Slave - Anna 2018-05-03

****Now watch the BBC drama Doing Money**** 'They took me because I would not be missed' This is the shocking true story of how an ordinary young girl was kidnapped off the street as she walked home and turned into a slave - before fighting for her freedom and finding the courage to help the police in one of the UK's most shocking modern-day slavery trials. Anna was an innocent student when she was kidnapped, beaten and forced into the sex slave industry. Threatened and tormented by her pimps, she was made to sleep with thousands of men. But she would not allow them to break her. On learning that she would be trafficked from Ireland to Dubai, she found the courage to trick her captors and flee. Later, she would also find that same resilience to help the police bring down her abductors in what has now become one of our biggest windows into the worldwide sex trafficking trade. For the first time, the girl at the centre of the storm reveals the heart-breaking truth.

Human Trafficking Around the World - Stephanie Hepburn 2013-06-04

This unprecedented study of sex trafficking, forced labor, organ trafficking, and sex tourism across twenty-four nations highlights the experiences of the victims, perpetrators, and anti-traffickers involved in this brutal trade. Combining statistical data with intimate accounts and interviews, journalist Stephanie Hepburn and justice scholar Rita J. Simon create a dynamic volume sure to educate and spur action. Hepburn and Simon recount the lives of victims during and after their experience with trafficking, and they follow the activities of traffickers before capture and their outcomes after sentencing. Each chapter centers on the trafficking practices and anti-trafficking measures of a single country: Australia, Brazil, Canada, Chile, China, Colombia, France, Germany, India, Iran, Iraq, Israel, Italy, Japan, Mexico, Niger, Poland, Russia, South Africa, Syria, Thailand, the United Arab Emirates, the United Kingdom, and the United States. Examining these nations' laws, Hepburn and Simon reveal gaps in legislation and enforcement and outline the cultural norms and biases, societal assumptions, and conflicting policies that make trafficking scenarios so pervasive and resilient. This study points out those most vulnerable in each nation and the specific cultural, economic, environmental, and geopolitical factors that contribute to each nation's trafficking issues. Furthermore, the study also highlights common phenomena that governments and international anti-traffickers should consider in their fight against this illicit trade.

Life Interrupted - Denise Brennan 2014-02-19

DIVLife Interrupted introduces us to survivors of human trafficking who are struggling to get by and make homes for themselves in the United States. Having spent nearly a decade following the lives of formerly

trafficked men and women, Denise Brennan recounts in close detail their flight from their abusers and their courageous efforts to rebuild their lives. At once scholarly and accessible, her book links these firsthand accounts to global economic inequities and under-regulated and unprotected workplaces that routinely exploit migrant laborers in the United States. Brennan contends that today's punitive immigration policies undermine efforts to fight trafficking. While many believe trafficking happens only in the sex trade, Brennan shows that across low-wage labor sectors—in fields, in factories, and on construction sites—widespread exploitation can lead to and conceal forced labor. *Life Interrupted* is a riveting account of life in and after trafficking and a forceful call for meaningful immigration and labor reform. All royalties from this book will be donated to the nonprofit Survivor Leadership Training Fund administered through the Freedom Network.

Trafficked - Peg Brantley 2017-06-13

Sex trafficking. Not Thailand. Or the Philippines. Or Russia. America. Rich or poor, black or white, girls disappear across this country every day, pulled into the nightmarish world of prostitution and drugs. Mex Anderson is back, tasked with finding three missing girls before it's too late. Three girls. Three girls who could live in your town, your neighborhood, or in your own home. Jayla Imani Thomas is fifteen. A smart kid from a poor part of town who has to fend for herself. Jayla is headed for college and a better life than her mother had. Alexis Emily Halston is seventeen. Money provides everything she wants or needs except functional parents. Alexis has the world by the tail and she knows it. Olivia Emma Campbell is twelve. She's a middle child who dreams of being a veterinarian when she grows up. But right now "Livvy" just wants someone to notice her, maybe even to love her. Caught up in a cruel system fueled by lust and money, all three young women must find the courage within themselves to survive. And Mex must come to terms with his own loss and face his demons head on-or he might not have the strength to save them.

The Politics of Human Trafficking - Siddhartha Sarkar 2020-03-06

Human trafficking is a phenomenon that encompasses more than a perceived threat to the sovereignty and security of states and their citizens. It is the ultimate manifestation of the current social, economic, cultural, and political landscape being so entrenched in discrimination, inequality, exclusion, and exploitation across the globe. Based on theoretical and empirical evidence from a cross-country study, this book unfolds the basic structure of these criminal organizations, the sophisticated methods and technology used, and the interactions and roles played by state and non-state actors. Through a more holistic lens, Siddhartha Sarkar examines the complex network of human trafficking governance—transnational cooperation, legislation, and

enforcement—required to tackle this global problem.

