Queer Social Movements and Activism in Indonesia and Malaysia - Jón Ingvar Kjarnar 2022-11-14

This book examines queer activism and queer social movements (QSMs) in Indonesia and Malaysia, broadly engaging with these topics on three different levels: macro (global and national discourses), meso (organizational level - activities), and micro (individual - the activist). The micro level perspective allows for moving beyond the "traditional" political movement paradigm by understanding activism in Foucauldian terms as the ethics of the self (Foucault, 1984). In other words, the queer subject is seen as an active agent in taking care of the self by queering/resisting gender norms as well as heteronormative practices and regimes in their social environment through embodiment and actions. This kind of ethical being has the potential to build support and community between and amongst individuals.

Transgender Identities - Sally Hines 2010-04-05

In recent years transgender has emerged as a subject of increasing social and cultural interest. This volume offers vivid accounts of the diversity of living transgender in today's world. The first section, "Emerging Identities," maps the ways in which social, cultural, legal and medical developments shape new identities on both an individual and collective level. Rather than simply reflecting social change, these shifts work to actively construct contemporary identities. The second section, "Trans Governance," examines how law and social policy have responded to contemporary gender shifts. The third section, "Transforming Identity," explores gender and sexual identity practices within cultural and subcultural spaces. The final section, "Transforming Theory?", offers a theoretical reflection on the increasing visibility of trans people in today's society and traces the challenges and the contributions transgender theory has brought to gender theory, queer theory and sociological approaches to identity and citizenship. Featuring contributions from throughout the world, this volume represents the cutting-edge scholarship in transgender studies and will be of interest to scholars and students interested in gender, sexuality, and sociology.

Religion at the Corner of Bliss and Nirvana - Lois Ann Lorentzen 2010-07-01

Based on ethnographic research by an interdisciplinary team of scholars and activists, *Religion at the Corner of Bliss and Nirvana* illuminates the role that religion plays in the civic and political experiences of new migrants in the United States. By bringing innovative questions and theoretical frameworks to bear on the experiences of Chinese, Filipino, Mexican, Salvadoran, and Vietnamese migrants, the contributors demonstrate how groups and individuals negotiate multiple religious, cultural, and national identities, and how religious faiths are transformed through migration. Taken together, their essays show that migrants' religious lives are much more than replications of home in a new land. They reflect a process of adaptation to new physical and cultural environments, and an ongoing synthesis of cultural elements from the migrants' countries of origin and the United States. As they conducted research, the contributors not only visited churches and temples but also single-room-occupancy hotels, brothels, tattoo-removal clinics, and the streets of San Francisco, El Salvador, Mexico, and Vietnam. Their essays include an exploration of how faith-based organizations can help LGBT migrants surmount legal and social complexities, an examination of transgendered sex workers' relationship with the unofficial saint Santísima Muerte, a comparison of how a Presbyterian mission and a Buddhist temple in San Francisco help Chinese immigrants to acculturate, and an analysis of the transformation of baptismal rites performed by Mayan migrants. The voices of gang members, Chinese and Vietnamese Buddhist nuns, members of Pentecostal churches, and many others animate this collection. In the process of giving voice to these communities, the contributors interrogate theories about acculturation, class, political and social capital, gender and sexuality, the sociology of religion, transnationalism, and globalization. The collection includes twenty-one photographs by Jerry Berndt. Contributors: Luis Enrique Bazan, Kevin M. Chun, Hien Duc Do, Patricia Fortuny Loret de Mola, Joaquin Jay Gonzalez III, Sarah Horton, Cymene Howe, Mimi Khúc, Jonathan H. X. Lee, Lois Ann Lorentzen, Andrea Maison, Dennis Marzan,

Rosalina Mira, Claudine del Rosario, Susanna Zaraysky

Sexual Strangers - Shane Phelan 2010-04-28

One of the field's most innovative thinkers reconsiders the status of non-heterosexuals as citizens of the U.S.

LGBT-Q Teachers, Civil Partnership and Same-Sex Marriage - Aoife Neary 2016-12-01

The introduction of legislative structures for same-sex relationships provides a new lens for grappling with the politics of sexuality in schools and society. The emergence of civil partnership and same-sex marriage in Ireland brings to the fore international debates around public intimacy, religion in the public sphere, secularism and the politics of sexuality equality. Building on queer, feminist and affect theory in innovative ways, this book offers insight into the everyday negotiations of LGBT-Q teachers as they operate between and across the intersecting fields of education, religion and LGBT-Q politics. Neary illustrates the complexity of negotiating personal and professional identities for LGBT-Q teachers.

