How to Fall in Love with Anyone Mandy Len Catron 2018-02-01 In 2014, 33-year-old Mandy Len Catron went on a date with an acquaintance. They decided to try an experiment: inspired by a study designed to create romantic feelings, Mandy and Mark spent the evening asking each other 36 increasingly intimate questions, wondering if it would lead to them falling in love. In *How to Fall in Love with Anyone*, this experiment is Catron's starting point for investigating what it means to love someone and to be loved, and how we present our love to the world. What makes love last? Can love ever work the way it seems to in films, books and social media? Is there a "right" way to fall in love? In these candid, charming and wise essays, Catron blends memoir with cultural and social commentary on the psychology, biology, history and literature of love. *How to Fall in Love with Anyone* is a deeply personal, yet universal investigation into the one thing we all want—or think we want—more than anything. Includes "To Fall in Love with Anyone, Do This", one of the most popular essays to appear in the New York Times' "Modern Love" column "In our age of total romantic confusion, Mandy Len Catron is a voice of good sense, warm humor, and consoling wisdom. Through the lens of her own relationships, she teaches us—with a deft, convincing intelligence—some of the vital moves in the art of love." —Alain de Botton, internationally bestselling author of *How Proust Can Change Your Life* and *The Course of Love* MANDY LEN CATRON lives in Vancouver, British Columbia. Her writing has appeared in the New York Times and the Washington Post. She writes about love and love stories at The Love Story Project, and teaches English and creative writing at the University of British Columbia.

Writing for Bliss 2017-09-01 Writing for Bliss is most fundamentally about reflection, truth, and freedom. With techniques and prompts for both the seasoned and novice writer, it will lead you to tap into your creativity through storytelling and poetry, examine how life-changing experiences can inspire writing, pursue self-examination and self-discovery through the written word, and understand how published writers have been transformed by writing. Poet and memoirist Raab (Lust) credits her lifelong love of writing and its therapeutic effects with inspiring her to write this thoughtful and detailed primer that targets pretty much anyone interested in writing a memoir. Most compelling here is Raab's willingness to share her intimate stories (e.g., the loss of a relative, ongoing struggles with cancer, a difficult relationship with her mother). Her revelations are encouraging to writers who feel they need permission to take... a voyage of self-discovery. The book's seven-step plan includes plenty of guidance, including on learning to read like a writer, and on addressing readers as if seated across the table. Raab covers big topics such as the art and power of storytelling and small details such as choosing pens and notebooks that you enjoy using. She also helps readers with the important step of finding your form. --PUBLISHER'S WEEKLY "Writing for Bliss is about the profound ways in which we may be transformed in and through the act of writing. I am grateful to Diana Raab for sharing it, and I trust that you will feel the same as you read on. It explores numerous interdisciplinary topics, bringing together research in biological and social sciences to explore love, probing the cross-cultural similarities and differences in the feelings, thoughts, and expressions of love. The book's scope, which includes a review of major theories and key research instruments, provides a comprehensive background for any reader interested in developing an enlightened understanding of the cultural diversity in the concepts, experience, and expression of love. Included among the chapters: How do people in different cultures conceptualize love? How similar and different are the experiences and expressions of love across cultures? What are the cultural factors affecting the experience and expression of love? Cross-cultural understanding of love as passion, joy, commitment, union, respect, submission, intimacy, dependency, and more. A review of the past and looking into the future of cross-cultural love research. Critical reading for our global age, Cross-Cultural Perspectives on the Experience and Expression of Love promotes a thorough understanding of cross-cultural similarities and differences in love, and in so doing is valuable not only for love scholars, emotion researchers, and social psychologists, but also for practitioners and clinicians working with multicultural couples and families. "The most striking feature of this book is the broad array of perspectives that is covered. Love is portrayed as a universally found emotion with biological underpinnings. The text expands from this core, incorporating a wide range of manifestations of love: passion, admiration of and submission to a partner, gift giving and benevolence, attachment and trust, etc.

Information on each topic comes from a variety of sources, cross-culturally and interdisciplinary. The text is integrative with a focus on informational value of ideas and findings. If you take an interest in how love in its broadest sense is experienced and expressed, you will find this to be a very rich text." Ype H. Poortinga, Tilburg University, The Netherlands & Catholic University of Leuven, Leuven, Belgium "In this wide-ranging book, Victor Karandashev expertly guides us through the dazzling complexity of our concept and experience of love. Not only does he show the many different ingredients that make up our conceptions of love in particular cultures, such as idealization of the beloved, commitment, union, intimacy, friendship, and others, he draws our attention to the bewildering array of differences between their applications in different cultural contexts, or to their presence or absence in a culture. In reading the book, we also get as a bonus an idea of how an elusive concept such as love can be scientifically studied by a variety of methodologies - all to our benefit. A masterful accomplishment." Kövecses Zoltán, Eötvös Loránd University, Budapest, Hungary "Long considered a research purview of only a portion of the world's cultures, we know today that love is universal albeit with many cultural differences in meaning, form, and expression. Moreover, love has a rich history of scholarship across multiple disciplines. Within this backdrop, Karandashev has compiled a remarkably comprehensive global review of how people experience and express their emotions in love. Covering the topic from a truly international and interdisciplinary perspective, this book is an indispensable source of knowledge about cultural and cross-cultural studies conducted in recent decades and is a must read for anyone interested in the universal and culturally diverse aspects of love." David Matsumoto, San Francisco State University, Director of SFSU's Culture and Emotion Research Laboratory

