**Nice Girls Just Don't Get It - Lois P. Frankel 2011-04-19**

Have you ever felt invisible? Taken advantage of? Reluctant (or unable) to articulate what you really want? If so, join the club. The nice girls club. Nice girls—that's right, girls—are those more concerned with pleasing others than with addressing their own needs and haven't yet learned how to overcome the childhood messages cultural stereotypes keeping them from getting their voices heard, their needs met, and the lives they want. This book will turn those nice girls into winning women. That is, women who factor their own needs in with those of others, confront those who treat them disrespectfully, maintain healthy and mutually beneficial relationships with appropriate boundaries—and as a result, are happier and more successful in every area of their life. In 2004, Lois Frankel blew the lid off so many of our long-held ideas about gender and success with her bestselling Nice Girls Don't Get the Corner Office, which went on to become such a huge phenomenon, the term "nice girls" has secured a place in our cultural lexicon. Here, Frankel teams up with negotiation expert Carol Frohlinger to bring this bestselling advice out of the workplace and provide a broader set of skills that any woman—whether a CEO or stay-at-home mom—can use to win anywhere, with anyone. Presented in the straightforward, digestible format that helped make

Nice Girl's Don't Get the Corner Office an instant hit, Frankel and Frohlinger outline seven practical strategies and 99 supporting tactics that every winning woman should know. By the time you've finished reading this book, you'll be able to: • Get your husband to do his half of the household chores—without being made to feel like a nag. • Stop overextending yourself by taking on all the unpleasant tasks no one on your volunteer board, or your team at work will go near. • Win an argument with your mother in law about who will be hosting Christmas dinner. • Have the courage to send back a meal that isn't prepared the way you'd ordered it. • Confront a colleague who is shirking responsibility or taking credit for your work. • Convince a sales person to reduce a fee, waive a surcharge, or honor a store credit. • Question a doctor's course or treatment or request a second opinion, instead of simply going along in order to be a "good" patient. • Firmly but politely bow out of an extravagant vacation to celebrate a friend's birthday that you simply can't afford—without feeling guilty about it. And so much more. A must-read for anyone who's ever felt taken advantage of by a friend or family member, unappreciated by a spouse or partner, or exploited by a vindictive neighbor or co-worker, Nice Girls Just Don't Get It offers women the indispensable knowledge and skills to get the things they want, the respect they've earned, and the success they deserve. *Why Women Love Bitches? No More Nice Guy Guide* - Adrian Lipa 2020-05-18

WHY WOMEN LOVE BITCHES? NO MORE NICE GUY GUIDE let's keep asking ourselves the same question Hey. Why do women always choose the wrong guy? why don't they choose me I am nice and likeable. What is? Unfortunately, however brutal it may not sound, women do not like nice polite men. Which of course does not mean that you are to be a rude. It's best if you were a tough guy, but for them you were always cultural. The guy sometimes has to get his way. Beat on behalf of your chosen one. It is important that you do not have relationships with other men, a soft pipe for forgiveness. Women see it. They want men who are afraid of other guys. So what if you are tough for her. Inaccessible. Boorish. No, that's not the point. Be good to her, but she must see that other men respect you. They value your opinion and do what you tell them to. And if you in the company of other men behave like a slouch who is afraid to speak, no woman will not be with you. How to do it? There are different ways. You can go to the gym and arouse muscular fear, have a good fight, drink a lot, have a lot of money. But this is a very stereotypical approach. Such as we would like. In fact, something else matters. Something we will describe in this book. For now, remember that intelligence, passion, your own opinion are important and what friends you surround yourself with and how you respect your chosen one. So let's get to work ...

**Worthy Woman** - Zak Roedde 2021-01-12

Many women are not being treated in a way that makes them feel loved, cherished, and protected by their man. Their feelings aren't heard. Their needs aren't met. Their love is not reciprocated. Their boundaries are not respected. Not to the level that they deserve. Not to the level that they need to truly thrive as women. Not even close. But what if a man's behaviour towards his woman is just a reflection of what she is communicating to him? What if a man could feel inspired to treat his woman much better, if she changed what she was communicating? What if there were practical action based steps that a woman could take to communicate in a radically different way? The truth is, most men are capable of being the devoted masculine leader that a woman needs. A man who leads his relationship, focused on making his woman feel happy, safe, and loved. A man who works on himself diligently to become a better and stronger man for his woman. Wherever a man is in his current level of growth, he can usually be inspired to start showing up as that man. He just needs the right kind of woman to inspire him. This book will show you how to become that woman.

