Popular Appeal - Lesley Hawkes 2013-11-18

Now is an opportune moment to consider the shifts in youth and popular culture that are signalled by texts that are being read and viewed by young people. In a world seemingly compromised by climate change, political and religious upheavals and economic irresponsibility, and at a time of fundamental social change, young people are devouring fictional texts that focus on the edges of identity, the points of transition and rupture, and the assumption of new and hybrid identities. This book draws on a range of international texts to address these issues, and to examine the ways in which key popular genres in the contemporary market for young people are being re-defined and re-positioned in the light of urgent questions about the environment, identity, one's place in the world, and the fragile nature of the world itself. The key questions are: • What are the shifts and changes in youth culture that are identified by the market and by what young people read and view? • How do these texts negotiate the addressing of significant questions relating to the world today? • Why are these texts so popular with young people? • What are the most popular genres in contemporary best-sellers and films? • Do these texts have a global appeal, and, if so, why? These overarching themes and ideas are presented as a collection of inter-related essays exploring a rich variety of forms and styles from graphic novels to urban realism, from fantasy to dystopian writing, from epic narratives to television musicals. The subjects and themes discussed here reveal the quite remarkable diversity of issues that arise in youth fiction and the variety of fictional forms in which they are explored. Once seen as not as important as adult fiction, this book clearly demonstrates that youth fiction (and the popular appeal of this fiction) is complex, durable and far-reaching in its scope.

Voices From the Wreckage: Young Adult Voices in the #MeToo Movement - Kimberly Karshner 2023-04-18

'Voices From the Wreckage: Young Adult Voices in the #MeToo Movement' is an edited collection by Kimberly Greenfield Karshner (Lorain County Community College). This collection focuses on situating young adult voices in the #MeToo movement, and into American culture and identity. Children's and young adult literature is an area of study that has rapidly evolved in the past ten years, bringing previously silenced voices to light. This is especially true for YA LGBTQ+ voices, and also for young narrators who are not only discovering, celebrating, and coming to terms with their identities, but also dealing with assaults on their identities. This collection will build on what writers like Laurie Halse Anderson have begun, first with her groundbreaking book on sexual assault, 'Speak', published in 1999, and more currently, her follow-up book, 'Shout' (2019). These authors continue what Anderson started, exploring texts from the perspectives of YA male and female voices, Native American and international perspectives, and LGBTQ+ character representation. Chapters investigate various literary forms such as graphic novels, memoirs, and novels, and cover topics such as sexual desire, consent, trauma, and survivorship. The literature featured in this volume will assure young people that they can tell their stories and that they will be heard. 'Voices From the Wreckage' will be a valuable tool for anyone who teaches Young Adult Literature, or for those who are avid readers and fans of the genre. The authors in this collection are starting and continuing very important conversations on the topic of sexual abuse and trauma, a conversation necessary for the intended audiences of these books, and for adult readers and teachers who are facilitating the emotions connected to these topics.

The Bite, the Breast and the Blood - Amy Williams Wilson 2018-09-25

Central to every vampire story is the undead's need for human blood, but equally compelling is the human ingestion of vampire blood, which often creates a bond. This blood connection suggests two primal, natural desires: breastfeeding and communion with God through a blood covenant. This analysis of vampire stories explores the benefits of the bonding experiences of breastfeeding and Christian and vampire narratives,

arguing that modern readers and viewers are drawn to this genre because of our innate fascination with the relationship between human and maker.

Seminar paper from the year 2020 in the subject Gender Studies, grade: 2,0, University of Dortmund (Institut für Anglistik und Amerikanistik), course: British Proseminar, language: English, abstract: This paper deals with the competing masculinities in the British Netflix series "Sex Education". Especially the characters Otis Milburn, Adam Groff and Eric Effiong are taken into consideration. Otis is the typical lovable goof, whereas Adam is more likely to fulfill the stereotype of being a "real man", because of his tendency of being violent. It turns out that Adam's aggression is caused by him being insecure. Eric is also especially interesting to look at, since he serves several contrary stereotypes. He is a black, homosexual young male that is raised as a second generation immigrant in a traditionally catholic household and is often confronted with homophobia and racism. Eric turns out to be a modern gentleman. Each character's typical behavior patterns will be described and clarified by examples and interpreted in the context of masculinities.

Learning Difficulties and Sexual Vulnerability - Andrea Hollomotz 2011-08-15

People with learning difficulties are considerably more likely to experience sexual violence than non-disabled people, and for this reason they are often described as 'vulnerable'. However, the use of this label can in fact increase risk. This book argues that by seeing adults with learning difficulties as vulnerable and in need of protection, they are stripped of their autonomy and left with fewer skills that are needed to protect themselves from harm. Their different treatment, such as segregation and over-protection, can in fact increase their 'vulnerability'. The author discusses a range of social processes, such as sex education, self-determination, friendships, sexual relationships and social inclusion, and examines the risk and benefits associated with each. Drawing on the everyday experiences of 29 adults with learning difficulties, the author illustrates how people with learning difficulties can be capable of safeguarding themselves from harm, and makes a range of suggestions for enabling them to become better equipped at managing risk themselves. This book will be essential reading for practitioners working with people with learning difficulties, as well as students and academics in the fields of disability and social work.

This book provides a comprehensive account of the educational experiences of students, parents, and educators—transgender and cisgender—in the context of current debates about the inclusion of transgender people in schools. Reporting on empirical analyses conducted by the authors, the book makes a unique contribution to thinking about gender diversity in schools and advocates for the broadening of educational approaches beyond narrow gender binaries.

Queer in the Choir Room - Michelle Parke 2014-10-14

These new essays examine the many ways that issues of gender and sexuality intersect with other identities and practices—including race, religion, disability, music and education—on the Fox hit program *Glee*. With gender and sexuality concerns at the crux, the authors tackle such specific aspects of the show as the coming out narrative, *Glee* fandom and fan fiction, representation of sex education, and the intersection of Broadway music and queerness. The aim of these essays is to open up a dialogue about *Glee*--which is often dismissed by critics and fans alike--and to reveal how scholars are critically engaging with the show around issues of gender and sexuality.
