- and fish. "What's it like, Dad - being a fish?" Grief takes many forms, and manifests itself in strange ways. Sometimes very strange indeed. When, on an ordinary morning, Dak's father suddenly dies of a heart attack, Dak's mother falls apart. Desperate to escape the atmosphere at home, Dak finds himself going to his dad's favourite place - the local aquarium. And there, to his amazement, is Dad, who it seems is alive and well as a clownfish! With his mum so ill, Dak decides that, for now, this will have to be his secret, and his alone. But he visits the clownfish tank as often as he can, which is how he comes to meet Violet, the owner's niece. She's offhand and unfriendly - yet when the aquarium is threatened with closure, Dak and Violet need to work together to save it. For Dak, the stakes couldn't be higher: if the aquarium shuts down, what will happen to Dad? Gently funny, moving and undoubtedly strange, this is a haunting story of life after loss from an award-winning author.

Animation: A World History - Giannalberto Bendazzi 2015-11-06

A continuation of 1994's groundbreaking *Cartoons*, Giannalberto Bendazzi's *Animation: A World History* is the largest, deepest, most comprehensive text of its kind, based on the idea that animation is an art form that deserves its own place in scholarship. Bendazzi delves beyond just Disney, offering readers glimpses into the animation of Russia, Africa, Latin America, and other often-neglected areas and introducing over fifty previously undiscovered artists. Full of first-hand, never before investigated, and elsewhere unavailable information, *Animation: A World History* encompasses the history of animation production on every continent over the span of three centuries. economic globalization, the expansion of television series, emerging markets in countries like China and India, and the consolidation of elitist auteur animation, the story of contemporary animation is still open to interpretation. With an abundance of first-hand research and topics ranging from Nickelodeon and Pixar to modern Estonian animation, this book is the most complete record of modern animation on the market and is essential reading for all serious students of animation history.

Butch Geography - Stacey Waite 2014-01-28

In her Los Angeles Review of Books essay "Who Is Who: Pronouns, Gender, and Merging Selves," Dana Levin describes Stacey Waite's fusion of gender identities: "Pseudonyms, heteronyms, personae, all the ventriloquizing literary arts; point of view and tonal shifts: these are tools for speakers and speaking. But the sentence too has a voice: 'i will not be the kind of boy who can not bear the memory of her body' ... This is [Waite's] genius ... to take innocuous syntactical phrasing

and change the players mid-sentence — to get around English's pronominal either/or by creating a syntactical both/and..." "In this arresting collection, Stacey Waite is a pathfinder, charting with disarming honesty, humor, pathos and willful perplexity the uncertain terrain of gender in ways that shatter assumptions, unsettle easy presumptions, and yet, through the sheer grace of her craft and deft language, that open us to the beauty of our strange human enterprise." — Kwame Dawes

form a wary friendship. And they are more alike than they could have imagined: they both love to run. As Reema and Caylin learn to believe again, in themselves and in others, they find friendship, freedom and the discovery that home isn't a place, it's the people you love. Heartfelt and full of hope, *The Fox Girl and the White Gazelle* is an uplifting story about the power of friendship and belonging. Inspired by her work with young asylum seekers, debut novelist Victoria Williamson's stunning story of displacement and discovery will speak to anyone who has ever asked 'where do I belong?'

Easy in the Islands - Bob Shacochis 2007-12-01
Winner of the National Book Award for First Fiction: "Beguiling stories . . . about an uncommonly fascinating part of the hemisphere" (Time). *Easy in the Islands* is a "stunning" collection of stories by one of contemporary America's foremost journalists and fiction

writers. Infused with the rhythms of the Caribbean, these vivid tales of paradise sought and paradise lost are as lush, steamy, and invigorating as the islands themselves (The Washington Post). A calypso singer named Lord Short Shoe consorts with a vampish black singer to bilk an American out of his only companion—a monkey. An island bureaucracy confounds the attempts of a hotel owner to get his dead mother out of the freezer and into a real grave—until he resorts to a highly unusual form of burial. Two poor islanders stumble into a high-class dance party and find themselves caught in a violent encounter that just might escalate into revolution. And a young woman sails off into the romantic tropics with the man of her dreams, only to learn the hard way—as Eve did—that paradise is just another place to leave behind. From fishing fleets in remote atolls too small to appear on any map to the sprawling barrios and yacht filled marinas of Miami, Bob Shacochis charts a course across a Caribbean that no
