Routledge Handbook of Gender and Feminist Geographies - Anindita Datta 2020-04-08

This handbook provides a comprehensive analysis of contemporary gender and feminist geographies in an international and multi-disciplinary context. It features 48 new contributions from both experienced and emerging scholars, artists and activists who critically review and appraise current spatial politics. Each chapter advances the future development of feminist geography and gender studies, as well as empirical evidence of changing relationships between gender, power, place and space. Following an introduction by the Editors, the handbook presents original work organized into four parts which engage with relevant issues including violence, resistance, agency and desire: Establishing feminist geographies Placing feminist geographies Engaging feminist geographies Doing feminist geographies The Routledge Handbook of Gender and Feminist Geographies will be an essential reference work for scholars interested in feminist geography, gender studies and geographical thought.

Queering Tourism - Lynda Johnston
2007-05-07

Gay Pride parades are annual arenas of queer public culture, where embodied notions of subjectivity are sold, enacted, transgressed and debated. From Sydney to Rome, Queering Tourism analyses the paradoxes of gay pride parades as tourist events, exploring how the public display of queer bodies - the way they look, what they do, who watches them, and under what regulations - is profoundly important in constructing sexualized subjectivities of bodies and cities. Drawing on extensive collections of interviews, visuals and written media accounts, photographs, advertisements,

and her own participation in these parades, Lynda Johnston gives a vibrant account of 'queer tourism' in New Zealand, Australia, Scotland and Italy. For each place, she looks at how the relationship between the viewer and the viewed produces paradoxical concepts of bodily difference, and considers how the queered spaces of gay pride parades may prompt new understandings of power and tourism.

Examining the intersection of sexuality, space and tourism, and using empirical data gathered at Gay pride parades such as the Sydney Mardi Gras, New Zealand HERO Parade and World Pride Roma 2000, this important work produces a deconstructive account of tourism and presents new ways of thinking through the powerful processes of subjectivity formation. The Routledge Research Companion to Geographies of Sex and Sexualities - Gavin Brown 2016-05-20

Comprehensive and authoritative, this state-of-the-art review both charts and develops the rich sub-discipline geographies of sexualities, exploring sex-gender, sexuality and sexual practices. Emerging from the desire to examine differences and exclusions as a key aspect of human geographies, these geographies have engaged with heterosexual and queer, lesbian, gay, bi and trans lives. Developing thinking in this area, geographers and other social scientists have illustrated the centrality of place, space and other spatial relationships in reconstituting sexual practices, representations, desires, as well as sexed bodies and lives. This book reviews the current state of the field and offers new insights from authors located on five continents. In doing so, the book seeks to draw on and influence core debates in this field, as well as disrupt the Anglo-American hegemony in studies of sexualities, sexes and geographies.

This volume is the definitive collection in the area, bringing together many international leaders in the field, alongside scholars that are well-established outside the Anglophone academy, and many emerging talents who will lead the field in the decades to come.

Lesbian Geographies - Kath Browne 2016-03-03

It has long been recognised that the spatialisation of sexual lives is always gendered. Sexism and male dominance are a pervasive reality and lesbian issues are rarely afforded the same prominence as gay issues. Thus, lesbian geographies continue to be a salient axis of difference, challenging the conflation of lesbians and gay men, as well as the trope that homonormativity affects lesbians and gay men in the same ways. This volume explores lesbian geographies in diverse geographical, social and cultural contexts and presents new approaches, using English as a working language but not as a cultural framework. Going beyond the dominant trace of Anglo-American perspectives of research in sexualities, this book presents research in a wide range of countries including Australia, Argentina, Israel, Canada, USA, Russia, Poland, Spain, Hungary and Mexico.

