trust, have a better relationship and create the love you deserve. Humans love drama and conflicts in life. They simply love a love story involving conflicts such as betrayal, separation, and disappointment. Knowing about other people's torment is somehow our way of confronting the horrors inside us. The impact of this human drama is because it touches you in the most powerful way. While most people do not feel the rage of jealousy, admit it or not, you sometimes experience such feeling. Basically, the first step to protecting your marriage is to accept the fact that fights occur but it does not automatically follow that you consider a divorce. Fighting should not destroy your bond as husband and wife. It should not be that destructive to consider ending the marriage. In your effort to rebuild trust and intimacy in your marriage, you must be aware that compliments must genuinely reflect your feelings. Relationships become dormant because couples stop looking for the value in each other. They stop thinking of the wonderful traits their partner has and genuinely admires during the early stage of marriage. This is perhaps because most couples have become so focused on other things that they forgot about the admirable traits of their spouse. Take cues on the following habits if you want a healthy and lasting relationship. By investing in this book and following the strategies given to you, you should never have to buy another book on this subject. The methods listed in this guide are the easiest, most profitable, future proof methods you can use to save your relationship. I've given you the exact number of strategies you need to succeed in your relationship quickly and with the least bit of effort. No more and no less. In this book, you'll find easy step-by-step instructions on how to improve your relationship under the following headings: WHAT IS RELATIONSHIP? THE ELEMENTS OF A GREAT RELATIONSHIP GETTING THROUGH THE COMPLICATIONS FIND YOUR WAY BACK INTO LOVE THE FOUNDATIONS OF MARRIAGE WHAT TO AVOID TO PREVENT DIVORCE WHAT TO DO TO PREVENT DIVORCE HOW TO RESTORE PASSION IN YOUR RELATIONSHIP? BRING BACK THE ROMANCE COMMUNICATION IN RELATIONSHIP What you need to appreciate is that the only way you are going to make

headway in improving your relationship is by understanding the elements of a great relationship, how to prevent divorce and how to save your relationship and bring back the romance. Otherwise, you will be running against a strong wind that counters most, if not all, of your efforts.

*STRONG IN THE STORM* - Mutea Rukwaru  
2017-12-20

Marriage is one of the oldest institutions in the world. It is an institution bedeviled with a lot of challenges. It is ironical that you are given a marriage certificate without having graduated. You don't even graduate in the college of marriage. There are no leaves, half terms or holidays. Marriage is a relationship and all relationships have disagreements. How successful relationships are has a lot to do with how those disagreements are handled. Most of the problems encountered in marriage is due to the fantasy we have about marriage life. From the moment Romeo sets his eyes on Juliet to the fairy-tale climax when Cinderella captures her prince, young people are taught that falling in love is the one and only essential requirement for marriage. If you wish to make your marriage work, then the love between you can't simply be based on feelings. That's because feelings change like moods. If romance were the sole factor determining the duration of a union, most marriages would end in less than a year. Love must be both a feeling and a decision. Most marital relationships are weakened by the issues of sex, money, identity and extended family members. In today's world time is becoming elusive. Remember a time a husband and wife devote to one another determines the quality of their relationship. The stresses of life whether they are financial, parental, family related or work related can negatively impact on marriage and lead to unnecessary arguments. Spouses who don't prioritize their time together get caught in the trap of drifting away from one another due to the pressures of life. As time goes on and children get older and jobs become demanding you may not realize that your needs are changing and you dread change. With time you will find that by investing in your marriage and spending time with one another, you will limit the number of disagreements you have. Your sexual life will improve and you are less likely to be involved in extramarital affairs. The

quality of your marriage is the single most important factor in raising healthy, well-adjusted children. Husbands and wives who love and respect each other raise children who have healthy values, self-esteem and good relationship skills. Wives should not neglect their husbands. Remember your husband was there before your children were born and he'll be there long after your children have moved on in life. If you show contempt toward your husband, your daughter will treat her husband that way and your son will expect his wife to have contempt for him. Your husband needs to occupy the number one spot in your heart. You cannot place your children or extended family ahead of him in your heart. If you don't put him first, not only will that injure him, but it will destroy your relationship and eventually make him run away and this will harm the lives of your children. Oftentimes men feel like they only get their wife's attention after everyone else the kids, the pets and the women have had their needs met. He gets what's left over after everyone else is taken care off. It is also important to note that happily married spouses are satisfied with their sexual relationships. A spouse who makes you feel important, who is kind, gentle, exciting and good with children and who is sexually satisfying and prone to sexual experimentation most powerfully influences your marital satisfaction. You can add zest to your love life by enhancing appeal as a spouse by having more intimate conversations and by showing more consideration and non sexual affection. Then add some novelty and creativity to your lovemaking. Sex is so critical in marriage and any relationship at marriage level devoid of it is at risk. Sex can heal illnesses and alleviate depression. From a man's perspective, there are not many things more important than sex. Sex not only fulfils a physical need in men and women but it also fulfils a psychological need. In reference to men sex heals a man the same way food, sleep and medicine can heal an injured sick body. Men are intensely physical and so the physical act of sex plays a big role in their lives. Women enjoy sex nearly as much as men do-they just don't obsess it quite as much. It is of interest to note that if a man's wife is not interested in him physically for whatever reason, of which probably it isn't necessarily her fault,

and some young girls come along who shows an interest in him as a man, many men are easily swayed into having these needs fulfilled. Some of it may be due to ego, but much of that need involves the fact that a man cannot feel truly loved if he is not having his physical needs met. When both men and women are satisfied sexually they will all be having satisfied marriage lives. Sex is such a great power in the world. But it is women who have tremendous sexual power. What does this power look like? What are the dynamics of sex? Why do spouses stray? Is it a matter of life and death? What are the complex reasons behind extramarital sex? Is sex so critical that without proper handling families will degenerate to the primordial times where "sexual punalua" ("sexual communism") was the practice? Take an exciting walk through "strong in the storm" to find answers to this life's maze. When you unearth the mystery of this labyrinth, then you will be in a position to advice colleagues, friends and those in the byways of orchestra of life how to paddle this tricky canoe. In a nutshell, a husband and wife should sail the seas of life in the same boat, rowing together, trimming the sails together and making sure the whole operation runs smoothly together, but ironically many spouses are actually in two different boats. Yet the two won't truly become one until they do get into the same boat.

[Lean In](#) - Sheryl Sandberg 2013-03-12

Sheryl Sandberg's *Lean In* is a massive cultural phenomenon and its title has become an instant catchphrase for empowering women. The book soared to the top of bestseller lists internationally, igniting global conversations about women and ambition. Sandberg packed theatres, dominated opinion pages, appeared on every major television show and on the cover of *Time* magazine, and sparked ferocious debate about women and leadership. Ask most women whether they have the right to equality at work and the answer will be a resounding yes, but ask the same women whether they'd feel confident asking for a raise, a promotion, or equal pay, and some reticence creeps in. The statistics, although an improvement on previous decades, are certainly not in women's favour - of 197 heads of state, only twenty-two are women. Women hold just 20 percent of seats in parliaments globally, and in the world of big business, a meagre eighteen of the Fortune 500 CEOs are women. In *Lean In*, Sheryl Sandberg - Facebook COO and one of *Fortune* magazine's Most Powerful Women in Business - draws on her own experience of working in some of the world's most successful businesses and looks at what women can do to help themselves, and make the small changes in their life that can effect change on a more universal scale.
