*Women and the Alphabet* Thomas Wentworth Higginson 2014-10-02 Paris smiled, for an hour or two, in the year 1801, when, amidst Napoleon's mighty projects for remodelling the religion and government of his empire, the ironical satirist, Sylvain Maréchal, thrust in his "Plan for a Law prohibiting the Alphabet to Women." Daring, keen, sarcastic, learned, the little tract retains to-day so much of its pungency, that we can hardly wonder at the honest simplicity of the author's friend and biographer, Madame Gacon Dufour, who declared that he must be insane, and soberly replied to him.

*Women and the Alphabet A Series of Essays* Thomas Wentworth Higginson Paris smiled, for an hour or two, in the year 1801, when, amidst Napoleon's mighty projects for remodelling the religion and government of his empire, the ironical satirist, Sylvain Maréchal, thrust in his "Plan for a Law prohibiting the Alphabet to Women." [1] Daring, keen, sarcastic, learned, the little tract retains to-day so much of its pungency, that we can hardly wonder at the honest simplicity of the author's friend and biographer, Madame Gacon Dufour, who declared that he must be insane, and soberly replied to him. His proposed statute consists of eighty-two clauses, and is fortified by a "whereas" of a hundred and thirteen weighty reasons. He exhausts the range of history to show the frightful results which have followed this taste of fruit of the tree of knowledge; quotes from the *Encyclopédie*, to prove that the woman who knows the alphabet has already lost a portion of her innocence; cites the opinion of Molière, that any female who has unhappily learned anything in this line should affect ignorance, when possible; asserts that knowledge rarely makes men attractive, and females never; opines that women have no occasion to peruse Ovid's "Art of Love," since they know it all in advance; remarks that three quarters of female authors are no better than they should be; maintains that Madame Guion would have been far more useful had she been merely pretty and an ignoramus, such as Nature made her, --that Ruth and Naomi could not read, and Boaz probably would never have married into the family had they possessed that accomplishment, --that the Spartan women did not know the alphabet, nor the Amazons, nor Penelope, nor Andromache, nor Lucretia, nor Joan of Arc, nor Petrarch's Laura, nor the daughters of Charlemagne, nor the three hundred and sixty-five wives of Mohammed; but that Sappho and Madame de Maintenon could read altogether too well; while the case of Saint Brigitta, who brought forth twelve children and twelve books, was clearly exceptional, and afforded no safe precedent. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned

from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

The Alphabet of Women Miriam Hechtman 2021-12-24 The Alphabet of Women brings together twenty-six eclectic alliterating poets to tell the story of woman through the sounds and cadences of the alphabet. From rage to tenderness, politics to the body, motherhood to daughterhood, vaginas to mother earth, poets were invited to tell it like it is and follow their heart. This anthology is powerful in its diverse expressions of what womanhood means and acknowledges in both subtle and formidable ways how multifaceted and still bravely unifying this story is.

**Women and the Alphabet** Thomas Wentworth Higginson 2015-07-12 Excerpt from Women and the Alphabet: A Series of Essays The first essay in this volume, "Ought Women to learn the Alphabet?" appeared originally in the "Atlantic Monthly" of February, 1859, and has since been reprinted in various forms, bearing its share, I trust, in the great development of more liberal views in respect to the training and duties of women which has made itself manifest within forty years. There was, for instance, a report that it was the perusal of this essay which led the late Miss Sophia Smith to the founding of the women's college bearing her name at Northampton, Massachusetts. The remaining papers in the volume formed originally a part of a book entitled "Common Sense About Women" which was made up largely of papers from the "Woman's Journal." This book was first published in 1881 and was reprinted in somewhat abridged form some years later in London (Sonnenschein). It must have attained a considerable circulation there, as the fourth (stereotyped) edition appeared in 1897. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
