What's Love Got to Do With It - Dr. John Chirban 2012-06-04

Having trouble talking to your kids about sex? Their friends at school don't... Unfortunately, for many parents, the most important conversations are the hardest. Ninety-three percent of adults are dissatisfied with the sex education they received as children, which is precisely why they are so bad at teaching their kids—they have no frame of reference. Renowned Harvard Medical School psychologist and frequent Dr. Phil guest John Chirban helps parents talk to their kids . . . about sex. Kids are going to learn about sex, and it is up to parents to decide if their kids are going to learn from them or from MTV. How parents address sex—their openness, the context, and their attitudes—will impact how their children view their own sexuality and self worth. Dr. Chirban helps parents know when, how, and how much. He uses humor, compassion, and real-life examples to prepare parents for a healthy and ongoing conversation that will equip their kids to own their own sexuality and an understanding of the larger issues of relationships, love, commitment, and intimacy. In addition, parents understand how helping their children understand these veiled yet critical keys of a fulfilling life deepens their own connection with their children.
