Sexual Offending Amy Phenix 2015-12-07 This expert reference provides a broad, comprehensive review of the major domains of sexual offending. Beginning with an integrated etiological model of sexual offending, chapters follow addressing the primary predisposing conditions related to sexual offending (e.g. pedophilic, hebephilic, paraphilic rape and non-contact paraphilic disorders, hyper sexuality and personality factors). In addition, special subgroups of sexual offenders (females, youth and the intellectually disable) are considered. Both broad and specific perspectives on the assessment of sexual offenders are provided. Overviews are offered of clinical and forensic evaluations of such offenders and the utility of structured psychological assessment. A novel conceptual model of risk assessment is proposed. More specifically, each of the primary approaches or instruments related to risk assessment of sexual offending are addressed: the Static risk assessment measures, the Sex Offender Risk Appraisal Guide, structured professional judgment, and the varied measures of dynamic or criminogenic needs assessment. Finally, multiple aspects of management of sexual offenders are discussed including models of psychosocial treatment, the question of the effectiveness of such treatment, biological interventions, civil commitment, circles of support, and the containment approach to community management. Chapters are authored by both prominent experts and experienced professionals for a breadth of perspective. Among the topics covered: Pedophilic, Hebephilic, Rape Paraphilic Disorders and the variety of Non Contact sexual offending conditions Personality, related conditions, & their association with sexual offending: motivators and disinhibition in context. Disorders of hyper sexuality. Assessments of sexual offenders, including the role of psychological testing, clinical & interview approaches, as well as forensic evaluations Conceptual models of risk assessment & discussion of specific static, dynamic & structured clinical risk assessment approaches Models of & reviews of treatment outcome with sexual offenders, including psychotherapy, psychopharmacology and castration, the containment approach, civil commitment & circles of support Overview of public policy issues & an evidence-based perspective on sex offender registration and residential restrictions. This breadth of material in *Sexual Offenders* will help practitioners gain multiple levels of clinical insight as well as giving them up-to-date practical tools and techniques for working with this problematic class of individuals.

Static 99 Robert Karl Hanson 1999 This study compares the predictive accuracy of three sex offender risk assessment measures: the Rapid Risk Assessment for Sex Offence Recidivism, RRASOR (Hanson, 1997); Thornton's Structured Anchored Clinical Judgement, SACJ (Grubin, 1998); and a new scale called Static-99, created by combining the items from the RRASOR and SACJ. Predictive accuracy is tested using four diverse data sets drawn from Canada and the United Kingdom. The appendix contains details on the coding rules for Static-99.

Dialogue Across the Atlantic Rights 2015 In recent years the European and Inter-American human rights courts have intensified their cooperation. This judicial dialogue is important given the similarity of the rights and freedoms protected by the respective treaties governing the work of the two courts, and the existence of equivalent criteria of admissibility and principles of interpretation. Moreover, the increasing similarity of the issues brought before the two courts has conferred a new relevance on their respective bodies of case-law. This book, published in English and Spanish, presents a selection of the leading decisions delivered by each court in 2014. In addition to their importance in their own right, some of these cases also serve to illustrate parallels in the manner in which the two conventions are interpreted, areas where the methodology diverges and, most importantly, how the two courts are increasingly having regard to each other's approach to human-rights protection. My Body Belongs to Me Jill Starishevsky 2014-04-10 Without being taught about body boundaries, a child may be too young to understand when abuse is happening—or that it's wrong. This straightforward, gentle book offers a tool parents, teachers, and counselors can use to help children feel, be, and stay safe. The rhyming story and simple, friendly illustrations provide a way to sensitively share and discuss the topic, guiding young children to understand that their private parts belong to them alone. The overriding message of *My Body Belongs to Me* is that if someone touches your private parts, tell your mom, your dad, your teacher, or another safe adult.