**Respect Yourself** - Calvin Hooper 2016-03-08

What is it that causes women to fail to see their worth, and fail to see themselves the way God intends for them to? I read a story once about self respect in regards to women that I believe explains what happens. The story said (quote): I believe self-respect is very important to everyone, especially vital for women. It should be the first important quality we should have rather than anything else. When you fail to respect yourself, many behaviors will be like giveaways. The way you talk to yourself and others is an announcement of how you feel about yourself. The way you allow others to talk about you and treat you is another giveaway. Another giveaway is when you believe you don't deserve to be heard or to be spoken to with dignity, which reveals that your self-respect is low. Think of what you want, what you expect, and set an example yourself. You will then definitely get respect from others. Law of attraction never fails. YOU ARE THE ONE RESPONSIBLE TO CHANGE OTHERS' VIEW OF YOU. (End quote) Maybe you are reading this and you're saying, "Pastor Hooper, yes, that is me. I need to change how I think of myself and change how others see me. I want that, but how do I get there?" This book is something God inspired me to write to help you get and maintain HIS perspective of you. I pray that this book helps you to fulfill the destiny God has for you.

*It's a Woman's World* - Sara Wilson 2014-09-08

Why do we harp upon the strings of equality? Equality is our right and if we live in a society that speaks of idealism, it becomes extremely important to be sure that our actions truly concur with the ideal image which we so often portray. Take a look at your workplace and answer honestly, do you find women to be at par with men? Do they really enjoy the same level of respect as men or are we shameless hypocrites who have been taking too much for granted? The change has to be you "You must be the change you wish to see in the world" - Mahatma Gandhi These are the words to live by and you need to be sure that you are doing your bit to bring about the change. Gone are the times when you could sit back and curse at the dubious standards which the society had set. If you repulse or cringe at the current palpable condition, you have to raise your voice, be heard and make sure that others can join you in this revolution too. Can you really change your workplace? Women empowerment is one of the key objectives. In the developed countries, we can find women walking at par with men in almost all walks of life. However, this is just one part of the story. There is still a lot to be done to ensure that the complete picture is something we should be proud of. There are women who have been suffering relentlessly and it is high time that the right actions are taken such that the problems can be solved and remedied. Women deserve to walk at par with men because there is absolutely nothing that makes them inferior. This book has given you ample points to prove the same. You know the fact, the details of the problem and even the possible solutions that can remedy the trouble as well. Now it is entirely upon you to bring the change. If you still do not do anything about it, you have no one to blame but yourself. This is why feel free to begin the big change which our society has been looking for since times immemorial. This book can be the ultimate guide that will assist you in every single step. Regardless of the type of problem that you face, you can always fall back on this book and be hopeful that it will assist you in

a way nothing else can. Set the right example and lead from the front. If your work can inspire others, it will set off a chain reaction which in turn will map the biggest changes of all times. You have to start this journey and be hopeful that it will never end because good changes are meant to last for times longer than forever can. What will you learn from this book? This book aims at helping women get their true place and get the respect which they truly deserve. Women are not by any means inferior to men. They have the capability to carry out all those tasks which men have been doing for so long and history has evidences that whenever women had to rise up to the occasions, they surely did. In this book, you will learn: Ways you can truly transform the workplace Women branding Improving your Self Worth The need to whistle blow, if need arises. The principles of equality The need for stricter rules Being the face of the change you badly want Getting rid of your fear of losing the job Commanding the respect you deserve There are a lot of other points you will learn and every single step counts in the long run. Do not let go of any of these aspects because it is the amalgamation of all these points that will ultimately help women enjoy the same respect and position as men at workplaces. **10 Reasons Black Women Lose Respect for Black Men** - Kottyn Campbell 2016-01-03

See even in my anger and hurt I learned how not to express everything I'm really feel because I never wanted to hurt anyone's feelings and once it comes off the tongue you can't really take it back. I also know that I won't say anything in anger that I don't mean. I believe that when you can say it in anger and if it can roll off your tongue so easy that's how you felt before you got angry so sometimes an apology isn't good enough. I've always hated name-calling or play fighting because in my house it was done so often, for real it wasn't playing it was abuse and abuse was no stranger in my world. So as a woman I grew up that way constantly pushing how I feel aside, including love, for the sake of the next person missing out on certain things in life because I didn't speak up. From watching my mother, aunts and women on the street get beaten. How is a woman to know when she's found the right one? Who was looking out for me but God, so I've always had to stand up for myself, no one has ever had my back, but I grew up knowing that.
