Religious Responses to Sex Work and Sex Trafficking Lauren McGrow 2022-08-01 This book examines the history, theological beliefs and current contextual practices of faith-based NGOs who work in the area of human trafficking that involves the sex industry. There are hundreds of religious organizations around the globe who minister with human trafficking survivors and sex workers, but what is really happening on the ground and how do theological beliefs support a faith-based response? Many of these groups represent their work as a cosmic battle against evil forces, yet important structural critiques are ignored in the urgency to rescue women and children. Using perspectives from both NGO staff and sex workers, an interdisciplinary panel of contributors examine specific organizations, highlight marginalized voices, and analyze undergirding methodologies. In doing so, the authors provide clear critiques and establish best practice guidelines for faith-based NGOs and future religious leaders, affirming an intersection of justice based upon critical reflection and careful action. This book addresses with nuance an important topic that is often over-simplified. It will, therefore, be of great interest to scholars studying the interaction of religion to sex work and human trafficking, as well as academics of religious studies and theology more generally.

State of inequality: HIV, tuberculosis and malaria 2021-12-08 This report delivers the first systematic analysis of available data to make an authoritative statement on the status of inequality in HIV/AIDS, TB and malaria. Monitoring inequalities in HIV/AIDS, tuberculosis and malaria (in terms of burden, prevention and treatment) helps to pinpoint where there may be gaps and identify population groups that are being left behind, and support countries and international organizations to tailor policies, programmes, and service provision to close these gaps. The objectives of the report are to: assess the latest status and change of inequality in HIV/AIDS, malaria and tuberculosis globally; identify good-performing countries in terms of equity as well as countries that have room for improvement; and investigate the association of inequality with inequality in other health topics, social determinants of health and access to health facilities. This report supports Output 4.1.2 of GPW 13 (GPW 13 impacts and outcomes, global and regional health trends, Sustainable Development Goal indicators, health inequalities and disaggregated data monitored). Similar analysis have been previously conducted and published for other disease topics, including State of inequality: Childhood immunization and State of inequality: Reproductive, maternal, newborn and child health.

The WAD Report for 2022 will build upon the 2022 World AIDS Day theme "Equalize" by sharing new analyses of UNAIDS data that underscore where the inequality gaps are, why they are so crucial, and the practical steps that can be taken to close those gaps.

The Devil in Me Christopher Fowler 2017-01-12 A teacher loses one of her pupils somewhere in the London Underground. A catwalk model reveals the grisly secret of looking good. Slacker friends are forced into action over an accidental murder. A bomb's aftershock is felt fifty years later. Sex toys become instruments of fate. The suburbs are besieged, star scandals are revealed, epic tragedy turns to triumph and a cry for help flares briefly in the night... Black comedy, high farce, dark revelations...they all go to make up Christopher Fowler's mind-blowing collection of immoral tales.

A Moral Defense of Prostitution Rob Lovering 2021-07-09 Is prostitution immoral? In this book, Rob Lovering argues that it is not. Offering a careful and thorough critique of the many—twenty, to be exact—arguments for prostitution's immorality, Lovering leaves no claim unchallenged. Drawing on the relevant literature along with his own creative thinking, Lovering offers a clear and reasoned moral defense of the world's oldest profession. Lovering demonstrates convincingly, on both consequentialist and nonconsequentialist grounds, that there is nothing immoral about prostitution between consenting adults. The legal implications of this view are also brought to bear on the current discourse surrounding this controversial topic.