Feminist Film Theory - Sue Thornham 1999-04

For the past twenty-five years, cinema has been a vital terrain on which feminist debates about culture, representation, and identity have been fought. This anthology charts the history of those debates, bringing together the key, classic essays in feminist film theory. Feminist Film Theory maps the impact of major theoretical developments on this growing field—from structuralism and psychoanalysis in the 1970s, to post-colonial theory, queer theory, and postmodernism in the 1990s. Covering a wide range of topics, including oppressive images, "woman" as fetishized object of desire, female spectatorship, and the cinematic pleasures of black women and lesbian women, Feminist Film Theory is an indispensable reference for scholars and students in the field. Contributors include Judith Butler, Carol J. Clover, Barbara Creed, Michelle Citron, Mary Ann Doane, Teresa De Lauretis, Jane Gaines, Christine Gledhill, Molly Haskell, bell hooks, Claire Johnston, Annette Kuhn, Julia Lesage, Judith Mayne, Tania Modleski, Laura Mulvey, B. Ruby Rich, Kaja Silverman, Sharon Smith, Jackie Stacey, Janet

Staiger, Anna Marie Taylor, Valerie Walkerdine, and Linda Williams.

Gender in Spanish Urban Spaces - Maria C. DiFrancesco 2018-01-03

This edited collection examines the synergistic relationship between gender and urban space in post-millennium Spain. Despite the social progress Spain has made extending equal rights to all citizens, particularly in the wake of the Franco regime and radically liberating Transición, the fact remains that not all subjects—particularly, women, immigrants, and queers—possess equal autonomy. The book exposes visible shifts in power dynamics within the nation's largest urban capitals—Madrid and Barcelona—and takes a hard look at more peripheral bedroom communities as all of these spaces reflect the discontent of a post-nationalistic, economically unstable Spain. As the contributors problematize notions of public and private space and disrupt gender binaries related with these, they aspire to engender discussion around civic status, the administration of space and the place of all citizens in a global world.

Doing Gender, Doing Geography - Saraswati Raju 2012-12-06

Until the 1970s gender had been invisible in analyses of social space and place in the androcentric discipline of geography. While recent contributions to feminist geography have challenged this, in India the engagement of geographers with gender, by being conservative in its choice of focus and orthodox in methodology, has been unable to destabilise the established disciplinary order. However, with younger scholars becoming increasingly interested in studying gender in geography, novel and innovative methods that include combinations of quantitative and qualitative analyses, visual sources and in-depth case studies are being tried out and accepted in geography despite its masculine legacy. This pioneering study brings together Indian geographers' contributions to understanding gender, and through them, seeks to enrich the discipline of geography. It engages with the recent 'spatial turn' in the social sciences, which has reclaimed the explanatory power of space and place in social theory that had been nearly lost to deconstructive postmodernist

scholarship. The volume draws entirely from the Indian scholarship, showcasing contextualised knowledge production, but hopes to initiate a dialogue with scholars elsewhere working with feminist methodologies.

Transforming Gender, Sex, and Place - Lynda Johnston 2018-10-25

Transgender, gender variant and intersex people are in every sector of all societies, yet little is known about their relationship to place. Using a trans, feminist and queer geographical framework, this book invites readers to consider the complex relationship between transgender people, spaces and places. This book addresses questions such as, how is place and space transformed by gender variant bodies, and vice versa? Where do some gender variant people feel in and / or out of place? What happens to space when binary gender is unravelled and subverted? Exploring the diverse politics of gender variant embodied experiences through interviews and community action, this book demonstrates that gendered bodies are constructed through different social, cultural and economic networks. Firsthand stories and international examples reveal how transgender people employ practices and strategies to both create and contest different places, such as: bodies; homes; bathrooms; activist spaces; workplaces; urban night spaces; nations and transnational borders. Arguing that bodies, gender, sex and space are inextricably linked, this book brings together contemporary scholarly debates, original empirical material and popular culture to consider bodies and spaces that revolve around, and resist, binary gender. It will be a valuable resource in Geography, Gender and Sexuality studies.

