New York City's Broadway district is by far the most prestigious and lucrative venue for American performers, playwrights, entertainers and technicians. While there are many reference works and critical studies of selected Broadway plays or musicals and even more works about the highlights of the American theater, this is the first single-volume book to cover all of the activities on Broadway between 1919 and 2007. More than 14,000 productions are briefly described, including hundreds of plays, musicals, revivals, and specialty programs. The productions are identified in terms of plot, cast, personnel, critical reaction, and significance in the history of New York theater and culture. In addition to a chronological list of all Broadway productions between 1919 and 2007, the book also includes approximately 600 important productions performed on Broadway before 1919.

Netflix' Spain - Jorge González del Pozo 2023-10-02

This edited collection analyzes the tensions, contradictions, contributions, and new horizons generated and/or imposed by Netflix within Spain's audiovisual culture. This book provides invaluable insight into how Netflix—first in its role as distributor and then as content creator—has changed the audiovisual landscape in Spain. It discusses how Netflix challenges the traditional method of categorizing film and television output by nationality while also examining how Spain is presented to other countries through the Netflix catalog and questioning what its chosen output—light comedies, mystery/thrillers, narco-fiction, and crime—means for Spain's national brand. With chapters addressing themes such as reproducibility, pan-Europeanism after Brexit, gender representation, identity, and globalization, this book explores how—under the influence of Netflix—Spain is transitioning from an importer of audiovisual content to a center of export. This book will appeal to students and scholars of Film and Media Studies, Hispanic and

Iberian Studies, and Spanish with a specific interest in Spanish film, television, media, and culture, as well as global media industries.

Representations of Black Women in the Media - Marquita Marie

Gammage 2015-10-16

In 1920 W.E.B. Du Bois cited the damnation of women as linked to the devaluation of motherhood. This dilemma, he argues, had a crushing blow on Black women as they were forced into slavery. Black womanhood, portrayed as hypersexual by nature, became an enduring stereotype which did not coincide with the dignity of mother and wife. This portrayal continues to reinforce negative stereotypes of Black women in the media today. This book highlights how Black women have been negatively portrayed in the media, focusing on the export nature of media and its ability to convey notions of Blackness to the public. It argues that media such as rap music videos, television dramas, reality television shows, and newscasts create and affect expectations of Black women. Exploring the role that racism, misogyny and media play in the representation of Black womanhood, it provides a foundation for challenging contemporary media's portrayal of Black women.
