but you're there... and you want out! Almost every guy, and even many women, have been in a situation where they've wanted to be more than 'just friends' with another person. And yet, for some reason, nothing they've tried has worked. Moreover, they always have to tip-toe around the situation because they don't want to lose the friendship by making the wrong move. It truly is a horrible place to be stuck in...to be around someone, to be so close to them in proximity, and even share so much of your lives with each other... and yet, what you really want from them is off limits. Since you're reading this report, there is a very good chance that... a. you have a current friend that you'd like to turn into your lover and/or girlfriend, b. you used to date and/or sleep with someone who now wants to be 'just friends,' c. you have been in one of the above situations in the past, maybe more than once, and you'd like to learn how to avoid it from happening during your future interactions with others, or... d. you've seen this happen to other people, where they end up in the 'friend zone'...and you want to be pre-emptive about it, so you can be prepared if it ever happens to you. Whatever your situation may be, this report will arm you with some powerful knowledge, as well as some cutting-edge seduction and persuasion strategies, which will easily help you to get out of the 'friend zone' and/or ensure that you never end up being 'just friends' with someone you are attracted to. And, if you have ever wondered why or how it happens in the first place, this report will also help you to finally understand why so many guys seem to always end up in the 'friend zone' by accident, even when you really don't want to. (That giant mystery will be solved in this report, once and for all.) Just as I do in most of my reports, I will start this one out by sharing some of the 'quick and easy' techniques with you. These will include tips you can put to use right away, and see results almost overnight. Then, I will cover some of the more advanced stuff, including powerful persuasion techniques, which may require a bit more work on your part to execute. But they will be well worth

And more than twenty-five years since its theme song promised "I'll be there for you," Rachel, Monica, Phoebe, Joey, Chandler, and Ross are still entertaining audiences around the world. As the characters maneuvered their ways through dating, love, and the occasional conflict, their loyalty to each other remained steadfast. In Friends: A Cultural History, Jennifer C. Dunn explores why the show immediately took hold of viewers and how the series remained must-see TV for so long. Dunn examines the cultural landscape that allowed a show not centered on traditional sitcom norms of family and career to become such a critical and commercial success. The author also addresses how the show's complicated depictions of gender roles and class distinctions—as well as its lack of ethnic diversity—did not detract from its popularity. In addition to exploring memorable plotlines, cherished moments, and the quirks of the principal players, this book analyzes the show's enduring

Game Love Jessica Enevold 2015-01-09 What does love have to do with gaming? As games have grown in complexity, they have increasingly included narratives that seek to engage players with love in a variety of ways. While media attention often focuses on violent emotions and behavior in gaming, love has always been central to the experience. We love to play games, we have titles that we love, and sometimes we love too much or love terrible games for their shortcomings. Love in gaming is rather like love in life—often complicated and frustrating but also exciting and gratifying. This collection of fresh essays explores the meaning and role of love in gaming, describing a number of ways—from coding to cosplay—in which love can be expressed in, for and around games. Investigating how gaming involves love is also key to understanding the growing importance of games and gamers as cultural markers.
