

Child Sexual Abuse Within The Family Arnon Bentovim

The Wounded Heart - Dan Allender 2014-02-27

For those who have experienced childhood sexual abuse and those who love and care for them, *The Wounded Heart* offers a tender, compassionate window into the psychological effects of abuse and the theological foundations for healing. Thirty years ago, with great courage and vision, Dan Allender brought Christians to the table to acknowledge, understand, and help victims heal from their experience of the evil of sexual abuse. His work continues to help victims and those who love them to honestly acknowledge their abuse, understand the unique challenge of repentance for victims of abuse, and learn to love boldly in defiance of their trauma. Ultimately Dan offers the bold assurance to sexual abuse victims that even they can find their way to joy and hope in the comforting embrace of a good God. *The Wounded Heart* has sold over 400,000 copies and has been the first book family, friends, counselors, pastors, and victims have turned to in search of Christian answers to the calamity of sexual abuse. With a new introduction reflecting on the ongoing importance of the book, and a companion workbook for personal and group recovery, *The Wounded Heart* continues to offer an urgently needed word of grace in a world ravaged by sexual abuse.

The Wiley Handbook of What Works in Child Maltreatment - Louise Dixon 2017-06-26

A comprehensive guide to empirically supported approaches for child protection cases *The Wiley Handbook of What Works in Child Maltreatment* offers clinicians, psychologists, psychiatrists and other professionals an evidence-based approach to best professional practice when working in the area of child protection proceedings and the provision of assessment and intervention services in order to maximize the well-being of young people. It brings together a wealth of knowledge from expert researchers and practitioners, who provide a comprehensive overview of contemporary work informing theory, assessment, service provision, rehabilitation and therapeutic interventions for children and families undergoing care proceedings. Coverage includes theoretical perspectives, insights on the prevalence and effects of child neglect and abuse, assessment, children's services, and interventions with children, victims and families.

A Clinician's Handbook of Child and Adolescent Psychiatry - Christopher Gillberg 2006-02-09

Originally published in 2006, this authoritative clinical handbook provides a detailed overview of the main disorders encountered by child and adolescent psychiatrists in clinical practice, ranging from eating, sleep and affective disorders to substance abuse, gender identity disorder and sexual abuse. The approach is evidence based and emphasis is on good clinical practice and quality control of patient care. In contrast to other books in the field, the authors' intention is not to cover exhaustively all the relevant science, but rather to present in condensed form any research findings that are significant for clinical practice. For coherence, each chapter is constructed in the same way: introduction, definition and classification, epidemiology, the clinical picture, aetiology, treatment and outcome. The disorders covered are based on the ICD- 10 and DSM-IV classifications, and appendices include documents for assessment of intervention planning and evaluation.

Child Sexual Abuse Within the Family - Arnon Bentovim 1988

Disability and Child Sexual Abuse - Martina Higgins 2009

Disability and Child Sexual Abuse examines the ways in which society marginalises, institutionalises and places disabled children in situations of unacceptable risk, and how - as evidenced in the survivors' narratives - patterns of service delivery can contribute to the problem. Based on the accounts of seven disabled individuals who were sexually abused in childhood, the book highlights a wide range of pertinent issues. Through case vignettes and empirical research, the authors ask practitioners to scrutinise their current professional practice, exploring participants' experiences of hospitalisation, education systems and local authorities. They consider the issue of who abuses and why, and highlight issues relating to the complexities involved in revisiting past experiences and confronting unwarranted and unwanted feelings of responsibility. The difficulty of recounting the abuse narrative is also examined within the research context. This book will be relevant for professionals and

students in the social, health and education services, such as social workers, teachers and counsellors. It will also offer insights for those seeking a less disablist society, including disabled people themselves.
Child Sexual Abuse Within the Family - Arnon Bentovim 1988

The Child Protection Handbook - Kate Wilson 2007-04-26

This title is directed primarily towards health care professionals outside of the United States. The new edition of this popular handbook gives an authoritative, informative and accessible account of key areas of child protection practice. Covering research, policy and practice it is relevant to all professionals working in child care. No other book on child protection offers such comprehensive coverage of policy and practice. It provides research findings in all areas of child abuse, latest policies and indications of good practice, plus specialist chapters for different professionals. Chapters have been contributed by known experts in the field, both distinguished academics and practitioners. By combining the latest factual information with sophisticated analysis, it is the ideal course text for child protection programmes as well as meeting the needs of more experienced practitioners, academics and trainers. Practical. Examines the issues grounded in reality, and therefore gives the reader confidence in practice, coupled with an understanding of the responsibilities of colleagues in other professions. Comprehensive. Covers a broad review of what constitutes child abuse and characteristics of the abused and the abusers; medical, social and legal management of the process of protection; the actions involved in intervention. and training and new directions for research and practice. Authoritative. Contributors are senior professionals known nationally and internationally for their specific expertise in this area. Research based. All books should be, but amongst the professionals most closely involved in child protection, the heavy workload often means there is little time to catch up on and assimilate up-to-date research fully. This book offers a through guide to what research and policy initiatives can give to the practice of the reader. new chapters addressing issues of culture and parenting.. each chapter contains key messages for practitioners. key websites have been listed. a website on Evolve with supplementary material.

