About the Expert  
Bethany Wilson is a December 2010 graduate from Berea College in Berea, Kentucky. She obtained her Bachelor of Arts degree in Child Development. During her entire time in college she was engaged, her and her fiancé Josh decided to give a long distance relationship a go. From the beginning of her college career throughout the completion and

still to this day they are together. With nearly three hundred miles between her and Josh they had to get creative in order to keep the relationship alive. When they first began the relationship after Bethany got to college they would talk on the phone for hours each day about a little bit of nothing but that gradually got tiresome. Bethany and Josh had to find new things to keep their relationship interesting. At first they started using webcam communications but that was short lived because the college cut the bandwidth that was allowed to the students making it almost impossible to webcam one another. They tried almost all of the techniques that are mentioned in this book. There were many different things that was brought up by other people trying to make them break up, but that never worked because Bethany and Josh have a bond stronger than words of others. Now that Bethany is out of college, she and Josh is no longer on a long distance relationship status because they are just a few minutes apart and are looking forward to their future and in the process of planning their wedding. Their long distance relationship helped them both mature and develop the ways that the communicate to the point that they both seem as if they are ten years older than they really are in the case of communication strategies. When things would seem dire within the relationship they would sit down and talk it out either on the internet, phone, or text messaging and get past the situation. [Internet and Emotions](#) - Tova Benski 2013-11-07

Nothing seems more far removed from the visceral, bodily experience of emotions than the cold, rational technology of the Internet. But as this collection shows, the internet and emotions intersect in interesting and surprising ways. Internet and Emotions is the fruit of an interdisciplinary collaboration of scholars from the sociology of emotions and communication and media studies. It features theoretical and empirical chapters from international researchers who investigate a wide range of issues concerning the sociology of emotions in the context of new media. The book fills a substantial gap in the social research of digital technology, and examines whether the internet invokes emotional states differently from other media and unmediated situations, how emotions are mobilized and internalized into online practices, and how the social definitions of emotions are changing with the emergence of the internet. It explores a wide range of behaviors and emotions from love to mourning, anger, resentment and sadness. What happens to our emotional life in a mediated, disembodied environment, without the bodily element of physical co-presence to set off emotional exchanges? Are there qualitatively new kinds of emotional exchanges taking place on the internet? These are only some of the questions explored in the chapters of this book, with quite surprising answers.

[How to Handle Long Distance Relationship](#) - Mark Oana 2019-09-14

Can I ask you this LDR's most important question? What cost are you willing to pay just to survive your long-distance relationship and marry the person you wanted even if you are apart for some time? Will an \$8 or \$9 is enough? Back in 2007 when I was still in college in Australia. I have this new girlfriend left in my home town in Canada. It was a battle during the first few days of being apart. I can't even handle it that's why I need to call her every day. I miss the cuddle, the kiss, and all from her during those days. I wanted to go home but I could not as it is so costly to travel. A few months later... It drastically changes. I meet some new friends in school and started to meet new girls. And I started to feel a little bit comfortable being away from her and even started to have some

crushes on other girls at school. Oops, back up back up! I know where this is going... I don't want to hurt my girlfriend back home! So I thought many ways how can I keep the burning love of my girlfriend even if we're thousands of miles apart. I missed her so much and I can't physically be with her... I want to feel her! Then I discover SEXTING! Sexting is a kind of doing dirty talks thru chat messages or texting. I and my girlfriend are doing it every day and it excites me to chat her and message her every single day... Fast forward now (10 years later), this girlfriend of mine is the mother of my 4 kids! We survived the long-distance relationship by doing Sexting. The question you may have in mind now is how to do it? How can I apply it right now if I am on a long-distance relationship? How can I tell my girlfriend or boyfriend to start doing it? All the answers are being laid on this book. I've personally written all the things I and my girlfriend did to survive LDR. And if you purchase it and read it. It can dramatically save you and your distant relationship. So my question: Will an \$8 plus book worth your money? If this book can save you and your relationship more than money? You see. What most people do when they missed their long distant lover is to go to the lover's place and spend money for the travel. But not anymore after reading the book. So grab it NOW!!! NOTE: This may not be only applicable for a long-distance relationship but it may also apply to complicated relationships as well.

