Little Johnny Sarcasm and Wit - John Laird 2009-03

For those not familiar with Little Johnny, he cleverly exemplifies some of the more sarcastic qualities of Calvin from Calvin and Hobbes, Bart from The Simpsons, or any one of the South Park characters. While a casual observer might mistake his sarcasm as youthful ignorance, a closer look reveals just how calculated his wit can be. And it's this wit that has yet to be made collectively available to humor enthusiasts...until now. Little Johnny Sarcasm and Wit is the result of an exhaustive search around the world (wide web, mostly), countless hours sifting through archives (unsolicited email, mostly), and documenting renowned comedians (wannabes, mostly). The immediate fallout of this undertaking was quite rough around the edges, but through shrewd editing emerged a hearty collection of the most whimsical Little Johnny anecdotes available each having a unique ebb and flow.

The Best Jokes Minnie Pearl Ever Told - Kevin Kenworthy 1999-02-10

From the stage of the Grand Ole Opry to concert halls around the world, and on television's Hee Haw and Prime Time Country, Cousin Minnie Pearl entertained fans and friends with her stories about Grinder's Switch and her jokes. Now you can recall the best of them, such as . . . This week we decided we'd better take Brother up to Nashville and try to get him a job. So I took him to one of the places and the man said he'd give Brother a job. He said, "I can start you at thity dollars a week and in five years you'll get two hundred!" Brother said, "That's fine. I'll be back in five years!" Mr. Smith, a seventy-five-year-old multimillionaire, just married a young, beautiful eighteen-year-old girl. A friend asked, "How did you get an eighteen-year-old to marry you when you're seventy-five?" The man said, "I told her I was ninety-five!" Also included are memories of Minnie by . . . The Consolations of Humor and Other Folklore Essays - Elliott Oring 2023-11-01

The Consolations of Humor and Other Folklore Essays unfolds as a series of questions, commentaries, and criticisms of the analysis, interpretation, and explanation of folklore. Can we confidently regard jokes as the catharsis of sexual and aggressive impulses? What is the basis for characterizing a joke as Jewish or Scottish or Japanese? What do we really know about “dirty jokes”? How is a text or behavior constructed so that it is perceived as humorous? Can we get a computer to reliably recognize jokes? What is the relevance of memetics and a Darwinian paradigm to understanding folklore change over time? Can we identify laws operating in the realm of folklore? How can the marginalization, extinction, or continuity of traditions be explained? In the course of addressing these questions, Elliott Oring identifies some fundamental problems, brings new evidence and observations to the discussion, and proffers some original and startling insights. While recognizing the study of jokes and other forms of folklore as a humanistic endeavor, Oring believes in the relevance of a scientific perspective to the enterprise. He values clear definitions, tests of hypotheses and theories, empirical evidence, experiment, and the search for laws. Written in a sophisticated yet accessible style, The Consolations of Humor and Other Folklore Essays stimulates both scholars and students alike and contributes to the creation of a more robust folkloristics in the twenty-first century.

The Fountain of Humor Number 2 - Richard G. Lazar, PhD 2014-08-21

The Fountain of Humor Number 2, available as an eBook and as an audiobook. It is a collection of jokes and stories. These jokes can be read and listened to or read and/or played to people who live, work or love others. The material is helpful to mind and body. It is funny, tasteful and likely to make most people laugh out loud. It's all about feeling good, feeling much better, reducing sad feelings, healing mind and body. All anyone needs to do is to laugh loud and long to feel good and better. Yes, it works. It's not a cure-all for aging and not a Fountain of Youth . . . simply a Fountain of Humor for all. It is a supply of funny jokes and stories that really helps, for a while, to reduce the depression about aging, the loss of loved ones, chronic illness, loss of sight, sound and mobility. Our jokes and stories are provided through our unique process of selection, customization and cleansing by our "Joke-Jury." This combined publication of text and audio has been designed so that: A healthy person can see and hear the jokes and laugh. A blind or partially blind person can hear the jokes and laugh. A deaf or partially deaf person can see the jokes and laugh. Even the dying find something to laugh about for a moment in time and will ask for more jokes. My father-in-law, terminally ill with cancer, called often in his last year asking my wife and me to read a joke or two to him. Hearing him laugh from miles away also opened the door to comforting conversation and made it easier for all of us. This is mighty important for all of us. An 85-year-old, losing her mental capacities, repeatedly asked for our jokes to be read to her. It comforted her right up to her passing. A professional woman purchased the set for "signing" to groups of deaf people. She works with them as the audio version plays the jokes for her. How Best to Use Fountain of Humor in Groups: Instructions are provided on how to read them to diverse audiences in institutional settings or families or to their friends. We believe that the elderly, infirmed, families or just two people enjoy the togetherness and communal feeling that laughter brings. People love having jokes read to them. That "legitimizes" laughing out loud. Everyone wants to laugh, whether they are kids age 1 or 100.

