Mystifying the Monarch - Jeroen Deploige 2006

The power of monarchs has traditionally been as much symbolic as actual, rooted in popular imagery of sovereignty, divinity, and authority. In *Mystifying the Monarch*, a distinguished group of contributors explores the changing nature of that imagery—and its political and social effects—in Europe from the Middle Ages to the present day. They demonstrate that, rather than a linear progression where perceptions of rulers moved inexorably from the sacred to the banal, in reality the history of monarchy has been one of constant tension between mystification and demystification.

The Popes, the Catholic Church and the Transatlantic Enslavement of Black Africans 1418-1839 - Pius Onyemechi Adiele 2017-09-01

Mehr als 400 Jahre lang erlitten schwarzafrikanische Männer, Frauen und Kinder während des transatlantischen Sklavenhandels schlimmste Formen der Versklavung und Erniedrigung durch Katholiken und das westliche Christentum. Damals wie heute glaubte niemand an die tiefe Verwicklung der Kirche und des Papsttums in den schwarzafrikanischen Holocaust. Trotz jüngster Behauptungen des päpstlichen Officiums in Rom, wonach die Päpste jegliche Form von Sklaverei verurteilten, so auch im Falle der Versklavung von Schwarzafrikanern, verweisen neuere Studien innerhalb dieses Forschungsfeldes auf das Gegenteil. Die Kirche und die Päpste nahmen vielmehr zentrale Rollen in diesem schlimmsten Verbrechen gegen die Schwarzafrikaner seit Beginn der schriftlichen Dokumentation ein. Mithilfe zahlreicher päpstlicher Bullen aus den Geheimarchiven des Vatikans und einer Vielzahl an königlichen Dokumenten aus dem portugiesischen Nationalarchiv in Lissabon, strebt der vorliegende Band eine kritische und analytische Untersuchung dieses Aspekts des transatlantischen Sklavenhandels an, der über so viele Jahre von den westlichen Historikern und Gelehrten verschleiert wurde. For over 400 years, Black African men, women and children suffered the worst type of enslavement and humiliation from the hands of Catholics and other Western Christians during the transatlantic slave

trade. Before now, no one could ever believe that the Popes of the Church were deeply involved in this Holocaust against Black African people. Despite the claims made by the hallowed papal office in Rome in recent years that the Popes condemned the enslavement of peoples wherever it existed including that of Black Africans, recent researches in these fields of study have proved the contrary to be true. The Church and her Popes were rather among the major "role players" in this worst crime against Black Africans in recorded history. With the help of a considerable number of papal Bulls from the Vatican Secret Archives and a great amount of Royal documents from the Portuguese National Archives in Lisbon, the present book is aiming to undertake a critical and analytical inquiry of this aspect of the transatlantic slavery that has been kept in the dark for so many years by the Western historians and scholars. The results of this studious but fruitful academic inquiry are laid bare in this notable work of the 21st century. Pius Onyemechi Adiele is a Catholic priest of Ahiara Diocese Mbaise and an alumnus of Seat of Wisdom Seminary Owerri and Bigard Memorial Seminary Enugu in Nigeria. He obtained his licentiate in Theology from the famous University of Münster and his doctoral degree in Church History from the renowned University of Tübingen in Germany. At present, he is a research fellow in the areas of African Church History and Enslavement of peoples as well as the pastor in charge of the merged parishes of Lauchheim, Westhausen, Lippach, Röttingen and Hülen in Germany.

The Broad Stone of Honour: Morus - Kenelm Henry Digby 1848

The Silo Series Collection - Hugh Howey 2020-05-19

For the first time ever, *The Silo Saga Omnibus* brings together all of the work in Hugh Howey's ground-breaking, best-selling, acclaimed series, including the individual novels *Wool*, *Shift*, and *Dust*, as well as original essays by the author, and a bonus chapbook of short fiction, *Silo Stories*. The remnants of humanity live underground in a vast silo. In this subterranean world, rules matter. Rules keep people alive. And no rule is more strictly enforced than to never speak of going outside. The punishment is exile and death. When the sheriff of the silo commits the ultimate sin, the most unlikely of heroes takes his place. Juliette, a mechanic from the down deep, who never met a machine she couldn't fix nor a rule she wouldn't break. What happens when a world built on rules is handed over to someone who sees no need for them? And what happens when a world broken to its core comes up against someone who won't stop until things are set to right? Their world is about to fall. What—and who—will rise?