The Ashgate Research Companion to Lesbian and Gay Activism - David Paternotte 2016-03-03

The Ashgate Research Companion to Lesbian and Gay Activism provides scholars and students with a comprehensive and authoritative state-of-the-art review of the current research in this subject. Each of the 22 specially commissioned chapters develops and summarises their key issue or debate in relation to activism—that is the claims, strategies and mobilisations (including internal debates and divisions, impediments and state responses) of the lesbian and gay movement. By drawing together leading scholars from political science, sociology, anthropology and history this companion provides an up to the minute snapshot of current scholarship as well as signposting several fruitful avenues for future research. This book is both an invaluable resource for scholars and an indispensable teaching tool for use in the classroom.

Queer Futures - Elahe Haschemi Yekani 2016-04-15

Following debates surrounding the anti-social turn in queer theory in recent years, there has been a renewed interest in the role of activism, the limits of the political, and the question of normativity and ethics. *Queer Futures* engages with these concerns, exploring issues of complicity and agency with a central focus on the material and economic as well as philosophical dimensions of sexual politics. Presenting some of the latest research in queer theory, this book draws together diverse perspectives to shed light on possible 'queer futures' when different affective, temporal, and local contexts are brought into play. As such, it will appeal to scholars of cultural, political, literary, and social theory, as well as those with interests in gender and sexuality, activism, and queer theory.

Judith Butler and Political Theory - Samuel A Chambers 2008-01-23

Political Theory of Judith Butler proceeds thematically to introduce Butler's basic terms and conceptions before leading the reader through her substantive contributions.

Courts, Liberalism, and Rights - Jason Pierceson 2005

Understanding approaches to liberalism through the study of the politics of gay and lesbian rights.

Routledge Handbook of Global Citizenship Studies - Engin F. Isin 2014-06-27

Citizenship studies is at a crucial moment of globalizing as a field. What used to be mainly a European, North American, and Australian field has now expanded to major contributions featuring scholarship from Latin America, Asia, Africa, and the Middle East. The Routledge Handbook of Global Citizenship Studies takes into account this globalizing moment. At the same time, it considers how the global perspective exposes the strains and discords in the concept of 'citizenship' as it is understood today. With over fifty contributions from international, interdisciplinary experts, the Handbook features state-of-the-art analyses of the practices and enactments of citizenship across broad continental regions (Africas, Americas, Asias and Europes) as well as deterritorialized forms of citizenship (Diasporicity and Indigeneity). Through these analyses, the Handbook provides a deeper understanding of citizenship in both empirical and theoretical terms. This volume sets a new agenda for

scholarly investigations of citizenship. Its wide-ranging contributions and clear, accessible style make it essential reading for students and scholars working on citizenship issues across the humanities and social sciences.

Queer/Adaptation - Pamela Demory 2019-02-15

This collection of essays illuminates the intersection of queer and adaptation. Both adaptation and queerness suffer from the stereotype of being secondary: to identify something as an adaptation is to recognize it in relation to something else that seems more original, more authentic. Similarly, to identify something as queer is to place it in relation to what is assumed to be "normal" or "straight." This ground-breaking volume brings together fifteen original essays that critically challenge these assumptions about originality, authenticity, and value. The volume is organized in three parts: The essays in Part I examine what happens when an adaptation queers its source text and explore the role of the author/screenwriter/director in making those choices. The essays in Part II look at what happens when filmmakers push against boundaries of various kinds: time and space, texts and bodies, genres and formats. And the essays in Part III explore adaptations whose source texts cannot be easily pinned down, where there are multiple adaptations, and where the adaptation process itself is queer. The book includes discussion of a wide variety of texts, including opera, classic film, genre fiction, documentary, musicals, literary fiction, low-budget horror, camp classics, and experimental texts, providing a comprehensive and interdisciplinary introduction to the myriad ways in which queer and adaptation overlap.

