**Love's Shadow** - Paul A. Bové 2021-01-12

A case for literary critics and other humanists to stop wallowing in their aestheticized helplessness and instead turn to poetry, comedy, and love. Literary criticism is an agent of despair, and its poster child is Walter Benjamin. Critics have spent decades stewing in his melancholy. What if instead we dared to love poetry? To choose comedy over Hamlet's tragedy, romance over Benjamin's suicide on the edge of France, of Europe, of civilization? Paul Bové challenges young lit critters to throw away their shades and let the sun shine in. *Love's Shadow* is his three-step manifesto for a new literary criticism that risks sentimentality and melodrama and eschews self-consciousness. The first step is to choose poetry. There has been since the time of Plato a battle between philosophy and poetry. Philosophy has championed misogyny, while poetry has championed women, like Shakespeare's Rosalind. Philosophy is ever so stringent; try instead the sober cheerfulness of Wallace Stevens. Bové's second step is to choose the essay. He praises Benjamin's great friend and sometime antagonist Theodor Adorno, who gloried in the writing of essays, not dissertations and treatises. The third step is to choose love. If you want a Baroque hero, make it Rembrandt, who brought lovers to life in his paintings. Putting aside passivity and cynicism would amount to a revolution in literary studies. Bové seeks nothing less, and he has a program for achieving it.

**The Louvre** - Alexandra Bonfante-Warren 2000

The Musée du Louvre - that is the museum that inhabits the Louvre Palace - is the world's largest museum, and also one of the world's most exciting places. Its buildings offer a journey through time, while its galleries display works - from over eight centuries - that arouse the full range of human responses, from admiration and wonder to curiosity, lust, even anger and betrayal. The Louvre, complete with photos and historical drawings of the architectural development of the fortress turned-palace-turned-museum and 300 magnificent coloplates of works in the collection, delivers an engaging and informed account of the history

that helped form this spectacular collection. Indeed it is the history of the French nation itself, a story of kings and castles, excess and poverty, empires and revolutions, love and war that gave birth to the Louvre, and the subsequent embracing of modernization coupled with a legitimate respect for the past that is the Grand Louvre today. Dubbed the "museum of the people" in 1848, the Louvre today houses arguably the most comprehensive collection of art and antiquities in the world. Alexandra Bonfante-Warren has chosen some of the most beautiful, awe-inspiring, and thought-provoking examples from each of the museum's seven departments: Egyptian Antiquities, Oriental Antiquities, Greek and Roman Antiquities, Decorative Arts, Sculpture, Paintings, and Drawings. Here are tomb paintings and sarcophagi from the Valley of the Kings, towering mythic sculptures from lost civilizations, devotional altarpieces and architectural embellishments expressing the religious fervor of the Middle Ages, and masterpieces by Giotto, Raphael, Leonardo, Rembrandt, Rubens, Delacroix, David, Vermeer, Ingres, Bosch and scores of others. Turn the pages of this book and tour the halls and galleries of an ancient palace, steeped equally in history and human emotion, where hang some of the greatest artworks ever created. The Louvre is a testament to the enduring power of great art, great minds, and great vision. -- from dust jacket.

Death in the Louvre - Evan Hirst 2017-06-18

(new editor)A lovely morning in the Louvre... What could possibly go wrong? For Ava Sext, a transplanted Londoner who sells books from an outdoor stand that overlooks the Seine River, a visit to the Louvre ends with the murder of an artist who left her a clue to his death before he died. With the help of her fellow bookseller, Henri DeAth, a former notary in a country where notaries are a powerful caste who not only know where the bodies are buried but probably helped bury them, Ava investigates a group of artists and discovers the existence of a mythical painting that someone is willing to kill for and that includes killing her. *Death on the Louvre* is a cozy mystery set in Paris, a city where food, crime and wine make life worth living... along with a few books and Mercury, the cat.

**Museum Vaults: Excerpts from the Journal of an Expert** - Marc-Antoine Mathieu 2013-09-01

The next volume in the striking collection in co-publication with the Louvre museum. An art assessor must evaluate the vast collections of the Louvre in an alternate Kafkaesque world where all is warehoused in an endless ever deepening succession of basement levels. Mathieu, an artist who marries Escher with Kafka, brings stinging irony to the pompousness of art history.

Louvre Is Art - Annie Gunn 2020-04-20

"This book of poetry is for the louver in you." - Annie Gunn "Louvre Is Art" is a collection of thirty-four poems written between the years of 1997 and 2020 about how love is transformative and creative yet many times left up to the interpretation of the beholder. Louvre is French for love or lover and is also the exhibit home of Antonio Canova's classic sculpture Psyche Revived by Cupid's Kiss.

*The Louvre* - James Gardner 2020-05-07

Almost nine million people from all over the world flock to the Louvre in Paris every year to see its incomparable art collection. Yet few, if any, are aware of the remarkable history of that location and of the

buildings themselves, and how they chronicle the history of Paris itself—a fascinating story that historian James Gardner elegantly tells for the first time. Before the Louvre was a museum, it was a palace, and before that a fortress. But much earlier still, it was a place called le Louvre for reasons unknown. People had inhabited that spot for more than 6,000 years before King Philippe Auguste of France constructed a fortress there in 1191 to protect against English soldiers stationed in Normandy. Two centuries later, Charles V converted the fortress to one of his numerous royal palaces. After Louis XIV moved the royal residence to Versailles in 1682, the Louvre inherited the royal art collection, which then included the Mona Lisa, given to Francis by Leonardo da Vinci; just over a century later, during the French Revolution, the National Assembly established the Louvre as a museum to display the nation's treasures. Subsequent leaders of France, from Napoleon to Napoleon III to Francois Mitterand, put their stamp on the museum, expanding it into the extraordinary institution it has become. With expert detail and keen admiration, James Gardner links the Louvre's past to its glorious present, and vibrantly portrays how it has been a witness to French history - through the Napoleonic era, the Commune, two World Wars, to this day - and home to a legendary collection whose diverse origins and back stories create a spectacular narrative that rivals the building's legendary stature.

**Glacial Period** - Nicolas De Crécy 2014-06-01

In this fanciful and richly imaginative story, one of the most original and important young European comic artists imagines a frozen world thousands of years hence in which all human history has been forgotten. A small group of archaeologists come upon the Louvre, buried in age-old snow, and cannot begin to explain all of the artifacts they see. Their interpretations of the wonders before them strike a humorous, absurd, and farcical tone. One of the few books coedited by the Louvre, this graphic novel features stunning illustrations as it presents a unique vision of the great museum.