[The Official Dirty Johnny Jokebook](#) - Rob Loughran 2013-06-11

“Can I,” Dirty Johnny asked his mother, “have some money for candy?”“What happened to the five-dollar allowance I give you every Saturday?” asked mom. “I’ve been giving it to the old homeless man in the park.” Mom is so proud of her son. His charity and giving spirit; his humanity. She opens her wallet and hands him a five dollar bill. “I’m very proud of you Johnny, sharing the way you have been. But this money you keep for yourself. If you continue giving money to the homeless they'll never get a job.”“But this homeless guy has a job.”“Really? What does he do?”“Every Saturday morning, for five dollars, he sucks my cock.”The sex-education teacher drew a penis on the blackboard and asked the class, “does anybody know what this is?” Dirty Johnny stands up and says, “It's a cock. My dad has two of them.”“Your father has two penises?” asked the teacher. “Yeah. The little one he pisses out of and the big one he uses to brush the babysitter's teeth.” A pit bull chased Dirty Johnny up a tree. The owner came by and said, “Sorry kid. I was bringing him to the vet's to have his balls snipped. The operation will calm him down, this will never happen again.”“I have a better idea, asshole,” said Johnny. “Why don't you remove his teeth? I could see from a block away he wasn't going to fuck me.” Dirty Johnny calls up the principal and says, “I'm sick and

can't come to school today." "Johnny," asks the principal, "how sick are you?" "I just," says Johnny, "fucked my grandma up the ass is that sick enough for you?" "Okay class," says the teacher, "I'm going through the alphabet and I'm going to call on someone for the letters a, b, c, and so on. When called upon, say a word that starts with that letter then use that word in a sentence." Immediately, Dirty Johnny's hand is in the air but the teacher can't call on him because he'll say ass, then bitch, cunt, damn, excrement, fuck, goddam, horseshit, intercourse, jackin' off etc. Finally she gets to z. There's no swear word that starts with z. so she calls on Dirty Johnny who says, "Z. Zoo. Last summer I went to the zoo and saw an elephant that had the biggest fucking cock I have ever seen." The civics teacher said, "Class, I am going to tell you every attribute you need to have in order to be elected president of the United States." "Fucking liar," said Dirty Johnny. "That, ironically, is number one on the list." Dirty Johnny got an electric train for Christmas. He quickly assembled the train and began playing conductor: "All aboard, you assholes. All whores sit in the aisle seats. That will facilitate all the cock sucking you'll be doing today." "Johnny," said his mother, rushing in from the kitchen, "you turn that train off and sit in the corner for a half hour. Using language like that!" A half hour later Johnny switches his train back on and says, "Good day and welcome to DFJ railways. I hope you enjoy your journey; if there are any complaints about the delay in service you can talk to the fucking bitch in the kitchen." A behavioral psychologist devised an experiment to test how quickly children can associate color with taste. The experiment consisted of placing a bowl of Life Savers in front of a group of second graders. After a few tries the kids would say: "Red tastes just like cherry. Yellow tastes just like pineapple. Green...Lime, Orange...Orange." Then he gave them a honey Life Saver, but none of them could identify it. He said, "I'll give you a hint. This flavor is something your mommy calls your daddy." Dirty Johnny said, "Spit them out! He's feeding us assholes." Dirty Johnny says to his neighbor, "Mom's sick and I need \$100 to check her into the hospital." "How do I know," says the neighbor, "that you won't spend the money on drugs?" "Fuck you," says Johnny. "I've got drug money." Many many many more sick and twisted Dirty Johnny jokes inside...

The Game of Humor - Charles R. Gruner 2011-12-31

Humor, wit, and laughter surround each person. From everyday quips to the carefully contrived comedy of literature, newspapers, and television we experience humor in many forms, yet the impetus for our laughter is far from innocuous. Misfortune, stupidity, and moral or cultural defects, however faintly revealed in others and ourselves, seem to make us laugh. Although discomfiting, such negative terms as superiority, aggression, hostility, ridicule, or degradation can be applied to instances of humor. According to scholars, Thomas Hobbes's "superiority theory"—that humor arises from mischances, infirmities, and indecencies, where there is no wit at all—applies to most humor. With the exception of good-natured play, Charles R. Gruner claims that humor is rarely as innocent as it first appears. Gruner's proposed superiority theory of humor is all-encompassing. In *The Game of Humor*, he expands the scope of Hobbes's theory to include and explore the contest aspect of "good-natured" play. As such, the author believes all instances of humor can be examined as games, in terms of competition and keeping score—winners and losers. Gruner draws on a broad spectrum of thought-provoking examples. Holocaust jokes, sexual humor, the racist dialogue of such comic characters as Stepin Fetchit and Archie Bunker, simple puns, and many of the author's own encounters with everyday humor. Gruner challenges the reader to offer a single example of humor that cannot be "de-humorized" by its agonistic nature. *The Game of Humor* makes intriguing and enjoyable reading for people interested in humor and the aspects of human motivation. This book will also be valuable to professionals in communication and information studies, sociologists, literary critics and linguists, and psychologists concerned with the conflicts and tensions of everyday life.

