The Crane Wife - CJ Hauser
2023-06-27

A memoir in essays that expands on the viral sensation

"The Crane Wife" with a frank and funny look at love, intimacy, and self in the twenty-first century. From friends and lovers to blood family and chosen family, this "elegant masterpiece" (Roxane Gay, New York Times bestselling author of Hunger) asks what more expansive definitions of love might offer us all. A BEST BOOK OF THE YEAR: TIME, THE GUARDIAN, GARDEN & GUN "Hauser builds their life's inventory out of deconstructed personal narratives, resulting in a reading experience that's rich like a complicated dessert—not for wolfing down but for savoring in small bites." —The New York Times "Hauser's wry, introspective investigation of their assumptions about love will likely free readers to examine their own personal narratives as well ... 'The rare happy ending I appreciate is one that makes room for the whole painful fact of the world at the same time it offers the reader some joy,' they write. The Crane Wife embraces this philosophy again and again as

Hauser excavates their past loves and losses, thoughtfully examines them and declares the pain of love to be worth the risk." —BookPage Ten days after calling off their wedding, CJ Hauser went on an expedition to Texas to study the whooping crane. After a week wading through the gulf, they realized they'd almost signed up to live someone else's life. Hauser releases themselves from traditional narratives of happiness and goes looking for ways of living that leave room for the unexpected, making plenty of mistakes along the way. They kiss Internet strangers and officiate at a wedding. They reread Rebecca in the house their boyfriend once shared with his ex-wife and rewinds Katharine Hepburn in *The Philadelphia Story* to learn how not to lose yourself in a relationship. They think about Florence Nightingale at a robot convention and grief at John Belushi's rock and roll gravesite, and the difference between those stories we're asked to hold versus those we

choose to carry. Told with the late-night barstool directness of your wisest, most bighearted friend, *The Crane Wife* is a book for everyone whose life doesn't look the way they thought it would; for everyone learning to find joy in the not-knowing; for everyone trying, if sometimes failing, to build a new sort of life story, a new sort of family, a new sort of home, to live in.

Get Married - Candice Watters
2008-09-01

Singles are getting conflicting messages from today's culture, both Christian and secular. Is it okay to want to be married? Is there anything a never-married woman can do, within a biblical framework, to "assist" the process? Candice Watters gives women permission to want Christian marriage, encourages them to believe it's possible, and supplies the tools to get there - despite our anti-marriage culture. This book blends the author's personal journey from singleness to marriage with the biblical perspective on marriage. As an editor for Focus on the Family's Boundless webzine, Candice Watters knows the target audience inside and out. Whether a woman has been told to "get married" or marriage is on her lifelong wish list, Get Married points her to the source!

Sport, Politics and Society in the Middle East - Danyel Reiche Reiche 2019-10-15
Sport in the Middle East has

become a major issue in global affairs. The contributors to this timely volume discuss the intersection of political and cultural processes related to sport in the region. Eleven chapters trace the historical institutionalization of sport and the role it has played in negotiating "Western" culture. Sport is found to be a contested terrain where struggles are being fought over the inclusion of women, over competing definitions of national identity, over preserving social memory, and over press freedom. Also discussed are the implications of mega-sporting events for host countries, and how both elite sport policies and sports industries in the region are being shaped. Sport, Politics and Society in the Middle East draws on academic disciplines from the humanities and social sciences to offer in-depth, theoretically grounded, and richly empirical case studies. It employs diverse research methodologies, from ethnography and in-depth interviews to archival research,

Women and Marriage in Nineteenth-Century England -

Mrs Joan Perkin 2002-11-01
The 'bonds of matrimony'

describes with cruel precision the social and political status of married women in the nineteenth century. Women of all classes had only the most limited rights of possession in their own bodies and property yet, as this remarkable book shows, women of all classes found room to manoeuvre within the narrow limits imposed on them. Upper-class women frequently circumvented the onerous limitations of the law, while middle-class women sought through reform to change their legal status. For working-class women, such legal changes were irrelevant, but they too found ways to ameliorate their position. Joan Perkin demonstrates clearly in this outstanding book, full of human insights, that women were not content to remain inferior or subservient to men. *Working Gendered Boundaries* - Anja Rudnick 2009-01-01

considers the consequences of their decision to migrate. While international migration is a much discussed issue, so far little attention has been given to the vast flow of South-to-South migration, which is particularly large in Asia. The labour migration flows within this region are typified by their highly regulated nature, temporary character and by the predominance of females undertaking migration. So far, most academic attention has focused on permanent or settlement migration. This study aims to fill a gap in our understanding of migration theory by focusing on temporary migration processes. The study examines the reasons Bangladeshi women gave for migrating and how their experience impacted their lives during their migration and after their return. The findings

underscore the importance of incorporating gender in migration theory and integrating it into analyses. While in most cases their migration was socio-culturally contested, the women say they migrated in an effort to improve their socio-economic standing. This proved in general to be more difficult than anticipated; wages were not paid according to contract or labour law, and male peers often opposed their efforts. The complex nature of these women's position and situation preclude unequivocal conclusions as to the possible benefits or losses resulting from migration. But by revealing the experiences of individual women, this study helps to clarify some of the ambiguities of the individual migrants complex reality. The analysis of their experiences exposes important gender dynamics.
