House Unauthorized - Leah Wilson 2007-11-01

What do you get when you combine CSI science, the medicine of ER, and an acerbic, pain pill addict with a cane? House MD. In House Unauthorized: Vasculitis, Clinic Duty, and Bad Bedside Manner, the entire cast of the show is on the exam table: Wilson, Cuddy, Foreman, Cameron, Chase and particularly the cantankerous, but brilliant Dr. House. What makes House tick? Why did he really hire Foreman, Cameron and Chase (and why is it so easy to believe he's actually subjecting them to some sort of bizarre psychological testing)? What would House be like as a heating and plumbing repairman? And why doesn't Wilson just stop talking to him already? Answers to these

questions are presented by a team of writers as talented as the team of doctors in House, MD. The prognosis? One heck of a good read.

When Breath Becomes Air - Paul Kalanithi 2016-02-04

** SUNDAY TIMES NUMBER ONE BESTSELLER** 'Rattling. Heartbreaking. Beautiful.' Atul Gawande, bestselling author of Being Mortal What makes life worth living in the face of death? At the age of thirty-six, on the verge of completing a decade's training as a neurosurgeon, Paul Kalanithi was diagnosed with inoperable lung cancer. One day he was a doctor treating the dying, the next he was a patient struggling to live. When Breath Becomes Air chronicles Kalanithi's transformation from a medical student asking what makes a virtuous and meaningful life into a neurosurgeon working in the

core of human identity - the brain - and finally into a patient and a new father. Paul Kalanithi died while working on this profoundly moving book, yet his words live on as a guide to us all. When *Breath Becomes Air* is a life-affirming reflection on facing our mortality and on the relationship between doctor and patient, from a gifted writer who became both. 'A vital book about dying. Awe-inspiring and exquisite. Obligatory reading for the living' Nigella Lawson *Cheatingland* - Anonymous 2022-03-22

Reminiscent of *Three Women and The State of Affairs*—and based on years of research and in-depth interviews with more than sixty men—this eye-opening and explosive study explores why men cheat, how they do it, and the repercussions that infidelity has on every aspect of life. It is estimated that one in four married men cheat on their wives. Of those, roughly half claim that they are “very happy” in their marriages. So

why risk ruining it all? Is it the sex? The affirmation? The danger? Yes, it's all of that. But it's also so much more. The author of this book has conducted a series of in-depth interviews with men and women of all ages and backgrounds who have cheated in the past or are currently cheating on their spouses. They talked openly and intimately about details of their affairs, and the emotions that they experience before, during, and after. The book breaks down the five major categories of cheaters, defines the typical cheater personality, and looks at how husbands can cheat while also loving their wives. It reveals the tips and tricks spouses use to get away with secret affairs and examines everything from the influence of cheating parents on their children to the possible outcomes once an affair is discovered. This unfiltered window into the hearts and minds of men explores the psychological roots of cheating and proposes a new vision of masculinity that is more

House and Philosophy -

Henry Jacoby 2009-05-04

HOUSE AND PHILOSOPHY Is being nice overrated? Are we really just selfish, base animals crawling across Earth in a meaningless existence? Would reading less and watching more television be good for you? Is House a master of Eastern philosophy or just plain rude? Dr. Gregory House is arguably the most complex and challenging antihero in the history of television, but is there more to this self-important genius than gray matter and ego? This book takes a deeper look at House to reveal the philosophical underpinnings of this popular medical drama and its cane-waving curmudgeon's most outrageous behavior. What emerges is a remarkable character who is part Sherlock Holmes, part Socratic philosopher, part Nietzschean superman, part Taoist rhetorician, and not at all as screwed up as you might think.

With everything from Aristotle to Zen, House and Philosophy takes an engaging look at everyone's favorite misanthropic genius and his team at Princeton-Plainsboro Hospital. To learn more about the Blackwell Philosophy and Pop Culture series, visit www.andphilosophy.com

Ask a Manager - Alison Green 2018-05-01

'I'm a HUGE fan of Alison Green's "Ask a Manager" column. This book is even better' Robert Sutton, author of The No Asshole Rule and The Asshole Survival Guide 'Ask A Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)' - Sarah Knight, New York Times bestselling author of The Life-Changing Magic of Not Giving a F*ck A witty, practical guide to navigating 200 difficult professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office because they don't know what to say. Thankfully, Alison

does. In this incredibly helpful book, she takes on the tough discussions you may need to have during your career. You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With sharp, sage advice and candid letters from real-life readers, Ask a Manager will help you successfully navigate the stormy seas of office life.

