Flores Girl: The Children God Forgot - BookIM, LLC 2008-11

From the headlines of today comes the ultimate adventure story of discovery. Two scientists unwittingly introduce a small tribe of prehistoric people living in isolation for a half million years to the ultimate modern predator: humanity. This is their adventure combining a clash of cultures, religious ardor with the oldest stories of all: the meaning of friendship and love. The two scientists, Sarah and Richard discover the existence of a living human ancestor, *Homo floresiensis* on an isolated tropical island. These small Hobbit-like creatures are not the Hobbits of JRR Tolkien's stories, but a small tribe of prehistoric people living in seeming isolation for

nearly a half million years on the Indonesian island of Irmã Flores. In their unrelenting quest for knowledge, Sarah and Richard unintentionally expose these innocents to the onslaught of the modern world including corporate raiders, Indonesian pirates and religious zealots. In the process of discovery and befriending these ancient people, Sarah and Richard rediscover their own humanity and the opportunity to find true love. This as a rousing adventure book with serious undertones about our very definition of humanity, and how we treat the other sentient creatures that occupy our small planet. What is at the core of being human, and how are we systematically destroying those very same qualities that we

hold so dear?

*The Book of Lost Names* - Kristin Harmel  
2021-05-25

Eva Traube Abrams, a semiretired librarian in Florida, is at the returns desk one morning when her eyes lock on to a photograph in a newspaper nearby. She freezes; it's an image of a book she hasn't seen in sixty-five years--a book she recognizes as the Book of Lost Names. The accompanying article describes the looting of libraries across Europe by the Nazis during World War II--an experience Eva remembers all too well. As a graduate student in 1942, Eva was forced to flee Paris after the arrest of her father, a Polish Jew. Finding refuge in a small mountain

town in the Free Zone, she begins forging identity documents for Jewish children fleeing to neutral Switzerland. But erasing people comes with a price, and along with a mysterious, handsome forger named Rémy, Eva decides she must find a way to preserve the real names of the children who are too young to remember who they really are. The records they keep in the Book of Last Names will become even more vital when the Resistance cell they work with is betrayed and Rémy disappears. As the Germans close in, Eva records a last, vital message in the book. Decades later, does she have the strength to seek out its answer--and help reunite those lost during the war?
