

Sex Life Programme

Let's Talk about Sex - Dr Hannah Carton

2020-08-31

'Let's Talk About Sex' is a much-needed resource for providing information to groups and individuals with intellectual disabilities in order that they are aware of the risks and intricacies of sexual health, sexual relationships and all that goes with this. This need may arise during adolescence, following a period away from the community (e.g. hospitalisation, incarceration) or later in life. The manual provides a sexual health education programme that can be used with adolescents and adults with intellectual disabilities. Its detailed guidance and resources can be used to run a group programme delivered as individual stand-alone sessions, in a pick and

mix style, or as a 16-week programme, according to the needs of those attending. It can also be used as a basis for working with individuals on sexual health matters. The programme covers topics including physiology, puberty, personal hygiene, health screening, sexual orientation and gender identity, dignity and respect, sexual education, consent, relationships, and exploitation, delivered in a non-judgemental, informative, supportive approach. Each session incorporates different methods of learning, including facilitator-led discussion, active participation and visual aids to enhance learning and can be adapted to meet the learning needs of participants. Online, printable resources are included to reinforce

learning. Guidance is provided to facilitators on supporting individuals during and after sessions.

Female Sexual Offenders - Theresa A. Gannon
2010-10-28

Featuring a collection of essays by leading experts, *Female Sexual Offenders: Theory, Assessment and Treatment* is the first book to bring together current research, clinical assessment, and treatment techniques of female sexual offenders into one accessible volume. Describes the most recent research data regarding female sexual offenders, covering such issues as female-perpetrated sexual abuse prevalence and juvenile offenders. Includes an assessment of the risk of recidivism, international treatment initiatives, and a discussion on the use of the polygraph with female sexual offenders. Features practitioner-

focused essays which evaluate current assessment strategies, treatment needs, effectiveness, and processes for female sexual offenders

Framing the Sexual Subject - Richard Parker
2023-04-28

This collection brings together the work of writers from a range of disciplines and cultural traditions to explore the social and political dimensions of sexuality and sexual experience. The contributors reconfigure existing notions of gender and sexuality, linking them to deeper understandings of power, resistance, and emancipation around the globe. They map areas that are currently at the cutting edge of social science writing on sexuality, as well as the complex interface between theory and practice. *Framing the Sexual Subject* highlights the extent to which populations and communities that once were the object of scientific scrutiny have increasingly demanded the right to speak on their own behalf, as subjects of their own

Technologies of Sexuality, Identity and Sexual Health - Lenore Manderson 2012-06-25

Technologies of Sexuality, Identity and Sexual Health highlights the complex ways in which sexuality is expressed and enacted through local ideologies, global identities and material cultures, and their influence on people's sexual health and well-being. Its impetus is the renewed interest in technology and the 'social life of things,' including pharmaceuticals, expanded sexual and related surgery, the growing exploitation of markets for sexual and contraceptive products, and the impact of these on sexual and health practices and outcomes. Organised loosely into three parts, the opening chapters concentrate on female contraception, its availability, and the varied cultural significance attached to the ability to control its use, exploring the politics of reproductive health and birth control, and the ties between

technology and power. The middle section turns its attention to men, and the impact of traditional and contemporary concerns about masculinity, and the social and sexual roles of men. The final chapters look at the commonalities across cultural borders and sexual gendered identities - how products and procedures travel, not only through the formal channels of globalisation, but also informally, carried by individuals across cultural and social boundaries through sexual, social and commercial interactions. The volume brings together anthropologists, sociologists and cultural studies scholars, both senior and emerging, from around the globe. Offering an important and topical contribution to the developing global literature on sexuality, sexual identity, culture and health, it is of interest to researchers and advanced students in these areas.

44 Chapters About 4 Men - BB Easton
2019-11-19
One woman's secret journal completely changes

her marriage in this hilarious and biting memoir—the inspiration for the Netflix Original Series SEX/LIFE. School psychologists aren't supposed to write books about sex. Doing so would be considered "unethical" and "a fireable offense." Lucky for you, ethics was never my strong suit. *Sex/Life: 44 Chapters About 4 Men* is a laugh-out-loud funny and brutally honest look at female sexuality, as told through the razor-sharp lens of domesticated bad girl BB Easton. No one and nothing is off limits as BB revisits the ex-boyfriends—a sadistic tattoo artist, a punk rock parolee, and a heavy metal bass player—that led her to finally find true love with a straight-laced, drop-dead-gorgeous . . . accountant. After settling down and starting a family with her perfectly vanilla "husbot," Ken, BB finds herself longing for the reckless passion she had in her youth. She begins to write about these escapades in a secret journal, just for fun, but when Ken starts to act out the words on the pages, BB realizes that she might have stumbled

upon the holy grail of behavior modification techniques. The psychological dance that ensues is nothing short of hilarious as BB wields her journal like a blowtorch, trying to light a fire under her cold, distant partner. Sometimes it works, sometimes it doesn't, but in the end, BB learns that the man she was trying so hard to change was perfect for her all along.