Hiroshima - John Hersey
2019-06-05

Pulitzer Prize-winning journalist and bestselling author John Hersey's seminal work of narrative nonfiction which has defined the way we think about nuclear warfare. "One of the great classics of the war" (The New Republic) that tells what happened in Hiroshima during World War II through the memories of the survivors of the first atomic

bomb ever dropped on a city. "The perspective [Hiroshima] offers from the bomb's actual victims is the mandatory counterpart to any Oppenheimer viewing." —GQ Magazine "Nothing can be said about this book that can equal what the book has to say. It speaks for itself, and in an unforgettable way, for humanity." —The New York Times Hiroshima is the story of six human beings who lived through the greatest single manmade disaster in history. John Hersey tells what these six -- a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest -- were doing at 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city. Then he follows the course of their lives hour by hour, day by day. The New Yorker of August 31, 1946, devoted all its space to this story. The immediate repercussions were vast: newspapers here and abroad reprinted it; during evening

half-hours it was read over the network of the American Broadcasting Company; leading editorials were devoted to it in uncounted newspapers. Almost four decades after the original publication of this celebrated book John Hersey went back to Hiroshima in search of the people whose stories he had told. His account of what he discovered about them -- the variety of ways in which they responded to the past and went on with their lives -- is now the eloquent and moving final chapter of Hiroshima.

Gender Scripts in Medicine and Narrative - Angela Laflen

2010-06-09

Gender is an exciting area of current research in the medical humanities, and by combining the study of medical narratives with theories of gender and sexuality, the essays in *Gender Scripts in Medicine and Narrative* illustrate the power of gender stereotypes to shape the way medicine is practiced and perceived. The chapters of *Gender Scripts in Medicine and Narrative* investigate gendered

perceptions and representations of healers and patients in fiction, memoir, popular literature, poetry, film, television, the history of science, new media, and visual art. The fourteen chapters of *Gender Scripts in Medicine and Narrative* are organized into four cohesive sections. These chapters investigate the impact of gender stereotypes on medical narratives from a variety of points of view, considering narratives from diverse languages, time periods, genres, and media. Each section addresses some of the most pressing and provocative issues in theories of gender and the medical humanities: I. Gendering the Medical Gaze and Pathology; II. Monitoring Race through Reproduction; III. Rescripting Trauma and Healing; and IV. Medical Masculinities. Along with these sections, *Gender Scripts in Medicine and Narrative* features a preface by Rita Charon, MD, PhD, Director and Founder, The Program in Narrative Medicine, Columbia University, a foreword by

Marcelline Block, and an introduction by Angela Laflen. This collection takes a truly interdisciplinary look at the topic of gender and medicine, and the impressive group of contributors to the anthology represent a wide range of academic fields of inquiry, including medical humanities, bioethics, English, modern languages, women's studies, film theory, postcolonial theory, art history, the history of science and medicine, new media studies, theories of trauma, among others. This approach of crossing boundaries of genre and discipline makes the volume accessible to scholars who are concerned with narrative, gender, and/or medical ethics. Power Struggles - Michael B. Schiffer 2008

Laying the foundation for Thomas Edison, the first electric generators were built in the 1830s, the earliest commercial lighting systems before 1860, and the first commercial application of

generator-powered light in the early 1860s. This book examines some of these early applications of electricity.

Hero or Villain? - Abigail G. Scheg 2017-11-07

One dimensional television characters are a thing of the past--today's popular shows feature intricate storylines and well developed characters.

From the brooding Damon Salvatore in The Vampire Diaries to the tough-minded Rick Grimes in The Walking Dead, protagonists are not categorically good, antagonists often have relatable good sides, and heroes may act as antiheroes from one episode to the next. This collection of new essays examines the complex characters in Orange Is the New Black, Homeland, Key & Peele, Oz, Empire, Breaking Bad, House, and Buffy the Vampire Slayer.

leadership over a new Future of Medicine Clinic at what is now only Man's 4th Best Hospital, and has persuaded Dr. Roy Basch and some of his intern cohorts to join him to teach a new generation of interns and residents. In a medical landscape dominated by computer screens and corrupted by money, they have one goal: to make medicine humane again. What follows is a mesmerizing, heartbreaking, and hilarious exploration of how the health-care industry, and especially doctors, have evolved over the past thirty years.