Sex Tourism in Thailand Ronald Weitzer 2023-11-07 An in-depth portrait of Thailand's billion-dollar sex industry Thailand is known internationally as a popular sex tourism destination. Yet, despite its size and reputation, remarkably little research has focused on the country's sex industry over the past two decades. Based on original ethnographic data and other sources, Sex Tourism in Thailand is an expansive yet nuanced study of diverse sex markets and their moral economies. Ronald Weitzer shows that although some of the central pillars of Thailand's sex industry remain unaltered over the past four decades, in other respects there has been a profound transformation. In the sector oriented toward foreign visitors, the number of sex businesses and independent operators has grown numerically and geographically; customers are increasingly diverse in race and nationality; paid sexual encounters are no longer confined to young Thai women and older white men; transgender women comprise a significant share of the workforce; and technological advances give participants more autonomy than ever before. Sex Tourism in Thailand explores these developments in conjunction with related structural and experiential dimensions in an illuminating account of sexual commerce in Southeast Asia.

Full Surrogacy Now Sophie Lewis 2021-08-31 Where pregnancy is concerned, let every pregnancy be for everyone. Let us overthrow, in short, the "family" The surrogacy industry is estimated to be worth over \$1 billion a year, and many of its surrogates around the world work in terrible conditions—deception, wage-stealing and money skimming are rife; adequate medical care is horrifyingly absent; and informed consent is depressingly rare. In Full Surrogacy Now, Sophie Lewis brings a fresh and unique perspective to the topic. Often, we think of surrogacy as the problem, but, Full Surrogacy Now argues, we need more surrogacy, not less! Rather than looking at surrogacy through a legal lens, Lewis argues that the needs and protection of surrogates should be put front and center. Their relationship to the babies they gestate must be rethought, as part of a move to recognize that reproduction is productive work. Only then can we begin to break down our assumptions that children "belong" to those whose genetics they share. Taking collective responsibility for children would radically transform our notions of kinship, helping us to see that it always takes a village to make a baby.

Downtown Juárez Howard Campbell 2021-11-09 At least 200,000 people have died in Mexico's so-called drug war, and the worst suffering has been in Ciudad Juárez, across the border from El Paso, Texas. How did it get so bad? After three decades studying that question, Howard Campbell doesn't believe there is any one answer. Misguided policies, corruption, criminality, and the borderland economy are all factors. But none

explains how violence in downtown Juárez has become heartbreakingly “normal.” A rigorous yet moving account, Downtown Juárez is informed by the sex workers, addicts, hustlers, bar owners, human smugglers, migrants, and down-and-out workers struggling to survive in an underworld where horrifying abuses have come to seem like the natural way of things. Even as Juárez’s elite northeast section thrives on the profits of multinational corporations, and law-abiding citizens across the city mobilize against crime and official malfeasance, downtown’s cantinas, barrios, and brothels are tyrannized by misery. Campbell’s is a chilling perspective, suggesting that, over time, violent acts feed off each other, losing their connection to any specific cause. Downtown Juárez documents this banality of evil—and confronts it—with the stories of those most affected.

Experiences of the Sex Industry Natasha Mulvihill 2022-07-29 Using unpublished email interviews collected for a Home Office project on the sex industry, this anthology presents the individual stories of sex workers and buyers in England and Wales, in their own words. The author Natasha Mulvihill also re-interviews the participants to reflect on their original interviews, their experience of engaging in research and of managing through the COVID-19 pandemic. Of interest to policymakers and students of criminology, sociology, social policy, law and qualitative methods, the text seeks to navigate through the difficult politics of the sex industry and re-focus our understanding on the lived experiences of those involved.

Me, Not You Alison Phipps 2020-06-16 Phipps argues that the mainstream movement against sexual violence embodies a political whiteness which both reflects its demographics and limits its revolutionary potential.

The Times I Knew I Was Gay Eleanor Crewes 2020-07-16 'It's for everyone. Candid, authentic and utterly charming' Sarah Waters, author of *Tipping the Velvet* 'Funny and super relatable' Alice Oseman, author of *Heartstopper* A tender and funny graphic memoir about identity, love and Willow from Buffy Ellie always knew she was different. Contrary and creative, she wore black, obsessed over Willow in Buffy and somehow never really liked boys. As she grew, so did her fears and a deep sense of unbelonging. From her first communion to her first girlfriend via a swathe of self-denial, awkward encounters and everyday courage, Ellie's journey is told through tender and funny illustrations - a self-portrait sketched out from the heart. *The Times I Knew I Was Gay* reminds us that sexuality is not often determined by falling in love with others, but by coming to terms with oneself; that people must come out not just once but again and again. Full of vitality and love, it will ring true for anyone who took time to discover who they truly are.

