; ante todo, una concepción igualitaria de los seres humanos, según la cual la diferencia de sexos no altera su radical

igualdad de condición. Al mismo tiempo, es un ensayo filosófico que analiza el hecho de la condición femenina en las sociedades occidentales desde múltiples puntos de vista.

El Segundo Sexo - SIMONE DE. BEAUVOIR 2016-08-26

El segundo sexo (Le Deuxième Sexe) es un libro escrito en 1949 por Simone de Beauvoir. Se le considera una de las obras más relevantes, a nivel filosófico, del siglo XX. Fue un rotundo éxito de ventas. Su autora comenzó a escribirlo cuando reflexionó sobre lo que había significado para ella el ser mujer. Comenzó a investigar acerca de la situación de las mujeres a lo largo de la historia y escribió este extenso ensayo que aborda cómo se ha concebido a la mujer, qué situaciones viven las mujeres y cómo se puede intentar que mejoren sus vidas y se amplíen sus libertades. Es una de las obras fundacionales del Feminismo y utiliza los conceptos existencialistas para indagar acerca de la vida de la mitad de la humanidad. También es considerada una obra enciclopédica, pues aborda la identidad de las mujeres y la diferencia sexual desde los puntos de vista de la psicología, la historia, la antropología, la biología, la reproducción y la relación afectivo-sexual. La teoría principal que sostiene Beauvoir es que "la mujer", o más exactamente lo que entendemos por mujer (coqueta, cariñosa, etc.) es un producto cultural que se ha construido socialmente. La mujer se ha definido a lo largo de la historia siempre respecto a algo: como madre, esposa, hija, hermana... Así pues, la principal tarea de la mujer es reconquistar su propia identidad específica y desde sus propios criterios. Muchas de las características que presentan las mujeres no les vienen dadas de su genética, sino de cómo han sido educadas y socializadas. La frase que resume esta teoría es muy célebre: "No se nace mujer: llega una a serlo".

Le Deuxième Sexe - Simone de Beauvoir 1993

THE SECOND SEX is a hymn to human freedom and a classic of the existentialist movement. It also has claims to be the most important single book in the history of feminism. In the forty years since its publication De Beauvoir's then revolutionary thesis - that the subordination of women is not a fact of nature but the product of social conditioning has become part of our everyday thinking.

El segundo sexo / The Second Sex - Simone de Beauvoir 2019-06-25

Es una de las obras fundacionales del Feminismo y utiliza los conceptos existencialistas para indagar acerca de la vida de la mitad de la humanidad. El segundo sexo es considerado hoy la "Biblia del feminismo", la obra de referencia, especialmente de la corriente denominada "feminismo de la igualdad". No sólo es considerado uno de los libros más relevantes del siglo XX, sino que tras su publicación fue un rotundo éxito de ventas. El segundo sexo fue escrito en 1949 por Simone de Beauvoir, quien comenzó a prepararlo cuando reflexionó, a propuesta de Jean-Paul Sartre, sobre lo que había significado para ella el ser mujer. Esta idea la llevaría a investigar acerca de la situación de las mujeres a lo largo de la historia y a escribir este extenso ensayo que aborda cómo se ha concebido a la mujer, qué situaciones viven las mujeres y cómo se puede intentar que mejoren sus vidas y se amplíen sus libertades. Es una de las obras fundacionales del Feminismo y utiliza los conceptos existencialistas para indagar acerca de la vida de la mitad de la humanidad. También es considerada una obra enciclopédica, pues aborda su tema desde los puntos de vista de la psicología, la historia, la antropología, la biología, la reproducción y las relaciones afectivo-sexuales. La teoría principal que sostiene Beauvoir es que la mujer, o más exactamente lo que entendemos por "mujer" (coqueta, frívola, caprichosa, salvaje, etc.) es un producto cultural que se ha construido socialmente. La mujer se ha definido a lo largo de la historia siempre respecto a algo: como madre, esposa, hija, hermana... Así pues, su principal tarea es reconquistar su propia identidad específica y desde sus propios criterios. ENGLISH DESCRIPTION Vital and groundbreaking, this is one of feminism's founding works. It inquires and examines the life of one half of humanity by using existentialist concepts. The Second Sex today is considered the "Bible of feminism", the most important work of reference, especially for the "feminism for equality" movement. Seventy years after its initial publication, The Second Sex is still as eye-opening and pertinent as ever and is considered one of the most important books of the twentieth century. Simone de Beauvoir began to write it in 1949 when she reflected, on Jean-Paul Sartre's proposal, on what it meant for her to be a woman. This idea would lead her to explore and study about

women's roles throughout history and to write this extensive essay that examines how women were perceived, what situations they live through, and how we can help them improve their lives and increase their freedoms. Beauvoir's main theory is that women, or what we understand by "women" (flirtatious,

frivolous, erratic, wild, etc.) is a cultural product that has been fabricated by society. Women have always defined themselves with respect to something: as a mother, as a wife, as a daughter, or sister . . . So, her main task should now be to regain her own identity by making up her own principles and standards.
