During her entire time in college she was engaged, her and her fiancé Josh decided to give a long distance relationship a go. From the beginning of her college career throughout the completion and still to this day they are together. With nearly three hundred miles between her and Josh they had to get creative in order to keep the relationship alive. When they first began the relationship after Bethany got to college they would talk on the phone for hours each day about a little bit of nothing but that gradually got tiresome. Bethany and Josh had to find new things to keep their relationship interesting. At first they started using webcam communications but that was short lived because the college cut the bandwidth that was allowed to the students making it almost impossible to webcam one another. They tried almost all of the techniques that are mentioned in this book. There were many different things that was brought up by other people trying to make them break up, but that never worked because Bethany and Josh have a bond stronger than words of others. Now that Bethany is out of college, she and Josh is no longer on a long distance relationship status because they are just a few minutes apart and are looking forward to their future and in the process of planning their wedding. Their long distance relationship helped them both mature and develop the ways that they communicate to the point that they both seem as if they are ten years older than they really are in the case of communication strategies. When things would seem dire within the relationship they would sit down and talk it out either on the internet, phone, or text messaging and get past the situation. Managing a Long Distance Relationship Joy Deborah Adewuyi 2020-12-30 Many people repel long-distance love relationships for several reasons, one of which emanates from the popular cliché 'out of sight is out of mind'. The fears of uncertainties and concerns about the low likelihood of success long-distance relationships are further amplified by tales of heartbreaks or unpleasant experiences shared by couples in long-distance relationships. Although it is advisable that couples guard against long-distance separation in their relationship, the demands of life sometimes present situations where temporal geographical separations become inevitable for couples. Hence, there is a need to help couples overcome setbacks and other challenges associated with long distance, and equip them with pragmatic principles and strategies to grow in love and intimacy while going through such phases. Having personally encountered the highs and lows of long-distance relationship, our goal is to help other long-distance relationship couples to 'stay in mind while they are temporarily out of sight'. This book is directed at helping couples in long-distance relationships to

successfully navigate the hurdles and challenges peculiar to the journey. Many people think that love is all that matters. We thought so too, but realized along the path that although love is important, love is helpless when it lacks the requisite knowledge. Love without knowledge is helpless. Just like a plant obtains its nourishment for survival and sustenance, relationships too need nourishment. Many relationships, which started with promising hopes and great energy, started declining and withering when long-distance sets in. This is a common case of many great friendships that started off on campus, but gradually collapsed after graduation. Our long-distance relationship (LDR) experience has taught us that a good relationship, either long-distance or short, needs some essential elements, of which understanding is also non-negotiable. I usually tease my wife that our courtship qualifies for a certificate degree in Long-Distance Relationship (LDR). First, it was a four-year long courtship (not the longest out there though), and was long-distance for the most part. As you would discover in the course of this book, about 90% of our courtship period was long-distance. My first proposal to Joy was done over a phone call and a follow-up love letter (email actually), and our traditional wedding was done on Skype because we were on different continents when the time was ripe for the wedding. Despite the ups and downs and the emotional hysteresis in our long-distance relationship, we sailed successfully and anchored our ship at the conjugal bliss border on the fourth year of courtship.

Advanced communication capabilities have given us the power to choose where we can have jobs, but sometimes it just so happens that the one you love can not likewise be transplanted from his or her current station. Should that automatically mean the end of your relationship? Of course not. Distance is not only a spatial quantity but also an emotional one, too. You and your lover might be far from each other and have the nearest hearts. It might seem like a cliché, indeed; countless movies and romance fictions have made it so, but true love can withstand all things. If you are in the same situation and you know that you and your partner can make it work though you have no idea how, then this little book is for you. It is for the brave, the committed, the one who knows the difference between something that needs work, and something that needs to end.
