[Media and Middle Class Moms - Lara J. Descartes 2010-04-02](#)

Written by nationally recognized anthropologists Conrad Kottak and Lara Descartes, this ethnography of largely white, middle class families in a town in the midwest explores the role that the media play in influencing how those families cope with everyday work/family issues. The book insightfully reports that families struggle with, and make work/family decisions based largely on the images and ideas they receive from media sources, though they strongly deny being so influenced. An ideal book for teaching undergraduate family, media, and methods courses.

Because this used to be my life's story... It's funny when I think back to just a few months ago. I remember having no idea, no clue what so ever about what I was doing when trying to meet women. I was truly clueless, and like most men I had no idea why I was constantly getting rejected. But instead of giving up, which was not even an option, I started to learn. I started reading everything on the subject of dating and attracting women I could get my hands on. I've spent thousands of dollars on dating courses and tips and got rejected a 100 times over just so I can learn about what I'm doing wrong. And how you can be that "bad boy" without actually being bad. - Why catering to her every need from the moment you meet her will absolutely kill your chances of being anything more than her "talking friend". - Why compliments will not always get you past the pick up line, and how to really get a woman's attention when approaching her. - Why what you think girls want and what you have always been told girls want (even by other women) is one of the biggest reasons most men's chances of sweeping a beautiful woman of her feet are next to nothing. - The 7 or so things a woman is really looking for when she meet a man. This is exactly what 95% of men out there are missing when they are trying to pick up girls. - The 14 essential rules you should always follow when dating. Young People, Stalking Awareness and Domestic Abuse - Maria Mellins 2023-09-12

This book addresses domestic abuse and stalking among young people in the UK and Ireland, with a focus on intersectionality and lifestyle settings. In partnership with the Alice Ruggles Trust, this book draws on a wealth of expert contributions including those with lived experience, frontline services such as Paladin National Stalking Advocacy Service, charities EmilyTest and Hollie Gazzard Trust, researchers of so-called honour-based abuse and online harms, and forensic psychologists who work with people who stalk. It begins with an overview of ways to recognise harmful behaviours, including those carried out online. The discussion then moves on to methods and motivations of stalking and coercive control and the various lifestyle contexts including education environments, young people in the workplace, and the role of the police and frontline support services in tackling these issues. It is a vital resource for undergraduate students across criminology, sociology, law, psychology, education, social justice, policing, and forensic psychology, as well as a combination of academic researchers and professionals working within stalking and domestic abuse support and prevention. This action-orientated book also includes 'Key Points' and 'Discussion Questions' in each chapter to direct student learning in the classroom and to create discussion points for wider readers.

Movies and Methods - Bill Nichols 1985-09-06

The original Movies and Methods volume (1976) captured the dynamic evolution of film theory and criticism into an important new discipline, incorporating methods from structuralism, semiotics, and feminist thought. Now there is again ferment in the field. Movies and Methods, Volume II, captures the developments that have given history and genre studies imaginative new models and indicates how feminist, structuralist, and psychoanalytic approaches to film have achieved fresh, valuable insights. In his thoughtful introduction, Nichols provides a context for the paradoxes that confront film studies today. He shows how shared methods and approaches continue to stimulate much of the best writing about film, points to common problems most critics and theorists have tried to resolve, and describes the internal contradictions that have restricted the usefulness of post-structuralism. Mini-introductions place each essay in a larger context and suggest its linkages with other essays in the volume. A great variety of approaches and methods characterize film writing today, and the final part conveys their diversity—from statistical style analysis to phenomenology and from gay criticisms to neoformalism. This concluding part also shows how the rigorous use of a broad range of approaches has helped remove post-structuralist criticism from its position of dominance through most of the seventies and early eighties. The writings collected in this volume exhibit not only a strong sense of personal engagement but als a persistent awareness of the social importance of the cinema in our culture. Movies and Methods, Volume II, will prove as invaluable to the serious student of cinema as its predecessor; it will be an essential reference work for years to come.

