Mystical Courage - Cynthia Bourgeault 2021-03-22

When the global pandemic struck in the spring of 2020, spiritual teacher Cynthia Bourgeault sensed an invitation to go deeper than a continuous round of Zoom calls. She turned to Joseph Azize's newly published collection of spiritual exercises from the Gurdjieff teaching, exercises that for decades had been kept apart from the general public. She invited members of her Wisdom School Community to join her in a rigorous practice with six of these exercises. What emerged over a six-week collective journey was a remarkable series of revelations and reflections encompassing not only the Gurdjieff tradition but her own deep insights into the Christian mystical and wisdom traditions, together with sagacious tips on practice and a prophetic vision of a post-pandemic future. The fruit of that alchemy-presented here-is a profoundly renewed vision of Mystical Courage, a hope and strength emerging from beyond our own making that is available right now to guide our way.

When God Talks Back - T.M. Luhrmann 2012-03-27

How does God become and remain real for modern evangelicals? How are rational, sensible people of faith able to experience the presence of a powerful yet invisible being and sustain that belief in an environment of overwhelming skepticism? T. M. Luhrmann, an anthropologist trained in psychology and the acclaimed author of *Of Two Minds*, explores the extraordinary process that leads some believers to a place where God is profoundly real and his voice can be heard amid the clutter of everyday thoughts. While attending services and various small group meetings at her local branch of the Vineyard, an evangelical church with hundreds of congregations across the country, Luhrmann sought to understand how some members were able to communicate with God, not just through one-sided prayers but with discernable feedback. Some saw visions, while others claimed to hear the voice of God himself. For these congregants and many other Christians, God was intensely alive. After holding a series of honest, personal interviews with Vineyard members who claimed to have had isolated or ongoing supernatural experiences with God, Luhrmann hypothesized that the practice of prayer could train a person to hear God's voice—to use one's mind differently and focus on God's voice until it became clear. A subsequent experiment conducted between people who were and weren't practiced in prayer further illuminated her conclusion. For those who have trained themselves to concentrate on their inner experiences, God is experienced in the brain as an actual social relationship: his voice was identified, and that identification was trusted and regarded as real and interactive. Astute, deeply intelligent, and sensitive, *When God Talks Back* is a remarkable approach to the intersection of religion, psychology, and science, and the effect it has on the daily practices of the faithful.

The Power of Belonging - Will van der Hart 2019-02-01

Do you struggle with feeling like an impostor in your own leadership? Do you carry a secret anxiety about being revealed as a fraud? We all long to belong, especially those in positions of leadership. But deeply rooted shame can keep leaders from connecting authentically and vulnerably. Reverend Will van der Hart and Dr. Rob Waller—an experienced church leader and respected psychiatrist—integrate the story of Scripture with the science behind mental health, offering real steps for transformation. When leaders know that they belong to God—when they develop a deep sense of security in Him—they can overcome constricting shame and lead with confidence. Offering a psychological and biblical response to one of the most persistent problems in leadership, *The Power of Belonging* is a unique resource to help you build success from your sense of security, allowing your unique leadership gifts to flourish and grow. Each chapter includes study guide questions for group or individual use.

The Path Between Us - Suzanne Stabile 2018-04-10

Over 100,000 Copies Sold Worldwide! IVP Readers' Choice Award Most of us have no idea how others see or process their experiences. And that can make relationships hard, whether with intimate partners, with friends, or in our professional lives. Understanding the motivations and dynamics of these different personality types can be the key that unlocks sometimes mystifying behavior in others—and in ourselves. This book from Suzanne Stabile on the nine Enneagram types and how they behave and experience relationships will guide readers into deeper insights about themselves, their types, and others' personalities so that they can have healthier, more life-giving relationships. No one is better equipped than Suzanne Stabile, coauthor, with Ian Morgan Cron, of *The Road Back to You*, to share the Enneagram's wisdom on how relationships work—or don't. Why do Sixes seem so intimidated and put off by Eights, who only wish the Sixes would stop mulling things over and take action? Why do Fives seem so unavailable, even to their closest family and friends, while Twos seem to feel everybody else's feelings but their own and end up irritating people who don't want their help? How in the world can Fours be so open and loving to you one day and restrained and distant other times? The Enneagram not only answers these questions but gives us a way out of our usual finger pointing and judging of other people—and finding them wanting, perplexing, or impossible. Suzanne's generous, sometimes humorous, and always insightful approach reveals why all the types behave as they do. This book offers help in fostering more loving, mature, and compassionate relationships with everyone in our lives.
