Taking Sides--library Index and Guide - 1989

This book is an index to the tables of contents, issues, and topics in the fourteen-volume library set of "Taking Sides".

Culture of Fear - Frank Furedi 1997

Safety has become the fundamental value of the 1990s. In a world obsessed with abuse, stranger danger, disease and environmental damage, we are constantly told that we are at risk, and urged to take greater precautions and seek more protection. Yet the facts often fail to support the scare stories about new or growing risks to our health and safety, so why do we panic? And what does the predisposition always to believe the worst about the human condition tell us about the society we live in today? Culture of Fear argues that the preoccupation with safety and survival reflects an outlook of low expectation and Frank Furedi critically examines the roots and the consequences of contemporary risk consciousness. Through challenging the fatalistic mood of the times, Furedi outlines a bold argument in favor of the human potential to confront problems and to take risks.

False Intimacy - Harry Schaumburg 2019-12-31

With frank honesty, False Intimacy offers realistic direction to those whose lives or ministries have been impacted by sexual addiction while examining the roots behind these behaviors. This compelling book examines different aspects of sexual addiction, including shame, purity, and forgiveness, while exploring one's true identity and God-given sexuality.

Healing the Wounds of Sexual Addiction - Mark Laaser 2009-05-26

Hope--real hope--for recovery is within reach. This book goes beyond cliché answers and offers meaningful, spiritual, and practical steps to healing and freedom from sexual addiction--or any addiction. With

today's rampant availability of Internet pornography, sexual addiction has become a national epidemic that affects an increasing number of Christians, even pastors and priests. As devastating as any drug habit, it brings heartbreak and despair to those it entangles. But there is help for men and women caught in sexual addiction's downward spiral. This book offers a path that leads beyond compulsive thoughts and behaviors to healing and transformation. Speaking from his own experience with sexual addiction and recovery, Dr. Mark Laaser is sensitive to the shame of sexual addiction without minimizing its sinfulness. He traces the roots of the problem, discusses its patterns and impact, and maps out a biblical approach to self-control and sexual integrity. Whether you know someone with a sexual addiction or struggle yourself, *Healing the Wounds of Sexual Addiction* points the way to understanding, wholeness, and holiness. Spanish edition also available; previously titled *Faithful and True*.

[Culture of Fear Revisited](#) - Frank Furedi 2006

representing a more constructive side of humanity.

Desire - Susan Cheever 2009-10-06

We've all felt the giddy flutter of excitement when our new lover walks into the room. Waited by the phone, changed our plans...But are we in love, or is there something darker at work? In *Desire: Where Sex Meets Addiction*, Susan Cheever explores the shifting boundaries between the feelings of passion and addiction, desire and need, and she raises provocative and important questions about who we love and why. Elegantly written and thoughtfully composed, Cheever's book combines unsparing and intimate memoir, interviews and stories, hard science and psychology to explore the difference between falling in love and falling prey to an addiction. Part one defines what addiction is and how it works

-- the obsession, the betrayals, the broken promises to oneself and others. Part two explores the possible causes of addiction -- is it nature or nurture, a permanent condition or a temporary derangement? Part three considers what we can do about it, including a provocative suggestion about how we describe and treat addiction, and a look at the importance of community and storytelling. In the end, there are no easy answers. "A straight look about some crooked feelings," *Desire* shows us the difference between the addiction that cripples our emotions, and healthy, empowering love that enhances our lives.

Norman Mailer: Collected Essays of the 1960s (LOA #306) - Norman Mailer 2018-03-27

Politics, war, sex, boxing, and the art of writing: an era's most controversial writer at his slashing and provocative best. The electric and fearless essays of Norman Mailer were essential to the intellectual climate of 1960s America. Here, gathered into one volume for the first time by acclaimed Mailer biographer J. Michael Lennon, are all the essential essays from the classic collections *The Presidential Papers* (1963), *Cannibals and Christians* (1966), and *Existential Errands* (1972), each a fascinating window on one of the most extraordinary and tumultuous decades in the nation's history. A self-appointed exorcist of the culture's demons and an unrestrained mythologizer of his own identity, Mailer contemplated and often skewered icons of politics and literature, charted psychosexual undercurrents and covert power plays, and gloried in the exercise of a pugnacious prose style that was all his own. Whether writing about Jackie Kennedy or Sonny Liston, the realist tradition in America or the internal culture wars of the Republican Party, the death of Ernest Hemingway or the battle against censorship, Mailer was always ready to intervene in what he called "the years of the plague." LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon

markers, and are printed on premium acid-free paper that will last for centuries.

