When aliens arrive, they expect a warm welcome... Posey Quinn has always believed there was more to the world than what she can see. So when she arrives in Stargazer with her head full of

conspiracies and high-end hairspray, she isn't entirely surprised to learn that instead of donating eggs for tuition money, she is being asked to make an alien fall in love with her, and become an ambassador for humankind. What she doesn't expect is how irresistible Bond is, and how hard it will be not to lose her own heart to the man who plays her body like a violin. Bond is on Earth to fill one human female with as much pleasure as she can bear, a mission he's finding very agreeable. But he's not here to fall in love. Tasked with using his powers of human seduction to glean what he can about Earth and its inhabitants, Bond knows that if the planet's resources are worthy and its residents aren't, his days of pleasing Posey will soon be at an end. Pegging the President -

Michael Moorcock 2018-03

In the 1960s Jerry Cornelius was the coolest assassin on the Ladbrooke Grove block. By the 1970s The Condition of Muzak had won the Guardian Fiction Prize and The Final Programme was a feature film starring Jon Finch, Jenny Runacre, Hugh Griffith and Sterling Hayden. In the 1980s the world's first cyberpunk continued to inspire a generation of writers including William Gibson, Alan Moore, Neil Gaiman, and bands like the Human League. By the 1990s he was up and running towards the guns again in stories like The Spencer Inheritance , The Camus Referendum and Cheering for the Rockets , which dealt with the icons and key events of the day. At turn of the millennium,

in Firing the Cathedral, he responded to the attacks on America of September 2001 and their consequences, to the realities of global warming and global terrorism. Now, in Peggung the President, Jerry Cornelius is back; the ambiguous, amoral, androgynous English Assassin, cooler, sharper, his fingers still firmly on the pulse of the twenty-first century, counting names and taking heads, showing once again that colonialism and despotism the roots of empire gone sour do not change. The apocalypse has never seemed more terrifying, never been more fun, and modern life will never feel the same to you again -- Provided by the publisher.

JN-T - Richard Marson 2013
Richard Marson's book, JN-T: The Life and Scandalous Times of John Nathan-Turner tells the story of the most controversial figure in the history of Doctor Who. For more than a decade, John Nathan-Turner, or JN-T as he was often known, was in charge of every major artistic and practical decision affecting

the world's longest-running science fiction programme. Richard Marson brings his dramatic, farcical, sometimes scandalous, often moving story to life with the benefit of his own inside knowledge and the fruits of over 100 revealing interviews with key friends and colleagues, those John loved to those from whom he became estranged. The author has also had access to all of Nathan-Turner's surviving archive of paperwork and photos, many of which appear here for the very first time.

She treasures her freedom, but when a fae king desires her, will she see the light? Tabitha spends her days restoring and caring for old things at the local museum. But none are as old, or as intriguing, as the immortal light king who appears on the edge of the Rosethorn Valley forest and turns her measured existence into a madcap adventure. From the village Historical Society to a hippie retreat in the Pocono mountains, Tabitha will go

anywhere to track down the magical artifact that will stop evil fae from destroying her beloved town. But no matter where she goes, she can't seem to escape her growing longing for the heartless King of Light. Tristan has been frozen in time for hundreds of years when he awakens to find that the brother he betrayed has fallen in love with a mortal woman. Tristan is determined not to make the same mistake - even though Tabitha is brave and interesting, and her every smile convinces him she is meant to be his. The King of Light could never take a mortal queen. Especially not one so fiercely independent. When an escaped monster straight out of a fairy tale forces the two to head off on a road trip to track down a source of magic together, the depth of their attraction becomes impossible to ignore. Will Tabitha willingly renounce her single lifestyle and make room for real magic in her life? Or is Tristan destined to be a conduit of happiness forever, and never its recipient? If you like strong

women, hunky fae kings, wild adventures, steamy sensual scenes, and happily-ever-afters, then you'll love the world of Rosethorn Valley Fae!

The Poltergeist Prince of London - James Clark

2013-10-01

It began with a key. One afternoon in 1956, in the home of the Hitchings family in Battersea, south London, a small silver key appeared on Shirley Hitchings' bed. This seemingly insignificant event heralded the beginning of one of the most terrifying, incredible and mysterious hauntings in British history. The spirit, who quickly became known as 'Donald', began to communicate, initially via tapping sounds, but over time - and with the encouragement of psychical researcher Harold Chibbett, whose case-files appear here - by learning to write. Soon, the spirit had begun to make simply incredible claims about his identity, insisting that he was one of the most famous figures in world history - but what was the truth? Here, for the first time, is the full story, told by the woman right at the heart of it all - Shirley herself.

Difference Between God And Larry Ellison*, The *god Doesn't Think He's Larry E -
Mike Wilson 1998-11-04

A recent Forbes listed Ellison as the fifth richest man in the world, and the second richest active player (behind Gates) in the technology world. Oracle Corporation, of which he is founder and CEO, is the fastest-growing software database company in the world, and the darling of technology investors. If you withdraw cash from an ATM, make an airline reservation, hook up your TV to the Internet, then you're using Oracle. All of this makes Ellison the man investors, techies, and people-in-the-know want to know more about. The ultimate self-made man, Ellison began Oracle with a \$1,200 investment and doubled its sales in eleven of its first twelve years. But he's a ruthless businessman who has used misdirection and half-truths to create one of the great high-tech success stories. He is also a daredevil sportsman with a 78-foot yacht, a number of fast jets, and beautiful women on his arm. If Gates is the nerd-King of the Valley, Ellison is its Warren

Beatty. Mike Wilson has interviewed more than a hundred of Ellison's friends and enemies as well as Ellison himself to create an entertaining and provocative portrait of this enigmatic and visionary businessman.

Doctor Who - Russell T. Davies 2008

"A unique look into the BBC's most popular family drama,

Doctor Who- The Writer's Tale is a year in the life of the hit television series, as told by the show's Head Writer and Executive Producer. A candid and in-depth correspondence between Russell T Davies and journalist Benjamin Cook, the book explores in detail Russell's work on Series Four, revealing how he plans the series and works with the show's writers; where he gets his ideas for plot, character and scene; how actors are cast and other creative decisions are made; and how he juggles the demands of Doctor Who with the increasingly successful Torchwood and The Sarah Jane Adventures spin-offs. Russell's scripts are discussed as they develop, and Russell and Ben's wide-ranging discussions bring in experiences from previous series of Doctor Who as well as other shows Russell has written and created, including Queer As Folk, Bob & Rose, and The Second Coming. The reader is given total access to the show as it's created, and the writing is everything you

Cutlass - Ellis Leigh

2016-09-23

These aliens are looking for love in all the wrong solar systems... Cutlass never thought he'd be stuck on some backward planet in a solar system with only one sun. Earth wasn't his home, but he'd find a way to survive there if it meant finding a mate. He could put up with their ancient mechanical devices and a name

that wasn't his own for the right woman. Chloe never imagined she'd sign up to be some sort of modern-day mail order bride. But too much wine and an internet connection were a bad combination, especially when the life she imagined seemed so much greater than the life she was

living. Everyone stretches the truth on those dating websites, right? One ad in a space station, one night of too much drinking, and one hotel room that will never be the same. What would you do if you found out the man from your fantasies was actually the man from your science fiction?