Rethinking Feminist Theories for Social Work Practice Christine Cocker 2022-04-24 Feminist social work has clear goals to expose and critically analyse gendered power as a dynamic, historic, and structural concept embedded in our world, and to mobilise and take social action to challenge that power. This is integral to a commitment to the core values of the social work profession, which include a commitment to human rights, social justice and professional integrity. This edited collection brings a range of academic and practitioner scholarship to centre feminist theories, values and knowledge as they apply to social work practice, theory and education. It engages with feminist thinking to re-emphasise and refocus the centrality of gender and its intersections with other axes of identities such as social class, race, disability, sexuality and age, for understanding and analysing social work practice. This collection is a timely reminder of what feminist inquiry has to offer social work to successfully address contemporary challenges and is applicable to practitioners, scholars, educators, students and other key care professionals and policy makers.

The Color Pynk Omise'eke Natasha Tinsley 2022-11-01 2023 John Leo & Dana Heller Award for Best Single Work, Anthology, Multi-Authored, or Edited Book in LGBTQ Studies, Popular and American Culture Association (PACA) / Popular Culture Association (PCA) 2023 Honorable Mention, Harry Shaw and Katrina Hazzard-Donald Award for Outstanding Work in African-American Popular Culture Studies, Popular and American Culture Association (PACA) / Popular Culture Association (PCA) A celebration of the distinctive and politically defiant art of Black queer, cis-, and transfemmes, from the work of Janelle Monáe and Janet Mock to that of Indya Moore and Kelsey Lu. *The Color Pynk* is a passionate exploration of Black femme poetics of survival. Sidelined by liberal feminists and invisible to mainstream civil rights movements, Black femmes spent the Trump years doing what they so often do best: creating politically engaged art, entertainment, and ideas. In the first full-length study of Black queer, cis-, and trans-femininity, Omise'eke Natasha Tinsley argues that this creative work offers a distinctive challenge to power structures that limit how we color, gender, and explore freedom. Tinsley engages 2017–2020 Black femme cultural production that colorfully and provocatively imagines freedom in the stark white face of its impossibility. Looking to the music of Janelle Monáe and Kelsey Lu, Janet Mock's writing for the television show *Pose*, the fashion of Indya Moore and (F)empower, and the films of *Tourmaline* and *Juliana Huxtable*, as well as poetry and novels, *The Color Pynk* conceptualizes Black femme as a set of consciously, continually rescripted cultural and aesthetic practices that disrupts conventional meanings of race, gender, and sexuality. There is an exuberant defiance in queer Black femininity, Tinsley finds—so that Black femmes continue to love themselves wildly in a world that resists their joy.

Future of Jobs IntroBooks Team Times are changing and the labor markets are under immense burden from the collective effects of various megatrends. Technological growth and grander incorporation of economies along with global supply chains have been an advantage for several workers armed with high skills and in growing occupations. However, it is a challenge for workers with low or obsolete skills in diminishing zones of employment. Business models that are digitalized hire workers as self-employed instead of standard employees. People seem to be working and living longer, but they experience many job changes and the peril of skills desuetude. Inequalities in both quality of job and earnings have increased in several countries. The depth and pace of digital transformation will probably be shocking. Industrial robots have already stepped in and artificial intelligence is making its advance too. Globalization and technological change predict the great potential for additional developments in labor market performance. But people should be ready for change. A progression of creative annihilation is probably under way, where some chores are either offshored or given to robots. A better world of for jobs cannot be warranted - a lot will be contingent on devising the right policies and institutes in place.