Morus - Kenelm Henry Digby 1848

The Sibylline Oracles (Annotated Edition) - Milton S. Terry 2012

This is the extended and annotated edition including * an extensive annotation of almost 10.000 words about the oracles in religion * an interactive table-of-contents * perfect formatting for electronic reading devices THE Sibyls occupy a conspicuous place in the traditions and history of ancient Greece and Rome. Their fame was spread abroad long before the beginning of the Christian era. Heraclitus of Ephesus, five centuries before Christ, compared himself to the Sibyl "who, speaking with inspired mouth, without a smile, without ornament, and without perfume, penetrates through centuries by the power of the gods." The ancient traditions vary in reporting the number and the names of these weird prophetesses, and much of what has been handed down to us is legendary. But whatever opinion one may hold respecting the various legends, there can be little doubt that a collection of Sibylline Oracles was at one time preserved at Rome. There are, moreover, various oracles, purporting to have been written by ancient Sibyls, found in the writings of Pausanias, Plutarch, Livy, and in other Greek and Latin authors. Whether any of these citations formed a portion of the Sibylline books once kept in Rome we cannot now determine; but the Roman capitol was destroyed by fire in the time of Sulla (B. C. 84), and again in the time of Vespasian (A. D. 69), and whatever books were at those dates kept therein doubtless perished in the flames. It is said by some of the ancients that a subsequent collection of oracles was made, but, if so, there is now no certainty that any fragments of them remain.

Medieval Self-Coronations - Jaume Aurell 2020-06-11

The first systematic study of the practice of royal self-coronations from late antiquity to the present.

The Secret History of the Jesuits - Edmond Paris 2011

Secrets the Jesuits don't want Christians to know Out of Europe, a voice is heard from the secular world that documents historically the same information told by ex-priests. The author exposes the Vatican's involvement in world politics, intrigues, and the fomenting of wars throughout history. It appears, beyond any doubt, that the Roman Catholic institution is not a Christian church and never was. The poor Roman Catholic people have been betrayed by her and are facing spiritual disaster. Paris shows that Rome is responsible for the two great world wars. Author Edmond Paris explains why he wrote this book... "The public is practically unaware of the overwhelming responsibility carried by the Vatican and its Jesuits in the start of the two world wars -- a

situation which may be explained in part by the gigantic finances at the disposition of the Vatican and its Jesuits, giving them power in so many spheres, especially since the last conflict." "In fact, the part they took in those tragic events has hardly been mentioned until the present time, except by apologists eager to disguise it. It is with the aim of rectifying this and establishing the true facts that we present in this and other books the political activity of the Vatican during the contemporary -- activity which mutually concerns the Jesuits." "This study is based on irrefutable archive documents, publications from well-known political personalities, diplomats, ambassadors and eminent writers, most of whom are Catholics, even attested by the imprimatur."

Bossuet: Politics Drawn from the Very Words of Holy Scripture - Jacques Bénigne Bossuet 1990

This 1991 book was the first ever English rendition of the classic statement of divine right absolutism, published in 1707. Jacques-Benigne Bossuet argues in the Politics that a general society of the entire human race, governed by Christian charity, has given way (after the Fall) to the necessity of politics, law, and absolute hereditary monarchy. That monarchy - seen as natural, universal and divinely ordained (beginning with David and Solomon) is defended in the first half of the book. The last part, added soon before Bossuet's death, goes on to take up the rights of the Church, the distinction between absolutism and arbitrariness, and causes of just war. Patrick Riley has provided full supporting materials including a chronology, guide to further reading, and a lucid introduction placing Bossuet in his historical and intellectual context.

The Broad Stone of Honour: Orlandus - Kenelm Henry Digby 1848

Historical Painting Techniques, Materials, and Studio Practice - Arie Wallert 1995-08-24

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.