Health Issues in the Black Community Ronald L. Braithwaite 2009-10-22 Health Issues in the Black Community THIRD EDITION "The outstanding editors and authors of Health Issues in the Black Community have placed in clear perspective the challenges and opportunities we face in working to achieve the goal of health equity in America." —David Satcher, MD, PhD, 16th Surgeon General of the United States and director, Satcher Health Leadership Institute at Morehouse School of Medicine "Eliminating health disparities must be a central goal of any forward thinking national health policy. Health Issues in the Black Community makes a valuable contribution to a much-needed dialogue by focusing on the challenges of the black community." —Marc Morial, Esq., president, National Urban League "Health Issues in the Black Community illuminates comprehensively the range of health conditions specifically affecting African Americans, and the health disparities both within the black community and between racial and ethnic groups. Each chapter, whether addressing the health of African Americans by age, gender, type of disease, condition or behavior, is well-detailed and tells an important story. Together, they offer practitioners, consumers, scholars, and policymakers a crucial roadmap to address and change the social determinants of health, reduce disparities, and create more equal treatment for all Americans." —Risa Lavizzo-Mourey, MD, MBA, president, Robert Wood Johnson Foundation "I recommend Health Issues in the Black Community as a must-read for anyone concerned about the future of the African American community. Health disparities continues to be one of the major issues confronting the black community. This book will help to highlight the issues and keep attention focused on the work to be done." —Elsie Scott, PhD, president of the Congressional Black Caucus Foundation "This book is the definitive examination of health issues in black America—issues sadly overlooked and downplayed in our culture and society. I congratulate Drs. Braithwaite, Taylor, and Treadwell for their monumental book." —Cornel West, PhD, professor, Princeton University

A Parallel Universe Alex Landon 2011 Literary Nonfiction. Criminal Law. Here is a unique bringing together of nonfiction (the lawyer's perspective) and fiction (the writer's view) on a topic of devastating concern to victims and the accused. Alex Landon (the lawyer) and Elaine Halleck (the writer) explore a particularly difficult topic, the effect of laws enacted in the aftermath of brutal child abductions and murders on those accused of lesser sexual crimes or those falsely accused and on society as a whole.

Dishonorable Passions William N. Eskridge Jr. 2008-05-01 From the Pentagon to the wedding chapel, there are few issues more controversial today than gay rights. As William Eskridge persuasively demonstrates in Dishonorable Passions, there is nothing new about this political and legal obsession. The American colonies and the early states prohibited sodomy as the crime against nature, but rarely punished such conduct if it took place behind closed doors. By the twentieth century, America's emerging regulatory state targeted degenerates and (later) homosexuals. The witch hunts of the McCarthy era caught very few Communists but ruined the lives of thousands of homosexuals. The nation's sexual revolution of the 1960s fueled a social movement of people seeking repeal of sodomy laws, but it was not until the Supreme Court's decision in Lawrence v. Texas (2003) that private sex between consenting adults was decriminalized. With dramatic stories of both the hunted (Walt Whitman and Margaret Mead) and the hunters (Earl Warren and J. Edgar Hoover), Dishonorable Passions reveals how American sodomy laws affected the lives of both homosexual and heterosexual Americans. Certain to provoke heated debate, Dishonorable Passions is a must-read for anyone interested in the history of sexuality and its regulation in the United States

The Sexual Exploitation of Children Michael T. Flannery 2016 This unique book is the first of its kind to address the specific issue of the sexual exploitation of children in a casebook format in a way that provides a measure of consensus and a basis for judicial and legislative responses. The book is suitable for traditional classroom teaching or a seminar setting. With a variety of current and teachable cases, statutes, and commentaries, the authors provide a clear and comprehensive overview of the issues pertaining to the sexual exploitation of children, including the common characteristics of exploiters and their victims; the legal parameters of the interactions between perpetrators and children; and the full nature of commercial exploitation, including child pornography, prostitution, and sex trafficking, and the significance of Internet technology to these issues. The authors provide a strategic perspective of the civil and criminal aspects of the sexual exploitation of children, including mandatory reporting laws; the admissibility of evidence, including expert and child testimony; the application of relevant statutes of limitations; sentencing variables and conditions; and civil commitment and victim restitution reforms. In discussing the Federal and state responses to child sexual exploitation, the authors also address the legal basis for institutional liability, including relevant common law and statutory defenses, insurance coverage, and damages. The authors discuss timely examples of institutional liability, including religious, social, and educational icons, to offer a clear and comprehensive perspective on the need for judicial, legislative, and social reform. This casebook is an ideal resource for a comprehensive but detailed exploration of the practical legal issues involving the sexual exploitation of children. The casebook includes a clear and concise Teacher's Manual, with summaries of all cases and commentaries and notable points of discussion for each case.