Sex, Drugs, Death, and the Law - David A. J. Richards 1986

Among the most commonly argued legal questions are those involving "victimless" crimes--consensual adult sexual relations (including homosexuality and prostitution), the use of drugs, and the right to die. How can they be distinguished from proper crimes, and how can we, as citizens, judge the complex moral and legal issues that such questions entail? David Richards, a teacher of law in the areas of constitutional and criminal law, and a moral and legal philosopher concerned with the investigation of legal concepts, applies an interdisciplinary approach to the question of overcriminalization, he draws on legal and philosophical arguments and links the subject to history, psychology, social science, and literature. To demonstrate how gross and unjust overcriminalization has developed, Professor Richards explores basic assumptions that often underlie the common American sense of proper criminalization.

A Male Grief - David Mura 1987

Sex and Isolation - Bruce Benderson 2007-10-02

Winner of France's 2004 Prix de Flore for his memoir *The Romanian: Story of an Obsession*, Bruce Benderson has gained international respect for his controversial opinions and original take on contemporary society. In this collection of essays, Benderson directs his exceptional powers of observation toward some of the most debated, as well as some of the most neglected, issues of our day. In *Sex and Isolation*, readers will encounter eccentric street people, Latin American literary geniuses, a French cabaret owner, a transvestite performer, and many other unusual characters; they'll visit subcultures rarely described in writing and be treated to Benderson's iconoclastic opinions about culture in former and contemporary urban society. Whether proposing new theories about the relationship between art, entertainment, and sex, analyzing the rise of the Internet and the disappearance of public space, or considering how religion and sexual identity interact, each essay demonstrates sharp wit, surprising insight and some startling intellectual positions. This is the

first American volume of Benderson's collected essays, featuring both new work and some of his best-known writings, including his famous essay "Toward the New Degeneracy." Outstanding University Press Book selection, Foreword Magazine

Yes Plus Yes - Abner Lewis 2021-02-02

This memoir is the story of my life between the ages of 18 and 38 (Years 2000 to 2020), and the moral significance of that time for me, touching upon issues ranging from being an adult virgin, and the loss of virginity, and sexuality, and being LGBT (being gay), to having body image problems, shyness, Social Anxiety Disorder, Autism, drug addiction and alcoholism, mental health and mental illness, low self-esteem, homophobia, and gay pride, coming out of the closet, gender, guilt, shame, embarrassment, stigma, fear, love, desire, lust, and things as basic as the human condition, and what it means to be human. The story begins my freshman year at Vassar College, where I spiraled down into drug addiction and alcoholism, and it ends 20 years later, when I have my first sexual experience with another human being. In between the start and the end is a story of adversity, trials, and triumph.

Compulsive Sexual Behaviours - Silva Neves 2021-05-10

Compulsive Sexual Behaviours offers a unique approach to the struggles people face with their out-of-control sexual behaviours. This comprehensive guide is deeply rooted in the science of sexology and psychotherapy, demonstrating why it is time to re-think the reductive concept of 'sex addiction' and move towards a more modern age of evidence-based, pluralistic and sex-positive psychotherapy. It is an important manual for ethical, safe and efficient treatment within a humanistic and relational philosophy. This book will be an important guide in helping clients stop their compulsive sexual behaviours as well as for therapists to self-reflect on their own morals and ethics so that they can be prepared to explore their clients' erotic mind.

Getting Off - Erica Garza 2018-01-09

"Erica Garza has written a riveting, can't-look-away memoir of a life lived hardcore...In an era when predatory male sexual behavior has finally become a topic of urgent national discourse...Getting Off makes for a

