Don't Talk to Strangers Bethany Campbell 2010-01-13 They were strangers in a seductive game of hide-and-seek. One by one, the women were disappearing. Each had been young, vulnerable...and each had been spending time on the Internet "chatting" with a mysterious stranger. It was Carrie Blue's job to track down that stranger, to put herself on the Internet in the guise of a lonely young student, and to smoke out a cunningly seductive killer. But soon Carrie is drawn inexorably into a world where truth is indistinguishable from fiction, where fantasy and reality collide. It proves far more difficult than she ever could have imagined to resist the lure of a twisted mind--one that may already have figured out who Carrie is, and marked her as his next kill.

Girl Talk Jacqueline Mroz 2018-11-13 A veteran science reporter's investigation into the fascinating and distinctive nature of women's friendships In *Girl Talk*, New York Times science reporter Jacqueline Mroz takes on the science of female friendship -- a phenomenon that's as culturally powerful as it is individually mysterious. She examines friendship from a range of angles, from the historical to the experiential, with a scientific analysis that reveals new truths about what leads us to connect and build alliances, and then "break up" when a friendship no longer serves us. Mroz takes a new look at how friendship has evolved throughout history, showing how friends tend to share more genetic commonalities than strangers, and that the more friends we have, the more empathy and pleasure chemicals are present in our brains. Scientists have also reported that friendship directly influences health and longevity; women with solid, supportive friendships experience fewer "fight or flight" impulses and stronger heart function, and women without friendships tend to develop medical challenges on par with those associated with smoking and excessive body weight. With intimate reporting and insightful analysis, Mroz reveals new awareness about the impact of women's friendships, and how they shape our culture at large.

Talking to Strangers Marianne Boucher 2020-04-07 For fans of *Wild Wild Country*, *Scientology* and the *Aftermath* and *Uncover: Escaping NXIVM*, a spellbinding graphic memoir about a teenage girl who was lured into a cult and later fought to escape and reclaim her identity. Welcome to a place where you are valued. Where everyone is kind. Where you can be your truest self. It was the summer of 1980, and Marianne Boucher was ready to chase her figure skating dream. Fuelled by the desire to rise above her mundane high-school life, she sought a new adventure as a glamorous performer in L.A. And then a chance encounter on a California beach introduced her to a new group of people. People who shared her distrust of the status quo. People who seemed to value authenticity and compassion above all else. And they liked her. Not Marianne the performer, but Marianne the person. Soon, she'd abandoned school, her skating and, most dramatically, her family to live with her new friends and help them fulfill their mission of "saving the world." She believed that no sacrifice was too great to be there--and to live with real purpose. They were helping people, and they cared about her . . . didn't they? *Talking to Strangers* is the true story of Marianne Boucher's experiences in a cult, where she was subjected to

sophisticated brainwashing techniques that took away her freedom, and took over her mind. Told in mesmerizing graphic memoir form, with vivid text and art alike, Marianne shares how she fell in with devotees of a frightening spiritual abuser, and how she eventually, painfully, pulled herself out.

Conversations on Love Natasha Lunn 2022-04-19 An investigation of love in all its forms, featuring conversations with Lisa Taddeo, Esther Perel, Emily Nagoski, Kate Bowler, Alain de Botton, Stephen Grosz, Roxane Gay and others Journalist Natasha Lunn was almost 30 when she realized that there was no map for understanding love. While she was used to watching friends fall in and out of love, the older she got the more she had to acknowledge: her friends' relationship struggles could no longer be chalked up to youth, and the more she learned about her parents, grandparents, work colleagues, and mentors the clearer it became that age had not brought any of them any closer to understanding this elusive, transformative, consuming emotion. One night during the months she found this realization settling over her, she sat up in bed and jotted three words in a notebook: conversations on love. In that moment, Lunn understood that she didn't want advice about love, she wasn't looking for the answers, or evergreen wisdom but she craved candid, wide-ranging, sometimes uncomfortable conversations about the parts of love that often don't make it into our everyday discussions of marriage, sibling relationships, friendships, or mother/daughter bonds. *Conversations on Love* started as an experiment aimed at interviewing experts about what love meant to them, in all of it's messiness, and quickly blossomed into a newsletter that attracted thousands of subscribers and a prestigious range of interviewees. It turns out that Lunn wasn't the only person ready to talk more openly and expansively about love. Interweaving personal essays and revealing interviews with some of the most sought-after experts on love, journalist Natasha Lunn guides us through the paradoxical heart of three key questions about love--How do we find love? How do we sustain it? And how do we survive when we lose it?--to deliver a book that is a solace, a beacon, a call to arms, a tool-kit. The real-life love stories in these pages will leave you hopeful and validated, while the insights from experts will transform the way you think about your relationships. Above all, *Conversations on Love* will remind you what love is: fragile, sturdy, mundane, beautiful, always worth fighting for.