The Handbook of Psychotherapy - Petruska Clarkson 2013-11-19

First published in 1994. Routledge is an imprint of Taylor & Francis, an informa company.

Enhancing the Well-being of Children and Families through Effective Interventions - Wendy Rose 2006-01-30

Services for families and children are rightfully the focus of intense scrutiny and debate, and there is a clear need to establish a knowledge of which services work well. This volume provides a comprehensive overview of research evidence from the UK and USA on the effectiveness of selected child welfare interventions. It addresses the challenges of measuring effectiveness in child welfare and explains the policy context for child welfare service delivery. Leading international contributors summarize the evidence of effectiveness in each core area, and consider the impact on children's development, parenting capacity and the wider community. Critically, the book also draws out the implications of the evidence for policy, practice and service delivery as well as for future research. This book is essential reading for policy makers, practitioners and commissioners of services in child welfare as well as students and researchers.

Sexually Abused Children & Their Families - P. B. Mrazek 2014-06-28

This volume of 18 articles provides information about a diversity of issues - recognition, legal codes, evaluation, psychodynamics, treatment, prognosis and outcome. Included are reports on an extensive survey of professional recognition in England and an examination of European criminal law relating to child sexual abuse, theoretical models of psychosexual development within the family and incest as an expression of a dysfunctional family system. Attention is given to special problems of treatment along with reports on three on-going treatment programmes. Two useful features of the book are a comprehensive bibliography and a critique of available audio-visual materials.

Safeguarding Children Living with Trauma and Family Violence - Arnon Bentovim 2009

Offering a systematic approach to evidence-based assessment and planning for children living with trauma and family violence, this practical book shows how to assess and analyse the needs of the child, make specialist assessments where there are continuing safeguarding concerns (using the Assessment Framework) and plan effective child-centred and outcome-focused interventions. The authors analyse the impact of exposure to a climate of trauma and family violence on a child's bioneurological development and on their capacity to form attachments and to develop and reflect on relationships through childhood and adolescence into adulthood. They bring together the assessment of children in need with the evaluation of significant harm and risk, and potential for rehabilitation, and also explore the application of evidence-based approaches to intervention. This book is an essential tool for all front-line practitioners working with child protection, including social workers, child and adolescent mental health practitioners, police officers, probation workers and domestic violence organizations. It is also suitable for undergraduate, postgraduate and post-qualifying students.

Family Transformation Through Divorce and Remarriage - Margaret Robinson 2003-09-02

Family Transformation Through Divorce and Remarriage is the first book to look thoroughly at the complete divorce-remarriage-stepfamily cycle in the context of demographic data, the legal process and the theoretical framework. For each phase of the cycle, the author describes the stages of development, summarises the relevant research and illustrates the effects on family members with case examples.

Safeguarding Children Living with Trauma and Family Violence - Stephen Pizzey 2009-04-15

Offering a systematic approach to evidence-based assessment and planning for children living with trauma and family violence, this practical book shows how to assess and analyse the needs of the child, make specialist assessments where there are continuing safeguarding concerns (using the Assessment Framework) and plan effective child-centred and outcome-focused interventions. The authors analyse the impact of exposure to a climate of trauma and family violence on a child's bioneurological development and on their capacity to form attachments and to develop and reflect on relationships through childhood and adolescence into adulthood. They bring together the assessment of children in need with the evaluation of significant harm and risk, and potential for rehabilitation, and also explore the application of evidence-based approaches to intervention. This book is an essential tool for all front-line practitioners working with child protection, including social workers, child and adolescent mental health practitioners, police officers, probation workers and domestic violence organizations. It is also suitable for undergraduate, postgraduate and post-qualifying students.

Trauma-Organized Systems - Arnon Bentovim 2018-03-26

This book is about the experience of individuals who have been abused or who have abused others, but it also traces the way an abusive experience can organize a family or professional system so that changes are difficult to achieve. The author has been in the forefront of the child abuse field for many years, and he discusses in this volume the way his thinking has changed to incorporate the ideas from the feminist movement and the constructionist family therapists. He looks at the way victimizing actions and the traumatic effects of abuse combine to create a trauma-organized system, which includes the individual, the family, the professional helpers, the community, and the cultural values. The author describes the characteristics of these systems and a diagnostic procedure to help the workers plan the treatment.