Silly Jokes - Mahesh Sharma 2015-05-07

A good laugh has great long-term effects. When you start to laugh, it doesn't just lighten your load mentally, it actually induces physical changes in your body. Laughter can stimulate many organs. Laughter enhances your intake of oxygen-rich air, stimulates your heart, lungs and muscles, and increases the endorphins that are released by your brain. Laughter can also stimulate circulation and aid muscle relaxation, both of which help reduce some of the physical symptoms of stress. Laughter may ease pain by causing the body to produce its own natural painkillers. Laughter may also break the pain-spasm cycle common to some muscle disorders and increase personal satisfaction. Laughter can also make it easier to cope with difficult situations. It also helps you connect with other people. Many people experience depression, sometimes due to chronic illnesses. Laughter can help lessen your depression and anxiety and make you feel happier. This 'Jokes E-book' of ours is an effort to dissolve your tensions in a solution of smiles, chuckles and laughter.

LONG JOKES AND PARABLE'S - CLEM KADIDDLE-HOPPER 2011-05-23

I was born into a large family of six many years ago at a very young age when butter (if you could afford it) was wrapped in paper, margarine didn't exist, groceries came from the shop in bulk, wrapped by the shopkeeper in brown paper, butchers paper or tissue paper which were later cut into squares and placed on a nail in the outside dunny. Plastic supermarket bags were unheard of; in fact, supermarkets were unheard of. I can remember the sides of bacon hanging from a hook on the ceiling and the shopkeeper used a long stick with a hook on the end to get them down to cut the bacon off in a slicing machine. Clem was born before television, faxes, polio shots, penicillin, frozen foods, photocopiers, plastic, contact lenses, fibre optic cable and the pill. Before credit cards, split atoms, Radar, laser beams and ball point pens. Before dishwashers, pantyhose, clothes dryers, micro-wave ovens, electric blankets, air conditioners, play stations, Nintendo, x-boxes, no video at all and definitely no 100 channels on cable TV...and before man walked on the moon. We got married first and then we lived together. We made do with what we had and we were the last generation who were naive enough to think you needed a wife to have a baby. How quaint can you be? In our time, closets were for clothes, not coming out of. Bunnies were small rabbits, not big girls and lemons were pieces of fruit not dud cars. Designer Jeans were scheming girls named Jean and having a meaningful relationship meant getting along with your cousins. Fast food was what you ate during Lent. And outer space was the back of the outdoor dunny. Before Day-care Centres, group therapy and suntan parlours. Well before we heard of FM radio, Tape decks, VCR's, electronic typewriters, Heart transplants, word processors, personal computers, mobile phones, yoghurt and guys wearing earrings. Time-sharing meant togetherness. We always had plenty of friends. We went out side and found them. We played cricket, football, chases and some time it really hurt. We fell out of trees, fell over, got cut, broke bones, chipped teeth and best of all there were no lawsuits from any of our accidents simply because it was our own stupid fault and nobody was to blame but us. A chip was a piece of wood. Hardware meant hammers and nails and software wasn't even a word. Grass was mown, coke was a cold drink and pot was something you cooked in. Rock music was a grandma's lullaby and aids were helpers in the headmaster's office. Way back in those early days we were lucky to survive. Our baby cribs were covered in brightly coloured in lead based paint. There were no childproof lids on medicine bottles, doors or cabinet's and when we rode our bikes, we had

no helmets to wear, not to mention the risks we took when hitchhiking. When we were children, we rode in cars without seat belts or air bags. Riding in the back of an old Ute on a warm day was always a special treat. In those days, we drank water from the garden hose and not from a bottle. We ate cakes, bread and butter and drank cordial with sugar in it, but we were very seldom over weight because we were always outside running around and playing. We shared cordial with all our friends from the same bottle and nobody actually died from this. We would spend hours and hours making Billy carts out of any old scraps

we managed to find around the place then race down the hill, only to find that we did not have any brakes to stop. After running into the scrub a few times we managed to over-come that problem. We would leave home in the early hours of the morning and play all day as long as we were home when the streetlights came on. No body really knew where we were all day. There were no such things as electronic calculators that fitted inside your pocket; they did addition on their fingers. To subtract, they had some of their fingers amputated. Wouldn't be nice to be back there again? My family was so poor my mothe
