Narcissistic Giving - Gerald Alper 1995

In his new book, Gerald Alper whose Portrait of the Artist as a Young Patient, according to one noted critic, "represents one of the most important modern studies of the psyche of the creative personality that we have," and whose recent, The Singles Scene, has already been cited as an essential source book on contemporary relationships in a syndicated feature article appearing in the Los Angeles Times (Paul-Lynn Parks, January 30, 1995) continues his brilliant exploration into the roots of intimacy. In this richly descriptive catalogue of all too recognizable everyday examples, Alper, who has gained national prominence as a psychotherapist, chronicles the unconscious defenses, gambits and strategies by which frightened people seek to escape the imagined terrors of relating to one another and to themselves.

Knowing If It's the Real Thing - Gerald Alper 2004

In this exciting and original work, Gerald Alper, illuminates the crucial elements that together constitute intimacy. Knowing If It's the Real Thing offers a radical departure from today's popular, yet mythological belief that if two people stay together, in an adaptive, productive, and moderately mutually enhancing way, they will achieve the most a relationship can offer. Some issues discussed in the book are the basic ingredients and rudimentary ground rules of "postmodern intimacy;" how to discover the arena in which one feels most comfortable in expressing intimate feelings; the many ways that sincere efforts to connect can completely misfire; and how to build up defenses, dodge self-reproach, and retain one's dignity and sense of trust following a serious break-up.

Portrait of the Artist as a Young Patient - Gerald Alper 1998

Portrait of the Artist as a Young Patient, the first book of non-fiction written by Gerald Alper, is also the first serious attempt to explore in depth the dynamics of the yet-to-be recognized, unfulfilled and usually perplexed fledgling artist. The artist tries to live in two separate worlds:

a factual, linear, banal, reality-driven outer world that is best kept at arm's length; and a creatively organized, aesthetically orchestrated, dramatically engaging inner world that is forever being obsessively cultivated. Indeed, facilitating the patient in his or her efforts to forge a usable bridge between these generally discontinuous worlds is no small part of the task of the therapist who elects to work with such young artists.

Power Plays - Gerald Alper 1998

Power Plays is a brilliant depiction of what happens when there is a covert attempt to impose rules on the behavior of the other, rules, moreover, which, regardless of how they are rationalized, are patently meant to benefit only one person. As such, it may be the first phenomenological treatment of power transactions between people from a psychodynamic and interpersonal framework. A major theme throughout is that the power plays that are not politicized are as abusive, if not more so, than those that are, if only because they often go unrecognized.

Consumption: Disciplinary approaches to consumption - Daniel Miller 2001

The Myth of Self Help - Gerald Alper 2011

Gerald Alper is the author of eleven books including Portrait of the Artist as a Young Patient: Psychodynamic Studies of the Creative Personality, The Puppeteers: Studies of Obsessive Control, Narcissistic Giving: A Study of People Who Cheat in Relationships, and Control Games: Avoiding Intimacy on the Singles Scene. He is a psychotherapist who has been in private practice in Manhattan the past twenty years. He is a reviewer for the Journal of Contemporary Psychology and a Fellow of The American Institute for Psychotherapy and Psychoanalysis. A New York City based psychotherapist Gerald Alper adeptly filters materials gleaned from clinical vignettes through a discerning screen of psychoanalysis. In this manner, Alper's sharp blade of psychoanalytic acumen cuts deeply into the core of a self help ethos which strives futilely to force the square of complexity into a circle of simplicity. The self help industry's flawed attempt to "dumb down" human complexity is examined in the context of the medium of film and with a regard to a multitude of power transactions. Cinema is only one of a number of media that Alper uses as he adroitly discusses contemporary psychodynamics.

Practitioners, students and general readers will be fascinated and informed by this psychologically insightful, and thought provoking, book. Leo Uzych, JD, MPH

Should I Stay or Should I Go? - Ramani Durvasula, Ph.D. 2015-11-24

Narcissism is a modern epidemic, and it's spreading rapidly. But how do you know if you are in a relationship with one—and, what can you do about it? We live in a world of romance and rescue, where many believe love will conquer all, and that the more we endure unacceptable behavior, the more likely that we can "fix" our relationships. It doesn't always work that way—despite what the fairy tales tell us. There are a few hard facts about pathological narcissism that most people don't know and most psychologists will never tell you. *Should I Stay or Should I Go?* uses checklists, clinical wisdom, and real stories from real people to prepare you for the real terrain of pathological narcissism. It raises the red flags to watch for and provides a realistic roadmap for difficult situations to help you reclaim yourself, find healing, and live an authentic and empowered life. Whether you stay. Or go.
