

Flirting For Success The Art Of Building Rapport By Jill Spiegel

Flirting for Success - Jill Spiegel 1994-02-01

The Michigan Alumnus - 1994

In volumes 1-8: the final number consists of the Commencement annual.

The Publishers Weekly - 1995

Social Movements - David S. Meyer 2002

"Why do social movements take the forms they do? How do activists' efforts and beliefs interact with the cultural and political contexts in which they work? Why do activists take particular strategic paths, and how do their strategies affect the course and impact of the movement? Representing a new generation of social movement theory, the contributors to this volume build bridges between political opportunities and collective identity paradigms, between analyses of movements' internal dynamics and their external contexts, between approaches that emphasize structure and those that emphasize culture. Case studies range from civil rights and religious movements in North American and Western Europe to revolutionary movements in Burma, the Philippines, and Indonesia; labor campaigns in England and South Africa; and feminist movements in India. Combining a variety of perspectives on a wide range of topics, the contributors' synthetic approach shifts the field of social movements forward in important new directions."--Back cover

Subject Guide to Books in Print - 1993

Daniel Goleman Omnibus - Daniel Goleman 2004

Emotional Intelligence Does IQ define our destiny? Daniel Goleman argues that our view of human intelligence is far too narrow, and that our emotions play a major role in thought, decision making and individual success. Self-awareness, impulse control, persistence, motivation, empathy and social deftness are all qualities that mark people who excel: whose

relationships flourish, who are stars in the workplace. With new insights into the brain architecture underlying emotion and rationality, Goleman shows precisely how emotional intelligence can be nurtured and strengthened in all of us. Working with Emotional Intelligence Do you want to be more successful at work? Do you want to improve your chances of promotion? Do you want to get on better with your colleagues? Daniel Goleman draws on unparalleled access to business leaders around the world and the thorough research that is his trademark. He demonstrates that emotional intelligence at work matters twice as much as cognitive abilities such as IQ or technical expertise in this inspiring sequel.

Neuropsychedelica - Nicolas Langlitz 2013

Neuropsychedelica examines the revival of psychedelic science since the "Decade of the Brain." After the breakdown of this previously prospering area of psychopharmacology, and in the wake of clashes between counterculture and establishment in the late 1960s, a new generation of hallucinogen researchers used the hype around the neurosciences in the 1990s to bring psychedelics back into the mainstream of science and society. This book is based on anthropological fieldwork and philosophical reflections on life and work in two laboratories that have played key roles in this development: a human lab in Switzerland and an animal lab in California. It sheds light on the central transnational axis of the resurgence connecting American psychedelic culture with the home country of LSD. In the borderland of science and religion, *Neuropsychedelica* explores the tensions between the use of hallucinogens to model psychoses and to evoke spiritual experiences in laboratory settings. Its protagonists, including the anthropologist himself, struggle to find a place for the mystical under conditions of late-modern materialism.

American Book Publishing Record - 1995

The End of Love - Eva Illouz 2021-09-15

Western culture has endlessly represented the ways in which love miraculously erupts in people's lives, the mythical moment in which one knows someone is destined for us, the feverish waiting for a phone call or an email, the thrill that runs down our spine at the mere thought of him or her. Yet, a culture that has so much to say about love is virtually silent on the no less mysterious moments when we avoid falling in love, when we fall out of love, when the one who kept us awake at night now leaves us indifferent, or when we hurry away from those who excited us a few months or even a few hours before. In *The End of Love*, Eva Illouz documents the multifarious ways in which relationships end. She argues that if modern love was once marked by the freedom to enter sexual and emotional bonds according to one's will and choice, contemporary love has now become characterized by practices of non-choice, the freedom to withdraw from relationships. Illouz dubs this process by which relationships fade, evaporate, dissolve, and break down "unloving." While sociology has classically focused on the formation of social bonds, *The End of Love* makes a powerful case for studying why and how social bonds collapse and dissolve. Particularly striking is the role that capitalism plays in practices of non-choice and "unloving." The unmaking of social bonds, she argues, is connected to contemporary capitalism which is characterized by practices of non-commitment and non-choice, practices that enable the quick withdrawal from a transaction and the quick realignment of prices and the breaking of loyalties. Unloving and non-choice have in turn a profound impact on society and economics as they explain why people may be having fewer children, increasingly living alone, and having less sex. *The End of Love* presents a profound and original analysis of the effects of capitalism and consumer culture on personal relationships and of what the dissolution of personal relationships means for capitalism.