Movies and Mental Illness - Danny Wedding 2023-11-06

The popular, critically acclaimed text on psychopathology in movies - now including the latest DSM movies and more Explores films according to the diagnostic criteria of DSM-5 and ICD-11 Provides psychological ratings of nearly 1,500 films Includes downloadable teaching materials Films can

be a powerful aid to learning about mental illness and psychopathology – for practitioners and students in fields as diverse as psychology, psychiatry, social work, medicine, nursing, counseling, literature, or media studies, and for anyone interested in mental health. Watching films relevant to mental health can actually help you become a more productive therapist and a more astute diagnostician. *Movies and Mental Illness*, written by an eminent clinical psychologist (who is also a movie aficionado), has established a reputation as a uniquely enjoyable and highly memorable text for learning about psychopathology. This new edition has been completely revised to explore current issues, such as children's screentime and celebrities with mental illness, and to include the numerous films that have been released since the last edition. The core clinical chapters raise provocative questions about differential diagnosis (according to the DSM-5 and ICD-11) for the primary characters portrayed in the films. Included are also a full index of films; sample course syllabus; ratings of close to 1,500 films; fascinating appendices, such as "Top 50 Heroes and Villains," psychotherapists in movies, and misconceptions about mental illness in movies.

Accompanying the new edition are downloadable resources for teachers that include critical questions and topics for discussion, as well as fabricated case histories based on movie characters with Mini-Mental State Examinations that help explain, teach, and encourage discussion about important mental health disorders. In addition, the author plans a regular series of online "Spotlights" articles that will critically examine the psychological content of new movies as they are released.

From Hollywood with Love - Scott Meslow 2022-02-01

An in-depth celebration of the romantic comedy's modern golden era and its role in our culture, tracking the genre from its heyday in the '80s and the '90s, its unfortunate decline in the 2000s, and its explosive reemergence in the age of streaming, featuring exclusive interviews with the directors, writers, and stars of the iconic films that defined the genre. No Hollywood genre has been more misunderstood—or more unfairly under-appreciated—than the romantic comedy. Funny, charming, and reliably crowd-pleasing, rom-coms were the essential backbone of the Hollywood landscape, launching the careers of many of Hollywood's most talented actors and filmmakers, such as Julia Roberts and Matthew McConaughey, and providing many of the yet limited creative opportunities women had in Hollywood. But despite—or perhaps because of—all that, the rom-com has routinely been overlooked by the Academy Awards or snobbishly dismissed by critics. In *From Hollywood with Love*, culture writer and GQ contributor Scott Meslow seeks to right this wrong, celebrating and analyzing rom-coms with the appreciative, insightful critical lens they've always deserved. Beginning with the golden era of the romantic comedy—spanning from the late '80s to the mid-'00s with the breakthrough of films such as *When Harry Met Sally*—to the rise of streaming and the long-overdue push for diversity setting the course for films such as the groundbreaking, franchise-spawning *Crazy Rich Asians*, Meslow examines the evolution of the genre through its many iterations, from its establishment of new tropes, the Austen and Shakespeare rewrites, the many love triangles, and even the occasional brave decision to do away with the happily ever after. Featuring original black-and-white sketches of iconic movie scenes and exclusive interviews with the actors and filmmakers behind our most beloved rom-coms, *From Hollywood with Love* constructs oral histories of our most celebrated romantic comedies, for an informed and entertaining look at Hollywood's beloved yet most under-appreciated genre.

McCall's - 1984

The Dark Side of Relationship Pursuit - Brian H. Spitzberg 2014-04-16
Awards and Praise for the first edition: Recipient of the 2006

International Association for Relationship Research (IARR) Book Award

"This text, as it presently stands, is THE go-to text for stalking researchers. That is my opinion and the opinion of multiple fellow scholars I know in the field. It rarely sits on my shelf, but rather is a constant reference on my desk. I can always count on these authors to have done an extensive review of literature. I thought I was thorough, but they are always providing me with new references." --Dr. H. Colleen Sinclair, Associate Professor of Psychology, Mississippi State University
"Cupach and Spitzberg provide the reader with a multidisciplinary framework for understanding the nature and impact of unwanted relationship pursuits. This book is an excellent resource for students and professionals alike who seek to gain knowledge about unwanted relational pursuits and stalking." —Journal of Couple & Relationship Therapy
The Dark Side of Relationship Pursuit provides historical and definitional frames for studying unwanted relationship pursuit, and considers the role of the media, law, and social science research in shaping today's conceptualizations of stalking. The volume integrates research from diverse contributing fields and disciplines, providing a thorough summary and assessment of current knowledge on stalking and obsessive pursuit. Building on the foundation of the award-winning first edition, this revision considers assessment issues, offers an expanded analysis of the meta-analysis data set, and includes coverage of intercultural and international factors. As an increasing number of scholarly disciplines and professional fields study stalking and other forms of obsessive relationship pursuit, this book is a must-have resource for examining interpersonal conflict, social and personal relationships, domestic violence, unrequited love, divorce and relational dissolution, and harassment. It also has much to offer researchers, counselors, and professionals in psychology, counseling, criminal justice, sociology, psychiatry, forensic evaluation, threat assessment, and law enforcement.