House, M.D. - Ian Jackman
2010-08-17

The first authorized companion to the Emmy Award-winning medical drama House, M.D., starring Hugh Laurie, House M.D: The Official Guide to the Hit Medical Drama features full backstage access to the cast and crew of the popular television series, with an Introduction by Hugh Laurie. [The House That Hugh Laurie Built](#) - Paul Challen 2010-12-14
At the centre of the critically

acclaimed Fox drama House, British actor Hugh Laurie has become the focus of fans across North America, Britain, and Australia. Winner of the Golden Globe for Best Actor in a Dramatic Series, honoured by the Queen with an Order of the British Empire, and one of People's Sexiest Men Alive, Laurie has become an icon. The House That Hugh Laurie Built will also serve as a magnifying glass, providing episode analysis, cast biographies, selections of Dr. House's caustic wit, and production bloopers and medical mistakes that only Dr House could expose.

[Mr. Monk and Philosophy](#) - D. E. Wittkower 2011-04-15

Mr. Monk and Philosophy is a carefully and neatly organized collection of eighteen chapters divided into exactly six groups of precisely three chapters each. Drawing on a wide range of philosophers—from Aristotle and Diogenes, to Siddhartha Gautama and St. Thomas Aquinas, to David Hume and Karl Popper—the authors ask how Adrian Monk solves his

cases, why he is the way he is, how he thinks, and what we can learn from him. Some of the authors suggest Monk is a kind of tragic hero, whose flaws help us live out and expunge the fear and anxiety we all experience; that he is more than just his personality or memories, but something more individual and indefinable; and that his most distinctive traits are not the traits that make him a detective, but those that make him a friend. His most notable trait is the dedication he shows to his late wife, Trudy. Other authors explore how Monk encounters the world, arguing that his genius comes not from logic or reasoning, but from his ability to see his surroundings in a pre-conceptualized way; that there isn't as much distance between his rational beliefs about crimes and evidence and his irrational phobic beliefs as there might seem; and that his phobias have themselves made him approach himself and the world as something to be overcome. Just how does Mr. Monk come

to his conclusions? Does he use inductive, deductive, or abductive reasoning? Is he dependent on a false notion of the law of noncontradiction? Is it possible that his reasoning might have more to do with constructing harmonious stories than it does with evidence, causes, or insights? Some contributors ponder Monk's name and what it means given his views on religion. Some authors argue that Mr. Monk's approach to the world is fundamentally similar to that of medieval monastic orders; that his rituals and deductive 'dancing' show how he exhibits a kind of shamanism; and that he acts in accordance with the Bodhisattva ideal, bringing others to enlightenment through circumstances and by accident, even though he has no such intention or goal. In one chapter, the author asks how the character Monk is related to other similar characters, arguing that Monk and House are closely related characters, each based on the conflict between reason and

emotion which exemplifies the motif of the "troubled genius;" that Monk and House both pursue ethical practices and goals even as they fail at the everyday face-to-face ethics of normal social interactions; and that great detectives all, through their flaws, help us to understand and forgive ourselves for our flaws. And finally, there are several chapters in which the authors consider Monk from the psychologist's perspective, discussing how Monk's relationship with Trudy, while having unhealthy codependent elements, demonstrates some important aspects of successful romantic partnerships; how laughter plays a difficult role in mental illness, and the difficult position that the show and therapists are placed in when having to treat seriously disorders that are both tragic and comic; and how, from a psychoanalytic perspective, Monk's inability to mourn shows us why we both reject and are drawn towards death. In the words of author D. E. Wittkower, "In order to be sure

that the reader is able to enjoy the book, every chapter will have an even number of words. You'll thank me later."

House of Leaves - Mark Z. Danielewski 2000-03-07

"A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —The New York Times Years ago, when House of Leaves was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged

children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that impossibility, until the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams. *Ebony* - 2000-11

EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global

circulation of any African American-focused magazine. *Chasing Zebras* - Barbara Barnett 2010-12-15

"I look for zebras because other doctors have ruled out all the horses."--Dr. Gregory House Medical students are taught that when they hear hoofbeats, they should think horses, not zebras, but Dr. House's unique talent of diagnosing unusual illnesses has made House, M.D. one of the most popular and fascinating series on television. In "Chasing Zebras: The Unofficial Guide to House," M.D., Barbara Barnett, widely considered a leading House expert, takes fans deep into the heart of the show's central character and his world, examining the way this medical Sherlock Holmes's

Spirituality in Social Work Practice - Ronald K. Bullis
2013-10-08

First published in 1996. Currently there is a strong trend in the mental health professions to look at the whole picture when dealing with clients. Religion and spirituality are now officially accepted as a major portion of this picture. In keeping with this trend this book assesses the role of spiritually oriented assessments and interventions in clinical practice. By providing examples of both spiritual cosmologies and anthropologies, it offers a cross-cultural theoretical orientation and therapeutic rationale for spirituality in clinical settings. The book is an essential resource for social workers, mental health counsels, bereavement specialists, professional clergy, and others in the helping professions.