LGBT Studies and Queer Theory - Karen Lovaas 2013-05-13

Find out how the tension between LGBT studies and queer theory exists in the classroom, politics, communities, and relationships LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain examines the similarities and differences between LGBT studies and queer theory and the uneasy relationship between the two in the academic world. This unique book meets the challenge that queer theory presents to the study and politics of gay and lesbian studies with a collection of essays from leading academics who represent a variety of disciplines. These original pieces place queer theory in social and historical contexts, exploring the implications for social psychology, religious studies, communications, sociology, philosophy, film studies, and women's studies. The book's contributors address queer theory's connections to a wide range of issues, including the development of capitalism, the evolution of the gay and lesbian movement, and the study of bisexuality and gender. Many scholars working in gay and lesbian studies still question the intellectual and political value of queer theory. As a result, queer theory has often been concentrated in the humanities, while gay and lesbian studies are concentrated in the social sciences and history. But this has begun to change in the past 10-15 years, as documented by the 12 essays presented in LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain. LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain includes: historical notes on LGBT studies and queer theory some continuing tensions between LGBT studies and queer theory doubts about whether queer theory can lead to social change an analysis of the current state of "proto-fields" of LGBT studies and queer studies in religion concerns that queer theory's "erasure of identity" feeds into late capitalism an analysis of variability in social psychologists' studies of anti-homosexual prejudice an exploration of the commodification of queer identities in independent cinema how and why the category of bisexuality has been marginalized a historical review and assessment of recent bisexual theory a case study of Provincetown, Massachusetts an investigation of the interarticulation of race/ethnicity and gender a case study of the struggle to introduce LGBT studies in the curriculum at West Chester University and much more LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain is an essential read for researchers, academics, and practitioners involved in exploring multifaceted aspects of LGBT Studies and Queer Theory and their points of convergence and divergence.

The Blackwell Companion to Law and Society - Austin Sarat 2008-04-15

The Blackwell Companion to Law and Society is an authoritative study of the relationship between law and social interaction. Thirty-two original essays by an international group of expert scholars examine a wide range of critical questions. Authors represent various theoretical, methodological, and political commitments, creating the first truly global overview of the field. Examines the relationship between law and social interactions in thirty-three original essay by international experts in the field. Reflects the world-wide significance of North American law and society scholarship. Addresses classical areas and new themes in law and society research, including: the gap between law on the books and law in

action; the complexity of institutional processes; the significance of new media; and the intersections of law and identity. Engages the exciting work now being done in England, Europe, Australia, and New Zealand, South Africa, Israel, as well as "Third World" scholarship.

Routledge Handbook on Men, Masculinities and Organizations - Jeff Hearn 2023-11-24

This Handbook provides new theoretical and empirical insights into men, men's practices and masculinities across many kinds of organizations and forms of organizing. Most mainstream studies of organizations, leadership and management do not seem to notice they are often talking a lot about men and masculinities. The Handbook challenges this general tendency to avoid gendering men by bringing together a range of theoretical and methodological approaches that: engage with not only formal organizations, such as businesses and state organizations, but also processes of organizing within and beyond organizations; address emergent and future issues on men, masculinities and organizations, such as tech masculinities, men's emotions, sexualities and violences, animal advocacy and environmental issues, and men and masculinities in pandemics. Targeted at scholars, policymakers, practitioners and students interested in links between men, masculinities, organizations and organizing, this landmark Handbook is an invaluable resource for those working in and beyond such fields as gender studies, organization, leadership and management studies, political science, sociology, social and public policy, and social movement studies.

An Argument for Same-Sex Marriage - Emily R. Gill 2012-08-21

The relationship between religious belief and sexuality as personal attributes exhibits some provocative comparisons. Despite the nonestablishment of religion in the United States and the constitutional guarantee of free exercise, Christianity functions as the religious and moral standard in America. Ethical views that do not fit within this consensus often go unrecognized as moral values. Similarly, in the realm of sexual orientation, heterosexuality is seen as the yardstick by which sexual practices are measured. The notion that "alternative" sexual practices like homosexuality could possess ethical significance is often overlooked or ignored. In her new book, *An Argument for Same-Sex Marriage*, political scientist Emily Gill draws an extended comparison between religious belief and sexuality, both central components of one's personal identity. Using the religion clause of the First Amendment as a foundation, Gill contends that, just as US law and policy ensure that citizens may express religious beliefs as they see fit, it should also ensure that citizens may marry as they see fit. Civil marriage, according to Gill, is a public institution, and the exclusion of some couples from a state institution is a public expression of civic inequality. *An Argument for Same-Sex Marriage* is a passionate and timely treatment of the various arguments for and against same-sex marriage and how those arguments reflect our collective sense of morality and civic equality. It will appeal to readers who have an interest in gay and lesbian studies, political theory, constitutional law, and the role of religion in the contemporary United States.