Understanding Health and Care Among Sex Workers Claire Macon 2023-09-23 This book examines sex worker health and the concept of care among sex workers in Rhode Island using mixed methods research conceived of and led by Ocean State Advocacy (O\$A), a grassroots collective of sex workers in Rhode Island. This book will be of interest to scholars and students within the fields of Sociology, Gender and Sexuality Studies, Labor Studies, Public Health, Social Medicine, Medical Humanities, and Medical Education.

Working Girl Sophia Giovannitti 2023-05-30 Sex and art, we're told, are sacred, two spheres that ought to be kept separate from the ravages of the marketplace. Yet both prop up two incredibly lucrative industries, built on the commodification of creativity and desire, authenticity and intimacy. Our reaction to this should not be moral or political outrage, nor legal regulation or denial, but rather—as Sophia Giovannitti argues here—acceptance, through which we can find a more autonomous way to live. In this searching and provocative work, drawing on cultural and political theory, the contemporary art world, and the author's own experience as a sex worker and artist trying to make a living, Giovannitti argues that if we delve into our anxieties around art and sex, we can instead find new ways to live and spaces, however small, of freedom. When there is nothing left to protect, she argues, everything is possible.

The Professor and the Prostitute Linda Wolfe 2014-08-26 Acclaimed true-crime journalist Linda Wolfe presents the chilling case of a college professor who bludgeoned to death the prostitute he loved—plus eight other true stories that expose the psychological forces that drive seemingly respectable people to commit violent, unexpected crimes A professor at Tufts University School of Medicine, a suburban husband, and father of three, William Douglas secretly frequented Boston's Combat Zone, a world of pimps, pushers, and porn shops. One night in 1982 he met twenty-year-old prostitute and former art student Robin Benedict, with whom he

began a torrid affair that would end in murder. With the revealing psychological insights that made her previous books such riveting character studies, Wolfe depicts the catastrophic results of Douglas's living out his secret love fantasies and the complex police investigation that brought the professor to justice. Among the eight shorter true-crime stories included in this volume is the case of the notorious Marcus twins, Manhattan gynecologists and drug addicts who were found dead together in an Upper East Side apartment. Wolfe also takes readers into the gay and transsexual clubs of 1980s New York for a twisted story of love and murder, and to the Texas suburbs, where a privileged fourteen-year-old boy takes a semiautomatic to his parents one sweltering July morning.

New Directions in Sexual Violence Scholarship Kate Gleeson 2023-05-30 This edited collection brings together leading and emerging scholars in the important field of sexual violence scholarship. The last ten years have witnessed an international reckoning on sexual violence, typified in the mainstream imagination by the #MeToo movement, acknowledgement of the violence of university campus life, and the overdue recognition of the enduring harms of child sexual abuse. While the state has been forced to respond through law and other political processes, at times revealing its agility and at other times its archaic investment in the past, much of the real work responding to sexual violence and abuse has taken place within communities, and in the personal responses of the individuals writing the scripts of their experiences. This volume explores the nuances of these individual experiences and considers how they are shaped and reflected by intersecting axes of power including gender, race, class, age and able-bodied status. It reflects on law and law reform in the area and suggests new modes and frames through which to explain and understand sexual violence and institutional responses to it. Debates within this contested personal and political arena do not map onto longstanding binaries of liberal and radical feminism, nor conservative and progressive politics. This interdisciplinary volume traces that murky terrain and features some of the leading international scholars writing on sexual violence in English today. This book will appeal to scholars and students across the broad disciplines of law and legal studies; criminology; gender studies; political science and sociology.

Messy Ethics in Human Rights Work Shayna Plaut 2023-08-15 Human rights work takes place everywhere, every day, and in every way, but good intentions don't always bring the intended results. *Messy Ethics in Human Rights Work* invites readers to engage in a series of overlapping conversations about the complex messiness of ethics in practice, and the implications for human rights work in academia and beyond. Contributors share their ethical dilemmas. How did they evaluate a situation and ways to resolve it? Where did or didn't they seek guidance? What might they have done differently? This thoughtful work proposes that personal reflection and sometimes uncomfortable discussion are essential components of critical human rights practice.

