Clues in the Calico - Barbara Brackman 2009-11-17

In *Clues in the Calico* Barbara Brackman unveils a much-needed system for dating America's heirloom quilts. She tells how, by collecting and observing quilts and finally analyzing her computer file on close to 900 date-inscribed specimens, she arrived at the system. And through this telling she also imparts a colorful, stunningly illustrated history of quiltmaking along with a good bit of entertaining social history and the newest findings in textile research.

Dating Fabrics 2 - Eileen Jahnke Trestain 2005
From poodle skirts of the 1950s to baby doll dresses of the 1990s, the fabrics of our everyday lives are featured in this handy reference guide to the materials of the last half century. A companion to *Dating Fabrics: A Color Guide 1800-1960*, this source is ideal for those studying fashion and clothing trends from the late twentieth century, as well as collectors of recent quilts. Today's quilts may have elements of more than one decade because many quilters collect a great deal of fabric, and may draw from one group of fabric over a long period of time. The recent proliferation of reproduction fabrics has caused concern for the ability to differentiate the old from the new in reproduction quilts and repairs. An informative section on these fabrics from the 1980-2000 era provides a blueprint for building confident conclusions as to the fabric's origins. For ease in identification, prints are shown actual size and

specific fabric lines and styles are grouped and sorted by date, then color. Dating divisions coincide with turning points in history which influenced attitudes and styles, and are highlighted by a brief history of each era.

Strengthening Forensic Science in the United States - National Research Council 2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

A Field Guide to Fabric Design - Kimberly Kight 2011-11-16

A comprehensive, step-by-step resource for fabric design and printing—including tips from top designers. If you've ever dreamed of showing your designs on fabric, textile aficionado Kim Kight, of popular blog True Up, is here to teach you how. Comprehensive and refreshingly straightforward, this impressive volume features two main parts. First, the Design and Color section explains the basics with step-by-step tutorials on creating repeating patterns both by hand and on the computer. Next, the Printing section guides you through transferring those designs on fabric—whether it's block printing, screen printing, digital printing or licensing to a fabric company—and how to determine the best method for you.

Historical Painting Techniques, Materials, and Studio Practice - Arie Wallert 1995-08-24

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the

20th century.

Making History - Barbara Brackman 2008-07-01

This wide-ranging book shows how to create quilts with an authentic antique look, collect period textiles, while revealing the history of American fabrics. Learn the fascinating true story of fabrics in America and make your own period quilts with this comprehensive guide to fabrics and their influence on American quilts, from the machine age to the atomic age. From quilt historian Barbara Brackman, author of *America's Printed Fabrics 1770-1890*, *Making History* not only includes 9 quilt projects inspired by vintage quilt designs and fabrics, but is packed with historic photos, stories, and insights into the role of fabrics in everyday life.

Quilt Revival - Nancy Mahoney 2006

With the need to "use it up and make it do" during the Great Depression, quilting exploded in popularity. By the mid-1930s, over 400 newspapers printed block patterns on a regular basis. Author Nancy Mahoney has been lucky enough to find scrapbooks filled with clippings of those patterns. She shares her favorites in this rare collection.

of American quilts ever published! The Quilt explores the evolution of quilting in America, showing in vivid colors and patterns how African American, Amish, Hawaiian, Hmong, and Native American quilts celebrate cultural identity, and how quilts connect us to one another through quilting bees and other community groups. Noted quilt historian Elise Schebler Roberts also goes beyond the historical nature of quilts to cover current efforts at quilt preservation, collecting and appraising, and state documentation projects. Her book features an encyclopedia of favorite quilt styles and is gloriously illustrated with more than 200 full-color photographs of classic collectible quilts. **Nevada Historical Society Quarterly** - 2006

Thousands of fabric swatches presented in this guide book can help determine a date of manufacture and something about the fabric piece. Samples represent fabrics made in the Americas from 1800-1960.

Alabama Quilts - Mary Elizabeth Johnson Huff
2020-11-03

Winner of the 2022 James F. Sulzby Book Award from the Alabama Historical Association
Alabama Quilts: Wilderness through World War II, 1682-1950 is a look at the quilts of the state from before Alabama was part of the Mississippi Territory through the Second World War—a period of 268 years. The quilts are examined for their cultural context—that is, within the community and time in which they were made,

the lives of the makers, and the events for which they were made. Starting as far back as 1682, with a fragment that research indicates could possibly be the oldest quilt in America, the volume covers quilting in Alabama up through 1950. There are seven sections in the book to represent each time period of quilting in Alabama, and each section discusses the particular factors that influenced the appearance of the quilts, such as migration and population patterns, socioeconomic conditions, political climate, lifestyle paradigms, and historic events. Interwoven in this narrative are the stories of individuals associated with certain quilts, as recorded on quilt documentation forms. The book also includes over 265 beautiful photographs of the quilts and their intricate details. To make this book possible, authors Mary Elizabeth Johnson Huff and Carole Ann King worked with libraries, historic homes, museums, and quilt guilds around the state of Alabama, spending days on formal quilt documentation, while also holding lectures across the state and informal “quilt sharings.” The efforts of the authors involved so many community people—from historians, preservationists, librarians, textile historians, local historians, museum curators, and genealogists to quilt guild members, quilt shop owners, and quilt owners—making Alabama Quilts not only a celebration of the quilting culture within the state but also the many enthusiasts who have played a role in creating and sustaining this important art.
