The Ultimate Love - C. D. Cooper 2017-03

The ultimate love is God. Yet we spend our entire lives finding our true love. This search for love is a life challenge for many hearts yearning for only the physical desire. Real love often takes many years of trial and error and a total commitment of the heart for every new attempt. Some people get blessed to find love on the very first try. Other people never find love at all or seek love in all the wrong places, doing so many hurtful things to one another. Most often, when we do find love, love results in a total heartbreaking experience. We sometimes return to that same situation over and over again. Most relationships, at least in my life experience, never turn out as anticipated. Love has many phases and, more often than not, lasts for a very short time. The ultimate love is realizing God first. In knowing God first, you learn for yourself how important love is to life and living. God is love. Without knowing God's love, relationships will most often perish in time, instead of growing stronger with every stage. Love from the soul; as God places the example of how love is rooted in the way we love ourselves, He loves the world. The Ultimate Love is written for parents, mentors, and teachers of young children to help understand the examples of love demonstrated throughout the world that each child experiences. Children learn from the environment surrounding their growth. Let's try to ensure every child learns to love God first. The ultimate love, God's love, will last you for all eternity. My only regret is it took me fifty years for the clearest understanding, and it is my reason for sharing this very personal story. May all God's babies benefit. C. D. Cooper

When Rachel Krantz met and fell for Adam, he told her that he was looking for a committed partnership - just one that did not include exclusivity. Excited but a little trepidatious, Rachel set out to see whether love and a serious relationship can coexist beyond the familiar borders of monogamy. This is her open and honest true story. Now, in her debut memoir, she chronicles her dive into non-monogamy. With fly-on-the-wall detail and extraordinary perceptiveness, *OPEN* takes us inside Brooklyn parties and into the wider swinger and polyamory community. Armed with her journalistic instincts, detailed journal entries and interviews with experts and therapists, Krantz also breaks new ground in confronting the unique ways tacit abuse and gaslighting can manifest when things get so complex. Unflinching and brazen, *OPEN* asks what liberation really looks like, and whether the pleasure really is worth the pain.

"Doing things together" - Therése Bielsten 2020-03-13

Background: Most people with dementia live in their own homes, often together with their partners, who become informal caregivers. Relationship quality and sense of couplehood can be threatened as a result of the transition from a mutually interdependent relationship to a caregiver-care-receiver relationship. This, in turn, may lead to many negative consequences for both partners. Support provided for couples is often divided into different types for the person with dementia and for the partner without dementia and lacks couple-based support that targets the relationship, resources and the couple's everyday life together. Aim: The overall aim of this thesis is to explore couple-centred interventions in dementia and to develop and test a salutogenic, resource-oriented and couple-based intervention among couples in which one partner has dementia living at home. Methods and findings: This thesis comprises three parts: The first part Exploring involves two linked reviews, one narrative review (study I A) and one scoping review (study I B) that aim to identify and describe what previous couple-centred interventions comprised and why they were conducted. The results of the reviews revealed a knowledge gap in and a need for easily accessible support that targets couple relationships, resources and everyday life. The second part Developing (study II) refers to the development of an easily accessible resource-oriented couple-management intervention. The first step was to identify priority topics for such an intervention through a co-researcher process with couples living with dementia. This included a comprehensive literature review, interviews with couples in which one partner has dementia, and consultation meetings with expert groups of people with dementia and partners in both Sweden and the UK. The co-researcher process and the expert meetings informed four main themes with corresponding sub-themes that couples with dementia considered as important to their wellbeing in their everyday lives: (1) Home and Neighbourhood, (2) Meaningful Activities and Relationships, (3) Approach and Empowerment, and (4) Couplehood. The themes were further developed and integrated into the multimedia application DemPower, which was

developed for the delivery of the intervention. The third part Testing and Evaluating describes a feasibility study (study III) in which the DemPower application was tested for feasibility and acceptability among couples in Sweden and the UK. The results of the feasibility study indicated that the DemPower intervention was feasible and acceptable among couples in which one partner has dementia living at home. The testing and evaluating part also comprise a qualitative study (study IV) that explores the experiences of engaging with DemPower together as a couple living with dementia in Sweden. The findings resulted in the three themes: (1) Growth of the relationship, (2) We are not alone, and (3) Positive approach, which the couples appreciated and associated with the resource-oriented and salutogenic approach of DemPower. The overall findings of the thesis are presented in a concluding synthesis at the end of the thesis. The concluding synthesis, focused on "Meaningfulness", "Empowering health promotion", "Normalization" and "Transitions and couplehood", represents the core findings of this thesis. What this thesis adds: This thesis contributes to research, healthcare and the public by highlighting the need for a salutogenic approach toward couples living with dementia. The DemPower application, with its focus on couples' relationships, resource-orientation and everyday life, has proven feasibility and acceptability and has meaningfully addressed a gap in the literature and in practice. As researchers, healthcare professionals and the public, we need to support couples where one partner has dementia to continue to live as normal life as possible. This can best be achieved by focusing on what couples can do, by inclusion and by valuing them as the experts within dementia research and of their life experiences. Bakgrund: Majoriteten av personer med demens bor i sitt eget hem och ofta tillsammans med sin partner som blir en informell vårdgivare. Relationens kvalitet och känsla av parskap hotas ofta till följd av övergången från en ömsesidig beroenderelation till en vårdgivare-vårdtagare-relation allt eftersom demenssjukdomen fortskrider. Detta kan innebära många negativa konsekvenser. Stöd för par där ena partnern har demens delas ofta upp i olika former för personen med demens

