**The Construction of Homosexuality** - David F. Greenberg 2008-10-29

"At various times, homosexuality has been considered the noblest of loves, a horrible sin, a psychological condition or grounds for torture and execution. David F. Greenberg's careful, encyclopedic and important new book argues that homosexuality is only deviant because society has constructed, or defined, it as deviant. The book takes us over vast terrains of example and detail in the history of homosexuality."—Nicholas B. Dirks, New York Times Book Review

**Research Methods** - Patrick McNeill 2005

This new edition of Patrick McNeill's Research Methods, co-authored with Steve Chapman, brings this classic introductory text up to date and adds new material on how research findings should be presented.

*The Isabella Stewart Gardner Museum* - Boston, Mass. Isabella Stewart Gardner Museum 1995-01-01

"This book takes you through the collection gallery by gallery,

illuminating the art and installations in each room"--From preface.

**A Queer History of the United States** - Michael Bronski 2012-05-15

Winner of a 2012 Stonewall Book Award in nonfiction The first book to cover the entirety of lesbian, gay, bisexual, and transgender history, from pre-1492 to the present. In the 1620s, Thomas Morton broke from Plymouth Colony and founded Merrymount, which celebrated same-sex desire, atheism, and interracial marriage. Transgender evangelist Jemima Wilkinson, in the early 1800s, changed her name to "Publick Universal Friend," refused to use pronouns, fought for gender equality, and led her own congregation in upstate New York. In the mid-nineteenth century, internationally famous Shakespearean actor Charlotte Cushman led an openly lesbian life, including a well-publicized "female marriage." And in the late 1920s, Augustus Granville Dill was fired by W. E. B. Du Bois from the NAACP's magazine the Crisis after being arrested for a homosexual encounter. These are just a few moments of queer history that Michael Bronski highlights in this groundbreaking book. Intellectually dynamic and endlessly provocative,

A Queer History of the United States is more than a “who’s who” of queer history: it is a book that radically challenges how we understand American history. Drawing upon primary documents, literature, and cultural histories, noted scholar and activist Michael Bronski charts the breadth of lesbian, gay, bisexual, and transgender history, from 1492 to the 1990s, and has written a testament to how the LGBT experience has profoundly shaped our country, culture, and history. A Queer History of the United States abounds with startling examples of unknown or often ignored aspects of American history—the ineffectiveness of sodomy laws in the colonies, the prevalence of cross-dressing women soldiers in the Civil War, the impact of new technologies on LGBT life in the nineteenth century, and how rock music and popular culture were, in large part, responsible for the devastating backlash against gay rights in the late 1970s. Most striking, Bronski documents how, over centuries, various incarnations of social purity movements have consistently attempted to regulate all sexuality, including fantasies, masturbation, and queer sex. Resisting these efforts, same-sex desire flourished and helped make America what it is today. At heart, A Queer History of the United States is simply about American history. It is a book that will matter both to LGBT people and heterosexuals. This engrossing and revelatory history will make readers appreciate just how queer America really is.

**Medieval Sexuality** - April Harper 2010-04-26

Medieval Sexuality: A Casebook is a fascinating collection featuring both new and established experts in the field. The volume includes 11 original essays by Ross Balzaretto, Philip Crispin, Dominic Janes, Hugh Kennedy, A. Lynn Martin, Kim M. Phillips, Samantha J. E. Riches, Joyce E. Salisbury, David Santiuste, and the volume editors, April Harper and Caroline Proctor. The authors explore a variety of sources, contributing work on a diverse range of topics including: sources for sexuality in Late Lombard Italy; the problematic reception of early medieval penitentials by modern readers; sexuality as experienced by the desert fathers and mothers; connections between saints, monsters, and sexuality in medieval art and hagiography; the relationship between food, seduction, and adultery in the fabliaux; sex, alcohol, and the late medieval

stereotype of the unruly woman; sex as a medical and moral concern in medieval regimens of health; ideas of sexuality in political discourse; sex and scandal in festive drama; debates on sexual orientation in Arabic court literature; and pre-colonial descriptions of sexuality in the Far East. The volume concludes with a useful selection of further reading.

**Recovering Biblical Manhood and Womanhood (Revised Edition)** - John Piper 2021-01-11

A Guide to Navigate Evangelical Feminism In a society where gender roles are a hot-button topic, the church is not immune to the controversy. In fact, the church has wrestled with varying degrees of evangelical feminism for decades. As evangelical feminism has crept into the church, time-trusted resources like Recovering Biblical Manhood and Womanhood help remind Christians of what the Bible has to say. In this edition of the award-winning best seller, more than 20 influential men and women such as John Piper, Wayne Grudem, D. A. Carson, and Elisabeth Elliot offer thought-provoking essays responding to the challenge egalitarianism poses to life in the church and in the home. Covering topics like role distinctions in the church, how biblical manhood and womanhood should work out in practice, and women in the history of the church, this helpful resource will help readers learn to orient their beliefs with God’s unchanging word in an ever-changing culture.

