The Importance of Music to Girls - Lavinia Greenlaw 2008

Lavinia Greenlaw's vivid and engaging portrait of what music means to us as we grow up. The Importance of Music to Girls tells the story of the

adventures that music leads us into - getting drunk, falling in love, cutting our hair, wanting to change the world - as well as the darker side of the adolescent years: loneliness, bullying, getting arrested. From bubble-gum pop to classical piano to punk rock, music is at first the key to being a girl and then the means of escape from all that. It is a way to talk to boys and a way to do without them.

Strong Black Girls - Danielle Apugo 2020-12-11

"Strong Black Girls lays bare the harm Black women and girls are expected to overcome in order to receive an education in America. It captures the routinely muffled voices and experiences of these students through storytelling, essays, letters, and poetry. The authors make clear that the strength of Black women and girls should not merely be defined as the ability to survive racism, abuse, and violence. Readers will also see resistance and resilience emerge through the central themes that shape these reflective, coming-of-age narratives. Each chapter is punctuated by discussion questions that extend the conversation around the everyday realities of navigating K-12 schools, such as sexuality, intergenerational influence, self-love, anger, leadership, aesthetic trauma (hair and body image), erasure, rejection, and unfiltered Black girlhood. Strong Black Girls is essential reading for everyone tasked with teaching, mentoring, programming, and policymaking for Black females in all public institutions. Book Features:]A spotlight on the invisible barriers impacting Black girls' educational trajectories.]A survey of the intersectional notions of strength and Black femininity within the context of K-12 schooling.]Narrative therapy through unpacking system stories of oppression and triumph.]Insights for building skills and tools to make substantial and lasting change in schools"--

Mix Tape Memories - Anders Høg Hansen 2023-09-27

This book 'plays up' stories of mostly unknown figures and their journeys through a life affected by movement, and a search for home. It engages with individuals and groups whose passions have carried the subjects through 'uncharted' or unhomey territories, here told in a series of 'tracks' depicting their roles in community memories and histories. Side A engages with individual journeys, such as Lewis, the American black literature book seller; the civil rights activist, Izzy, an American-Swedish folklorist; Eugene, a black classical pianist; and Pi, the Jew transported

to Sweden during WWII. Side B focuses on communal histories and alternative educational and artistic spaces, addressing life writing and memory in German comic books; alternative educational spaces in Israel-Palestine and Africa, and 'small press passions' of zines/newsletter culture. Tellers and their interpreters are mediating identities where nationality, race, and class (and other markers of identity) have influenced selfhood and collective belonging - revealing how individuals and outsider cultures have the power to influence dominant cultures and inspire societal change.

Madonna Song by Song - Marc Andrews 2022-03-28

In a career full of 'blond ambition', with controversy never far away, the music of Madonna has often been overshadowed, if not sorely overlooked. Across 14 albums, soundtracks and numerous greatest hits collections, the undisputed Queen of Pop has released over 80 singles spanning five decades. In this book every released track from her extensive back catalogue is examined in detail, with new insights, revelations and video information. Her role as 'Queen of Clubs' is also duly acknowledged, making careful note of the important remixes that have helped her rule the dance floor after her first release 40 years ago in 1982, 'Everybody', got her firmly into the groove. From 1984's shiny and new 'Like A Virgin', to the critical acclaim of 1989's expressive 'Like A Prayer' and 1998's enlightening 'Ray of Light', from soundtrack work for 'Dick Tracy' and 'Evita', to collaborations with superstars Justin Timberlake, Britney Spears, and Dua Lipa, this truly strikes a pose for

any fan of the 'Material Girl' aka 'Madame X'. 'Madonna: Song By Song' reclaims her stature as not just one of the greatest pop artists ever, but also as songwriter/producer of some of the biggest selling and most memorable songs of all time.

Blade Runner 2019 #4 - Michael Green 2019-10-16

Blade Runner Aahna 'Ash' Ashina of the Los Angeles Police Department has been assigned to investigate the disappearance of Isobel and Cleo Selwyn, the wife and daughter of business tycoon Alexander Selwyn. After reporting back to Selwyn on the progress of her investigation, Ash survived a near-fatal attempt on her life and was hospitalized, after members of the Replicant underground shot down her Spinner.

Subsequently, the NYPD learned of Ash's cybernetic back-brace and promptly suspended her indefinitely from active duty. Ash then learned that Selwyn had also demanded her removal from the case, citing disappointment with her progress. Determined to uncover the truth, Ash decided to continue investigating independently and went to the Tyrell Corporation in search of answers. There, she discovered Selwyn's wife had actually died years earlier and that Isobel was in fact a Replicant gifted to him by Eldon Tyrell in an attempt to assuage his friend's grief and to protect Cleo from knowing the truth. Accepting the offer of a new Spinner, Ash set out to track down the missing pair, whom Ash soon learned were attempting to escape the city. Meanwhile, Isobel and Cleo have been smuggled south across the border to Mexico and taken to an island called El Santaurio, which is populated entirely by Replicants...

