*Sex, Love and Money in Cambodia* - Heidi Hoefinger  
2013-07-04

Dealing with the complex and discomfiting 'grey' area where sex, love and money collide, this book highlights the general materiality of everyday sex that takes place in all relationships. In doing so, it draws attention to and destigmatizes the transactional elements within many 'normative' partnerships - be they transnational, inter-ethnic or otherwise. Focusing on Cambodia, and on a subculture of young women employed in the tourist bar scene referred to as 'professional girlfriends', the book shows that the resulting transnational relationships between Cambodian women and their foreign partners are complex and multi-layered. It argues that the sex-for-cash prostitution framework is no longer an appropriate model of analysis. Instead, a new vocabulary of 'professional

girlfriends' and 'transactional sex' is used, with which the nuanced complexities of these transnational partnerships are analysed. Interdisciplinary in nature, the book inspires new understandings of gender, power, sex, love, desire, political economy and materiality within everyday relationships around the globe. It is a useful contribution for students and scholars of Anthropology, Sociology, Southeast Asian Studies, Gender and Sexuality Studies, and Cultural Studies.

[Dealing in Desire](#) - Kimberly

Kay Hoang 2015-02-11

"This fascinating ethnography examines one segment of

Vietnam's diverse sex industry. Between 2006 and 2010, author Kimberly Kay Hoang was employed at four exclusive Saigon hostess bars catering to high-end clientele: wealthy Asian businessmen, Western expatriates and tourists, local Vietnamese men, and Viet Kieu (ethnic Vietnamese living abroad). Using participant observation and in-depth interviews with the sex workers, bar owners, managers, and mostly rich clients at all four locations, Hoang argues that Vietnam's high-end sex industry is much more than a byproduct of globalization--it's an integral component of the country's free-market capitalism, including its emergence as a regional economic player. Major business deals in Vietnam often occur within hostess bars, which businessmen use to stage a display of power, forge relationships, and impress clients. Hostesses facilitate these transactions by socializing with clients, as well as fulfilling fantasies of the

flesh and of the culture. The author reveals how recent changes in the political economy have shaped the social structure of sex work in the country, just as actors involved in the sex industry have actively shaped Vietnam's political economy. Multiple constructions of gender are emerging across local, national, and global socio-spaces from the bottom up and the top down"--Provided by publisher.

Human Trafficking in Thailand

- Siroj Sorajjakool 2013-10-15

Few subjects elicit greater moral outrage than human trafficking. Media reports of dehumanizing practices such as slavery, abduction, child prostitution, and torture, along with shocking statistics, form the basis of public knowledge. Those who work closely with victims acknowledge the complexity of the issue, and it is this complexity, rather than loose statistics and conjecture, that deserves our attention. With sensitivity and candor, this book addresses the reality of human trafficking in Thailand, dissecting studies, presenting facts, and dismissing stereotypes. It focuses on the areas of fishing, agriculture, domestic work, sex work, and the trafficking of children, weaving individual

narratives and official studies into the wider history of Thailand's changing economy and labor situation. It also details how the Thai government has addressed the issue, reflects on the roots of human exploitation, and suggests a way forward. This book raises much-needed awareness of commonly held misconceptions and clarifies what we know and what we have yet to discover about the trafficking of persons to and from Thailand. Highlights • Concise and accessible study of the reality of human trafficking in Thailand • Thorough critical analysis of current policies and public discourse on trafficking • Details relevant Thai and international laws • Discusses the relationship between the modern economic system and exploitation • Analyzes the changing face of the Thai labor market and the impact of industrialization on the Thai population

Sex and Sexuality in China -

Elaine Jeffreys 2007-01-24

Elaine Jeffreys explores the issues of sex and sexuality in a

non-Western context by examining debates surrounding the emergence of new sexual behaviours, and the appropriate nature of their regulation, in the People's Republic of China.

Commissioned from Western and mainland Chinese scholars of sex and sexuality in China, the chapters in this volume are marked by a diversity of subject material and theoretical perspectives, but turn on three related concerns. First, the book situates China's changing sexual culture and the nature of its governance in the socio-political history of the PRC. Second, it shows how China's shift to a rule of law has generated conflicting conceptions of citizenship and the associated rights of individuals as sexual citizens. Finally, the book demonstrates that the Chinese state does not operate strictly to repress 'sex'; it also is implicated in the creation of new spaces for sexual entrepreneurship, expertise and consumption. This comprehensive study is a valuable resource for scholars

in the fields of sexuality studies and post-socialist societies and culture, directly appealing to both East Asia and China specialists.

**Selling Sex Overseas** - Ko-lin Chin 2012-09-17

Every year, thousands of Chinese women travel to Asia and the United States in order to engage in commercial sex work. In *Selling Sex Overseas*, Ko-lin Chin and James Finckenauer challenge the current sex trafficking paradigm that considers all sex workers as victims, or sexual slaves, and as unwilling participants in the world of commercial sex. Bringing to life an on-the-ground portrait of this usually hidden world, Chin and Finckenauer provide a detailed look at all of its participants: sex workers, pimps, agents, mommies, escort agency owners, brothel owners, and drivers. Ultimately, they probe the social, economic, and political organization of prostitution and sex trafficking, contradicting many of the 'moral crusaders' of the human trafficking world.

*Red Lights* - Tiantian Zheng  
2009

In China today, sex work cannot be untangled from the phenomenon of rural-urban migration, the entertainment industry, and state power. In *Red Lights*, Tiantian Zheng highlights the urban karaoke bar as the locus at which these three factors intersect and provides a rich account of the lives of karaoke hostesses--a career whose name disguises the sex work and minimizes the surprising influence these women often have as power brokers.
