Will started walking after his father committed suicide, and three years later he hasn't stopped. *The Deeper the Water the Uglier the Fish* Katya Apekina 2018 It's 16-year-old Edie who finds their mother Marianne dangling in the living room from an old jump rope, puddle of urine on the floor, barely alive. Upstairs, 14-year-old Mae had fallen into one of her trances, often a result of feeling too closely attuned to her mother's dark moods. After Marianne is unwillingly admitted to a mental hospital, Edie and Mae are forced to move from their childhood home in Louisiana to New York to live with their estranged father, Dennis, a former civil rights activist and literary figure on the other side of success. The girls, grieving and homesick, are at first wary of their father's affection, but soon Mae and Edie's close relationship begins to fall apart--Edie remains fiercely loyal to Marianne, convinced that Dennis is responsible for her mother's downfall, while Mae, suffocated by her striking resemblances to her mother, feels pulled toward their father. The girls move in increasingly opposing and destructive directions as they struggle to cope with outsized pain, and as the history of Dennis and Marianne's romantic past clicks into focus, the family fractures further. Moving through a selection of first-person accounts and written with a sinister sense of humor, *THE DEEPER THE WATER THE UGLIER THE FISH* powerfully captures the quiet torment of two sisters craving the attention of a parent they can't, and shouldn't, have to themselves. In this captivating debut, Katya Apekina disquietingly crooks the lines between fact and fantasy, between escape and freedom, and between love and obsession.

**Saint X** Alexis Schaitkin 2020-02-20 'Hypnotic, delivering acute social commentary on everything from class and race to familial bonds and community . . . I devoured Saint X in a day.' —New York Times, Oyinkan Braithwaite (author of *My Sister, The Serial Killer*) Claire is only seven years old when her college-age sister Alison vanishes from the luxury resort on the Caribbean island of Saint X on the last night of her family's vacation. Several days later Alison's body is found in a remote spot on a nearby cay, and two local men, employees at the resort, are arrested. But the evidence is slim, the timeline against it, and the men are soon released. It's national tabloid news, a lurid mystery that will go unsolved, but for Claire's family there is only the sad return home to broken lives. Years later, riding in a New York City taxicab, Claire recognizes the name on the cabbie's licence, Clive Richardson - her driver is one of the men originally suspected of murdering her sister. The fateful encounter sets her on an obsessive pursuit of the truth, not only what happened on the night of Alison's death, but the no less elusive question of exactly who was this sister she was barely old enough to know: a beautiful, changeable, provocative girl of eighteen at a turbulent moment of identity formation. As Claire doggedly shadows Clive, hoping to gain his trust, waiting for the slip that will uncover the truth, an unlikely intimacy develops between them, two people whose lives were forever marked by a tragedy. Alexis Schaitkin's *Saint X* is a flawlessly drawn and deeply moving story that hurtles to a devastating end.

**The New Puberty** Louise Greenspan 2014-09-09 It's the reality today that the coming-of-age process has changed drastically in the last few decades. While prominent national news shows and print media have done intermittent, shock value-focused coverage on this trend, there was no authoritative, comprehensive book on the matter that covered both the physical and psychological aspects from a medical perspective before this one. Authored by an acclaimed pediatric endocrinologist and a clinical psychologist, *The New Puberty* combines and analyzes decades of research for the first time. For parents, teachers, counselors, administrators, psychologists, pediatricians, and the health-conscious consumer, *The New Puberty* introduces new theories and strategies on how to handle and nurture girls who are now entering this unique stage of their lives before age 10. At once prescriptive and inspiring, *The New Puberty* provides a roadmap to making the most of this transition and allowing the girls and young women of today grow into happy, successful adults.

**The Sum of Us** Heather McGhee 2021-03-26 **LONGLISTED FOR THE NATIONAL BOOK AWARD** 'With intelligence and care (as well as with a trove of sometimes heartbreaking and sometimes heart-opening true stories) Heather McGhee shows us what racism has cost all of us' - Elizabeth Gilbert Picked for the *Financial Times* Summer Books by Gillian Tett What would make a society drain its public swimming baths and fill them with concrete rather than opening them to everyone? Economics researcher Heather McGhee sets out across America to learn why white voters so often act against their own interests. Why do they block changes that would help them, and even destroy their own advantages, whenever people of colour also stand to benefit? Their tragedy is that they believe they can't win unless somebody else loses. But this is a lie. McGhee marshals overwhelming

economic evidence, and a profound well of empathy, to reveal the surprising truth: even racists lose out under white supremacy. And US racism is everybody's problem. As McGhee shows, it was bigoted lending policies that laid the ground for the 2008 financial crisis. There can be little prospect of tackling global climate change until America's zero-sum delusions are defeated. The Sum of Us offers a priceless insight into the workings of prejudice, and a timely invitation to solidarity among all humans, 'to piece together a new story of who we could be to one another'.

**Explain Pain** David S Butler 2013-07 Imagine an orchestra in your brain. It plays all kinds of harmonious melodies, then pain comes along and the different sections of the orchestra are reduced to a few pain tunes. All pain is real. And for many people it is a debilitating part of everyday life. It is now known that understanding more about why things hurt can actually help people to overcome their pain. Recent advances in fields such as neurophysiology, brain imaging, immunology, psychology and cellular biology have provided an explanatory platform from which to explore pain. In everyday language accompanied by quirky illustrations, Explain Pain discusses how pain responses are produced by the brain: how responses to injury from the autonomic motor and immune systems in your body contribute to pain, and why pain can persist after tissues have had plenty of time to heal. Explain Pain aims to give clinicians and people in pain the power to challenge pain and to consider new models for viewing what happens during pain. Once they have learnt about the processes involved they can follow a scientific route to recovery. The Authors: Dr Lorimer Moseley is Professor of Clinical Neurosciences and the Inaugural Chair in Physiotherapy at the University of South Australia, Adelaide, where he leads research groups at Body in Mind as well as with Neuroscience Research Australia in Sydney. Dr David Butler is an international freelance educator, author and director of the Neuro Orthopaedic Institute, based in Adelaide, Australia. Both authors continue to publish and present widely.

Amid Amidi, of the influential *Animation Blast* magazine and *CartoonBrew* blog, charts the evolution of the modern style in animation, which largely discarded the "lifelike" aesthetic for a more graphic and often abstract approach. Abundantly found in

commercials, industrial and educational films, fair and expo infotainment, and more, this quickly popular cartoon modernism shared much with the painting and graphic design movements of the era. Showcasing hundreds of rare and forgotten sketches, model boards, cels, and film stills, *Cartoon Modern* is a thoroughly researched, eye-popping, and delightful account of a vital decade of animation design.