Interpersonal Communication Book - Joseph A. DeVito 2013-07-27

Updated in its 13th edition, Joseph DeVito's *The Interpersonal Communication Book* provides a highly interactive presentation of the theory, research, and skills of interpersonal

communication with integrated discussions of diversity, ethics, workplace issues, face-to-face and computer-mediated communication and a new focus on the concept of choice in communication. This thirteenth edition presents a comprehensive view of the theory and research in interpersonal communication and, at the same time, guides readers to improve a wide range of interpersonal skills. The text emphasizes how to choose among those skills and make effective communication choices in a variety of personal, social, and workplace relationships

Flirting for Success - Jill Spiegel 1995

Includes surefire tips for business and personal success, in a concise, easy-to-follow, down-to-earth guide. Spiegel, an award-winning motivational speaker and consultant, reveals how to gain immediate trust, keep confidence high, give and receive compliments to gain power and much more.

Saving Lives - Sandy Summers 2014-09-25

Examines the portrayal of nurses in the mass media, and the misconceptions that it fosters in the way that they are perceived by patients in comparison to the vital role that they actually play in saving lives.

The Return of Traditional Food - Patricia Lysaght 2013

American Independent Cinema - Geoff King 2014-09-08

The independent sector has produced many of the most distinctive films to have appeared in the US in recent decades. From 'Sex, Lies and Videotape' in the 1980s to 'The Blair Witch Project' and New Queer Cinema in the 1990s and the ultra-low budget digital video features of the 2000s, indie films have thrived, creating a body of work that stands out from the dominant Hollywood mainstream. But what exactly is 'independent' cinema? This, the first book to examine the question in detail, argues that independence can be defined partly in industry terms but also according to formal and aesthetic strategies and by distinctive attitudes towards social and political issues, suggesting that independence is a dynamic rather than a fixed quality. Chapters focus on distribution and relationships with Hollywood studios; narrative ('Clerks' and 'Slacker' to 'Pulp Fiction',

'Magnolia' and 'Memento') and other formal dimensions (from 'Blair Witch's' 'authenticity' to expressive and stylized camerawork and editing in work from Harmony Korine to the Coen brothers); approaches to genre and alternative socio-political visions.

The Cumulative Book Index - 1996

A world list of books in the English language.

Paradoxes of Interactivity - Uwe Seifert

2015-09-25

Current findings from anthropology, genetics, prehistory, cognitive and neuroscience indicate that human nature is grounded in a co-evolution of tool use, symbolic communication, social interaction and cultural transmission. Digital information technology has recently entered as a new tool in this co-evolution, and will probably have the strongest impact on shaping the human mind in the near future. A common effort from the humanities, the sciences, art and technology is necessary to understand this ongoing co-evolutionary process. Interactivity is a key for understanding the new relationships formed by humans with social robots as well as interactive environments and wearables underlying this process. Of special importance for understanding interactivity are human-computer and human-robot interaction, as well as media theory and New Media Art. »Paradoxes of Interactivity« brings together reflections on »interactivity« from different theoretical perspectives, the interplay of science and art, and recent technological developments for artistic applications, especially in the realm of sound.

Reflective Practice - Gillie Bolton 2010-02-04

Lecturers, why waste time waiting for the post to arrive? Request your e-inspection copy today! In the new third edition of this popular and highly readable book, the author draws on her considerable experience and extensive research to demonstrate a creative dynamic mode of reflection and reflexivity. Using expressive and explorative writing combined with in-depth group work/mentoring alongside appropriate

focussed research, it enables critical yet sensitive examinations of practice. Gillie offers a searching and thorough approach which increases student and professional motivation, satisfaction, and deep levels of learning. She clearly explains reflection; reflexivity; narrative; metaphor, and complexity, and grounds the literary and artistic methods in educational theory and values. Clear step-by-step practical methods are given for every aspect of the process. New to this edition are: A chapter presenting different ways of undertaking and facilitating reflective practice Further international coverage, including material from Australia, New Zealand and the United States. The Third Edition also includes: An annotated glossary explaining key terms End-of-chapter activities and exercises Suggested further reading, and clear guides on chapter contents and how to use the book. Companion website www.uk.sagepub.com/bolton An accompanying companion website includes a range of free additional materials for lecturers and students to use in tutorials and for independent study, including discussion, workshop exercises, glossary and online readings. The methods are appropriate to, and used worldwide by, students and professionals across education; medicine and healthcare; clinical psychology; therapy; social work; pastoral care; counselling; police; business management; organisational consultancy; leadership training.
