

Simone De Beauvoirs The Second Sex Online Download PDF

[The Works of Simone de Beauvoir](#) - Simone de Beauvoir 2011-04-28

This collection of classic titles by Beauvoir her most well know writings, The Second Sex and The Ethics Of Ambiguity as well as a biography of her life and a rare interview on her book The Second Sex. French writer and feminist, and Existentialist. She is known primarily for her treatise The Second Sex (1949), a scholarly and passionate plea for the abolition of what she called the myth of the "eternal feminine." It became a classic of feminist literature during the 1960s. Her novels expounded the major Existential themes, demonstrating her conception of the writer's commitment to the times. She Came To Stay (1943) treats the difficult problem of the relationship of a conscience to "the other". Of her other works of fiction, perhaps the best known is The Mandarins (1954), a chronicle of the attempts of post-World War II intellectuals to leave their "mandarin" (educated elite) status and engage in political activism. She also wrote four books of philosophy, including The Ethics of Ambiguity (1947). Several volumes of her work are devoted to autobiography which constitute a telling portrait of French intellectual life from the 1930s to the 1970s. In addition to treating feminist issues, de Beauvoir was concerned with the issue of aging, which she addressed in A Very Easy Death (1964), on her mother's death in a hospital. In 1981 she wrote A Farewell to Sartre, a painful account of Sartre's last years. Simone de Beauvoir revealed herself as a woman of formidable courage and integrity, whose life supported her thesis: the basic options of an individual must be made on the premises of an equal vocation for man and woman founded on a common structure of their being, independent of their sexuality. Table of Contents: The Second Sex, On the publication of The Second Sex, interview The Ethics of Ambiguity, Biography

Simone de Beauvoir, Philosophy, & Feminism - Nancy Bauer 2001

In the introduction to The Second Sex, Simone de Beauvoir notes that "a man never begins by establishing himself as an individual of a certain sex: his being a man poses no problem." Nancy Bauer begins her book by asking: "Then what kind of a problem does being a woman pose?" Bauer's aim is to show that in answering this question The Second Sex dramatizes the extent to which being a woman poses a philosophical problem. In exploring what it might mean to philosophize as a woman, Beauvoir produced a book that not only sparked the contemporary feminist movement but also, Bauer argues, made an important but still profoundly undervalued contribution to the philosophical tradition.

An Analysis of Simone de Beauvoir's The Second Sex - Rachele Dini 2017-07-05

Simone de Beauvoir's 1949 book The Second Sex is a masterpiece of feminist criticism and philosophy. An incendiary take on the place of women in post-war French society, it helped define major trends in feminist thought for the rest of the 20th century, and its influence is still felt today. The book's success owes much to Beauvoir's brilliant writing style and passion, but both are rooted in the clarity of her critical thinking skills. She builds a strong argument against the silent assumptions that continually demoted (and still demote) women to "second place" in a society dominated by men. Beauvoir also demonstrates the central skills of reasoning at their best: presenting a persuasive case, organising her thoughts, and supporting her conclusions. Above all, though, The Second Sex is a masterclass in analysis. Treating the structures of contemporary society and culture as a series of arguments that tend continuously to demote women, Beauvoir is able to isolate and describe the implicit assumptions that underpin male domination. Her demolition of these assumptions provides the crucial ammunition for her argument that women are in no way the "second" sex, but are in every way the equal of men.

She Came to Stay - Simone de Beauvoir 1999

Set in Paris on the eve of World War II, the novel draws upon Simone de Beauvoir's relationship with Jean-Paul Sartre, and the affair that almost destroyed it.

Simone de Beauvoir's Philosophy of Age - Silvia Stoller 2014-04-01

Age and aging are pressing social-political issues. Yet, philosophers still have not paid sufficient attention to

one of the major explorations of this topic, Simone de Beauvoir's seminal work The Coming of Age (1970). For much too long, it has been overshadowed by her other groundbreaking work, The Second Sex (1949). Now, for the first time, this volume focuses on Beauvoir's essay on old age and critically explores its significance from a phenomenological and feminist perspective. International Beauvoir scholars and renowned feminist phenomenologists from Europe and North America offer a unique look at one of the 20th century's most outstanding existential-philosophical studies on age and aging. Thematically, the articles and short comments collected in this volume cover three main issues which are crucial with respect to an investigation of Beauvoir's study on age: gender, ethics, and time. The volume essentially contributes to Beauvoir studies, aging studies, cultural and gender studies, feminist theory, phenomenology, and existential philosophy.

