**Found in Transition** Yiu-Wai Chu 2018-10-16 Presents an updated account of Hong Kong and its culture two decades after its reversion to China. In *Found in Transition*, Yiu-Wai Chu examines the fate of Hong Kong's unique cultural identity in the contexts of both global capitalism and the increasing influence of China. Drawing on recent developments, especially with respect to language, movies, and popular songs as modes of resistance to "Mainlandization" and different forms of censorship, Chu explores the challenges facing Hong Kong twenty years after its reversion to China as a Special Administrative Region. Highlighting locality and hybridity along postcolonial lines of interpretation, he also attempts to imagine the future of Hong Kong by utilizing Hong Kong studies as a method. Chu argues that the study of Hong Kong—the place where the impact of the rise of China is most intensely felt—can shed light on emergent crises in different areas of the world. As such, this book represents a consequential follow-up to the author's *Lost in Transition* and a valuable contribution to international, area, and cultural studies. Yiu-Wai Chu is Professor and Director of the Hong Kong Studies Program at the University of Hong Kong. His books include *Lost in Transition: Hong Kong Culture in the Age of China*, also published by SUNY Press.

**The Poet's Song** Priyanka Basu 2023-08-27 This book explores the 'folk' performance genre of Kobigaan, a dialogic song-theatre form in which performers verse-duel, in contemporary West Bengal in India and Bangladesh. Thought to be a nearly extinct form, the book shows how the genre is still prevalent in the region. The author shows how like many other 'folk' practices in South and South-East Asia, the content and format of this genre has undergone vital changes thus raising

questions of authenticity, patronage and cultural politics. She captures live performances of Kobigaan through ethnographies spread across borders — from village rituals to urban festivals, and from Bengali cinema to television and new media. While understanding Kobigaan from the practitioners' points-of-view, this book also explores the crucial issues of gender, marginalization and representation that is true of any performance genre. Drawing on case studies, it underlines the issues of artistic agency, empowerment, cultural labour and heritage, ritual, authenticity, creative industries, media, gender, and identity politics. Part of the 'South Asian History and Culture' series, this book is a major intervention in South Asian folklore and performance studies. It also expands into the larger disciplines of literature, social and cultural movements in South Asia, ethnomusicology and the politics of performance.

*Film and Television Scores, 1950-1979* Kristopher Spencer 2009-10-27 Hollywood film scores underwent a supersonic transformation from the 1950s through the 1970s. This genre-by-genre overview of film and television soundtrack music covers a period of tremendous artistic and commercial development in the medium. Film and television composers bypassed the classical tradition favored by earlier screen composers to experiment with jazz, rock, funk and avant-garde styles. This bold approach brought a rich variety to film and television productions that often took on a life of its own through records and CDs. From Bernard Herrmann to Ennio Morricone, the composers of the "Silver Age" changed the way movie music was made, used, and heard. The book contains more than 100 promotional film stills and soundtrack cover art images.

**Talkies, Road Movies and Chick Flicks** Wilkins Heidi Wilkins 2016-02-19 The representation of gender in film remains an intensely debated topic, particularly in academic considerations of US mainstream cinema where it is often perceived as perpetuating rigid, binary views of gender, and reinforcing patriarchal, dominant notions of masculinity and femininity. While previous scholarly discussion has focused on visual or narrative portrayals of gender, this book considers the ways that

film sound - music, voice, sound effects and silence - is used to represent gender. Taking a socio-historical approach, Heidi Wilkins investigates a range of popular US genres including screwball comedy, the road movie and chick flicks to explore the ways that film sound can reinforce traditional assumptions about masculinity and femininity, impart ambivalent meanings to them, or even challenge and subvert the notion of gender itself. Case studies include His Girl Friday, Easy Rider and Bridesmaids.

important moments of film history along the way. The book focuses on how the songs were presented in the movies, from early talkies where actors portrayed singers "performing" the songs, to the Golden Age in which characters burst into expressive, integral song--not as a "performance" but as a spontaneous outpouring of feeling. The book looks at song presentation in 1930s classics with Fred Astaire and Ginger Rogers and in 1940s gems with Judy Garland and Gene Kelly. The authors also look at the decline of the genre since 1960, when most original musicals were replaced by film versions of Broadway hits such as *My Fair Lady*.