Children are very vulnerable and perfect targets to internet crimes, with that new technology presents complex challenges for law enforcement agencies and victim service providers. This book provides parents with practical advice to combat internet crimes by identifying the types, risk factors and explanations.

Sex Trafficking of Children Online - Beatriz Susana Uitts 2022-07-20

This book argues that forms of online child sexual exploitation equate to slavery-like practices under international law and that States have a responsibility to punish offenders as such, based on a careful review of relevant legal instruments and standards.

The Multi-Facets of Cyber-Sex Trafficking. A Call for Action and Reform from Society - Ericka Rodas 2014-06-13

Master's Thesis from the year 2014 in the subject Law - Public Law / Constitutional Law / Basic Rights, New York University (Center for Global Affairs), course: Graduate Thesis, language: English, abstract: In the year 2014, human trafficking is still prevalent. Traffickers around the world abuse vulnerable individuals and rob them of their freedom to be safe from harm despite the international and national laws that are in place. In particular, sex trafficking, a subset of human trafficking is a form of discrimination in which people in power, typically men, take advantage of the vulnerabilities of women and children— though men are also victims—to exploit them for their services, whether for labor and/or sex. In addition, deception, fraud, force, and coercion are often used to recruit victims (UNODC 2000, Article 3(a)) although that should not be the main factor when investigating and prosecuting these crimes; for children proof of the threat or use of force or coercion is not required. Already a hidden crime due to the difficulty of identifying the traffickers and victims, the advances in internet technology have offered traffickers a new mechanism to escape detection from law enforcement. Internet offers affordability, accessibility, and anonymity -the “Triple-A Engine Effect” (Manning 2006, 133). Shawn Henry, former Executive Assistant Director of the FBI informed the public that the Internet, despite its contribution to knowledge, has many setbacks. “At any given time, there are an estimated 750,000 child predators online — and they all have a key to your house via the Internet” (FBI News Video 2011, Shawn Henry). As a result, it is time for individuals to be more cognizant of the importance of internet safety in order to combat cyber-sex trafficking. In May 2013, the use of the Internet to facilitate sex trafficking came to the fore again with the case in the Philippines in which three girls were rescued from a ring forcing them to perform live sex shows via the Internet for customers. Often the customers-- mostly Americans and Europeans--paid \$56/minute for the girls to perform live sexual acts (web-cam sex) based on the customers’ typed requests transmitted via computers (de Leon 2013). In the case of the three girls, who were eight years old when the abuse started, U.S. agencies, the Philippine National Police and the non-profit Visayan Forum Foundation received tips on one of their frequent customers, Jeffrey Herschell from Washington, Pennsylvania with the help of the victims. This information helped law enforcement arrest and sentence the offender to 12 years in federal prison (Coorlim 2013).

Sex Workers and Their Clients - Jerald L. Mosley 2020-12-15

This book draws on the voices of sex workers and their clients to critically assess the criminalization of prostitution in favour of decriminalization. It does so by contrasting their voices with the claims made by prohibitionists: those advocating the prohibition of prostitution or, at least, the prohibition of the purchase of sexual services, and notes scholarly research that gives context to those accounts and claims. Each chapter is dedicated to a particular issue which is given currency in academic and public debates on sex work. The first part of each chapter reviews the state of research and publicly-aired contentions and the second part compares sex workers' voices with claims from prohibitionists. It highlights the gap between what many sex workers have to say about themselves and what theorizing prohibitionists say about all prostitution. It argues that there is often a striking contrast in attitude, perspective, interpretation and valuation. This books speaks primarily to prohibitionist thinking and sex work stereotyping and, secondarily, to the debate on decriminalization of sex work.

The Essential Abolitionist - 2015-12-31

What is human trafficking? Why are millions enslaved in lives of labor and sex trafficking? How do traffickers control their victims? What are the needs of trafficking victims? John Vanek, nationally recognized authority on the response to human trafficking, along with sixteen expert contributors, answers these and other commonly-asked questions about one of the greatest human rights violations today: human trafficking. The Essential Abolitionist offers context to complex topics, reviews the challenges involved in fighting human trafficking and assisting victims, and examines head-on the myths and misconceptions related to modern slavery. If you are already involved in the response to human trafficking, want to get involved, or simply seek a better understanding of this complex, global issue, The Essential Abolitionist will engage, educate, and inspire.