Perspectives on Marital Interaction Patricia Noller 1988 This book explores the subject of marital interaction. It brings together the work of international scholars and is divided into four sections: communication as a means by which couples manage everyday life; communication as a means of expression of emotion; communication and problem-solving; coping with relationships outside marriage. The text is interdisciplinary and looks at the issue from various angles: social psychology, clinical psychology and communications. Particular attention is paid to the emergence of

sex differences in interaction patterns and the experience of counselling plays an important part.

Men and Women in Interaction Elizabeth Aries 1996 For many years the dominant focus in gender relations has been the differences between men and women. Authors such as Deborah Tannen (*You Just Don't Understand*) and John Gray (*Men are from Mars, Women are from Venus*) have argued that there are deep-seated and enduring differences between male and female personalities, styles, even languages. Elizabeth Aries sees the issue as more complex and dependent on several variables, among them the person's status, role, goals, conversational partners, and the characteristics of the situational context. Aries discusses why we emphasize the differences between the sexes, the ways in which these are exaggerated, and how we may be perpetuating the very stereotypes we wish to abandon. For psychologists and researchers of gender and communication, this book will illuminate recent studies in gender relations. For general readers it will offer a stimulating counterpoint to prevailing views.

If You Find This Letter Hannah Brencher 2015-03-10 A heartwarming memoir of love and faith from Hannah Brencher—founder of *The World Needs More Love Letters*—who has dedicated her life to showing total strangers that they are not alone in the world. Fresh out of college, Hannah Brencher moved to New York ready to change the world. Instead, she found a city full of people who knew where they were going and what they were doing and didn't have time for a girl still trying to figure it all out. Lonely and depressed, she noticed a woman who looked like she felt the same way on the subway. Hannah did something strange—she wrote the woman a letter. She folded it, scribbled “If you find this letter, it's for you...” on the front and left it behind. When she realized that it made her feel better, she started writing and leaving love notes all over the city—in doctor's offices, in coat pockets, in library books, in bathroom stalls. Feeling crushed within a culture that only felt like connecting on a screen, she poured her heart out to complete strangers. She found solace in the idea that her words might brighten someone's day. Hannah's project took on a life of its own when she made an offer on her blog: She would handwrite a note and mail it to anyone who wanted one. Overnight, her inbox exploded with requests from people all over the world. Nearly 400 handwritten letters later, she started the website, *The World Needs More Love Letters*, which quickly grew. There is something about receiving a handwritten note that is so powerful in today's digital era. *If You Find This Letter* chronicles Hannah's attempts to bring more love into the world—and shows how she rediscovered her faith through the movement she started.

Stranger in the Shogun's City Amy Stanley 2020-07-14 * Nominated for the 2020 National Book Critics Circle Award * Finalist for the 2021 PEN/Jacqueline Bograd Weld Award for Biography * A vivid, deeply researched work of history that explores the life of an unconventional woman during the first half of the 19th century in Edo—the city that would become Tokyo—and a portrait of a great city on the brink of a momentous encounter with the West. The daughter of a Buddhist priest, Tsuneno was born in a rural Japanese village and was expected to live a traditional life much like her mother's. But after three divorces—and a temperament much too strong-willed for her family's approval—she ran away to make a life for herself in one of the largest cities in the world: Edo, a bustling metropolis at its peak. With Tsuneno as our guide, we experience the drama and excitement of Edo just prior to the arrival of American Commodore Perry's fleet, which transformed Japan. During this pivotal moment in Japanese

history, Tsuneno bounces from tenement to tenement, marries a masterless samurai, and eventually enters the service of a famous city magistrate. Tsuneno's life provides a window into 19th-century Japanese culture—and a rare view of an extraordinary woman who sacrificed her family and her reputation to make a new life for herself, in defiance of social conventions. Immersive and fascinating, *Stranger in the Shogun's City* is a revelatory work of history, layered with rich detail and delivered with beautiful prose, about the life of a woman, a city, and a culture.

Strangers in Their Own Land Arlie Russell Hochschild 2018-02-20 The National Book Award Finalist and New York Times bestseller that became a guide and balm for a country struggling to understand the election of Donald Trump "A generous but disconcerting look at the Tea Party. . . . This is a smart, respectful and compelling book." —Jason DeParle, The New York Times Book Review When Donald Trump won the 2016 presidential election, a bewildered nation turned to *Strangers in Their Own Land* to understand what Trump voters were thinking when they cast their ballots. Arlie Hochschild, one of the most influential sociologists of her generation, had spent the preceding five years immersed in the community around Lake Charles, Louisiana, a Tea Party stronghold. As Jedediah Purdy put it in the *New Republic*, "Hochschild is fascinated by how people make sense of their lives. . . . [Her] attentive, detailed portraits . . . reveal a gulf between Hochschild's 'strangers in their own land' and a new elite." Already a favorite common read book in communities and on campuses across the country and called "humble and important" by David Brooks and "masterly" by Atul Gawande, Hochschild's book has been lauded by Noam Chomsky, New Orleans mayor Mitch Landrieu, and countless others. The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published, and also includes a readers' group guide at the back of the book.