Newspaperwoman Agness Underwood 1949

Sudden Terror Larry Crompton 2010 This book is based on the actual case of the East Area Rapist, later also known as the Original Night Stalker, a masked man who terrorized California communities for ten years; 1976 through 1986, and possibly to this day. Because I was not involved in the initial rape investigations, they are written from hundreds of reports, notes, memos, newspaper clippings, conversations and interviews with those who were involved. The crimes are factual. The crimes are real. While all characters and events have direct counterparts in the telling of the story, I have created some dialogue in the interest of readability. The cops in the initial rapes are not factual, their actions are. Their names and descriptions are completely fictitious. The names of the victims, witnesses and suspects are fictitious; the terror, the dialogue during the crimes, and the investigations are real. The cops involved in the cases after I was involved are real, their names and dialogue is factual, the investigations are real. The pain and terror may have diminished in the minds of the victims, I hope that the pain does not return. My intent is to tell the story without endangering the privacy or the dignity of the victims. They have suffered enough.

Handbook of Sex Offender Treatment Barbara K. Schwartz 2011 "The chapters in Handbook of Sex Offender Treatment represent the most important and useful contributions that have appeared in the six volumes of the series The Sex Offender, published by Civic Research Institute. Handbook chapters were selected for their importance in advancing our understanding of the behavior and characteristics of sex offenders and for their practical effectiveness in assisting clinicians in assessing, treating, and managing offenders."--Introduction

American Psychiatric Association Practice Guidelines American Psychiatric Association 1996 The aim of the American Psychiatric Association Practice Guideline series is to improve patient care. Guidelines provide a comprehensive synthesis of all available information relevant to the clinical topic. Practice guidelines can be vehicles for educating psychiatrists, other medical and mental health professionals, and the general public about appropriate and inappropriate treatments. The series also will identify those areas in which critical information is lacking and in which research could be expected to improve clinical decisions. The Practice Guidelines are also designed to help those charged with overseeing the utilization and reimbursement of psychiatric services to develop more scientifically based and clinically sensitive criteria.

There's A Fish In The Courthouse Gary L Wean 2020-10 The most shocking, explosive revelation ever to strike American people right between the eyes. The President's use of secret files against politicians, businessmen, the clergy and just plain everyday American citizens to further his own personal ends. The cover-up of the real reasons for Waco, Ruby Ridge and Oklahoma City and the First Interstate Bank fire in Los Angeles. And not the least, the censorship of the terrifying plots to assassinate then President George Bush and four former Presidents, Richard Nixon, Gerald Ford, James Carter, Ronald Reagan and their wives with laser weapons. The killings were to take place in the dedication ceremony of Reagan's Library in Simi Valley California. The Presidents and their wives had known too much. And there was the astounding fact that the plotters, one of them was arrested, were also involved in the assassinations of JFK and RFK. But, far more astounding was the fact that the Secret Service released the suspect and killed the investigation. In Washington, D.C., the Senate Judiciary Committee is holding hearings on the Dossiers, the Secret Files - the Committee members, Senators Joseph Biden, Dianne Feinstein, Strom Thurmond, Howell Heflin, Edward Kennedy, Arlen Specter and others are committing evil acts to cover up their involvements and their part in the horrendous conspiracy to destroy the Constitution and make serfs and slaves of the American people. On December 7, 1945 the author was honorably discharged from the U.S. Navy at San Pedro, California. In January of 1946 he joined the Los Angeles Police Department and graduated from the Academy. He worked as a Detective Sgt. for the Ventura City Police Department and an Investigator for the Los Angeles District Attorney's Bureau of Investigation, the Criminal Intelligence Unit. In September of 1966 he became the Chief Investigator for the Ventura County Public Defender's Office until 1970...
