Exiled in America Christopher P. Dum 2016-10-04 Residential motels have long been places of last resort for many vulnerable Americans—released prisoners, people with disabilities or mental illness, struggling addicts, the recently homeless, and the working poor. Cast aside by their families and mainstream society, they survive in squalid, unsafe, and demeaning circumstances that few of us can imagine. For a year, the sociologist Christopher P. Dum lived in the Boardwalk Motel to better understand its residents and the varied paths that brought them there. He witnessed moments of violence and conflict, as well as those of care and compassion. As told through the voices and experiences of motel residents, *Exiled in America* paints a portrait of a vibrant community whose members forged identities in response to overwhelming stigma and created meaningful lives despite crushing economic instability. In addition to chronicling daily life at the Boardwalk, Dum follows local neighborhood efforts to shut the establishment down, leading to a wider analysis of legislative attempts to sanitize shared social space. He also suggests meaningful policy changes to address the societal failures that lead to the need for motels such as the Boardwalk. The story of the Boardwalk,

and the many motels like it, will concern anyone who cares about the lives of America's most vulnerable citizens.

Criminal Procedures Marc L. Miller 2023-02-01 Criminal Procedures: Prosecution and Adjudication, by Marc Miller, Ronald Wright, Jenia Turner, and Kay Levine, focuses on the interactions among multiple institutions in shaping the law of Criminal Procedure, bringing state courts, legislatures, prosecutor offices, and public defenders into the picture alongside the U.S. Supreme Court. Buy a new version of this textbook and receive access to the Connected eBook with Study Center on CasebookConnect, including: lifetime access to the online ebook with highlight, annotation, and search capabilities; practice questions from your favorite study aids; an outline tool and other helpful resources. Connected eBooks provide what you need most to be successful in your law school classes. In Criminal Procedures: Prosecution and Adjudication: Cases, Statutes, and Executive Materials, the highly respected author team presents a student-friendly, comprehensive survey of the laws and practices at work between the time a person is charged and the moment when the courts hear an appeal after the offender's conviction and sentence. In the Sixth Edition, the authors retain the vitality and contemporary approach of the book with an updated selection of cases, statutes, and office policies. Covering in detail the "bail-to-jail" portions of the criminal process, this casebook features extensive use of documents from multiple institutions including U.S. Supreme Court cases, state high court cases, state and federal statutes, rules of procedure, and prosecutorial policies; a real-world perspective that focuses on high-volume issues of current importance to defendants, lawyers, courts, legislators, and the public; interdisciplinary examination of the impact that different procedures have on the enforcers, lawyers, courts, communities, defendants, and victims; points of comparison between U.S. practices and the systems at work in other countries; and frequent use of Problems to give the instructor options for applying concepts and doctrines in realistic practice settings. New to the 7th Edition: Coverage of declination and plea negotiation policies in the offices of "progressive prosecutors." Enhanced coverage of the operation of state speedy trial statutes in high-volume courts. Fresh evaluation of historical trends and current practices in plea bargaining. Coverage of recent rulings of the U.S. Supreme Court on jury selection and unanimous jury verdicts. Professors and students will benefit from: Materials that support class discussion, including criminal justice actors beyond the nine Justices of the U.S. Supreme Court: the vision is "street-level federalism." Materials that give students a nuanced portrait of current

practices in criminal justice rather than a rushed historical narrative about doctrinal trends. Supporting website that offers exemplar documents, recent news with relevance for criminal procedure, and brief video lectures to introduce each major unit. Emphasis on high-volume practical issues in criminal procedure instead of intricate but rarely-encountered questions. Intuitive organization - tracking the typical order of events in criminal court - that makes it easy to see connections among different areas of the law.