Gender, Power, and Communication in Human Relationships Pamela J. Kalbfleisch 2012-12-06 This edited volume establishes a state-of-the-art perspective on theory and research on gender, power, and communication in human relationships. Both theoretical essays and review chapters address issues relevant to female and male differences in power, dominance, communication, equality, and expectations/beliefs. All chapter contributors share two commonalities. First, each provides a 1990s assessment of power and equality in female and male relationships. Second, each reviews respective programs of research and focuses attention on the relevance of this research to understanding the relationships of women and men. Unique because it incorporates a multidisciplinary approach to the study of gender and the communication of power in human relationships, this book includes the original work of intellectuals with national and international reputations in the social sciences. The volume provides both scholastic breadth and centralized treatment of issues that form the very foundation of social and personal relationships. It will appeal to scholars working in the disciplines of communication and psychology as well as other areas of social science research.

Radio Benjamin Walter Benjamin 2021-12-07 Walter Benjamin was fascinated by the impact of new technology on culture, an interest that extended beyond his renowned critical essays. From 1927 to '33, he wrote and presented something in the region of eighty broadcasts using the new medium of radio. Radio Benjamin gathers the surviving transcripts, which appear here for the first time in English. This eclectic collection demonstrates the range of Benjamin's thinking and his enthusiasm for popular sensibilities. His celebrated "Enlightenment for Children" youth programs, his plays, readings, book reviews, and fiction reveal Benjamin in a creative, rather than critical, mode. They flesh out ideas elucidated in his essays, some of which are also represented here, where they cover topics as varied as getting a raise and the history of natural disasters, subjects chosen for broad appeal and examined with passion and acuity. Delightful and incisive, this is Walter Benjamin channeling his sophisticated thinking to a wide audience, allowing us to benefit from a new voice for one of the twentieth century's most respected thinkers.

Models Mark Manson 2017-09-11 "You can become irresistibly attractive to women without changing who you are." So says Mark Manson, superstar blogger and author of the international bestseller, *The Subtle Art of Not Giving A F*ck*, a self help book that packs a punch. Mark brings the same approach to teaching men what they need to know about attracting women. In *Models* he shows us how much it sucks trying to attract women using the tricks and tactics recommended by other books. Instead, he says, men need to focus on seduction as an emotional process not a physical or social one. What matters is the intention, the motivation, the authenticity. To improve your dating life you must improve your emotional life - how you feel about yourself and how you express yourself to others. Funny, irreverent and confronting, *Models* is a mature and honest guide on how a man can attract women by giving up the bullsh*t and becoming an honest broker. "A detailed guide to modern sexual ethics" Sydney Morning Herald "There's nothing subtle about Mark Manson. He's crude and vulgar and doesn't give a f*ck . . . He's as painfully honest as he is outrageously funny" Huffington Post

Muslim Women of the Fergana Valley Vladimir Nalivkin 2016-07-04 Muslim Women of the Fergana Valley is the first English translation of an important 19th-century Russian text describing everyday life in Uzbek communities. Vladimir and Maria Nalivkin were Russians who settled in a "Sart" village in 1878, in a territory newly conquered by the Russian Empire. During their six years in Nanay, Maria Nalivkina learned the local language, befriended her neighbors, and wrote observations about their lives from birth to death. Together, Maria and Vladimir published this account, which met with great acclaim from Russia's Imperial Geographic Society and among Orientalists internationally. While they recognized that Islam shaped social attitudes, the Nalivkins never relied on common stereotypes about the "plight" of Muslim women. The Fergana Valley women of their ethnographic portrait emerge as lively, hard-working, clever, and able to navigate the cultural challenges of early Russian colonialism. Rich with social and cultural detail of a sort not available in other kinds of historical sources, this work offers rare insight into life in rural Central Asia and serves as an instructive example of the genre of ethnographic writing that was emerging at the time. Annotations by the translators and an editor's introduction by Marianne Kamp help contemporary readers understand the Nalivkins' work in context.

Why is it so hard to detect a lie, read a face or judge a stranger's motives? Using stories of deceit and fatal errors to cast doubt on our strategies for dealing with the unknown, Malcolm Gladwell takes us on an intellectual adventure into the darker side of human nature, where strangers are never simple and misreading them can have disastrous consequences.