Sporty Girls - Sheryl Clark 2021-03-01

This book engages with the ongoing question of why many girls stop doing sport and physical activity in their teenage years. Previous research has found that many girls' disengagement from sport takes place despite their childhood enjoyment and that frequently these same women take up sport again as adults. Within these chapters, Sheryl Clark explores what it is about this period of time that persuades many girls to disengage from sports when their male peers continue to take part; why some girls continue to take part; and most importantly how girls understand this participation. She suggests that girls' participation in sport should be viewed as part of their ongoing constructions of 'successful girlhood' within a competitive schooling system and broader socioeconomic context.

Rock This Way - Mel Stanfill 2023-08-15

Any and all songs are capable of being remixed. But not all remixes are treated equally. Rock This Way examines transformative musical works—cover songs, remixes, mash-ups, parodies, and soundalike songs—to discover what contemporary American culture sees as

legitimate when it comes to making music that builds upon other songs. Through examples of how popular discussion talked about such songs between 2009 and 2018, Mel Stanfill uses a combination of discourse analysis and digital humanities methods to interrogate our broader understanding of transformative works and where they converge at the legal, economic, and cultural ownership levels. *Rock This Way* provides a new way of thinking about what it means to re-create and borrow music, how the racial identity of both the reusing artist and the reused artist matters, and the ways in which the law polices artists and their works. Ultimately, Stanfill demonstrates that the extent to which a work is seen as having new expression or meaning is contingent upon notions of creativity, legitimacy, and law, all of which are shaped by white supremacy.

Parody in the Age of Remix - Ragnhild Brøvig 2023-06-27

The art of mashup music, its roots in parody, and its social and legal implications. Parody needn't recognize copyright—but does an algorithm recognize parody? The ever-increasing popularity of remix culture and mashup music, where parody is invariably at play, presents a conundrum for internet platforms, with their extensive automatic, algorithmic policing of content. Taking a wide-ranging look at mashup music—the creative and technical considerations that go into making it; the experience of play, humor, enlightenment, and beauty it affords; and the social and legal issues it presents—*Parody in the Age of Remix* offers a pointed critique of how society balances the act of regulating art with the act of preserving it. In several jurisdictions, national and international, parody is exempted from copyright laws. Ragnhild Brøvig contends that mashups should be understood as a form of parody, and thus be protected from removal from hosting platforms. Nonetheless, current copyright-related content-moderation regimes, relying on algorithmic detection and automated decision making, frequently eliminate what might otherwise be deemed gray-area content—to the detriment of human listeners and, especially, artists. Given the inaccuracy of takedowns, *Parody in the Age of Remix* makes a persuasive argument in favor of greater protection for remix creativity in the future—but it also suggests that the content-moderation challenges facing mashup producers and other remixers are symptomatic of larger societal issues.

Civil Society and Pakistan's Economy - Fayyaz Baqir 2023-03-17

This book analyses the paradoxes of Pakistan's economy, meritocratic domestic policy, and the role of the state and the civil society. It argues that the transition in the country's foreign policy from geo-politics to geo-economic depends on a fundamental domestic policy transition from kleptocracy to meritocracy. *Civil Society and Pakistan's Economy* discusses how the prevalence of rent-seeking practices has undermined merit-based practices by increasing the cost of doing business and converting public loss into private profit by awarding inappropriate subsidies and imposing regressive taxes. The analyses are supported by describing the instruments and mechanisms used for rent-seeking practices and the creation of public awareness of options available to change these practices through citizen's action and civil society engagement. The book also shows the path of transformation and the role of participation and argues that aspiring for and capturing power is not the only way to transform Pakistan. A novel analysis depicting macro-micro linkages of encroachment of socio-economic space by the power elites and effective strategies used for its reappropriation by the people,

the book will be of interest to academics researching South Asian Studies, in particular South Asian economics and politics.

Teaching Asian America in Elementary Classrooms - Noreen Naseem Rodríguez 2023-12-01

Asian American voices and experiences are largely absent from elementary curricula. Asian Americans are an extraordinarily diverse group of people, yet are often viewed through stereotypical lenses: as Chinese or Japanese only, as recent immigrants who do not speak English, as exotic foreigners, or as a "model minority" who do well in school. This fundamental misperception of who Asian Americans are begins with young learners—often from what they learn, or do not learn, in school. This book sets out to amend the superficial treatment of Asian American histories in U.S. textbooks and curriculum by providing elementary teachers with a more nuanced, thematically driven account. In chapters focusing on the complexity of Asian American identity, major moments in Asian immigration, war and displacement, issues of citizenship, and Asian American activism, the authors include suggestions across content areas for guided class discussions, ideas for broader units, and recommendations for children's literature as well as primary sources.