Men in Place - Miriam J. Abelson 2019-03-19
Daring new theories of masculinity, built from a large and geographically diverse interview study of transgender men American masculinity is being critiqued, questioned, and reinterpreted for a new era. In *Men in Place* Miriam J. Abelson makes an original contribution to this conversation through in-depth interviews with trans men in the U.S. West, Southeast, and Midwest, showing how the places and spaces men inhabit are fundamental to their experiences of race, sexuality, and gender. *Men in Place* explores the shifting meanings of being a man across cities and in rural areas. Here Abelson develops the insight that individual men do not have one way to be masculine—rather, their ways of being men shift between different spaces and places. She reveals a widespread version of masculinity that might be summed up as “strong when I need to be, soft when I need to be,” using the experiences of trans men to highlight the fundamental construction of manhood for all men. With an eye to how societal institutions promote homophobia, transphobia, and racism, *Men in Place* argues that race and sexuality fundamentally shape safety for men, particularly in rural spaces, and helps us to better understand the ways that gender is created and enforced.

The Routledge Handbook of Literature and Space - Robert T. Tally Jr. 2017-01-06

The "spatial turn" in literary studies is transforming the way we think of the field. The Routledge Handbook of Literature and Space maps the key areas of spatiality within literary studies, offering a comprehensive overview but also pointing towards new and exciting directions of study. The interdisciplinary and global approach provides a thorough introduction and includes thirty-two essays on topics such as: Spatial theory and practice Critical methodologies Work sites Cities and the geography of urban experience Maps, territories, readings. The contributors to this volume demonstrate how a variety of romantic, realist, modernist, and postmodernist narratives represent the changing social spaces of their world, and of our own world system today.

Hedwig and the Angry Inch - Stephen Trask 2003

Tells the story of transsexual rocker Hedwig Schmidt, an East German immigrant whose sex change operation has been botched and who finds herself living in a trailer park in Kansas. *Indiscreet Fantasies* - Andrés Lema-Hincapié 2020-11-13

Offering in-depth analyses of fifteen different queer films from the Iberian Peninsula, this collection shows how a diverse group of filmmakers from regions including Catalonia, Portugal, Castile, Galicia, and the Basque Country have produced films that challenge the region's conservative religious values and gender norms, while intervening in vital debates about politics, history, and nation.

The Discourse on Gender Identity in Contemporary Russia - Dennis Scheller-Boltz 2017-08-01

Conchita Wursts Sieg beim Eurovision Song Contest 2014 war ein zentrales diskursives Moment, welches das derzeitige Spannungsfeld zwischen Postgenderismus und Traditionalismus in Russland offenlegte und aufzeigte, wie sehr Geschlecht und Sexualität, nicht zuletzt für das russische Selbstbild und die Konstruktion einer russischen nationalen Identität, instrumentalisiert und politisiert werden und wie sehr Identitätskonzepte den russischen Alltag mitbestimmen. Die Monografie widmet sich der Diskussion um Geschlecht und Sexualität in Russland nach dem Sieg von Conchita Wurst und untersucht das Verhältnis von Diskurs und

Identität. Im Vordergrund steht die Funktion von Sprache sowohl für die Identitätskonstruktion als auch für die Schaffung und Abgrenzung von Räumen. Dabei lassen sich nicht nur lexikologische und wortbildnerische Besonderheiten beobachten, sondern es liegt insgesamt ein auffälliger Sprachgebrauch mit interessanten Argumentationsstrategien vor. Ausführungen zu Identität und kritische Anmerkungen zur russischen Gender- und Queer-Linguistik komplettieren diesen Band. Conchita Wurst's 2014 victory in the Eurovision Song Contest was a significant discursive moment which revealed the current tensions between postgenderism and traditionalism in contemporary Russia. This case also made clear just how far gender and sexuality are instrumentalised and politicised - not least in creating Russians' self-perception and constructing a Russian national identity - and how massively notions of identity impact on Russian everyday life. The monograph focuses on the discussion of gender and sexuality in Russia following the 2014 event and investigates the relation between discourse and identity. Above all, it is concerned with the function of language in identity construction, and in the creation and demarcation of spaces. In this context, Dr. Scheller-Boltz's study not only analyses lexicological and word-formation peculiarities, but also provides some revealing research findings about specific language use, including certain argumentation strategies. The monograph begins with a detailed introduction to notions of identity and concludes with some critical remarks on Russian gender and queer linguistics.