och för partnern utan demens, vilket innebär att det saknas parbaserat resursorienterat stöd med inriktning på att främja parrelationen och parets vardagliga liv. Syfte: Syftet med denna avhandling är att utforska parcentrerade interventioner inom demens och att utveckla och testa ett parbaserat, salutogent och resursorienterat stöd för par där ena partnern har en demenssjukdom och som bor tillsammans i det egna hemmet. Metoder och fynd: Denna avhandling består av tre delar. Den första delen att utforska inkluderar två länkade litteraturöversikter, en narrativ översikt och en kartläggande översikt (studie I) som beskriver tidigare interventioner för par som lever med demens och varför de genomförts. Resultaten av översikterna visade ett kunskapsgap i, och ett behov av lättillgängligt stöd som riktar sig till parförhållanden, parens resurser och att främja det vardagliga livet. Den andra delen, att skapa (studie II) involverar utvecklingen av ett lättillgängligt resursorienterat och parbaserat stöd. Det första steget var att identifiera prioriterade ämnen för en sådan intervention tillsammans med par som lever med demens, genom en så kallad medforskarprocess. Detta inkluderade en omfattande litteraturgenomgång, intervjuer med par där ena partnern har demens, och konsultationsmöten med expertgrupper bestående av personer med demens och partners i Sverige och i Storbritannien. Medforskarprocessen och expertmötena resulterade i fyra huvudteman med motsvarande underteman vilka par med demens ansåg vara viktiga för deras relation och för välbefinnande i vardagen: (1) Hem och grannskap, (2) Meningsfulla aktiviteter och relationer, (3) Förhållningssätt och empowerment och (4) Parskap. Dessa teman vidareutvecklades och integrerades i multimedia-applikationen DemPower, som utvecklades i syfte att erbjuda interventionen till par som lever med demens. Den tredje delen att testa och att utvärdera beskriver genomförbarhetsstudien (studie III) där applikationen DemPower testades med avseende på genomförbarhet och acceptabilitet hos par där en partner har demens i Sverige och i Storbritannien. Resultaten av studien visade att DemPower-interventionen var genomförbar och acceptabel bland par där ena partnern har

demens. Denna delen av avhandlingen inkluderar även en kvalitativ studie (studie IV) som undersökte parens erfarenheter av att testa DemPower tillsammans som ett par. De samlade upplevelserna resulterade i tre teman: (1) Utveckling av parrelationen, (2) Vi är inte ensamma och (3) Positivt förhållningssätt. De övergripande resultaten från avhandlingen presenteras även i en konkluderande syntes i slutet av avhandlingen. Den konkluderande syntesen med fokus på Meningsfullhet, Empowerment, Normalisering och Parskap representerar kärnan i denna avhandling. Avhandlingens slutsatser och kunskapsbidrag: DemPower-applikationen med fokus på parförhållanden, hälsofrämjande resurser och vardagen har bidragit med ett stöd som vilar på en genuin parbaserad grund tillämpad i det vardagliga livet för par som lever med demens. Denna avhandling bidrar även med kunskap till forskning, vård och allmänheten genom att lyfta fram ett salutogent förhållningssätt till par som lever med demens. Som forskare, vårdpersonal och allmänhet bör vi stödja par där ena partnern har demens för att de ska kunna fortsätta leva ett så normalt liv som möjligt. Detta kan bäst uppnås genom att fokusera på parens resurser, genom inkludering och genom att värdera dem som experter inom demensforskning och i deras livserfarenheter.

Secrets to Lasting Love - Gary Smalley
1999-05

"Smalley believes that couples who want to move from a superficial to an "ultimate," deep level of intimacy and a lasting and loving relationship must master three key skills. First and foremost is honor - respecting your spouse for all of his or her individual qualities as well as differences from you; next is communication - speaking to one another in a way that moves conversations into deeper realms of understanding; and, last, constant renewal - recharging your spouse emotionally, mentally, physically, and spiritually. But it is not easy to recognize and then apply these skills. Secrets to Lasting Love shows everyone how to do just that. Once these skills are successfully applied to a relationship, the couple is able to move into what Smalley calls the fifth, or ultimate, level of intimacy."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. [The Heart of Relationship: Five Ultimate Truths](#) - Jonathan Goodman-Herrick 2014-03-25

Straight-forward, elegant, and entertaining, The Heart of the Relationship is based on almost twenty years of the author's work with couples and thirty years of his own marriage.

2010-10-01

In today's society, from the inner-city to suburban America, nearly every woman has a gay best friend - the one who gives it to them straight about life, clothes, sex, and relationships. For example, on the number-one cable show on the Bravo Network, *The Real Housewives of Atlanta* The break-out star of the show, NeNe, has introduced the world to her gay best friend, Dwight Eubanks. Just like most must-haves for women: Manolo Blahnik shoes, a Louis Vuitton handbag, and La Perla lingerie - Having a gay best friend has become the new accessory for women. And, no woman wants to be without one. *Straight, From Your Gay Best Friend* gives women direct, and poignant, though often tongue in cheek, advice from Terrance Dean, their new gay best friend, on some of life's most challenging issues--family, friends, career, love, sex, and intimate relationships with men. Dean offers direct and to-the-point insights, mixed with a little sass, wit, humor, forwardness, and spirituality, as only a gay man can do. He speaks candidly to women on healing their souls of past hurts in order to tap into their fabulousness.
