The Belly of the Atlantic - Fatou Diome 2006

"The story of Salie and Madicke highlights the painful situation of those who emigrate. Others who feel this pain include Ndetare, the Marxist schoolteacher and football coach, exiled to Niodior by the government but never accepted by those born there. Then there's the legendary beauty Sankele, his former lover, whose only way out of an arranged marriage ends in tragedy. And poor Moussa, whose dreams look set to come true when he's scouted by a big French football club, but which fall apart when

he doesn't make the team."--BOOK JACKET.

to release a man for sea service. At the peak there was over 5,000 women serving in Britain and overseas, but efforts to maintain the service in peace time were unsuccessful. It was to be 1939, when the Second World War threatened, before the Wrens were reformed. Theirs was a different and altogether more demanding role which involved the carrying out of some highly secret and responsible duties, and many more of them served outside Britain. By 1945 there were over 75,000 officers and ratings and when the War ended, and those who wished were demobilized, a permanent Service was set up, providing a career for women alongside men of the Royal Navy. This is their story, often told in their own words, which mirrors the changing place of women in our society in a century of tremendous social progress. Features a forward by HRH The Princess Royal

City - Douglas W. Rae 2008-10-01

How did neighborhood groceries, parish halls, factories, and even saloons contribute more to

urban vitality than did the fiscal might of postwar urban renewal? With a novelist's eye for telling detail, Douglas Rae depicts the features that contributed most to city life in the early "urbanist" decades of the twentieth century. Rae's subject is New Haven, Connecticut, but the lessons he draws apply to many American cities. *City: Urbanism and Its End* begins with a richly textured portrait of New Haven in the early twentieth century, a period of centralized manufacturing, civic vitality, and mixed-use neighborhoods. As social and economic conditions changed, the city confronted its end of urbanism first during the Depression, and then very aggressively during the mayoral reign of Richard C. Lee (1954-70), when New Haven led the nation in urban renewal spending. But government spending has repeatedly failed to restore urban vitality. Rae argues that strategies for the urban future should focus on nurturing the unplanned civic engagements that make mixed-use city life so appealing and so civilized.

Cities need not reach their old peaks of population, or look like thriving suburbs, to be once again splendid places for human beings to live and work.

Lexapros and Cons - Aaron Karo 2012-04-10
Chuck Taylor's OCD has rendered him a high school outcast. His endless routines and habitual hand washing threaten to scare away both his closest friend and the amazing new girl in town. Sure he happens to share the name of the icon behind the coolest sneakers in the world, but even Chuck knows his bizarre system of wearing different color "Cons" depending on his mood is completely crazy. In this hilariously candid debut novel from comedian Aaron Karo—who grew up with a few obsessions and compulsions of his own—very bad things are going to happen to Chuck. But maybe that's a good thing. Because with graduation looming, Chuck finds himself with one last chance to face his inner demons, defend his best friend, and win over the girl of his dreams. No matter what happens, though,

he'll have to get his hands dirty.

On Escape - Emmanuel Lévinas 2003

First published in 1935, *On Escape* represents Emmanuel Levinas's first attempt to break with the ontological obsession of the Western tradition. In it, Levinas not only affirms the necessity of an escape from being, but also gives a meaning and a direction to it. Beginning with an analysis of need not as lack or some external limit to a self-sufficient being, but as a positive relation to our being, Levinas moves through a series of brilliant phenomenological analyses of such phenomena as pleasure, shame, and nausea in order to show a fundamental insufficiency in the human condition. In his critical introduction and annotation, Jacques Rolland places *On*

Escape in its historical and intellectual context, and also within the context of Levinas's entire oeuvre, explaining Levinas's complicated relation to Heidegger, and underscoring the way Levinas's analysis of "being riveted," of the need for escape, is a meditation on the body.

Organized Crime in Pennsylvania - Darrell J. Steffensmeier 1991

Ancient Rome: The Rise and Fall of an Empire - Simon Baker 2010-09-30

This is the story of the greatest empire the world has ever known. Simon Baker charts the rise and fall of the world's first superpower, focusing on six momentous turning points that shaped Roman history. Welcome to Rome as you've never seen it before - awesome and splendid, gritty and squalid. From the conquest of the Mediterranean beginning in the third century BC to the destruction of the Roman Empire at the hands of barbarian invaders some seven centuries later, we discover the most critical

episodes in Roman history: the spectacular collapse of the 'free' republic, the birth of the age of the 'Caesars', the violent suppression of the strongest rebellion against Roman power, and the bloody civil war that launched Christianity as a world religion. At the heart of this account are the dynamic, complex but flawed characters of some of the most powerful rulers in history: men such as Pompey the Great, Julius Caesar, Augustus, Nero and Constantine. Putting flesh on the bones of these distant, legendary figures, Simon Baker looks beyond the dusty, toga-clad caricatures and explores their real motivations and ambitions, intrigues and rivalries. The superb narrative, full of energy and imagination, is a brilliant distillation of the latest scholarship and a wonderfully evocative account of Ancient Rome.

My Sexuality . . . My Canoe Trip - Steve Natale 2010-07

This is a story of one man's struggle with living a double life, learning through experiences and realizing what is important a relationship with the Lord, family, and friends. It is the story of an uphill struggle filled with tribulations, disillusionments, elations, and bravado. It is written honestly with wit and intelligence. Steve's intent is to break down the Christian "Divides" because of human doctrines. This book is a classic example as to why "not everybody in ministry" should be eager to become teachers (preachers). Steve struggles with the fact divorced people are welcome at church. Homosexually oriented people aren't, so welcome, repentant or not, thus this book.

Biological Flows - Colin G. Caro 2013-12-19
Biomechanics has a distinguished history extending at least to the 16th Century. However the later half of this century has seen an explosion of the field with it being viewed as offering exciting challenges for physical scientists and engineers interested in the life sciences, and wonderful opportunities for life scientists eager to collaborate with physical scientists and engineers and to render their scientific work more fundamental. That the field is now well established and expanding is demonstrated by the formation of a World Committee for Biomechanics and the success and large participation in the 1st and 2nd World Congresses of Biomechanics, held respectively in San Diego in 1990 and in Amsterdam in 1994.

With more than 1350 scientific papers delivered

at the 2nd World Congress, either within symposia or oral or poster sessions, it would have been out of the question to try to produce comprehensive edited proceedings. Moreover, we are confident that most of the papers have been or will be published in one of the excellent journals covering the field. But of effort contributed by the plenary lecturers and the tutorial we thought that the large amount and keynote speakers of various symposia deserved to be recognised in the form of a specific publication, thus also allowing those unable to attend the presentations . . . in the findings. Furthermore, we feel that there is now a need to review aspects of the field.

Task Force Report; Organized Crime - United

States. Task Force on Organized Crime 1967
This volume presents five documents from the President's Commission on Law Enforcement and Administration of Justice: the chapter containing the findings and recommendations relating to the organized crime problems facing the United States and four background papers submitted by outside consultants. The analyses in the Commission report chapter focused on the types and locations of organized crime, the corruption of law enforcement and political systems, the membership and organization of criminal cartels, efforts to control organized crime, and a proposed national strategy against organized crime. Recommendations related to methods of proving criminal violations, investigation and prosecution units, citizens crime commissions, and noncriminal controls such as regulations and media coverage. The four consultants' reports examined the functions and structure of criminal syndicates, corruption