wild, timely read" (Elle). A fixation on porn and orgasm, strings of failed relationships and serial hook-ups with strangers, inevitable blackouts to blunt the shame—these are not things we often hear women share publicly, and not with the candor, eloquence, and introspection Erica Garza brings to *Getting Off*. What sets this courageous and riveting account apart from your typical misery memoir is the absence of any precipitating trauma beyond the garden variety of hurt we've all had to endure in simply becoming a person—reckoning with family, learning to be social, integrating what it means to be sexual. Whatever tenor of violence or abuse Erica's life took on through her behavior was of her own making, fueled by fear, guilt, self-loathing, self-pity, loneliness, and the hopelessness those feelings brought on as she runs from one side of the world to the other in an effort to break her habits—from East Los Angeles to Hawaii and Southeast Asia, through the brothels of Bangkok and the yoga studios of Bali to disappointing stabs at therapy and twelve-steps back home. In these remarkable pages, Garza draws an evocative, studied portrait of the anxiety that fuels her obsessions, as well as the exhilaration and hope she begins to feel when she suspects she might be free of them. *Getting Off* offers a brave and necessary voice to our evolving conversations about addiction and the impact that internet culture has had on us all—"a profoundly genuine, gripping story that any reader can appreciate" (Vice). "In reading Garza's insight into her own experiences, we better understand ourselves" (The New York Times Book Review).

Ending Discrimination Against People with Mental and Substance Use Disorders - National Academies of Sciences, Engineering, and Medicine 2016-09-03

Estimates indicate that as many as 1 in 4 Americans will experience a mental health problem or will misuse alcohol or drugs in their lifetimes. These disorders are among the most highly stigmatized health conditions in the United States, and they remain barriers to full participation in society in areas as basic as education, housing, and employment. Improving the lives of people with mental health and substance abuse disorders has been a priority in the United States for more than 50 years.

The Community Mental Health Act of 1963 is considered a major turning point in America's efforts to improve behavioral healthcare. It ushered in an era of optimism and hope and laid the groundwork for the consumer movement and new models of recovery. The consumer movement gave voice to people with mental and substance use disorders and brought their perspectives and experience into national discussions about mental health. However over the same 50-year period, positive change in American public attitudes and beliefs about mental and substance use disorders has lagged behind these advances. Stigma is a complex social phenomenon based on a relationship between an attribute and a stereotype that assigns undesirable labels, qualities, and behaviors to a person with that attribute. Labeled individuals are then socially devalued, which leads to inequality and discrimination. This report contributes to national efforts to understand and change attitudes, beliefs and behaviors that can lead to stigma and discrimination. Changing stigma in a lasting way will require coordinated efforts, which are based on the best possible evidence, supported at the national level with multiyear funding, and planned and implemented by an effective coalition of representative stakeholders. Ending Discrimination Against People with Mental and Substance Use Disorders: The Evidence for Stigma Change explores stigma and discrimination faced by individuals with mental or substance use disorders and recommends effective strategies for reducing stigma and encouraging people to seek treatment and other supportive services. It offers a set of conclusions and recommendations about successful stigma change strategies and the research needed to inform and evaluate these efforts in the United States.

So Sad Today - Melissa Broder 2016-05-12

So sad today? Many are. Melissa Broder is too. How and why did she get to be so sad? And should she stay sad? She asks herself these questions over and over here, turning them into a darkly mesmerising and strangely uplifting reading experience through coruscating honesty and a total lack of self-deceit. Sexually confused, a recovering addict, suffering from an eating disorder and marked by one very strange sex

fetish: Broder's life is full of extremes. But from her days working for a Tantric nonprofit in San Francisco to caring for a severely ill husband, there's no subject that Broder is afraid to write about, and no shortage of readers who can relate. When she started an anonymous Twitter feed @sosadtoday to express her darkest feelings, her unflinching frankness and twisted humour soon gained a huge cult following. In its treatment of anxiety, depression, illness, and instability; by its fearless exploration of the author's romantic relationships (romantic is an expanded term in her hands); and with its inventive imagery and deadpan humour, So Sad Today is radical. It is an unapologetic, unblinkingly intimate book that splays out a soul and a prose of unusual beauty. PRAISE FOR MELISSA BRODER 'Broder's essays often left me with a sharp sense of feminine recognition. I would read her accounts of heartbreak, sexual dissatisfaction, and alienation and think, Same ...' The New Yorker 'Her writing ... feels like a friend reaching out and saying "Hey, me too."' i-D **Drugs and Drug Use. Understandings of the Term 'Addiction'** - Gavin Hutchison 2015-07-03