Sexuality, Rurality, and Geography - Andrew Gorman-Murray 2012-12-27

This edited book offers a detailed examination of the interstices of ruralities and sexualities over a number of different countries, focusing a geographical lens on the relationships between sexualities and the spaces and tropes of rural life. Collectively, the contributors reveal how sexual identities, imaginaries and experiences are understood and practiced in relation to intimacies, institutions, mobilities, communities, and economic and social modes of production and consumption.

Space, Place, and Sex - Lynda Johnston 2010

This accessible and engaging book provides a critical geography of sex and sexuality from the body to the globe. Drawing on queer, feminist, gender, social, and cultural studies, Lynda Johnston and Robyn Longhurst highlight the complex nature of sex and sexuality and how they are connected to both virtual and physical spaces and places. Their aim is to enrich our understanding of sexual identities and practices - whether they be lesbian, gay, bisexual, transsexual, asexual, queer, or heterosexual. Drawing on a diverse array of historical and contemporary examples, the authors argue convincingly that sexual politics permeate all places and spaces at every level of geographical scale. Thus, they illustrate, sexuality affects the way people live in and interact with space and place, as space and place in turn affect people's sexuality.

Rethinking Transgender Identities - Petra L. Doan 2022-03-24

This volume explores the diversity and complexity of transgender people's experiences and demonstrates that gendered bodies are constructed through different social, cultural and economic networks and through different spaces and places. *Rethinking Transgender Identities* brings together original research in the form of interviews, participatory methods, surveys, cultural texts and insightful commentary. The contributing scholars and activists are located in Aotearoa New Zealand, Brazil, Canada, Catalan, China, Japan, Scotland, Spain, and the United States. The collection explores the relationship between transgender identities and politics, lived realities, strategies, mobilizations, age, ethnicity, activism and communities across different spatial scales and times. Taken together, the chapters extend current research and provide an authoritative state-of-the-art review of current research, which will appeal to scholars and graduate students working within the fields of sociology, gender studies, sexuality and queer studies, family studies, media and cultural studies, psychology, health, law, criminology, politics and human geography.

Space, Place, and Violence - James A. Tyner 2012-05-02

Direct, interpersonal violence is a pervasive, yet often mundane feature of our day-to-day lives;

paradoxically, violence is both ordinary and extraordinary. Violence, in other words, is often hidden in plain sight. *Space, Place, and Violence* seeks to uncover that which is too apparent: to critically question both violent geographies and the geographies of violence. With a focus on direct violence, this book situates violent acts within the context of broader political and structural conditions. Violence, it is argued, is both a social and spatial practice. Adopting a geographic perspective, *Space, Place, and Violence* provides a critical reading of how violence takes place and also produces place. Specifically, four spatial vignettes - home, school, streets, and community - are introduced, designed so that students may think critically how 'race', sex, gender, and class inform violent geographies and geographies of violence.

What is Rhythmanalysis? - Dawn Lyon 2019-01-01

In recent years, there has been growing interest in Henri Lefebvre's posthumously published volume, *Rhythmanalysis*. For Lefebvre and subsequent scholars, *rhythmanalysis* is a research strategy which offers a means of thinking space and time together in the study of everyday life, and this remains its strength and appeal. *What is Rhythmanalysis?* addresses the task of how to do *rhythmanalysis*. It discusses the history and development of *rhythmanalysis* from Lefebvre to the present day in a range of fields including cultural history and studies of place, work and nature. For Lefebvre, it is necessary to be 'grasped by' a rhythm at a bodily level in order to grasp it. And yet we also need critical distance to fully understand it.

Rhythmanalysis is therefore both corporeal and conceptual. This book considers how the body is directly deployed as a research tool in *rhythmanalytical* research as well as how audio-visual methods can get at rhythm beyond the capacity of the senses to perceive it. In particular, the book includes detailed discussion of research on different forms of mobility - from driving to dancing - and on the social life of markets - from finance to fish. Dawn Lyon highlights the gains, limitations and lively potential of *rhythmanalysis* for spatially, temporally and sensually attuned practices of research. This engaging text will be of interest to students and researchers in sociology,

criminology, socio-legal studies, geography,
urban studies, architecture, anthropology,
economics and cultural studies.