The End of Policing Alex S. Vitale 2021-12-07 The best-selling bible of the movement to defund the police in an updated edition The massive uprising that followed the police killing of George Floyd in the summer of 2020— by some estimates the largest protests in US history—thrust the argument to defund the police to the forefront of international politics. That case had been put persuasively a few years earlier in *The End of Policing* by Alex Vitale, now a leading figure in the urgent public discussion over policing and racial justice. The central problem, Vitale demonstrates, is the dramatic expansion of the police role over the last forty years. Drawing on firsthand research from across the globe, he shows how the implementation of alternatives to policing—such as drug legalization, regulation, and harm reduction instead of the policing of drugs—has led to reductions in crime, spending, and injustice. This updated edition includes a new introduction that takes stock of the renewed movement to challenge police impunity and shows how we move forward, evaluating protest, policy, and the political situation.

Too Easy to Keep Steve Herbert 2019-01-08 “Some guys don’t break any rules. They do their jobs, they go to school, they don’t commit any infractions, they keep their cells clean and tidy, and they follow the rules. And usually those are our LWOPs [life without parole]. They’re usually our easiest keepers.” *Too Easy to Keep* directs much-needed attention toward a neglected group of American prisoners—the large and growing population of inmates serving life sentences. Drawing on extensive interviews with lifers and with prison staff, *Too Easy to Keep* charts the challenges that a life sentence poses—both to the prisoners and to the staffers charged with caring for them. Surprisingly, many lifers show remarkable resilience and craft lives of notable purpose. Yet their eventual decline will pose challenges to the institutions that house them. Rich in data, *Too Easy to Keep* illustrates the harsh consequences of excessive sentences and demonstrates a keen need to reconsider punishment policy.

Dark Ecology Timothy Morton 2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in *Blade Runner* (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

Driven To Kill Gary C. King 2011-07-30 The true crime story of sex killer Westley Allan Dodd--his victims were too small to fight...and too young to die! Includes eyewitness execution report. By all appearances, twenty-nine-year-old Westley Allan Dodd was the perfect all-American boy—model high school student, camp counselor and U.S. Navy enlistee. But behind his mask of normalcy lurked a predatory sex fiend with a seventeen-year history of appalling acts of molestation and violence. Children were his victims and the parks of the Pacific Northwest his personal hunting grounds. On September 4, 1989, his unnatural desires had driven him past simple satisfaction to abduct, torture, and kill two young boys in Vancouver, Washington. Undetected despite his record, Dodd killed a third innocent victim only weeks later near Portland, Oregon. But only when he was caught trying to kidnap a child from a local movie theater was he finally taken into custody by police. Confessing to these heinous murders, he was convicted on all three counts and sentenced to death. Based on exclusive access to police files and riveting trial testimony, personal interviews with Dodd himself and excerpts from his chilling "diary of death," *Driven to Kill* dramatically recounts a hideous spree of death and horror that brought every parent's worst nightmare frighteningly to life! "Horrific...This story will leave you gasping." True crime author Jack Olsen

Assessing the Youthful Offender Robert D. Hoge 2013-06-29 Our society's preoccupation with crime and fear of crime appears to have shifted its focus to the juvenile offender. Both electronic and print media continuously warn us that juvenile offenders are increasingly younger and more virulent. The demographics of our population suggest that there will only be more juvenile offenders to fear in the near future. All of these concerns arise in a social climate that is characterized by an ever increasing demand for stronger retributive measures against the offender. The belief that only harsh justice will protect us from the ravages of juveniles has become dominant. Increasingly, perceptions and politics, rather than scientific data, dominate policy making with regard to youthful offenders. In *Assessing the Youthful Offender: Issues and Techniques*, Robert D. Hoge and D. A. Andrews make a restrained, rational, and ultimately persuasive argument for the use of standardized psychological assessments in the effective management of youth within juvenile justice systems. They clarify how what we already know about the cause and management of youthful criminal activity can be incorporated into standardized testing and that the information obtained from testing can improve the administration of criminal justice. Moreover, this information is useful whatever the theoretical biases of those who administer the justice system. The efficiency of policies of either retribution, deterrence, or rehabilitation is only enhanced by reliance on data.
