Domestic and Regional Environmental Laws and Policies in Africa - Jean-Claude N. Ashukem

2023-11-10

This book explores African domestic and regional responses and approaches to environmental protection and sustainability. Written by African experts, the collection consists of five parts covering the whole of Africa. It provides broad coverage of specific themes, including environmental constitutionalism, climate change, gender and the environment, wildlife trade, environmental justice, and human displacement. The key aims are first, to explore theoretical and empirical studies to interrogate and provide clarity on academic discourse on how and whether environmental human rights approaches and policy implications have effectively enhanced environmental protection and sustainability at

African domestic levels. Second, to investigate and present innovative solutions on how African domestic legal regimes deal with environmental justice, natural resources governance, refugees' environmental rights, and climate-induced displaced persons. Finally, to propose innovative legal and institutionalised solutions to Africa's ecological realities by determining the legal and regulatory gaps on environmental human rights issues on the continent. The collection will be a valuable resource for researchers, academics, and policymakers in human rights law, environmental law, political science, ecology and conservation, environmental management, disaster management, and development studies.

for those needing assistance in locating Texas criminal justice statistics. R. Scott Harnsberger has compiled more than 600 entries describing statistical sources for Texas crime; criminals; law enforcement; courts and sentencing; adult and juvenile corrections; capital punishment and death row; victims of crime; driving/boating under the influence; traffic fatalities; substance abuse and treatment; polls and rankings; and fiscal topics such as appropriations, revenues, expenditures, and federal aid. The sources for these statistics originate primarily, but not exclusively, from federal and State of Texas agencies, boards, bureaus, commissions, and departments. The following types of publications are included: annual, biennial, and biannual reports; reports issued in series; analytic and research reports; statistical compilations; budgets and other fiscal documents; audits, inspections, and investigations; census publications; polls; projections; rankings; surveys; continuously updated online resources;

and datasets. Harnsberger has annotated the entries to provide sufficient detail to enable users to decide whether the listed resources merit further investigation. Additional notes contain URLs and information regarding the scope of the published data; title changes; related publications; and the availability of earlier data, previous editions, online tables, and datasets. This book will prove to be a valuable resource for students, faculty, researchers, government officials, and individuals in the law enforcement, correctional, and judicial professions.