Essay from the year 2015 in the subject Medicine - Other, , language: English, abstract: In contemporary discourse 'addiction' can be applied to any number of behaviours or activities. For example "[i]n today's society, we have sex-aholics, choc-aholics, work-aholics, shop-aholics, and golf-aholics. We have self-help programs called overeaters-anonymous, gamblersanonymous, internet-sex-anonymous, and smokers-anonymous". This recent discourse of addiction can be manipulated by 'addicts' to justify their behaviour, and to create sympathy towards them. Those claiming addiction may in fact not be an addict, however they now realise it is now more socially acceptable to be deemed an 'addict' than just participant in 'addictive' behaviors. This essay will concern itself with discourses of addiction to drugs. Understandings of addiction to substances such as narcotics, tobacco and alcohol have been conceptualised and re conceptualised throughout recent history. Early biological and pharmacological theories of addiction still dictate policy on 'addictive' substances, however social and psychological theories have gained momentum and explain aspects of addiction biological

theories do not.

Betrayal and Other Acts of Subversion - Leslie Bow 2011-10-16

Asian American women have long dealt with charges of betrayal within and beyond their communities. Images of their "disloyalty" pervade American culture, from the daughter who is branded a traitor to family for adopting American ways, to the war bride who immigrates in defiance of her countrymen, to a figure such as Yoko Ono, accused of breaking up the Beatles with her "seduction" of John Lennon. Leslie Bow here explores how representations of females transgressing the social order play out in literature by Asian American women. Questions of ethnic belonging, sexuality, identification, and political allegiance are among the issues raised by such writers as Jeanne Wakatsuki Houston, Bharati Mukherjee, Jade Snow Wong, Amy Tan, Sky Lee, Le Ly Hayslip, Wendy Law-Yone, Fiona Cheong, and Nellie Wong. Beginning with the notion that feminist and Asian American identity are mutually exclusive, Bow analyzes how women serve as boundary markers between ethnic or national collectives in order to reveal the male-based nature of social cohesion. In exploring the relationship between femininity and citizenship, liberal feminism and American racial discourse, and women's domestic abuse and human rights, the author suggests that Asian American women not only mediate sexuality's construction as a determiner of loyalty but also manipulate that construction as a tool of political persuasion in their writing. The language of betrayal, she argues, offers a potent rhetorical means of signaling how belonging is policed by individuals and by the state. Bow's bold analysis exposes the stakes behind maintaining ethnic, feminist, and national alliances, particularly for women who claim multiple loyalties.

Expanding Addiction: Critical Essays - Robert Granfield 2014-12-09

The study of addiction is dominated by a narrow disease ideology that leads to biological reductionism. In this short volume, editors Granfield and Reinerman make clear the importance of a more balanced contextual approach to addiction by bringing to light critical perspectives that

expose the historical and cultural interstices in which the disease concept of addiction is constructed and deployed. The readings selected for this anthology include both classic foundational pieces and cutting-edge contemporary works that constitute critical addiction studies. This book is a welcome addition to drugs or addiction courses in sociology, criminal justice, mental health, clinical psychology, social work, and counseling.

About Face - Douglas Gosse 2019-01-15

About Face: Essays on Addictions, Recovery, Therapies, and Controversies seeks to broaden the conversation around addiction in Canada. Featuring essays by a diverse group of writers, *About Face* delves into the major categories of addiction: drugs, alcohol, sex, pornography, video games, gambling, body dysmorphia, and eating disorders. With stories by those suffering from addictions, experts in the field, and service providers, this anthology is a far-reaching intervention into one of our country's most rapidly expanding social problems.

Clinical Management of Sex Addiction - Patrick Carnes 2013-06-17

This is the first comprehensive volume of the clinical management of sex addiction. Collecting the work of 28 leaders in this emerging field, the editors provide a long-needed primary text about how to approach treatment with these challenging patients. The book serves as an excellent introduction for professionals new to the field as well as serving as a useful reference tool. The contributors are literally the pioneers of one of the last frontiers of addiction medicine and sex therapy. With a growing awareness of sex addiction as a problem, plus the advent of cybersex compulsion, professional clinicians are being confronted with sexual compulsion with little clinical or academic preparation. This is the first book distilling the experience of the leaders in this emerging field. With a focus on special populations, it also becomes a handy problem-solving tool. Readable, concise, and filled with useful interventions, it is a key text for a problem clinicians must be able to identify. It is destined to be a classic reference.