Phenomenology World-Wide - Anna-Teresa Tymieniecka 2014-11-14

Phenomenology is the philosophy of our times. Through the entire twentieth century this philosophy unfolded and flourished, following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl. Now its seminal ideas have been handed over to a new era. The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers. It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge, transforming our way of seeing the world, our actions toward others, and our lives. Phenomenology's universal spread has, however, oftentimes diluted its original sense, even beyond recognition, and led to a weakening of its dynamics. There is at present an urgent need to retrieve the original understanding of phenomenology, to awaken its dormant forces and redirect them. This is the aim of the present book: resourcement and reinvigoration. It is meant to be not only a reference work but also a guide for research and study. To restore the authentic vision of phenomenology, we propose returning to its foundational source in Husserl's project of a 'universal science', unpacking all its creative capacities. In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality: ideal structures, constitutive consciousness, the intersubjective lifeworld, and beyond. The key concepts and phases of Husserl's thought are here exfoliated. Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated. Phenomenology's geographic spread is reviewed. We then proceed to the culminating work of this philosophy, to the phenomenological life engagements so vigorously advocated by Husserl, to the life-significant issues phenomenology addresses and to how it has enriched the human sciences. Lastly the phenomenological project's new horizons on the plane of life are limned, horizons with so powerful a draw that they may be said not to beckon but to summon. Here is the movement's vanguard. This collection has 71 entries. Each entry is followed by a relevant bibliography. There is a helpful Glossary of Terms and an Index of Names.

The Independent Woman - Simone De Beauvoir 2018-11-06

"Like man, woman is a human being." When The Second Sex was first published in Paris in 1949—groundbreaking, risqué, brilliantly written and strikingly modern—it provoked both outrage and inspiration. The Independent Woman contains three key chapters of Beauvoir's masterwork, which illuminate the feminine condition and identify practical social reforms for gender equality. It captures the essence of the spirited manifesto that switched on light bulbs in the heads of a generation of women and continues to exert profound influence on feminists today.

[Simone de Beauvoir -- A Humanist Thinker](#) - 2015-07-14

This book is a novel contribution to contemporary research on Simone de Beauvoir, and a defense of the importance of the humanities. It reveals previously unexplored dimensions of Beauvoir's work by exposing her as a significant and inspiring humanist thinker. These essays argue that her works and influence testify

to the transformative potential of humanistic research.

Becoming Beauvoir - Kate Kirkpatrick 2019-08-22

"One is not born a woman, but becomes one", Simone de Beauvoir A symbol of liberated womanhood, Simone de Beauvoir's unconventional relationships inspired and scandalised her generation. A philosopher, writer, and feminist icon, she won prestigious literary prizes and transformed the way we think about gender with *The Second Sex*. But despite her successes, she wondered if she had sold herself short. Her liaison with Jean-Paul Sartre has been billed as one of the most legendary love affairs of the twentieth century. But for Beauvoir it came at a cost: for decades she was dismissed as an unoriginal thinker who 'applied' Sartre's ideas. In recent years new material has come to light revealing the ingenuity of Beauvoir's own philosophy and the importance of other lovers in her life. This ground-breaking biography draws on never-before-published diaries and letters to tell the fascinating story of how Simone de Beauvoir became herself.

The Cambridge Companion to Simone de Beauvoir - Claudia Card 2003-03-10

Table of contents

Translating Simone de Beauvoir's The Second Sex - Julia C. Bullock 2023-05-19

This collection offers insights into the transnational and translanguing implications of Simone de Beauvoir's *Le Deuxième Sexe* (*The Second Sex*), a text that has served as foundational for feminisms worldwide since its publication in 1949. Little scholarly attention has been devoted to how the original French-language source text made its way into languages other than English. This is a shocking omission, given that many (but by no means all) other translations were based on the 1953 English translation by Howard M. Parshley, which has been widely criticized by Beauvoir scholars for its omissions and careless attention to its philosophical implications. This volume seeks to fill this gap in scholarship with an innovative collection of essays that interrogate the ways that Beauvoir's essay has shifted in meaning and significance as it has travelled across the globe. This volume brings together for the first time scholars from Translation Studies, Literary Studies and Philosophical Studies, and over half of it is dedicated to non-Western European engagements with *Le Deuxième Sexe* (including chapters on the Chinese, Japanese, Arabic, Hungarian and Polish translations). As such, this collection will be essential to any scholar of Beauvoir's philosophy and its contributions to feminist discourses.