*The People's Songs* Stuart Maconie 2014 These are the songs that we have listened to, laughed to, loved to and laboured to, as well as downed tools and danced to. Covering the last seven decades, Stuart Maconie looks at the songs that have sound tracked our changing times, and - just sometimes - changed the way we feel. Beginning with Vera Lynn's 'We'll Meet Again', a song that reassured a nation parted from their loved ones by the turmoil of war, and culminating with the manic energy of 'Bonkers', Dizze Rascal's anthem for the push and rush of the 21st century inner city, *The People's*

Songs takes a tour of our island's pop music, and asks what it means to us. This is not a rock critique about the 50 greatest tracks ever recorded. Rather, it is a celebration of songs that tell us something about a changing Britain during the dramatic and kaleidoscopic period from the Second World War to the present day. Here are songs about work, war, class, leisure, race, family, drugs, sex, patriotism and more, recorded in times of prosperity or poverty. This is the music that inspired haircuts and dance crazes, but also protest and social change. The companion to Stuart Maconie's landmark Radio 2 series, The People's Songs shows us the power of 'cheap' pop music, ♦ one of Britain's greatest exports. These are the songs we worked to and partied to, and grown up and grown old to - from 'A Whiter Shade of Pale' to 'Rehab', 'She Loves You' to 'Star Man', 'Dedicated Follower of Fashion' to 'Radio Ga Ga'.

**American History in Song** Diane Holloway 2001 Songwriters dramatically captured the details of how Americans lived, thought and changed in the first half of the twentieth century. This book examines 1033 songs about WWI and WWII wars, presidents, Women's Suffrage, Prohibition, the Great Depression, immigration, minority stereotypes, new modes of transportation, inventions, and the changing roles of men and women. America invited immigrants and went to war to ensure democracy but within its borders, lyrics display intolerant attitudes toward women, blacks, and ethnic groups. Songs covered labor strikes, communism, lynchings, women voting and working, love, sex, airships, radio, telephones, the lure of movies and new movie star role models, drugs, smoking, and the atom bomb. History books cannot match the humor, poignancy, poetry and thrill of lyrics in describing the essence of American life as we moved from a rural white male dominated society toward an urban democracy that finally included women and minorities.

The Life of a Song Volume 1 David Cheal 2017-09-21 Who knew that Paul McCartney originally referred to Yesterday as 'Scrambled Eggs' because he couldn't think of any lyrics for his heart-breaking tune? Or that Patti LaBelle didn't know what 'Voulez-vous couches avec moi ce soir?' actually meant? These and countless other fascinating back stories of some of our best-known and best-loved songs fill this book, a collection of the highly successful weekly The Life of a Song columns that appear in the FT Weekend every Saturday. Each 600-word piece gives a mini-biography of a single song, from its earliest form (often a spiritual, or a jazz number), through the various covers and changes, often morphing from one genre to another, always focusing on the 'biography' of the song itself while including the many famous artists who have performed or

recorded it. The selection covers a wide spectrum of the songs we all know and love - rock, pop, folk, jazz and more. Each piece is pithy, sparkily written, knowledgeable, entertaining, full of anecdotes and surprises. They combine deep musical knowledge with the vivid background of the performers and musicians, and of course the often intriguing social and political background against which the songs were created.

*My Reality* Stan Green 2012-11 Who are we? Where did we come from? Where are we going? In *My Reality*, author Stan Green examines and attempts to answer these three basic questions confronting humanity. Writing from the perspective of a well-read and educated person who has lived through the last half of the twentieth and the beginning of the twenty-first century, Green presents his ideas based on the study of both history and science. *My Reality* tracks the historical events that molded the scientific, political, and religious thinking that has shaped the world. Beginning with the Big Bang, Green traces the development of the universe, life, and history of humanity over thirteen billion, seven hundred million years to provide a snapshot of human existence today. He bases his thoughts on the understanding that reality changes as the knowledge base regarding the state of everything changes, with even the smallest modification resulting in our species or culture being significantly different. As Green examines our understanding of the universe and our place in it, he offers several probable scenarios that could mark our future.

It gives me immense pleasure to welcome all to explore/publish/ comment in/on our journal, The International Journal of Indian Psychology (IJIP). There are a lot of challenges which the growing psychological face in the realms of basic necessities in life. Psychological thoughts can play a very distinct role in bringing about this change. One of the key objectives of research should be its usability and application. This journal attempts to document and spark a debate on the research focused on psychological research and ideas in context of emerging geographies. The sectors could range from psychological education and improvement, mental health, environmental issues and solution, health care and medicine and psychological related areas. The key focus would however be the emerging sectors and research which discusses application and usability in social or health context. We intended to publish case reports, review articles, with main focus on original research articles. Over objective is to reach all the psychological practitioners, who have knowledge and interest but have no time to record the interesting cases, research activities and new innovative procedures which helps us in updating our knowledge and improving our treatment. Finally, I would like to thank RED'SHINE International Publications, Inc for this keepsake, and my editorial team, technical team, authors and well wishers, who are promoting this journals. With these words, I conclude and promise that the standards policies will be maintained. We hope that the research featured here sets up many new milestones. I look forward to make this endeavour very meaningful.