What Makes Love Last? John Gottman 2013-09-10 "One of the foremost relationship experts at work today applies the insights of science toward understanding the real meaning of trust between a couple. He decodes the "why" behind betrayal and shows how partners can avoid or recover from unfaithfulness and maintain a loving relationship. Dr. John Gottman, the country's pre-eminent researcher on marriage, is famous for his Love Lab at the University of Washington in Seattle where he deciphers the mysteries of human relationships through scientific research. His thirty-five years of exploration have earned him numerous major awards, including from the National Institute of Mental Health, the American Psychological Association, and the American Association for Marriage and Family Therapy. Now, Dr. Gottman offers surprising findings and advice on the characteristic that is at the heart of all relationships: Trust. Dr. Gottman has developed a formula that precisely calculates any couple's loyalty level. The results determine a relationship's likely future, including the potential for one or both partners to stray. A Love You Can Trust shows couples how to bolster their trust level and avoid what Dr. Gottman calls the "Roach Motel for Lovers." He describes how the outcome of--"sliding door moments," small pivotal points between a couple, can lead either to more emotional connection or to discontent. He suggests a new approach to handling adultery and reveals the varied and unexpected non-sexual ways that couples often betray each other. A Love You Can Trust guides couples through an empirically tested, trust-building program that will let them repair and maintain a long-term, intimate, and romantic relationship"--

Innovative Skills to Increase Cohesion and Communication in Couples Julie Anne Laser-Maira 2019 Couples who enter therapy often view the endeavor as a last-ditch effort before seeking legal services, filing for divorce, and parting ways for good. Given this mentality at the outset, couples therapy is not always successful or enjoyable--for either the client or the therapist. It is also an area of practice that is often given short shrift in training programs that predominantly focus on clinical skills in working with children and adolescents, group work, practice in specific settings, and assessment and treatment of mental disorders. *Innovative Skills to Increase Cohesion and Communication in Couples* discusses evidence-based clinical techniques and skills that support and nurture couples in their relationship. Each chapter begins with a succinct overview of a technique,

evidence that supports it, and ideas for assessment to ensure that it is appropriate for the couple. Subsequent sections of each chapter provide clear examples of approaches so that new or seasoned clinicians will have the requisite knowledge for effective implementation, required materials, suitable locations for use, and personal preparation. The text serves as an essential resource to clinicians and social work, counseling, or psychology students and professors.

THE LIVING GOD ON EARTH Prahalad Rao 2020-02-03 For over a decade now, the country has been witnessing rising disharmony in the lifestyle of youngsters, worst affected of whom are the aspiring students for higher studies. Love affairs, marital discord, social tensions, ideological conflicts among different faiths, castes, creeds, working executives, crimes against women, infanticide, etc. are driving them to a state of desperation and frustration, birthing negativity. All of the above ills are considered as reasons for the development of psychological, physiological, and social conflicts and confrontations within relationships, society, educational institutions, working environments, and so on. A sense of solitude and desertion seems to be enveloping today's youngsters and teenagers, pushing them to the extreme end of life - suicide. This is attributable to the loss of self-belief coupled with the pressure to have an edge over others in competitive spheres of life. Another hugely disturbing factor is that school-going kids are resorting to extreme steps in life due to failure in examinations and other such disgracing circumstances brought upon them in general, mostly occurring in schools. They belong to a different age and, of late, their levels of sensitivity have sharply risen in their comparative self-analysis. The author, Prahalad Rao, is an ordinary person who believes in himself and GOD, the Qualities of God as written in the Holy Scriptures and recited daily by all the Faiths that insulate a person from becoming a victim of negativity and give new hope for appreciating the essence, purpose and meaning of life - to struggle and succeed. Struggling itself is a way of life for different people in different ways; it includes spiritual and physical, the combination of which creates a sense of self-respect - the foundation for human survival. The author found it obligatory to wake them up through the ways and means GOD has created for humans. The author believes the book will reawaken self-belief, self-faith, self-confidence, and self-conviction by sensitising oneself to what is hidden within one's SELF which can become a GLOW to appreciate life and the beautiful nature that enables the birth of POSITIVITY IN LIFE.

Communicating Affection Kory Floyd 2006-05-08 Few behavioral processes are more central to the development and maintenance of intimate relationships than the communication of affection. Indeed, affectionate expressions often initiate and accelerate relational development. By contrast, their absence in established relationships frequently coincides with relational deterioration. This text explores the scientific research on affection exchange to emerge from the disciplines of communication, social psychology, family studies, psychophysiology, anthropology, and nursing. Specific foci include the individual and relational benefits (including health benefits) of affectionate behavior, as well as the significant risks often associated with expressing affection. A new, comprehensive theory of human affection exchange is offered, and its merits relative to existing theories are explored.

All About Love bell hooks 2018-01-30 A New York Times bestseller and enduring classic, *All About Love* is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. *All About Love* reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on

fire in *All About Love*. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The *Utne Reader* declared bell hooks one of the "100 Visionaries Who Can Change Your Life." *All About Love* is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Strangers to Spouses Binu Edathumparambil 2017-09-06 Approximately 90 percent of the marriages in India today are reported to be arranged marriages. Parents and families make partner choices and marital decisions for their children, sometimes needing the children only to consent to the decisions of the elders. Given this reality, most men and women who enter into such marriages have very limited pre-marital contact with each other. Several studies have been done on these arranged marriages in India to see how these relationships are formed and what their state of affairs is. The results have been varied and sometimes discrepant. This book is a revised version of a mixed methods study that the author conducted on the quality of relationship in such marriages in India. Specifically, the study explored the levels of marital satisfaction, quality of alternatives, investment of resources, intimacy, passion, and commitment, and examined their association with relationship quality.