**Maintaining Relationships Through Communication** - Daniel J. Canary 2003-01-30

Relational maintenance provides a rallying point for those seeking to discover the behaviors that individuals utilize to sustain their personal relationships. Theoretical models, research programs, and specific studies have examined how people in a variety of close relationships choose to define and maintain those relationships. In addition, relational maintenance turns our attention to communicative processes that help people sustain their close relationships. In this collection, editors Daniel J. Canary and Marianne Dainton focus on the communicative processes critical to the maintenance and enhancement of personal relationships. The volume considers variations in maintaining different types of personal relationships; structural constraints on relationship maintenance; and cultural variations in relational maintenance. Contributions to the volume cover a broad range of relational types, including romantic relationships, family relationships, long-distance relationships, workplace relationships, and Gay and Lesbian relationships, among others. Maintaining Relationships Through Communication: Relational, Contextual, and Cultural Variations synthesizes current research in relationship maintenance, emphasizes the ways that behaviors vary in their maintenance functions across relational contexts, discusses alternative explanations for maintaining relationships, and presents avenues for future research. As such, it is intended for students and scholars studying interpersonal communication and personal relationships.

**Long Distance Love** - HowExpert 2016-09-11

If you want to make your long distance relationship work, then get this step by step guide by someone who has that EXACT experience in real life. As with any relationship, a long distance relationship involves more than just the two people trying to make it in a difficult and strenuous relationship. It involves family, friends and all people who care about us. Because long distance relationships can be especially stressful, I offer a step-by-step guide to negotiating different aspects of the relationship. In my book, I discuss tips and guidelines that will help with each phase of the relationship from meeting to courtship. I interject personal stories and asides regarding my UK to US romance in a way that showcases the human side of the advice that is always easier to offer than to truly apply. Advice includes: • What to consider entering a long distance relationship. • How to find love and decide whether or not a connection is worth fighting for as it is maintained through a long distance relationship. • Establishing the objectives and logistics involved in seeing through an online relationship to a successful outcome. • How to trust and rely on a partner you are not with in the flesh. What to consider before committing to an online relationship and how to tackle feelings of mistrust and insecurity. • Modern courtship and how to negotiate meeting the family and courting a long distance partner in an already difficult situation. • Coping with the distance and loneliness involved in a long distance relationship. • Preparing for the big day and changes that lie after working to be together with a long distance partner at last. As a long distance relationship forms and progresses, there are many obstacles, which require being addressed. My guide describes the stages of the relationship and the stages of planning a long distance relationship must undergo in order to succeed. About the Expert Having been in a long distance relationship more than once, I am all too familiar with the obstacles and concerns of everyone involved. Long distance relationships are something my family had to cope with as being part of a wave of the

future. The ease of communication in the modern age also makes it easier to develop strong emotional attachment to people you can't see. My behavior initially made my family confused when I began expressing myself through online communication and relationships. While I did not expect to find love, let alone fight for it as I did, it was worth it in the end to see it succeed. HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts.

**Long-Distance Relationship Intimacy Hack** - Claire Robin

Love is something so beautiful everyone wishes to experience it, but it is not without challenges in every relationship. Relationships are always filled with ups and downs and in such times, the strength of both love and understanding is tested. Long-distance relationships unlike relationships where the partners get to see each other frequently, is more demanding. It would take double efforts, understanding, trust, and commitment to maintain them. However, there are many people in a long-distance relationship that managed to keep it going regardless of the hurdles. It just needs the effort of both parties and things will go smoothly. If you're the only one striving to make things work, then chances are your relationship will come to an end eventually. Stay in a relationship where both parties are willing to fight for the blooming and thriving of the relationship. As the saying goes, it takes two to tango. There are times when relationships start as short distanced but due to certain life changes such as work transfers, new job offers, or educational purposes, one partner is made to move away from another and serious adjustments will have to be made. Many relationships may even end due to this reason, but there are many equally that do thrive as a result of joint efforts. If you're looking for ways to revive and keep your long-distance relationship blooming, then this book is for you.
