**Designer Relationships** - Mark Michaels

2015-09-08

Contemporary relationships are in a state of rapid evolution. These changes can and should empower people with the opportunity to develop partnerships based on their own sexualities, understandings, and agreements. This makes it possible to create what Kenneth Haslam, founder of the Kinsey Institute's Polyamory Archive, has called "designer relationships." Designer relationships may encompass: people who bond emotionally but not sexually; people

who agree to be non-exclusive; single people who have occasional lovers or friends with benefits; multiple partner configurations where long-term bonds exist among all or some; partnerships in which people are kinky and that make room to explore kink. The possibilities are limitless, and thinking about a partnership as something people can craft allows for flexibility and change. Relationships can open and close or have varying degrees and kinds of openness as circumstances demand. In the context of a designer relationship, decisions are made mutually, consciously, and deliberately. Best-selling authors and nationally known relationship experts Patricia Johnson and Mark A. Michaels are exemplars of this life choice, and have studied polyamory for over 20 years. This book explains exactly how you and your loved ones can design your own life and love.

York Times bestseller Relationship Goals and the author's wildly popular sermon series, this 30-day challenge helps you take your relationship from good to great! Feeling tired of romantic relationships with no purpose—or looking to put more spark in your long-term love? Pastor Michael Todd draws on the themes of Relationship Goals to give you a month of biblically rich “let's go deeper” challenges designed just for couples. We're not talking simple date ideas or tips on what flowers to buy. We're talking daily Scripture, intentional questions, and victorious outcomes as you get real about seeking God's goals for you individually and together. As Michael looks at three key values of romantic relationships—purpose, healing, and oneness—he helps you find answers to questions like these: • How can we communicate with greater intentionality? • How does our relationship affect who we're becoming as individuals? • How are we going to fight well,

with our greater purpose in mind? • How do we find healing for deep-seated issues? • How do our spiritual lives affect our life as a couple? Take the next thirty days to create new habits that will set you down solidly on the road to meeting your relationship goals. At the end of this month-long challenge, you can look back on the goals you've already met and set new ones to look forward to. So get ready to win in relationship . . . together. Do you accept the challenge?

only one. Great relationships don't just appear in our lives—they're the culmination of a series of decisions, including whom to date, how to end it with the wrong person, and when to commit to the right one. But our brains often get in the way. We make poor decisions, which thwart us on our quest to find lasting love. Drawing from years of research, behavioral scientist turned dating coach Logan Ury reveals the hidden forces that cause those mistakes. But awareness on its own doesn't lead to results. You have to actually change your behavior. Ury shows you how. This "simple-to-use guide" (Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone*) focuses on a different decision in each chapter, incorporating insights from behavioral science, original research, and real-life stories. You'll learn: - What's holding you back in dating (and how to break the pattern) -What really matters in a long-term partner (and what really doesn't) - How to overcome the perils of online dating (and

make the apps work for you) -How to meet more people in real life (while doing activities you love) -How to make dates fun again (so they stop feeling like job interviews) -Why "the spark" is a myth (but you'll find love anyway) This "data-driven" (Time), step-by-step guide to relationships, complete with hands-on exercises, is designed to transform your life. *How to Not Die Alone* will help you find, build, and keep the relationship of your dreams.

You would think that having been previously

married it would be easier getting remarried. After all you know what you want and what you don't want in the next spouse. Once you find the one you think is an excellent candidate, do you have a plan for developing that new relationship? Dating by design is a continuation of my book *The Meeting Room* which talks about on-line dating. Now how do you go about the process of developing a relationship that will make for a solid marriage? This process is not as easy as it seems. You can get to know a person so well in the first four months that you think you are ready for marriage. However, you have only begun. What do you need to move that relationship to a point of not just knowing them but becoming best friends? Remarriage still calls for establishing terms of your relationship. Do you really know what love is, and how to work out disagreements? Because sex was so much a part of the previous marriage, what part does it play in your courting time? How can sex short circuit the building of your relationship? How do

you make your new relationship unique in your interests and how you live life? *Dating by Design* is a book to help recognize some of the issues needed to address in a dating relationship and go at it in an intentional manner.

