Transgender Health and HIV Prevention - Walter O. Bockting
2006-01-04

Get the latest assessment of the health needs of the transgender population. The impact of the HIV/AIDS epidemic on the transgender community has been tragically ignored, and as yet there is surprisingly little research data on the subject of health care and HIV prevention in this marginalized population. *Transgender Health and HIV Prevention* fills this void by providing a groundbreaking empirical assessment of the health needs of transgender persons in several areas around the United States. Respected experts discuss issues that hinder the effectiveness of HIV prevention programs, including housing, mental health, and employment, as well as the unique broader problems of social stigma, discrimination, and the lack of transgender knowledge and sensitivity on the part of health providers and prevention workers. Even though recent studies show estimated HIV infection rates to be as much as 60 percent among specific transgender populations in the United States, the transgender community continues to receive inadequate healthcare support. *Transgender Health and HIV Prevention* tackles the problems inherent in the healthcare system by first assessing the needs of transgender persons, then offering specific practical recommendations for remedy. Top researchers in partnership with community members in San Francisco, Houston, Washington DC, Chicago, Boston, Philadelphia, New England, San Juan, and Minneapolis/St. Paul bring empirical data together to assess what has to be done to effectively stem the HIV epidemic. This essential resource is extensively referenced with several tables to clarify data. *Transgender Health and HIV Prevention* explores in detail: health and social services needs of African-Americans, Latinas, and Asian/Pacific Islanders sources for the high rates of HIV infection

among male-to-female transgender persons the prevalence of physical and sexual violence, substance abuse, and unemployment in the transgender community risk behaviors of male-to-female transgender persons health care providers' ignorance, insensitivity, and discrimination—with training strategies to increase patient access and effectiveness of care how traditional notions about femininity affect risk behaviors a comparison between transgender persons and other sexual minorities *Transgender Health and HIV Prevention* is crucial, one-of-a-kind reading for educators, students, researchers, public health professionals, social workers, health care providers, HIV/AIDS caregivers, and prevention workers.

Handbook of Sexuality-Related Measures - Clive M. Davis 1998

Fundamental to understanding human sexual expression is reliable and valid measurement and assessment. Many instruments have been developed to measure a myriad of sexuality-related states, traits, behaviors, and outcomes. Few are easily accessible and the information is limited concerning appropriate use and psychometric properties. In *Handbook of Sexuality-Related Measures*, more than 200 instruments are reproduced, accompanied by the necessary information for their use in research, as well as educational and clinical settings. Measures relating to more than 50 topics are included. Examples are abortion, aging, arousal, general and specific attitudes and behavior, contraception, dysfunctions, education, experience, gender identity, homosexuality, ideology, jealousy, knowledge, masturbation, orgasm, rape, and sexually transmitted diseases. Each chapter describes the development and appropriate use of each instrument, giving information on timing, scoring, and interpretation. Reliability and validity data are summarized and completely referenced. Nearly all articles include the entire instrument; others provide illustrative content from the instrument and give all necessary information to obtain the instrument.

Too Many Changes - Pat Dinda 2013-11-25

Too Many Changes continues with the life of Pat Lupton as he deals with the ever present reality of drugs, drug abuse, sex, peer pressure and suicide on high school students. Pat Lupton is a reformed drug user who was abused by his father. Overcoming his disabilities earned him the experience necessary to effectively help others. As he settles into his life in Stowell, Texas, he finds satisfaction through his work with the students. This Saga chronicles Pat's successes and failures. Influenced

by his caustic origins and fighting to overcome his prejudices and fears, we find a compelling drama of development which turns negative influences into positive societal contributions. This book is the third in the Lupton Saga series.

[African Journal of Reproductive Health](#) - Friday Okonofua 2013-05-01
 African Journal of Reproductive Health (AJRH) is a multidisciplinary and international Journal published quarterly (March, June, September, and December) by the Women's Health and Action Research Centre (a Non-governmental Organization with headquarters in Nigeria). The publication of the journal started in 1997. As of December 2012, 51 editions have been published. The journal focuses on publishing original research, comprehensive review articles, short reports and commentaries on reproductive health in Africa. It strives to provide a forum for both African and foreign authors working in Africa to share findings about all aspects of reproductive health and also to disseminate innovative, relevant, and useful information on reproductive health throughout the continent.
