Aeris, a shapeshifter of the Wild, steals children from unloving homes and raises them as his own in an enchanted grove deep in the Woods. Under the protective eye of their new guardian, the children absorb the forest's magic and grow more fey-like than human: some of them sprout mushrooms or flowers while others develop scales or wings. But the reserve of magic that keeps Aeris and his forest home alive is inexplicably running dry. With his life waning and the dangers of the Wild creeping closer and closer, Aeris will do anything to protect his family, even set his hopes on an unlikely new arrival in the Woods: a human stranger.

To Tame a Wild Heart - Tracy Fobes 2002-05-17
Applauded for her unique ability to blend romance, history, and the wonders of the paranormal into unforgettable novels, Tracy Fobes has taken her flair for the otherworldly to the Scottish Highlands, where a mysterious beauty discovers her true identity. The villagers think her one of the fairy-folk, for she was found wandering the Highlands at the age of four, able to communicate with the creatures of the moors. Now eighteen, Sarah quietly uses her gift to heal wounded animals. But when word of the lovely changeling spreads, her peaceful existence is shattered. Convinced Sarah is his long-lost daughter, the powerful Duke of Argyll offers to bequeath her his estate if she will but take her place in society. Her first duty is to become a lady -- under the tutelage of the duke's erstwhile

heir, the dangerously provocative Earl of Cawdor. Sarah savors the simmering passions the cynical earl arouses in her even as she suspects he is merely using seduction to secure his birthright. In this civilized world where desire and deception are one and the same, how can she ever trust in love?

The Simple Wild - K.A. Tucker 2018-08-07

Tucker. Calla Fletcher was two when her mother took her and fled the Alaskan wild, unable to handle the isolation of the extreme, rural lifestyle, leaving behind Calla's father, Wren Fletcher, in the process. Calla never looked back, and at twenty-six, a busy life in Toronto is all she knows. But when her father reaches out to inform her that his days are numbered, Calla

knows that it's time to make the long trip back to the remote frontier town where she was born. She braves the roaming wildlife, the odd daylight hours, the exorbitant prices, and even the occasional—dear God—outhouse, all for the chance to connect with her father: a man who, despite his many faults, she can't help but care for. While she struggles to adjust to this new subarctic environment, Jonah—the quiet, brooding, and proud Alaskan pilot who keeps her father's charter plane company operational—can't imagine calling anywhere else home. And he's clearly waiting with one hand on the throttle to fly this city girl back to where she belongs, convinced that she's too pampered to handle the wild. Jonah is probably right, but Calla is determined to prove him wrong. As time passes, she unexpectedly finds herself forming a bond with the burly pilot. As his undercurrent of disapproval dwindles, it's replaced by friendship—or perhaps something deeper? But Calla is not in Alaska to stay and Jonah will

never leave. It would be foolish of her to kindle a romance, to take the same path her parents tried—and failed at—years ago. It's a simple truth that turns out to be not so simple after all.

of the E.B. White Read Aloud Award It started the summer of 2002, when the Springfield librarian, Molly McGrew, by mistake drove her bookmobile into the zoo. In this rollicking rhymed story, Molly introduces birds and beasts to this new something called reading. She finds the perfect book for every animal—tall books for giraffes, tiny ones for crickets. “She even found waterproof books for the otter, who never went swimming without Harry Potter.” In no time at all, Molly has them “forsaking their niches, their nests, and their nooks,” going “wild, simply wild, about wonderful books.” Judy Sierra’s funny animal tale coupled with Marc Brown’s lush, fanciful paintings will have the same effect on young Homo sapiens. Altogether, it’s more fun than a barrel of monkeys!