Israeli Masculinity, Sex Work, and Consumerism Yeela Lahav-Raz 2023-11-07 *Israeli Masculinity, Sex Work, and Consumerism: Heteronormativity and Sexual Repertoires* explores the inner world of Israeli sex work consumers and their use of digital technologies on which intense feelings of social togetherness and belonging create a localized form of homosociality and brotherhood. The first of its kind to offer an in-depth analysis of masculine sexual repertoires in the field of sex consumption, this book uses extensive data and observations of online ethnography among a community of Israeli sex consumers operating online. It elucidates the economics of demand in the field of sexual consumption, and highlights how the rise of the thriving online communities of sex consumers can function as a platform on which power relations between men themselves are publicly displayed and are constantly challenged. *Israeli Masculinity, Sex Work, and Consumerism: Heteronormativity and Sexual Repertoires* will be suitable for researchers in Gender and Sexuality Studies, Sociology, Anthropology and Criminology.

Peach Pig Cecilia Knapp 2022-10-06 'Cecilia Knapp is a great writer. I love her' KAE TEMPEST In her devastatingly powerful debut collection, Cecilia Knapp examines the experience of motherlessness and its lasting impact, as well as the lessons passed between generations of women. These poems explore women's complicated relationship with their bodies, with sex, and with shame as she traverses the violence of romantic love, but also employs humour and mischief, a wry reclaiming of power. We hear stories of a challenging childhood in a seaside town, a girl growing up, getting out and reckoning with the guilt of being 'one of these people now.' The collection also offers a look at Knapp's close relationship with her older brother, his struggles with addiction and, eventually, his death. With tenderness, she remembers him and unpacks the unique grief that comes after a suicide. *Peach Pig* is a candid and unflinching look at loss, an attempt to find a language for it. It grapples with feelings of anxiety, insecurity and displaced anger; but it is also a collection full of dreams, hope and vibrant persistence, a willingness to question and to carry on.

COSMIC ENGINEERING AND ORGASMIC CONTINUUM: New Age Tantra Series -1 Arun 2021-07-26 A BOOK FOR THOSE WHO ARE CURIOUS ABOUT TANTRA, ASTROLOGY, SELF HEALING AND THE DEEP NATURE OF ORGASM. A HANDBOOK FOR THOSE WHO PURSUE TANTRIC REALISATION AND PLANETARY RECREATION AS A MISSION OR A PROFESSION *Cosmic Engineering And Orgasmic Continuum* is the brainchild of Arun Webber, a software engineer and former student of Narayana Gurukulam from Bangalore. Arun is also the Founder of the popular websites: eduladder.com and arunsyoga.in. Born into a family that has passed tantric knowledge down from generation to generation, he compiled this book based on knowledge he gained whilst travelling across India, as well as talking to diverse people across the globe. The book is presented in the form of four dialogues with experts in their fields, namely Betsy B. Murphy, Dr Thomas, Ben Lawson, and Jem Ayres. It concludes with four examples of tantric meditation Techniques. The first dialogue with Dr Thomas, entitled, 'Tantric Enlightenment In World Religions' explores tantric influences on various philosophies, including historical materialism, and suggests Mary Magdalene was the tantric concert of Jesus. The second dialogue, with Betsy B Murphy, 'Beyond Orgasm', is also an open discussion. Betsy is a Hollywood filmmaker, born and raised in the States, who has received much acclaim for her book, "An Autobiography Of Orgasm", which explores (tongue in cheek) how women are treated in the bedroom and why they resort to faking orgasms. Betsy has journeyed throughout India and Africa in search of orgasmic experiences and she shares her insights here into what is beyond orgasm and how one can achieve this. The third discussion is with Ben Lawson, a tantric adult film maker and a feminist sex worker. Ben's work is motivated by his frustration with how modern day adult movies present human beings as preverts in their bedroom practices, often ending with rape on their counterparts. In this chapter, the discussion examines the feminine-oriented worshipping yantra - 'kali yantra' - and what it symbolises and Represents. The book's final discussion is with Jem Ayres - a sex coach based in the UK. Jem describes how she miraculously healed her body of lung cancer using the power of tantra. The final section of the book outlines four tantric meditation techniques that can be used in everyday life for empowerment and healing. Throughout the book, there are beautiful images of philosophers, various meditation techniques and a variety of tantric symbols, such as the biblical interpretations of the seed of life, the flower of life and the three dimensional kali yantra. It aims to offer a subjective, existential meaning to enhance the depth of it's reader's life. While using this book as a guide for your Tantric expedition, always remember. "If you know That, you don't have to seek! If you don't know That,