**Intentional Friendship** - Dan Houk 2022-03-19

You may have been taught that there are no teachings about dating in the Bible, only basic friendship and courtship for the purpose of marriage or arranged marriages. If only there were a matchmaker at every church. Maybe there is a new ministry opportunity there. In all seriousness, how are you supposed to know if you should marry someone if you don't date them first? There needs to be another step, another place between that general friendship and dating someone. This is where the idea of

Intentional Friendship(TM) came from. This book is an excerpt of the 12-week Bible Study, Intentional Relationships for Singles, designed to help individuals get healthier through personal growth in all their relationships, including God, family, friends, work, and church, to prepare for marriage. The study covers topics including identity in Christ, gender roles, blind spots, boundaries, forgiveness, friendship, Intentional dating, and engagement, plus includes self/group discussion questions and an online leaders guide. "Kris and Dan have walked the ups and downs of singleness, friendship and dating - and lived to tell about it. Lucky for us, we get to learn from their victories and mistakes. Their immensely practical book is full of advice, strategies and personal, real-world examples that will empower you to pursue personal and relational health and most importantly, to trust God in the process." - Lisa Anderson, Director of Boundless.org/Focus on the Family and author of The Dating Manifesto

### **Maintaining Relationships Through**

**Communication** - Daniel J. Canary 2003-01-30  
Relational maintenance provides a rallying point for those seeking to discover the behaviors that individuals utilize to sustain their personal relationships. Theoretical models, research programs, and specific studies have examined how people in a variety of close relationships choose to define and maintain those relationships. In addition, relational maintenance turns our attention to communicative processes that help people

sustain their close relationships. In this collection, editors Daniel J. Canary and Marianne Dainton focus on the communicative processes critical to the maintenance and enhancement of personal relationships. The volume considers variations in maintaining different types of personal relationships; structural constraints on relationship maintenance; and cultural variations in relational maintenance. Contributions to the volume cover a broad range of relational types, including romantic relationships, family relationships, long-distance relationships, workplace relationships, and Gay and Lesbian relationships, among others. *Maintaining Relationships Through Communication: Relational, Contextual, and Cultural Variations* synthesizes current research in relationship maintenance, emphasizes the ways that behaviors vary in their maintenance functions across relational contexts, discusses alternative explanations for maintaining relationships, and

That same couple spends less than \$100 and two hours on their marriage. Don't be guilty of having a BIG wedding and a BAD marriage. Don't spend more time focused on the ceremony than the matrimony. The wedding, while a tremendous celebration is designed to last less than a day in most cultures, while the marriage is designed to last a lifetime. Dating, engaged, married (happily or unhappily), or remarried, if you follow this resource, it is guaranteed to help you make the right decision about marriage, prepare you for marriage, or strengthen the marriage

you are already in. Teresa and I have been working on this manual all our married lives - not because we are really slow writers, but because this manual is the compilation of everything we have learned in our personal lives as a married couple for 30 years with four children - boy do we have some stories to tell - as well as our professional training. approximately 10 to 12 hours from Friday afternoon through Saturday (all day). As we used this tool, we have been constantly writing, rewriting, and adding as questions and issues arose that we did not initially include in this resource. We would often leave the counseling room that Friday, come home, and add or modify a section based on a situation we saw or anticipated seeing the next day in the intensive. Though we have never made this tool available to anyone other than the couples we have personally worked with, our clients have urged us to share this resource, as they were genuinely moved and changed by the information contained herein. What you hold in your hands is the result of this process. This product was not developed in a classroom, using a lot of relationship theory, but rather forged in the crucible of real-life situations and circumstances.