All Men Are Mortal - Simone de Beauvoir 2003-01-01

Probably de Beauvoir's strangest and most compelling novel, this is the captivating story of a beautiful young actress who revives a downcast stranger at a French resort. He becomes thoroughly attached to her and confides a terrifying truth: he is immortal. But having been resuscitated into enjoying life again, he soon starts breaking free from her grasp and all notions of mortality.

A Very Easy Death - Simone De Beauvoir 1985-02-12

"[This book] has long been considered one of Simone de Beauvoir's masterpieces. The profoundly moving, day-by-day recounting of her mother's death, it is a deeply personal story that reveals a new side of the author and adds a dimension to the self-portrait that her other books have created. But it stands by itself too, as a classic account of an all-too-familiar yet unknown experience. Powerful and touching--and sometimes shocking--it is a story no reader is likely to forget."--p. [4] of cover.

Beauvoir in Time - Meryl Altman 2020

"Beauvoir in Time situates Simone de Beauvoir's *The Second Sex* in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: "bad sex," "dated" views about lesbians, and intersections with race and class. Through close reading of her writing in many genres, alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalytic and sexological authorities, ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies

obscure, showing Beauvoir is still good to think with today"--

Todos los hombres son mortales - Simone de Beauvoir 1997

Simone de Beauvoir (1908-1986) ha pasado a la historia como una de las figuras del siglo xx más comprometidas con los problemas de la sociedad occidental. Militante activa en favor de la emancipación de la mujer, su obra es la apasionada búsqueda de una moral profundamente humana. Destacan en su obra *La invitada*, *Las bellas imágenes*, *Todos los hombres son mortales*, *Ceremonia del adiós*, *La mujer rota*...

The Second Sex - Simone de Beauvoir 1997

Of all the writing that emerged from the existentialist movement, Simone de Beauvoir's groundbreaking study of women will probably have the most extensive and enduring impact. It is at once a work of anthropology and sociology, of biology and psychoanalysis, from the pen of a writer and novelist of penetrating imaginative power. *THE SECOND SEX* stands, five decades after its first appearance, as the first landmark in the modern feminist upsurge that has transformed perceptions of the social relationship of man and womankind in our time

She Came to Stay - Simone de Beauvoir 2006

Set in Paris on the eve of World War II, and sizzling with love, anger and revenge, "She Came to Stay" explores the changes wrought in the soul of a woman and a city soon to fall.

All Men are Mortal - Simone de Beauvoir 1995

When the beautiful, ambitious actress Regina takes Fosca into her life and learns his amazing truth, she is obsessed with the thought that in his memory her performances will live for ever. But, as he recounts the story of his existence over more than six centuries, as she learns of his involvement in some of the most significant events in history and how human hope and love have withered in him, she finally understands the implications for him and for love. *ALL MEN ARE MORTAL* was filmed in 1994, starring Irene Jacob, Marianne Sagebrecht and Stephen Rea.

A Companion to Simone de Beauvoir - Laura Hengehold 2017-10-02

Winner of the 2018 Choice award for Outstanding Academic Title! The work of Simone de Beauvoir has endured and flowered in the last two decades, thanks primarily to the lasting influence of *The Second Sex* on the rise of academic discussions of gender, sexuality, and old age. Now, in this new Companion dedicated to her life and writings, an international assembly of prominent scholars, essayists, and leading interpreters reflect upon the range of Beauvoir's contribution to philosophy as one of the great authors, thinkers, and public intellectuals of the twentieth century. The Companion examines Beauvoir's rich intellectual life from a variety of angles—including literary, historical, and anthropological perspectives—and situates her in relation to her forbears and contemporaries in the philosophical canon. Essays in each of four thematic sections reveal the breadth and acuity of her insight, from the significance of *The Second Sex* and her work on the metaphysics of gender to her plentiful contributions in ethics and political philosophy. Later chapters trace the relationship between Beauvoir's philosophical and literary work and open up her scholarship to global issues, questions of race, and the legacy of colonialism and sexism. The volume concludes by considering her impact on contemporary feminist thought writ large, and features pioneering work from a new generation of Beauvoir scholars. Ambitious and unprecedented in scope, *A Companion to Simone de Beauvoir* is an accessible and interdisciplinary resource for students, teachers, and researchers across the humanities and social sciences.