Living With Sex - Julia Reeve 2021-02-02

Do you live like a virgin but long for a different life? Do you feel fearful and anxious just before vaginal penetration? Do you avoid sex, inserting tampons, going for a pap smear because they hurt or you are scared stiff? Are you tired of making up stories about your sex life because your friends don't know the truth? One in ten women worldwide suffer from vaginismus, also called pelvic pain/penetration disorder, and can't enjoy a 'normal' sex life. Dr Julia Reeve is a gynaecologist, psychotherapist and sexologist. Her mission is to help as many women as possible overcome this life-limiting condition,

and her message is simple: 'You can turn to the future with confidence and joy. Your relationships will become stronger and becoming pregnant and giving birth will no longer be a dream but a real possibility'. Dr Julia Reeve has been helping women for over 25 years and has developed a treatment programme that works - fast. In *Living With Sex*, Dr Reeve sheds new insights on vaginismus - many unknown to health professionals, and shares her experience in treating women, as well as her unique, step-by-step process for overcoming the fear and pain of vaginal penetration. Use her treatment programme to open the door to a brand new future - one perhaps you didn't believe possible: a pain-free and fear-free sex life!

weight gain, strengthen bones, slow the aging process and improve well-being. Maggie Spilner created a variety of walking programmes for her readers, including high-intensity, meditation and relaxing walks as well as short yoga routines to help relieve menopause symptoms. Maggie writes about her own experience as well as the experiences of the many women in her walking clubs. She tells readers about the positive experience of walking with friends, taking care of yourself and enjoying this time in a woman's life.

[The Secret Life of Love and Sex](#) - Terence Watts
2014-06-27

Just as a relationship needs love and sex to nurture it, so there are times when lies and secrets are necessary too. Some people seem to be able to get the balance just right without really trying very hard at all, while others never do seem to 'get it'. Yet it's an easy trick to learn and here's your chance, because all these things and lots more are covered in vivid detail: Why

personality matters and how to work it out; Understanding the amazing differences between men and women; How to get off to a good start; How to get back on track when things go wrong; Dealing with sexual difficulties - easily; Handling a break up by taking charge and ending it elegantly. Sharing your life with another is not an easy task - in fact the surprise is not so much that it often doesn't work but that it can be spectacularly successful! From page one onwards, you will begin to gain a stunning insight into how you can find and keep the love you've always wanted. Written by an expert in relationships and human nature, this book can set you on your way to true happiness.

Power, Sex, Suicide - Nick Lane 2018-11
Mitochondria are tiny structures located inside our cells that carry out the essential task of producing energy for the cell. They are found in all complex living things, and in that sense, they are fundamental for driving complex life on the planet. But there is much more to them than

*Downloaded from
legacy.opendemocracy.net on 2023-09-22

that. Mitochondria have their own DNA, with their own small collection of genes, separate from those in the cell nucleus. It is thought that they were once bacteria living independent lives. Their enslavement within the larger cell was a turning point in the evolution of life, enabling the development of complex organisms and, closely related, the origin of two sexes. Unlike the DNA in the nucleus, mitochondrial DNA is passed down exclusively (or almost exclusively) via the female line. That's why it has been used by some researchers to trace human ancestry daughter-to-mother, to 'Mitochondrial Eve'. Mitochondria give us important information about our evolutionary history. And that's not all. Mitochondrial genes mutate much faster than those in the nucleus because of the free radicals produced in their energy-generating role. This high mutation rate lies behind our ageing and certain congenital diseases. The latest research suggests that mitochondria play a key role in degenerative diseases such as cancer, through

their involvement in precipitating cell suicide. Mitochondria, then, are pivotal in power, sex, and suicide. In this fascinating and thought-provoking book, Nick Lane brings together the latest research findings in this exciting field to show how our growing understanding of mitochondria is shedding light on how complex life evolved, why sex arose (why don't we just bud?), and why we age and die. This understanding is of fundamental importance, both in understanding how we and all other complex life came to be, but also in order to be able to control our own illnesses, and delay our degeneration and death. Oxford Landmark Science books are 'must-read' classics of modern science writing which have crystallized big ideas, and shaped the way we think.

Young People, Sex and the Media - D. Buckingham 2003-12-05

Are children today growing up too soon? How do they - and their parents - feel about media portrayals of sex and personal relationships? Are the media a corrupting influence, or a potentially positive and useful resource for young people? Drawing on an extensive research project, which investigated children's interpretations of sexual content in films, TV and print media, this book considers how young people (aged 9-17) use such material to understand their experiences