then you don't know what to seek!! If you think you know That, then you actually don't know That!!!" -Isavasya Upanishad

Spin Doctors Nora Loreto 2021-11-24T00:00:00Z As Canada was in the grips of the worst pandemic in a century, Canadian media struggled to tell the story. Newsrooms, already run on threadbare budgets, struggled to make broader connections that could allow their audience to better understand what was really happening, and why. Politicians and public health officials were mostly given the benefit of the doubt that what they said was true and that they acted in good faith. This book documents each month of the first year of the pandemic and examines the issues that emerged, from racialized workers to residential care to policing. It demonstrates how politicians and uncritical media shaped the popular understanding of these issues and helped to justify the maintenance of a status quo that created the worst ravages of the crisis. Spin Doctors argues alternative ways in which Canadians should understand the big themes of the crisis and create the necessary knowledge to demand large-scale change.

Sex as Work Claire Weinhold 2022-11-22 This book examines the ways that brothels are managed under decriminalisation in New Zealand. New Zealand decriminalised sex work in 2003 with the passage of the Prostitution Reform Act, making it the first country to do so. Decriminalisation situates brothels as 'businesses like any other' and creates a legislative platform for better working conditions for sex workers. Nevertheless, we have limited understanding of how brothels are managed in New Zealand. Drawing on interviews with brothel operators and sex workers, this book explores how the law is understood and implemented, how brothel operators position their businesses, and how they seek legitimacy in a historically stigmatised sector. It also examines the rules and norms by which operators manage their businesses and the possibilities for sex workers to consent to commercial sexual services in the context of neoliberal norms of work and of managers who expect them to be professionalised, responsabilised and productive.

Sex Work, Health, and Human Rights Shira M. Goldenberg 2021-04-28 This open access book provides a comprehensive overview of the health inequities and human rights issues faced by sex workers globally across diverse contexts, and outlines evidence-based strategies and best practices. Sex workers face severe health and social inequities, largely as the result of structural factors including punitive and criminalized legal environments, stigma, and social and economic exclusion and marginalization. Although previous work has largely emphasized an elevated burden and gaps in HIV and sexually transmitted infection (STI) services in sex work, less attention has been paid to the broader health and human rights concerns faced by sex workers. This contributed volume addresses this gap. The chapters feature a variety of perspectives including academic, community, implementing partners, and government to synthesize research evidence as well as lessons learned from local-level experiences across different regions, and are organized under three parts: Burden of health and human rights inequities faced by sex workers globally, including infectious diseases (e.g., HIV, STIs), violence, sexual and reproductive health, and drug use Structural determinants of health and human rights, including legislation, law enforcement, community engagement, intersectoral collaboration, stigma, barriers to health access, im/migration issues, and occupational safety and health Evidence-based services and best practices at various levels ranging from individual and community to policy-level interventions to identify best practices and avenues for future research and interventions Sex Work, Health, and Human Rights is an essential resource for researchers, policy-makers, governments, implementing partners, international organizations and community-based organizations involved in research, policies, or programs related to sex work, public health, social justice, gender-based violence, women's health and harm reduction.