**In the Life** - Joseph Beam 1986

A Black Gay Anthology

**Corcoran Gallery of Art** - Corcoran Gallery of Art 2011

This authoritative catalogue of the Corcoran Gallery of Art's renowned collection of pre-1945 American paintings will greatly enhance scholarly and public understanding of one of the finest and most important collections of historic American art in the world. Composed of more than 600 objects dating from 1740 to 1945.

*Memory and the English Reformation* - Alexandra Walsham 2020-11-12  
Recasts the Reformation as a battleground over memory, in which new identities were formed through acts of commemoration, invention and

repression.

**An Introduction to Counselling** - John McLeod 1998

This text is written in a clear, accessible style, covering all the core approaches to counselling. This second edition includes new chapters on systemic, feminist, narrative and multiculturalist approaches to counselling.

**The Pope and the Jesuits** - James Hitchcock 1984

*The Life of James McNeill Whistler* - Elizabeth Robins Pennell 2023-02-14  
The Life of James McNeill Whistler, has been acknowledged as a major work throughout human history, and we have taken precautions to assure its preservation by republishing this book in a modern manner for both present and future generations. This book has been completely retyped, revised, and reformatted. The text is readable and clear because these books are not created from scanned copies.

Sexual Ethics - Stanley James Grenz 1997-01-01

In this biblically grounded study, Stanley Grenz synthesizes theology, ethics, and current medical research to offer an evangelical perspective on the profound role that sexuality does, and should, play in our lives today. He calls for Christians to live a biblical sexual ethic in the contemporary world, at the same calling on the church to recognize that its mandate includes being a reconciling community, one that proclaims God's grace to all.

*The Literary World* - 1891

**When Scotland Was Jewish** - Elizabeth Caldwell Hirschman  
2015-05-07

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their

ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

**The Posthuman** - Rosi Braidotti 2013-07-11

The Posthuman offers both an introduction and major contribution to contemporary debates on the posthuman. Digital 'second life', genetically modified food, advanced prosthetics, robotics and reproductive technologies are familiar facets of our globally linked and technologically mediated societies. This has blurred the traditional distinction between the human and its others, exposing the non-naturalistic structure of the human. The Posthuman starts by exploring the extent to which a post-humanist move displaces the traditional humanistic unity of the subject. Rather than perceiving this situation as a loss of cognitive and moral self-mastery, Braidotti argues that the posthuman helps us make sense of our flexible and multiple identities. Braidotti then analyzes the escalating effects of post-anthropocentric thought, which encompass not only other species, but also the sustainability of our planet as a whole. Because contemporary market economies profit from the control and commodification of all that lives, they result in hybridization, erasing categorical distinctions between the human and other species, seeds, plants, animals and bacteria. These dislocations induced by globalized cultures and economies enable a critique of anthropocentrism, but how reliable are they as indicators of a sustainable future? The Posthuman concludes by considering the implications of these shifts for the institutional practice of the humanities. Braidotti outlines new forms of cosmopolitan neo-humanism that emerge from the spectrum of post-colonial and race studies, as well as gender analysis and environmentalism. The challenge of the posthuman condition consists in

seizing the opportunities for new social bonding and community building, while pursuing sustainability and empowerment.

**The Church and the Homosexual** - John J. McNeill 2015-11-03

In this "brave and good book which shatters bad myths" (Commonweal), McNeill shows that the Bible does not condemn homosexuality, and argues that the Church must not continue its homophobic practices. From the Trade Paperback edition.

**Big History and the Future of Humanity** - Fred Spier 2015-05-06

big history and the future of humanity "This remains the best single attempt to theorize big history as a discipline that can link core concepts and paradigms across all historical disciplines, from cosmology to geology, from biology to human history. With additional and updated material, the Second Edition also offers a fine introduction to the history of big history and a superb introductory survey to the big history story. Essential reading for anyone interested in a rapidly evolving new field of scholarship that links the sciences and the humanities into a modern, science-based origin story." David Christian, Macquarie University "Notable for its theoretic approach, this new Second Edition is both an indispensable contribution to the emerging big history narrative and a

powerful university textbook. Spier defines words carefully and recognizes the limits of current knowledge, aspects of his own clear thinking." Cynthia Brown, Emerita, Dominican University of California Reflecting the latest theories in the sciences and humanities, this new edition of Big History and the Future of Humanity presents an accessible and original overview of the entire sweep of history from the origins of the universe and life on Earth up to the present day. Placing the relatively brief period of human history within a much broader framework - one that considers everything from vast galaxy clusters to the tiniest sub-atomic particles - big history is an innovative theoretical approach that opens up entirely new multidisciplinary research agendas. Noted historian Fred Spier reveals how a thorough examination of patterns of complexity can offer richer insights into what the future may have in store for humanity. The second edition includes new learning features, such as highlighted scientific concepts, an illustrative timeline and comprehensive glossary. By exploring the cumulative history from the Big Bang to the modern day, Big History and the Future of Humanity, Second Edition, sheds important historical light on where we have been - and offers a tantalizing glimpse of what lies ahead.