Trauma-organized Systems - Arnon Bentovim 1992

This book is about the experience of individuals who have been abused or who have abused others, but it also traces the way an abusive experience can organize a family or professional system so that changes are difficult to achieve. The author has been in the forefront of the child abuse field for many years, and he discusses in this volume the way his thinking has changed to incorporate the ideas from the feminist movement and the constructionist family therapists. He looks at the way victimizing actions and the traumatic effects of abuse combine to create a trauma-organized system, which includes the individual, the family, the professional helpers, the community, and the cultural values. The author describes the characteristics of these systems and a diagnostic procedure to help the workers plan the treatment.

Eradicating Child Maltreatment - Arnon Bentovim 2014-09-28

Is it possible to overcome the enduring problem of child maltreatment? In *Eradicating Child Maltreatment*, leading international figures in the

field of child welfare address this enduring and thorny question, setting out a public health approach to prevention. It draws on groundbreaking research and practice on prevention and early intervention from around the globe spanning health, social care, education and criminal justice. Contributors describe what is known about the incidence of child maltreatment, how far we have succeeded in eradicating it, which preventative strategies have been proven to be effective, and offers evidenced recommendations for policy and practice. Aiming to draw us nearer to the goal of a world free from child maltreatment first articulated by the visionary paediatrician Dr. C. Henry Kempe in 1978, this important book provides new insights for professionals, managers, academics and policymakers across the range of child and family welfare services.

Assessing the Support Needs of Adopted Children and Their Families - Liza Bingley Miller 2006-12

Written in consultation with a range of experts, clinicians and practitioners as well as adoptive children, families and birth relatives, this book gives helpful guidance on making evidence-based assessments and planning successful adoption support. Key features include: a discussion of the main themes of adoption and pointers for practice in relation to the Assessment Framework a guide to the use of evidence-based approaches to assessment, including the tools commissioned by the Department of Health and the Department for Education a model for analysis and planning, and planning support and interventions an investigation of the source, range and value of support services and interventions that can promote the wellbeing of adopted children, their adoptive families and birth relatives. Packed with practical advice, case examples and models of good practice, this book is invaluable for social workers and managers involved with the adoption process and the wellbeing of children and families. It is also essential reading for social work students learning about working with children and families.

Child Abuse: an Evidence Base for Confident Practice 5e - David Wilkins 2019-06-12

This best-selling text has been used by countless students, practitioners and researchers as a key reference on child protection issues. The book demystifies this complex and emotionally-charged area, outlining research, history, social policy and legislation, as well as the theory and practice underpinning child protection work. Written by influential academics and practitioners, this updated edition looks at child protection practices in a global context and provides: • The latest research and thinking on the causes and consequences of child abuse, including new insights about the relationship between deprivation, poverty and abuse and neglect • An overview of child protection practices, ranging from the 19th Century to recent policy and practice changes, including the widespread adoption of practice models and attempts to improve the quality of social work services Using examples to highlight key discussions and points, this book will enhance the confidence, knowledge and skills of practitioners, supervisors and managers. "This is an important, varied, well-structured, and interesting academic contribution to the area of child protection, neglect, and child abuse. The authors draw on a range of literature, theories, and the extant evidence-base to present a breadth of chapters, from global perspectives on child abuse, to the history of child abuse, to reflections for the future of child protection work. This book will add value to a wide range of professionals in this important field." Dr Karen Treisman, Clinical Psychologist, Trainer "This is an important addition to the child abuse and child protection literature. Drawing from a variety of current research carried out by professionals and academics from a range of disciplines, this book will be an excellent companion for students, academics and practitioners working in this challenging but important area of work." Dr Elena Martellozzo, Online child protection expert. Middlesex University, UK "This is a comprehensive text which explores the legislative, cultural and historic context in which today's child protection has been shaped. Building on previous editions, it provides a valuable and up-to-date insight into contemporary child protection practice." Rebecca Avery, Education Safeguarding Advisor (Online Protection), The Education People "How did we get to where we are in our response to child abuse - and what might the future hold? This book provides a timely, comprehensive and thoughtful response to this question; demonstrating the importance of understanding our journey to

present day practices if we are to improve the protection of children in the future. Integrating historical, sociological, psychological and biological perspectives, and grappling with the ethical as well as practical challenges of child abuse responses, the authors provide us

with an overview upon which we must learn from past successes, as well as tragedies, as we utilise and further build an evidence base for confident social work practices around the world. “ Dr Carlene Firmin, Principal Research Fellow in Contextual Safeguarding, University of Bedfordshire, UK