Dr Rangan Chatterjee

Individual and Organizational Vulnerability and Resilience Factors in the COVID-19 Pandemic Barbara Hildegard Juen 2023-10-23 Vulnerability and resilience are concepts that have long been treated as individual and contradicting topics. In recent times, we have seen that vulnerabilities and resilience can go hand in hand and that vulnerabilities cannot be conceptualized only in simple terms because intersectionality must be considered as well as social, organizational, and systemic aspects and processes. One example is that women are more vulnerable (higher values in nearly all stress related measures) in the COVID-19 pandemic.

This finding has to be analyzed from an intersectional perspective, because socio-economic factors, cultural factors, exposure to COVID-19 and the type of occupation (e.g. healthcare sector, frontline workers) play an important role in how vulnerable or resilient women can be in a given society. The large number of studies on COVID-19 vulnerabilities makes it necessary to take a closer look at the resilience factors that often go hand in hand with potential vulnerabilities. As we see in the literature about pandemics in general and COVID-19, there are some individual, organizational and systemic vulnerabilities that can be found in all pandemics. From that we can assume that there will be resilience factors within the same concepts that may buffer vulnerabilities.

Student Sex Work Debbie Jones 2022-09-27 This book provides a contemporary collection of key works that chart new and ongoing terrain on student sex work. It brings together experienced researchers, activists, practitioners, early career researchers and those with lived experience of doing sex work in the university setting from across the globe. The book addresses three core areas: Activism, Ideology and Exclusion; Motivations and Experiences; and University Policy, Practice and Service Delivery. This collection represents significant theoretical, methodological and policy and practice contributions within sex work studies. These new perspectives contribute to our existing knowledge, introduce new directions for scholarship and prompt new and exciting questions about how higher education students' participation in sex work can be researched, understood and responded to in an ethical, non-stigmatising approach. The book will be of interest to students, researchers and service providers and given the interdisciplinary nature of the chapters, the book has a cross-disciplinary appeal.

Women Performers in Bengal and Bangladesh Manujendra Kundu 2023-10-31 Covering nearly 225 years, this volume tries to capture a broad spectrum of the situation of women performers from Gerasim Lebedeff's time (1795), who are considered to be the first performers in modern Bengali theatre, to today's time. The moot question is whether the role of women as performers evolved down the centuries. Whether this question will lead us to their subjugation to their male counterparts, producers, and directors has been explored here to give readers an understanding of when, where, by whom the politics began, and, by tracing the footprints, we have tried to understand if the politics has changed, or remains unchanged, or metamorphosed with regard to the woman's question in the performance discourse. We have explored, in this regard, how her body, mind, and sexuality interacted with and negotiated the phallogocentric hierarchy. The essays included are on (i) Baiji/Tawaif culture in eastern and western Bengal; (ii) prostitute/'fallen' women/ patita, beshya performers; (iii) IPTA and the Naxalbari movement; (iv) group and commercial/professional theatre of Kolkata; (v) women's position in the theatre of Bangladesh; (vi) Cabaret (with an interview with Miss Shefali) (vii) Jatra; (viii) Baul tradition. (ix) Besides, there are chapters on English, Anglo-Indian, Jew, Nachni performers and the illustrious dancer Amala Shankar, and film-music-dance in general.

Sustainable Crowdfunding Adam R. Pope 2023-06-23 This book analyzes the communication and writing strategies necessary to craft and maintain ongoing crowdfunding campaigns to support businesses, nonprofits, artists, and others. It examines campaigns across a range of platforms, including Kickstarter, GoFundMe, IndieGoGo, and Patreon. The book breaks down successful exemplar campaigns that have proven long-term success to show what has worked and why, giving readers a solid foundation to research and create a campaign of their own.