Religion, Politics, and American Identity - David S. Gutterman 2006-07-24

Scholarship on the role of religion in American public life has taken on a new urgency in the increasingly contentious wake of the attacks of September 11, 2001. This volume brings together an impressive group of scholars to build on past work and broaden the scope of this crucial inquiry in two respects: by exploring aspects of the religion-politics nexus in the United States that have been neglected in the past, and by examining traditional questions concerning the religious tincture of American political discourse in provocative new ways. Essays include examinations of religious rhetoric in American political and cultural discourse after September 11th, the impact of religious ideas on environmental ethics, religion and American law beyond the First Amendment, religious responses to questions of gay and lesbian rights, the Church of Jesus Christ of Latter-Day Saints and issues of free speech and public space in Utah, and the role of religious institutions and ideas on the political priorities of African-American and Latino communities. In addition, *Religion, Politics, and American Identity* includes introductory and concluding essays by leading scholars in the field of religion and politics that assess present and future directions for study.

Playing with Fire - Shane Phelan 1997-01-01

The last five years have witnessed the birth of a vibrant new group of young scholars who are writing about queer law, politics, and policy--topics which are no longer treated as of interest only to lesbians and gay men, but which now garner the attention of political theorists of all stripes. *Playing With Fire*--the first scholarly collection on queer politics

by US political theorists--opens the intersection of lesbian and gay studies and political theory to a wide audience. It covers a wide range of issues, including: the theory of queer identities; the contrasts among ethnic, racial, and sexual identities; the debate between liberals and communitarians; the right to privacy; and the meaning of equal citizenship.

Diversity and Community - Philip Alperson 2008-04-15

Diversity and Community: An Interdisciplinary Reader is a collection of essays exploring the notion of community in its many theoretical, practical, and cultural manifestations. A collection of specially commissioned essays exploring the notion of community in its many theoretical, practical, and cultural manifestations. Discusses the idea of community in its full, cultural context. Deals with issues confronting many diverse groups, including African American, Franco-Canadian, computer-mediated, and gay and lesbian communities. Includes contributions by both eminent scholars and new voices, among them Martha Nussbaum, Jean Bethke Elstain, D.A. Masolo, Mary Hawkesworth, Lewis Gordon, Maria Lugones, Crispin Sartwell, Duane Champagne, and Frank Cunningham.

LGBTQ Politics - Marla Brettschneider 2017-09-19

"From Harvey Milk to Barney Frank, and from ACT UP to Proposition 8, in the past few decades, no political change has been more significant than the civil rights advancements of LGBTQ citizens. *LGBTQ Politics* is the first authoritative reader to approach the complexity of queer politics from a political science perspective, bringing together original contributions from leading scholars in the field on key issues in LGBTQ politics. These original essays cover a wide range of essential topics, including marriage equality, transgender discrimination, gay and lesbian

political candidates, LGBTQ human rights advocacy, HIV prevention, and LGBTQ movements of the Global South. The volume also includes a number of critical essays that reflect upon the state of political science as a discipline that has struggled to address queer politics. Contributors draw from a variety of subfields in political science, including comparative politics, political theory, American politics, public law, and international relations. Essays that focus on mainstream institutional politics appear alongside contributions grounded in grassroots movements and critical theory. While some essays express concerns that the democratic basis of the LGBTQ movement has been undermined, others celebrate the movement's successes and offer visions for the future. A comprehensive, thought-provoking, and authoritative collection, *LGBTQ Politics: A Critical Reader* is required reading for anyone looking to learn about the politics of sexuality"--Back cover.

Queer Families in Hungary - Rita Béres-Deák 2019-08-20

Set against the backdrop of a country which upholds a heteronormative and narrow view of family, this book provides insights into the lives of Hungarian same-sex couples and their heterosexual relatives. Béres-Deák utilizes the theoretical framework of intimate citizenship, as well as findings from ethnographic interviews, participant observation and online sources. Instead of emphasizing the divide between non-heterosexual people and their heterosexual kin, the author recognizes that these members of queer families share many similar experiences and challenges. *Queer Families in Hungary* looks at experiences of coming out, negotiation of visibility, and kinship practices, and offers valuable insights into how individuals and families can resist heterosexist constraints through their discourses and practices. Students and scholars researching kinship studies, LGBT and queer studies, post-socialist studies, and citizenship studies, will find this book of interest.
